Hi Michael,

I am not going to be able to submit this as we are not going to submit a copy of our audit or annual budget. We're also not asking for a donation, it is a sponsorship, which I believe falls under different accounting categories as this is more for additional publicity as a supporter of this event in our pre-event and day of marketing/advertising. I am happy though to still include the city's logo on some of our event marketing as an in-kind sponsor for waiving any permit fees that would be required to use the pavilion and boat ramp at Veterans Park for the event.

Thanks!  
Nicole
