To Whom It May Concern:

AGM Electronics is the Sole Source manufacturer for the AGM Products.

Not only is this equipment manufactured in the United States and carries a 7 year factory warranty, but AGM's Signal Conditioning design considerations include:

System Noise and Interference:

Wide dead band to rectify equipment operation causing system "bumps". Time delay to rectify pneumatic or hydraulic reverberation. Response time to rectify ambient noise and erratic sensor signals.

Condensation and Humidity: Circuitry is potted in high vacuum, degassed, chemically inert RTV rubber that precludes chemical and bacterial degeneration causing circuit failure.

Ground Loops: Optical isolation of module I/O/Power to virtually eliminate ground loop problems.

Loss of Signal: Automatic switching in all devices to accommodate lost of live-zero inputs signals.

Frequency Data:

Digital filters for narrow frequency band signals in an electrically noisy environment. Requirements:

The AGM Lab calibrates extremely narrow analog spans with high offsets at no charge. Calibration standards are traceable to the National Institute of Standards and Technology.

If you need further assistance, please let us know.

AGM offers a complete line of monitoring, control, telemetry and interface products; all with the 7-Year warranty.

www.as-h.com

All parts are provided and many exclusively manufactured by Alfa Laval, Inc. the Original Equipment Manufacturer of your equipment. Whereby Alfa Laval purchased Ashbrook Simon-Hartley Operations L.P. and Ashbrook Simon-Hartley is now doing business as Alfa Laval, Alfa Laval from henceforth is the Original Equipment Manufacturer of the Klampress®, Winklepress®, and Aquabelt®. Thus, we are the sole source provider for O.E.M. replacement parts.

Alfa Laval, Inc. continues to develop and bring technology to our industry. Due to the sensitive nature of Alfa Laval, Inc. technology our equipment and most replacement parts are either proprietary or patented, as each is designed specifically for your equipment, the application, and expected use; therefore, others cannot legally manufacture our equipment or offer Alfa Laval, Inc. replacement parts.

Constant investment in research and development, a commitment to quality, and improving our new equipment and our equipment currently in operation around the world, allows Alfa Laval, Inc. to bring the latest developments in technology to our industry and clients. This includes patented or proprietary items such as chicanes, wedge adjustments, cylinders, hydraulic systems, bearing housings, rollers, steering and tension systems, and so on. An illustration of this commitment is our quality assurance program; Alfa Laval, Inc. is the only manufacturer within our specific industry which is certified to ISO 9001 quality standards.

Thank you for requesting this information and the opportunity to fully explain our commitment. If you have any questions, I can be reached 1-800-547-7273 or direct line 281-985-4472.

Sincerely,

Subject: Rockwell Automation Authorized Allen-Bradley Distributors

Dear Sir/Madame:

This is to confirm that Rexel currently is the appointed Allen-Bradley distributor authorized to sell Allen-Bradley Standard Controls, Drives, PLC/MMI and Rockwell Software products, along with related services, in the geographic area in which your facility is located.

As a matter of Company policy, full factory product and sales support is made available only to the local authorized distributor, and it is Rockwell Automation's practice and policy to always promote and recommend the use of that distributor to customers in that geographic area. Rockwell Automation discourages the use of other non-authorized sources, including distributors who may hold an Allen-Bradley appointment in another locale.

Should you have any further questions, please do not hesitate to contact either Rexel/Tyler Redding at 954-389-2253 or our local Rockwell Automation sales office at 813-466-6400.

Respectfully,

Altec Industries, Inc.

November 27, 2023

To Whom it May Concern:

Altec is proud to provide products and services that help crews work SAFER & SMARTER. Altec is committed to bringing you the services and products you need as your sole source provider for Altec OEM parts and accessories. There are no other retailers or dealers currently authorized to distribute ALTEC OEM parts, therefore purchasing Altec parts from another source will void the warranty supported by Altec Industries, Inc. This includes the responsibility for liability should an injury accident occur, due to failure of said Altec part(s).

While other companies may service Altec equipment, only Altec can provide Altec factory-trained service technicians who have access to Altec's proprietary manufacturing and service knowledge, and can provide Altec's service warranty.

For additional assistance with Parts, Tools, & Accessories, Shop Service, or Mobile Service/Technical Support, please call 1-877-GO ALTEC.

ARI-HETRA Sole Source Letter

November 29, 2023

Lisa Pierre
Purchasing Specialist
City of Margate
5790 Margate Blvd.
Margate, FL 33063

Ms. Pierre,

Please be advised that ARI Phoenix, Inc (d/b/a ARI-Hetra) offers ARI-Hetra Mobile Column Lifting Systems and accessories including service, preventative maintenance, safety inspections, and factory authorized replacement parts on ARI-Hetra Mobile Column Lifting Systems. For over 35 years, ARI-Hetra has been the premium Heavy-Duty brand of maintenance equipment and leads in safety, reliability, durability and service.

