Attn: Jessica Bono  
From: John Sammet  
Subject: Concrete Collector Tank  
Job Location: Calypso Cove 6200 Royal Palm Blvd.  
Margate, FL

### **PROPOSAL:**

As per your request to replace the Lap Pool Collector tank, Sammet Pools, Inc. hereby proposes the following:

- Dive existing Lap pool, put (2) 10" inflatable plugs in the main drain lines. Install 2" expandable plug in the existing equalizer line. This will enable us to remove the existing collector tank and build the new concrete tank without having to drain the entire Lap pool.
- Remove the existing 390 gallon fiberglass collector tank for the Lap pool and haul away.
- Excavate approximately 2' around the old collector tank in order to form new tank.
- Compact ground properly to ensure no future settling. Install approx. 6" of 57 rock.
- Form, steel, and pour new concrete collector tank using existing plumbing. New tank will be a minimum of 400 gallons.
- Install water stops over the existing plumbing that penetrates through the new concrete collector tank walls.
- New concrete collector tank will be poured in place over existing plumbing.
- We will thoroughly waterproof the collector tank with Basecrete waterproofing system.
- New collector tank will have new slide valves for gutter and main drain.
- Install new auto fill, new custom top with open grating and lid for access just like we did for City of Tamarac (see attached photo). The new collector tank will be slightly bigger and will come out of the ground approximately 12" above grade.
- This proposal includes the necessary permits for HRS modification and City permits if needed.

**Total Investment: \$ 26,745.00**

Thank you very much for the opportunity to earn your business. For any further assistance, please feel free to contact our me at (954) 232-1915 or fax (954) 530-0801.

**Date**

We are pleased to submit the above package for your consideration.

1. Please complete and return the delivery schedule if attached to this package, it is designed to help coordinate delivery dates that best coincide with your construction and draw schedules.
2. It is your responsibility to provide the required permits, bonds and acceptable electrical connections. Proof of these requirements must be presented to CES on demand.
3. You may incur restocking fees if you choose to return any items included in this package to CES. Restocking fees vary per manufacturer.
4. Any changes to this order must be made in writing to CES.
5. Freight charges are estimates only and the actual freight costs may be different at time of shipping.
6. If capital dollars are not readily available, you may acquire this package through a lease or rent to own arrangement pending lending source approvals.
7. Payment terms are subject to the credit agreement you have on file with CES.

This estimate is valid for 30 days from the above date after which the estimate may be subject to change.

Your signature above is considered your acceptance of this proposal and is subject to all terms and conditions of your credit arrangement with CES.  
THANK YOU!
