**Subject:** RE: Mellaluca Dr. Irrigation Meter

Good Morning Kim,

The impact fee for a 1 inch meter is \$10,740.

Please let me know if I can be of further assistance. Thanks,

AJ

Yes, 50psi should not be a problem for that area. Our system pressure leaving the plant ranges between 62-65psi, and the pressure drop in the system and across the pressure vacuum breaker should not be that significant. Let's go with 1" if it works and the additional valve. Thank you