The ARI-Hetra Mobile Column Lifting Systems are manufactured in the United States of America in Pinckard, AL. These systems have been safety certified by the Automotive Lift Institute (ALI), and by Met Laboratories. While other Mobile Lift Systems use Hydraulic drives, we offer the most advanced Ball-Screw Technology with a certified ARI-Hetra mobile, heavy-duty wheel engaging lift system that will improve the efficiency and safety of automotive maintenance:

- Precision Ball Screw Lifting Mechanism, with a simple mechanical drive
- Ball screw technology has a longer life than ACME thread
- There is no possibility of leaking seals like hydraulics used in other Mobile Lift Systems
- There are over 100 ball bearings sealed with grease fitting to ensure low friction
- Natural and redundant column synchronization
- Precision Height Adjustment (inching)
- Lifetime performance

ARI-Hetra is the Sole Provider for:

- Preventative Maintenance on ARI-Hetra Mobile Column Lift Systems which must be completed by a certified ARI-Hetra technician.
- Factory-Authorized ARI-Hetra replacements parts.

Please contact me with any questions.

Thank you,

Dale

RE: Sole Source Provider Justification for ArmorerLink Firearm Management System

To whom it may concern City of Margate:

With respect to Sole Source Provider (SSP) criteria, ArmorerLink Firearm Management System (ALFMS) meets the requirements of SSP for the following reasons:

- ArmorerLink is the sole developer and sole global provider of ALFMS to local, state, federal and military law enforcement agencies.
- ALFMS solely transfers encrypted marking files to TYKMA/Electrox LASERS.
- ALFMS is a patent pending system (United States Patent and Trademark Office Filing US 63/474,988 Dated 9/30/2022) of innovative approach and methodology.
- ALFMS exclusive and predominant one-of-a-kind capabilities provides superior utility not obtainable from comparable products.

If you have any questions, please contact me directly.

Thank you,

Joe D. Ganete
Chief Executive Officer

Greetings,

May 15, 2024

I am writing this email to certify that AXCELL+ is a one of a kind formulation created by our firm. This formulation cannot be supplied by others because we own the rights.

We have licensed the Lakepointe Environmental Group, of Palm City, Florida, as our exclusive distributor of this technology.

The initial discovery of this application was discovered by the Research Corporation of the University of Hawaii and subsequently patented.

AXCELL+ is a natural non-selective biostimulant for maximum biological activity for the reduction and elimination of fats, oils, greases, odors, and sludge volume reduction. AXCELL+ is not a chemical, bacterial, or enzymatic product. The liquid plant extract increases the existing micro-organisms respiration which accelerates the decomposition of organic matter ten-fold. The product will be entirely compliant and with the intended collection system and secondary treatment plant.

Respectfully submitted,

Mark Reynolds
President
518-812-0000

Re: Sole Manufacturer Letter for Axon Enterprise, Inc.'s Conducted Electrical Weapons, on-Officer Cameras, and Evidence.com Data Management Solutions

Axon Enterprise, Inc. (Axon), is the sole manufacturer for TASER brand energy weapons and Axon brand products. Axon is also the sole distributor of all Axon brand products in the USA and the sole distributor of all TASER brand products in the States of AR, CT, DE, FL, GA, HI, IA, IL, IN, KS, LA, MA, MD, ME, MN, MO, MS, NC, ND, NE, NH, NJ, NY, OK, OR, PA, RI, SC, SD, VA, VI, VT, WI, WV, and the District of Columbia. Axon is also the sole developer and offeror of the Evidence.com data management services.¹

TASER Energy Weapon Descriptions

TASER 10 Energy Weapon

- Multi-shot energy weapon
- Detachable magazine holding 10 TASER 10 Cartridges
- 45-foot (13.7-meter) range
- High-efficiency flashlight
- Green LASER sight
- Central Information Display (CID): Displays mission critical data such as remaining battery energy, burst time, and cartridge status.
- Weapon logs
- TASER Weapons Dock connected to Axon Evidence (Evidence.com) services
- Onboard self-diagnostic and system status monitoring and reporting
- Real-time clock updated when the battery pack is plugged into the TASER Weapons Dock
- Ambidextrous selector switch
- Can be configured by the agency to alert Axon camera systems
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (unless configured by the agency to stop at five seconds). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position.
- Compatible with TASER 10 Cartridges only

TASER 7 Energy Weapon

- Multiple-shot energy weapon
- High-efficiency flashlight
- Close Quarter and Standoff cartridges
- Green LASER and dual red LASERS that adjust for cartridge angle
- Arc switch enables drive-stun with or without a TASER 7 Cartridge installed
- Central Information Display (CID): Displays mission critical data such as remaining battery energy, burst time, and cartridge status.
- Weapon logs
- TASER Weapons Dock connected to Axon Evidence services

¹ Evidence.com is both a division of Axon and a data management product solution offered by Axon. Evidence.com is not a separate corporate entity.

