III. LHAP Incentive Strategies – These Incentive Strategies are applicable to Broward County and City of Weston only. The City of Margate currently has Incentive Strategies A, C, F and H.

In addition to the required **Incentive Strategy A and Strategy B below**, include all adopted incentives with the policies and procedures used for implementation as provided in Section 420.9076, Florida Statutes:

A. Name of the Strategy: **Expedited Permitting**

Permits as defined in Section 163.3177(6)(f)(3), Florida Statutes, for affordable housing projects are expedited to a greater degree than other projects.

Contractors or developers are required to complete Broward County's uniquely titled and color coded forms. These forms are submitted to the

Broward County Planning and Development Management Division (PDMD) for review and approval. The Planners in PDMD make themselves available to guide these projects through the permitting system and notify the contractors or developers when the permits are approved.

B. Name of the Strategy: **Ongoing Review Process**

A process by which a local government considers, before adoption, policies, procedures, ordinances, regulations, or plan provisions that increase the cost of housing.

Prior to the enactment of any new impact fee Ordinance, Broward County PDMD considers the effect on the cost of housing. For example, the latest School Impact Fee Ordinance provided for a significant increase with respect to multifamily dwelling units. The School Board of Broward County, Florida ("School Board"), establishes the school impact fee rates. However, Broward County is responsible for collecting the school impact fees per the County's School Impact Fee Ordinance. Prior to the enactment of the most recent School Impact Fee Ordinance, PDMD made a recommendation for approval contingent upon the School Board waiving school impact fees at one hundred percent (100%) for units that are certified as very low income. As of July 1, 2015, the School Board waived school impact fees for projects certified as very low income up to \$25,000 for a maximum of total waivers of \$375,000 per school fiscal year.

C. Name of the Strategy: **Modification of Impact Fee Requirements**

Developers submit an application to the County as part of their local tax credit match application. This request is reviewed by the County and the Housing Finance and Community Redevelopment Division certifying their multifamily rental new construction project as an affordable housing project. The County executes the Local Government Verification of Contribution Form. This form is provided to PDMD. PDMD ensures that affordable housing projects that are certified as low or very low income are eligible for waivers of school, park, and transportation impact or concurrency fees as stated in the Broward County Land Development Code.

D. Name of the Strategy: **Bonus Density Flexibility**

The Broward County Land Use Plan (BCLUP) allows for increased density opportunities when constructing affordable housing. The affordable housing units must be restricted to a defined timeframe [currently thirty (30) years for rental or ownership], as well as additional criteria related to the development. The current BCLUP allows for bonuses of up to five (5) market rate dwelling units for each affordable unit. The program is authorized by the County and

implemented by local governments. The County is pursuing an update to the BCLUP which will continue to promote this concept.

E. Name of the Strategy: **Reservation of Infrastructure Capacity**

Due to current infrastructure management in Broward County, no capacity is set aside for affordable housing. However, to date, no affordable housing project has been stopped due to the unavailability of capacity. Any capacity issues are mitigated through the concurrency management systems in Broward County (school and transportation).

F. Name of the Strategy: **Affordable Accessory Residential Units**

PDMD administers Chapter 39, Zoning, of the Broward County Code of Ordinances, which is applicable in the unincorporated areas of Broward County.

The following low minimum floor area requirements per dwelling units are included in the Zoning Code and help promote affordability:

- Efficiency apartment: 400 square feet
- Multiple family housing unit: 600 square feet
- Single-family dwelling unit: 800 square feet (all zoning districts except RS-2)

Commercial and industrial zoning districts allow accessory dwelling units for caretaker and security quarters, subject to the availability and allocation of reserve units.

G. Name of the Strategy: **Reduction of Parking and Setback Requirements**

PDMD administers Chapter 39, Zoning, of the Broward County Code of Ordinances, which is applicable in the unincorporated areas of Broward County.

Nonconforming Uses and Structures: The existing off-street parking facilities shall also be repaired and refurbished and landscaping installed to the maximum extent possible, without reducing the amount of existing parking spaces on-site by more than twenty percent (20%).

H. Name of the Strategy: **Flexible lot configurations, including Zero-Lot-Line**

PDMD administers Chapter 39, Zoning, of the Broward County Code of Ordinances, which is applicable in the unincorporated areas of Broward County.

Planned Development District (PDD): Property owners may apply for a rezoning to a PDD zoning district. The PDD is intended to encourage the implementation of innovative land planning and site design.

Zero lot line configurations are permitted, subject to the submittal, approval, and recordation of a subdivision plat.

