

May 18, 2016

Dear Customer.

In response to your request, this letter is to outline the role of IntuBrite, LLC and establish clarification regarding the manufacturing, distribution and sale of IntuBrite products.

IntuBrite, LLC is the original manufacturer and sole vendor of the IntuBrite HyperVisualization System. The system has multiple relevant patents associated with it, they are as follows; handle (Patent Number US D611,598 / D641,871), laryngoscope blade (Patent Number US D 609,808 S), laryngoscope (Patent Number US D608,889 S/ US 8,257,250 B2, US 8,012,087 B2). Due to the specialized LED lighting system, a 3.7v or 4.5v battery must be purchased to accompany each handle purchased in order for the handle and laryngoscope blade to function properly. For further clarification or additional questions please contact me via email or phone.

Kind Regards,

A handwritten signature in black ink, appearing to read "Todd McKinney".