- Onboard self-diagnostic and system status monitoring and reporting
- Real-time clock updated when the battery pack is plugged into the TASER Weapons Dock
- Ambidextrous safety switch
- Can be configured by the agency to alert Axon camera systems
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (unless configured by the agency to stop at five seconds). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position.
- Compatible with TASER 7 Cartridges only

TASER 7 CQ Energy Weapon

- Multiple-shot energy weapon for agencies that deploy energy weapons mostly at close quarters (CQ)
- High-efficiency flashlight
- Close Quarter cartridges
- Arc switch enables drive-stun with or without a TASER 7 Cartridge installed
- Central Information Display (CID): Displays mission critical data such as remaining battery energy, burst time, and cartridge status.
- Weapon logs
- TASER Weapons Dock connected to Axon Evidence services
- Onboard self-diagnostic and system status monitoring and reporting
- Real-time clock updated when the battery pack is plugged into the TASER Weapons Dock
- Ambidextrous safety switch
- Can be configured by the agency to alert Axon camera systems
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (unless configured by the agency to stop at five seconds). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position.
- Compatible with 12-degree TASER 7 Cartridges only

X2 Energy Weapon

- Multiple-shot energy weapon
- High efficiency flashlight
- Static dual LASERs (used for target acquisition)
- ARC switch enables drive-stun with or without a Smart Cartridge installed
- Central Information Display (CID): Displays mission-critical data such as remaining battery energy, burst time, operating mode, and user menu to change settings and view data on a yellow-on-black display
- The Trilogy log system records information from a variety of sensors into three data logs: Event log, Pulse log, and Engineering log. Data can be downloaded using a universal serial bus (USB) data interface module connected to a personal computer (PC). Data may be transferred to Axon Evidence services.
- Real-time clock with back-up battery
- Onboard self-diagnostic and system status monitoring and reporting
- Ambidextrous safety switch
- Capable of audio/video recording with optional TASER CAM HD recorder
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (except when used with an APPM or TASER CAM HD AS). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position.
- Compatible with TASER Smart Cartridges only

X26P Energy Weapon

- High efficiency flashlight
- Red LASER (used for target acquisition)

- Central Information Display (CID): Displays data such as calculated remaining energy, burst time, and notifications
- The Trilogy log system records information from a variety of sensors into three data logs: Event log, Pulse log, and Engineering log. Data can be downloaded using a universal serial bus (USB) data interface module connected to a personal computer (PC). Data may be transferred to Axon Evidence services.
- Real-time clock with back-up battery
- Onboard self-diagnostic and system status monitoring and reporting
- Ambidextrous safety switch
- Capable of audio/video recording with optional TASER CAM HD recorder
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (except when used with an APPM or TASER CAM HD AS). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position.
- Compatible with TASER standard series cartridges

Axon Signal Performance Power Magazine (SPPM)

- Battery pack for the TASER X2 and X26P conducted electrical weapons
- Shifting the safety switch from the down (SAFE) to the up (ARMED) positions sends a signal from the SPPM. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode. Axon Signal technology only works with Axon cameras.

Axon Signal Sidearm Sensor

- Can be installed on common duty holsters
- Drawing a service handgun from the holster sends a signal from the Axon Signal Sidearm sensor. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode.

TASER Brand Energy Weapon Model Numbers

1. Energy Weapons:
 - TASER 10 Models: 100390, 100391
 - TASER 7 Models: 20008, 20009, 20010, and 20011
 - TASER 7 CQ Models 20213, 20214
 - TASER X2 Models: 22002 and 22003
 - TASER X26P Models: 11002 and 11003
2. Optional Extended Warranties for Energy Weapons:
 - TASER 7 – 4-year extended warranty, item number 20040
 - X2 – 4-year extended warranty, item number 22014
 - X26P – 2-year extended warranty, item number 11008
 - X26P – 4-year extended warranty, item number 11004
3. TASER 10 Magazines
 - TASER 10 live duty magazine (black), item number 100393
 - TASER 10 Hook and Loop Training (HALT) magazine (blue), item number 100394
 - TASER 10 live training magazine (purple), item number 100395
 - TASER 10 inert training magazine (red), item number 100396
4. TASER 10 Cartridges (compatible with the TASER 10, required for this energy weapon to function in the probe deployment mode)
 - TASER 10 live cartridge, item number 100399
 - TASER 10 HALT cartridge, item number 10400
 - TASER 10 inert cartridge, item number 100401

