Coconut Creek, FL 33066

Dear Ms. Sallarulo,

Thanks to Junior Achievement of South Florida (JA), in the 2022-2023 school year over 73,000 Broward County students participated across all JA programs. JA offers educational programs that provide a solid foundation to youth for which to grow. JA's programs provide youth with opportunities to understand their responsibilities toward becoming the productive, effective, and ethical employees that employers of the future are already demanding. It is often the first step to understanding the business world and their part in it, while increasing the potential completion of their education.

As a City of Margate community stakeholder, I am delighted that these real-life simulations prepare our youth for tomorrow's careers by learning essential skills that will make them more successful as professionals and members of the community. Our fifth graders had an amazing time at the JA experience and benefited greatly from the curriculum. Such useful professional skills include active listening, applying information, brainstorming, collaboration, cooperation, creativity, critical thinking, following directions, problem-solving, and showing responsibility.

Last school year, JA served over 1,400 students in Broward County that reside within the City of Margate. We look forward to continuing our partnership with Junior Achievement of South Florida.

Sincerely,

Thomas J. Schroeder, Principal

Coconut Creek, FL 33066

Dear Ms. Sallarulo,

Much thanks to Junior Achievement of South Florida (JA) for your efforts during the 2022-2023 school year. I love that JA offers educational programs that provide a solid foundation for youth to learn and grow. JA's programs provide students with opportunities to understand their responsibilities toward becoming the productive, effective, and ethical employees that employers of the future are already demanding. Liberty Elementary students were provided a first step to understanding the business world and their part in it, while increasing the potential completion of their education.

I am delighted that these real-life simulations prepare our youth for tomorrow's careers by learning essential skills that will make them more successful as professionals and members of the community. Such useful professional skills include active listening, applying information, brainstorming, collaboration, cooperation, creativity, critical thinking, following directions, problem-solving, and showing responsibility.

We look forward to continuing our partnership with Junior Achievement of South Florida.

Sincerely,

Vicki Flournoy