I Name of the Strategy: **Modification of Street Requirements**

In accordance with Article IX, Chapter 5, Subsection 5-184(d)(3), of the Broward County Code of Ordinances (the "Land Development Code"),

Applicants for development permits for the construction of very low and/or low income affordable housing, as defined by Division 6, Land Development Code Definitions of this article, may choose the applicable alternative described below, in lieu of installing and completing all improvements, prior to the issuance of a development permit, as required by subsection

5-184(d)(1). These alternatives shall be exempt from the requirement to provide security as required by the "Minimum Construction Standards Applicable To Public Rights-of-Way Under Broward County Jurisdiction" except as provided herein.

a) Applicants for development permits within the unincorporated area will execute a standard improvement phasing agreement, in a form acceptable to Broward County, which specifies that no certificate of occupancy will be issued until all required improvements of the development are installed and completed in accordance with this Article. The agreement will be subject to Subsections 5-184(d)(2)a) through e). The agreement will be executed by all owners and mortgagees, be approved by the County Commission, and be recorded in the Official Records. Security will not be required prior to the installation of required improvements for

development permits within the unincorporated area. The county will require the contractor(s) performing the work to post a security(ies), in a form acceptable to Broward County, to warranty the work for a period of twelve (12) months following completion of the improvement(s) by the contractor(s) and the initial acceptance of the improvements(s) by Broward County. Single family and/or duplex dwelling units proposed to be constructed on existing, platted lots, within the unincorporated area, which do not require replatting, will be exempt from the requirement to enter into the standard improvement phasing agreement and the requirement to post the security. No certificate of occupancy will be issued until all required improvements have been installed and completed in accordance with this Article. The County will be responsible for completing only those improvements stipulated in the standard improvement phasing agreement for which a certificate of occupancy has been issued prior to the installation of required improvements, in the event the developer is deemed by the County to be in default of their required improvements. Broward County will record the necessary document to release the obligations following the completion of the improvements by the contractor and acceptance of the improvement(s) by Broward County.

- b) Security will not be required, by Broward County, prior to the installation of required improvements for development permits within municipalities if applicants execute a standard improvement phasing agreement with Broward County and the applicable municipality, in a form acceptable to Broward County, which specifies that no certificate of occupancy will be issued by the municipality until all required improvements of the development are installed and completed in accordance with this Article. The agreement will be subject to Subsections 5-184(d)(2)a) through e). The agreement will specify that the municipality will be responsible for completing only those

improvements stipulated in the standard improvement phasing agreement for which a certificate of occupancy has been issued prior to the installation of required improvements, in the event the developer is deemed by the County to be in default of their required improvements. The agreement will be executed by the municipality and all owners and mortgagees, be approved by the County Commission, and be recorded in the Official Records. The agreement will constitute a first lien on the property and will be in lieu of the security requirements of subparagraph (d)(2) above. Broward County will record the necessary document to release the lien following the completion of the improvements by the contractor and acceptance of the improvement(s) by Broward County. The county will require the contractor(s) performing the work on functionally classified county jurisdiction roadways to post a security(ies), in a form acceptable to Broward County, to warranty the work for a period of twelve (12) months following completion of the improvement(s) by the contractor(s) and the initial acceptance of the improvements(s) by Broward County.

J. Name of the Strategy: A printed inventory of locally owned public lands Suitable for affordable housing.

The Broward County Real Property Division maintains a database of escheated parcels. This database is updated every Sunday night by the Property Appraiser's Office. The County surpluses the parcels. If escheated parcels are located within a municipality, the County allows the municipality to develop or build on the parcels. If escheated parcels are located within unincorporated Broward County, the Real Property Division notifies the Broward County Housing Finance and Community Redevelopment Division (HF&CRD) to confirm interest in developing affordable housing for resale. If HF&CRD does not express interest, the Real Property Division advertises parcels for sale to the public.

K. Name of the Strategy: Ongoing Review Process

A process by which a local government considers, before adoption, policies, procedures, ordinances, regulations, or plan provisions that increase the cost of housing

Prior to the enactment of any new impact fee Ordinance, PDMD considers the effect on the cost of housing. For example, the latest School Impact Fee Ordinance provided for a significant increase with respect to multi-family dwelling units, and provided for the School Board to waive school impact fees at one hundred percent (100%) for units that are certified as very low income.

The School Board establishes the school impact fee rates. However, Broward County is responsible for collecting the school impact fees pursuant to the County's School Impact Fee Ordinance.

L. Name of the Strategy: **Policies which support development near transportation hubs, major employment centers, and mixed-use developments**

The BCLUP promotes mixed-use development along major transportation and transit corridors, as well as employment centers. Residential development is a required, principal use. The BCLUP has actively pursued working with local governments to identify areas appropriate for this type of development.