-
- 5. TASER 7 Cartridges (compatible with the TASER 7; required for this energy weapon to function in the probe deployment mode)
 - Standoff cartridge, 3.5 degrees, Model 20012
 - Close Quarter cartridge, 12 degrees, Model 20013
- 6. TASER standard cartridges (compatible with the X26P; required for this energy weapon to function in the probe deployment mode):
 - 15-foot Model: 34200
 - 21-foot Model: 44200
 - 21-foot non-conductive Model: 44205
 - 25-foot Model: 44203
 - 35-foot Model: 44206
- 7. TASER Smart Cartridges (compatible with the X2; required for this energy weapon to function in the probe deployment mode):
 - 15-foot Model: 22150
 - 25-foot Model: 22151
 - 25-foot inert simulation Model: 22155
 - 25-foot non-conductive Model: 22157
 - 35-foot Model: 22152
 - Inert Smart Cartridge Model: 22153
- 8. Power Modules for TASER 7 and TASER 10 energy weapons:
 - Tactical battery pack Model 22018
 - Compact battery pack Model 22019
 - Non-Rechargeable battery pack Model 22020
 - Disconnect battery pack Model 20027 (currently only for the TASER 7 energy weapon)
- 9. TASER CAM HD recorder Model: 26810 (full HD video and audio) and TASER CAM HD with AS (automatic shut-down feature) Model: 26820. The TASER CAM HD is compatible with both the X26P and X2 energy weapons.
 - TASER CAM HD replacement battery Model: 26764
 - TASER CAM HD Download Kit Model: 26762
 - TASER CAM HD optional 4-year extended warranty, item number 26763
- 10. TASER Weapons Dock, used with TASER 7 and TASER 10 battery packs:
 - TASER Weapons Dock Core and Multi-bay Module: 74200
 - TASER Weapons Dock Core and Single-bay Module: 74201
 - TASER Weapons Dock Single Bay Dataport: 74208
- 11. Power Modules (Battery Packs) for X26P and X2 energy weapons:
 - Performance Power Magazine (PPM) Model: 22010
 - Tactical Performance Power Magazine (TPPM) Model: 22012
 - Automatic Shut-Down Performance Power Magazine (APPM) Model: 22011
 - eXtended Performance Power Magazine (XPPM) Model: 11010
 - eXtended Automatic Shut-Down Performance Power Magazine (XAPPM) Model: 11015
 - Axon Signal Performance Power Magazine (SPPM) Model: 70116
- 12. TASER Dataport Download Kits:
 - Dataport Download Kit for the X2 and X26P Model: 22013
- 13. TASER Blast Door Repair Kit Model 44019 and TASER Blast Door Replenishment Kit Model 44023
- 14. TASER Simulation Suit II Model 44550

Axon Digital Evidence Solution Description

Axon Body 3 Video Camera (DVR)

- Improved video quality with reduced motion blur and better low-light performance
- Multi-mic audio—four built-in microphones
- Wireless upload option
- Gunshot detection and alerts
- Streaming audio and video capability
- “Find my camera” feature
- Verbal transcription with Axon Records (coming soon)
- End-to-end encryption
- Twelve-hour battery
- Up to 120-second buffering period to record footage before pressing record button

Axon Flex 2 Video Camera

- Video playback on mobile devices in the field via Bluetooth pairing
- Retina Low Light capability sensitive to less than 0.1 lux
- Audio tones to alert user of usage
- Low SD, high SD, low HD, and high HD resolution (customizable by the agency)
- Up to 120-second buffering period to record footage before pressing record button
- Multiple mounting options using magnetic attachment: head, collar, shoulder, helmet, ball cap, car dash, and Oakley sunglass mounts available
- 120-degree diagonal field of view camera lens. 102-degree horizontal field of view, and 55-degree vertical field of view

Axon Flex 2 Controller

- 12+ hours of battery operation per shift (even in recording mode)
- LED lights to show current battery level and operating mode
- Haptic notification available
- Tactical beveled button design for use in pocket
- Compatible with Axon Signal technology

Axon Body 2 Video Camera

- Video playback on mobile devices in the field via Bluetooth pairing
- Retina Low Light capability sensitive to less than 1 lux
- Audio tones and haptic (vibration) notification to alert user of usage
- Audio mute during event option
- Wi-Fi capability
- High, medium, and low quality recording available (customizable by the agency)
- Up to two-minute buffering period to record footage before pressing record button
- Multiple mounting options using holster attachment: shirt, vest, belt, and dash mounts available
- 12+ hours of battery operation per shift (even in recording mode)
- LED lights to show current battery level and operating mode
- 143-degree lens
- Includes Axon Signal technology

Axon Fleet 2 Camera

- High-definition video system with wide field of view, zoom, infrared for the back seat and wireless microphone integration
- Intuitive mobile data terminal app, Axon View XL, for quick tagging, uploads and more on the fly
- Ability to efficiently categorize, play back and share all video alongside other digital files on [Axon Evidence](#)
- Multi-cam playback, for reviewing up to four videos, including body-worn and in-car footage, at the same time

- Best-in-class install times and quick remote troubleshooting
- Fully integrated with Axon Evidence services and Axon devices
- Automatic time synchronization with other Axon Fleet and Axon on-officer cameras allows for multi-camera playback on Axon Evidence.
- Immediate upload to Axon Evidence of critical event videos via 4G/LTE
- Wireless alerts from the TASER energy weapon Signal Performance Power Magazine (SPPM).
- Automatic transition from BUFFERING to EVENT mode in an emergency vehicle equipped with the Axon Signal Unit

Axon Fleet Camera

- In-car camera with the technological advantages of the Axon Body 2 camera
- Flexible mount that enables pointing the camera in multiple directions
- Automatic transition from buffering to event mode in an emergency vehicle equipped with the Axon Signal Unit

Axon Signal Unit (ASU)

- Communications device that can be installed in emergency vehicles.
- With emergency vehicle light bar activation, or other activation triggers, the Axon Signal Unit sends a signal. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode.

Axon Interview Solution

- High-definition cameras and microphones for interview rooms
- Covert or overt camera installations
- Touch-screen user interface
- Motion-based activation
- Up to 7-minute pre- and post-event buffering period
- Full hardware and software integration
- Upload to Axon Evidence services
- Interview room files can be managed under the same case umbrella as files from Axon on-officer cameras and Axon Fleet cameras; i.e., Axon video of an arrest and interview room video are managed as part of the same case in Axon Evidence
- Dual integration of on-officer camera and interview room camera with Axon Evidence digital evidence solution

Axon Signal Technology

- Sends a broadcast of status that compatible devices recognize when certain status changes are detected.
- Only compatible with TASER and Axon products

Axon Dock

- Automated docking station uploads to Axon Evidence services through Internet connection
- No computer necessary for secure upload to Axon Evidence
- Charges and uploads simultaneously
- The Axon Dock is tested and certified by TUV Rheinland to be in compliance with UL 60950-1: 2007 R10.14 and CAN/ CSA-C22.2 NO.60950-I-07+A1:2011+A2:2014 Information Technology Equipment safety standards.

Axon Evidence Data Management System

- Software as a Service (SaaS) delivery model that allows agencies to manage and share digital evidence without local storage infrastructure or software needed
- SaaS model reduces security and administration by local IT staff: no local installation required
- Automatic, timely security upgrades and enhancements deployed to application without the need for any local IT staff involvement
- Securely share digital evidence with other agencies or prosecutors without creating copies or

- requiring the data to leave your agency's domain of control
- Controlled access to evidence based on pre-defined roles and permissions and pre-defined individuals
- Password authentication includes customizable security parameters: customizable password complexity, IP-based access restrictions, and multi-factor authentication support
- Automated category-based evidence retention policies assists with efficient database management
- Ability to recover deleted evidence within 7 days of deletion
- Stores and supports all major digital file types: .mpeg, .doc, .pdf, .jpeg, etc.
- Requires NO proprietary file formats
- Ability to upload files directly from the computer to Axon Evidence via an Internet browser
- Data Security: Robust Transport Layer Security (TLS) implementation for data in transit and 256-bit AES encryption for data in storage
- Security Testing: Independent security firms perform in-depth security and penetration testing
- Reliability: Fault- and disaster-tolerant infrastructure in at least four redundant data centers in both the East and West regions of the United States
- Chain-of-Custody: Audit logs automatically track all system and user activity. These logs cannot be edited or deleted, even by account administrators and IT staff
- Protection: With no on-site application, critical evidence stored in Axon Evidence is protected from local malware that may penetrate agency infrastructure
- Stability: Axon Enterprise is a publicly traded company with stable finances and funding, reducing concerns of loss of application support or commercial viability
- Application and data protected by a CJIS and ISO 27001 compliant information security program
- Dedicated information security department that protects Axon Evidence and data with security monitoring, centralized event log analysis and correlation, advanced threat and intrusion protection, and incident response capabilities
- Redact videos easily within the system, create tags, markers and clips, search seven fields in addition to five category-based fields, create cases for multiple evidence files

Axon Evidence for Prosecutors

- All the benefits of the standard Axon Evidence services
- Ability to share information during the discovery process
- Standard licenses available for free to prosecutors working with agencies already using Axon Evidence services
- Unlimited storage for data collected by Axon cameras and Axon Capture

Axon Capture Application

- Free app for IOS and Android mobile devices
- Allows users to capture videos, audio recordings, and photos and upload these files to their Axon Evidence account from the field
- Allows adding metadata to these files, such as: Category, Title, Case ID, and GPS data

Axon Commander Services

- On-premises data management platform
- Chain of custody reports with extensive audit trail
- Automated workflows, access control, storage, and retention
- Compatible with multiple file formats

Axon View Application

- Free app for IOS and Android mobile devices
- Allows user to view the camera feed from a paired Axon Body, Axon Body 2, Axon Flex, or Axon Flex 2 camera in real-time
- Allows for playback of videos stored on a paired Axon Body Axon Body 2, Axon Flex, or Axon Flex 2 system
- Allows adding meta-data to videos, such as: Category, Title, Case ID, and GPS data

Axon Professional Services

- Dedicated implementation team
- Project management and deployment best practices aid
- Training and train-the-trainer sessions
- Integration services with other systems

Axon Customer Support

- Online and email-based support available 24/7
- Human phone-based support available Monday–Friday 7:00 AM–5:00 PM MST; support is located in Scottsdale, AZ, USA
- Library of webinars available 24/7
- Remote-location troubleshooting

 - MOLLE Mount, Double, Axon RapidLock Model: 11508
 - Belt Clip Mount, Axon RapidLock Model: 11509
9. Axon Fleet 3 Camera
 - High-definition Dual-View Camera with panoramic field of view, 12x zoom, and AI processing for automatic license plate reader (ALPR)
 - High-definition Interior Camera with infrared illumination for back seat view in complete darkness
 - Wireless Mic and Charging Base for capturing audio when outside of vehicle
 - Fleet Hub with connectivity, global navigation satellite system (GNSS), secure solid-state storage, and Signal inputs
 - Automatic transition from Buffering to Event mode with configurable Signals
 - Video Recall records last 24 hours of each camera in case camera not activated for an event
 - Intuitive mobile data terminal app, Axon Dashboard, for controlling system, reviewing video, quick tagging, and more
 - Ability to efficiently categorize, play back and share all video and audio alongside other digital files on Axon Evidence
 - Multi-cam playback, for reviewing up to four videos, including body-worn and in-car footage, at the

same time

- Fully integrated with Axon Evidence services and Axon devices
- Automatic time synchronization with all Axon Fleet and other Axon on-officer cameras allows for multi-camera playback on Axon Evidence.
- Prioritized upload to Axon Evidence of critical event videos via 4G/LTE
- Wireless alerts from the TASER energy weapon Signal Performance Power Magazine (SPPM) and Signal Side Arm (SSA).
- Best-in-class install times, wireless updates and quick remote troubleshooting
- Optional Axon Aware live stream, alerts, and location updates for situational awareness
- Optional Axon ALPR hotlist alerts, plate read retention, and investigative search

10. Axon Fleet 2 Camera

- High-definition video system with wide field of view, zoom, infrared for the back seat and wireless microphone integration
- Intuitive mobile data terminal app, Axon View XL, for quick tagging, uploads and more on the fly
- Ability to efficiently categorize, play back and share all video alongside other digital files on [Axon Evidence](#)
- Multi-cam playback, for reviewing up to four videos, including body-worn and in-car footage, at the same time
- Best-in-class install times and quick remote troubleshooting
- Fully integrated with Axon Evidence services and Axon devices
- Automatic time synchronization with other Axon Fleet and Axon on-officer cameras allows for multi-camera playback on Axon Evidence.
- Immediate upload to Axon Evidence of critical event videos via 4G/LTE
- Wireless alerts from the TASER energy weapon Signal Performance Power Magazine (SPPM).
- Automatic transition from BUFFERING to EVENT mode in an emergency vehicle equipped with the Axon Signal Unit

11. Axon Fleet Camera

- Axon Fleet 2 Front Camera: 71079
- Axon Fleet 2 Front Camera Mount: 71080

12. Axon Signal Unit Model: 70112

13. Axon Dock Models:

- Axon Dock – Individual Bay and Core for Axon Flex 2 Model: 11536
- Axon Dock – 6-Bay and Core for Axon Flex 2 Model: 11537
- Individual Bay for Axon Flex 2 Model: 11538
- Core (compatible with all Individual Bays and 6-Bays) Model: 70027
- Wall Mount Bracket Assembly for Axon Dock: 70033
- Axon Dock – Individual Bay and Core for Axon Body 2 and Axon Fleet Model 74009
- Axon Dock – 6-Bay and Core for Axon Body 2 and Axon Fleet Model 74008
- Individual Bay for Axon Body 2 and Axon Fleet Model: 74011
- Axon Dock – 1-Bay for Axon Body 3 Model: 71104
- Axon Dock – 8-Bay for Axon Body 3 Model: 74210

TASER Product Packages

1. **Officer Safety Plan:** Includes an X2 or X26P energy weapon, Axon camera and Dock upgrade, and Evidence.com license and storage. See your Sales Representative for further details and Model numbers.
2. **Officer Safety Plan 7:** Includes a TASER 7 energy weapon, Axon Body 3 camera, Axon Dock, Axon Camera and Dock upgrade, Axon Evidence (Evidence.com) licenses and storage, Axon Respond, and Axon Records Core.
3. **Officer Safety Plan 7 Plus:** Includes a TASER 7 energy weapon, Axon Body 3 camera, Axon Evidence (Evidence.com) licenses and storage, Axon Records Core, Axon Respond +, Axon Auto-Tagging Services, Axon Performance, Axon Citizen for Communities, Axon Redaction Assistant, and Axon Signal Sidearm.
4. **Officer Safety Plan 7 Plus Premium:** Includes a TASER 7 energy weapon, Axon Body 3 camera, Axon Evidence (Evidence.com) licenses and storage, Axon Records Core, Axon Respond +, Axon Auto-Tagging Services, Axon Performance, Axon Citizen for Communities, Axon Redaction Assistant, Axon Signal Sidearm, Axon Auto-Transcribe, Axon VR Training, and unlimited first-party and unlimited third-party storage.
5. **TASER 7 Basic:** Pays for TASER 7 program in installments over 5 years including access to Axon Evidence services for energy weapon program management.
6. **TASER 7 Certification:** Pays for TASER 7 program in installments over 5 years including access to Axon Evidence for energy weapon program management, annual training cartridges, unlimited duty cartridges and online training content.
7. **TASER Certification Add-On:** Allows the agency to pay an annual fee to receive an annual allotment of training cartridges, unlimited duty cartridges and online training content.
8. **TASER 7 Certification with Virtual Reality (VR):** Pays for the TASER 7 program in installments over 5 years including access to Evidence.com for energy weapon program management, annual training cartridges, unlimited duty cartridges, online training content, and VR training.
9. **TASER 60:** Pays for X2 and X26P energy weapons and Spare Products in installments over 5 years.
10. **Unlimited Cartridge Plan:** Allows the agency to pay an annual fee to receive annual training cartridges, unlimited duty cartridges and unlimited batteries for the X2 and X26P.
11. **TASER 60 Unlimited:** Pays for X2 and X26P energy weapons and Spare Products in installments over 5 years and receive unlimited cartridges and batteries.
12. **TASER 7 Close Quarters Dock Plan:** Pays for TASER 7 Close Quarters Plan over a 5-year period in installments including access to Evidence.com for energy weapon program management, rechargeable batteries, annual cartridge shipments, unlimited duty cartridges, and access to online training.
13. **Officer Safety Plan 10:** Includes a TASER 10 energy weapon, the TASER 10 certification bundle, Axon body camera with Technology Assurance Plan (TAP),² Axon Evidence, unlimited body camera and Axon Capture storage, Command Staff Pro license (1 per 100), Axon Signal Sidearm, Axon Standards, and Axon Respond.
14. **Officer Safety Plan 10 Plus:** Includes a TASER 10 energy weapon, the TASER 10 certification bundle, Axon body camera with Technology Assurance Plan (TAP),² Axon Evidence (Evidence.com), unlimited body camera and Axon Capture storage, Command Staff Pro license (1 per 100), Axon Signal Sidearm, Axon Standards, Axon Respond, Axon Respond+, Axon Performance, Axon Community Request, Axon Investigate, Redaction Assistant, auto-tagging with implementation, channel services (3), third-party video storage (100 GB), third-party video playback, and Axon Records.
15. **Officer Safety Plan 10 Premium:** Includes a TASER 10 energy weapon, the TASER 10 certification

² Axon Body 3 or Axon Body 4 & Axon Dock (for cameras) hardware purchased separately. Includes two Axon camera upgrades and one camera dock upgrade, which apply to 5-year contracts only.

bundle, Axon body camera with Technology Assurance Plan (TAP),³ Axon Evidence (Evidence.com), unlimited body camera and Axon Capture storage, Command Staff Pro license (1 per 100), Axon Signal Sidearm, Axon Standards, Axon Respond, Axon Respond+, Axon Performance, Axon Community Request, Axon Investigate, Redaction Assistant, auto-tagging with implementation, channel services (unlimited), third-party video storage (100 GB), third-party video playback, Axon Records, Axon VR training, Axon Auto-Transcribe, and My90 by Axon.

16. **TASER 10 Basic:** Pays for the TASER 10 program in installments over 5 years including access to Axon Evidence services for energy weapon program management.
17. **TASER 10 Certification:** Pays for TASER 10 program in installments over 5 years including access to Evidence.com for energy weapon program management, annual training cartridges, unlimited duty cartridges and online training content.
18. **TASER 10 Certification with Virtual Reality (VR):** Pays for the TASER 10 program in installments over 5 years including access to Evidence.com for energy weapon program management, annual training cartridges, unlimited duty cartridges, online training content, and VR training.
19. **Axon Core:** Pays for the TASER 7 CQ, TASER Dock, weapon Axon Evidence license, training and duty cartridges, Axon Body 3 camera, Professional Axon Evidence license, unlimited storage, camera hardware upgrade every 2.5 years, Axon Respond, Axon Signal Sidearm, and auto tagging.
20. **Axon Core+:** Pays for the TASER 7 energy weapon, TASER Dock, weapon Axon Evidence license, training and duty cartridges, Axon Body 3 camera, Professional Axon Evidence license, unlimited storage, camera hardware upgrade every 2.5 years, Axon Respond, Axon Signal Sidearm, and auto tagging.
21. **Corrections Officer Safety Plan:** Includes a TASER 7 energy weapon, Axon Body 3 Camera, Axon Dock, Axon Camera and Dock Upgrade, Axon Evidence Licenses and unlimited Axon storage.
22. **Corrections Post OSP:** Includes one TASER 7 energy weapon for every two licenses, one Axon Body 3 Camera for every two licenses, Axon Dock, Axon Camera and Dock Upgrade, Axon Evidence Licenses and unlimited Axon storage for each license.

To whom it may concern,

Please be advised that Commercial Energy Specialists, Inc., 952 Jupiter Park Lane, Jupiter, FL 33458 is BECS Technology, Inc.'s sole source for sales, service and warranty administration, in the Florida and Caribbean region. This relationship for support of the BECSys Controller line and related products has been in effect since September 1, 2005.

The BECSys Controller line includes the BECSys7 filtration/equipment room controller as well as the BECSys5, BECSys3 and BECSys2 water chemistry controllers. All BECSys controllers have a broad set of standard and optional sensors, communications modules, software monitoring platforms and supportive products.

CES technicians have been factory trained on the proper installation, maintenance and service of the entire BECSys product line.

We have chosen CES because of their expertise in all commercial pool markets, and feel they are the best company to represent BECS and our products. If you have any further questions regarding this matter please feel free to call.

Best regards,

Brett D Steinbrueck

Brett D. Steinbrueck
President

To Whom It May Concern,

I am writing this letter to inform you that Tom Barrow Co. (TBC Supply) is a distributor and sales agent of Big Ass Fans within the states of Florida, Georgia and western Tennessee.

Big Ass Fans is the only manufacturing source for the Big Ass line of Industrial, Commercial, Residential, Directional and Cool Space fans.

After 20 years of industry expertise and well over 100,000 installs, Big Ass Fans has accumulated vast knowledge and data from our experiences. We have molded this information into a line of superior products that are proven air movement solutions for a wide variety of applications.

We greatly appreciate your business and look forward to continue to doing business with you through our distributor partner relationships.

Thanks,

Tyler Schmerge

Reference: Distributor Certification Letter

To Whom It May Concern,
ATTN: City of Margate

This letter is to certify that Blackburn Controls Incorporated (BCI), located at 1619 E. Vine St., Kissimmee, FL, 34744, is the only Prime authorized Sales Distributor of the GE Industrial Communications (INDC) business unit for Florida, Georgia, Mississippi, Alabama, South Carolina, North Carolina, and Tennessee.

As such, Blackburn Controls Inc. (BCI), is responsible for promoting, selling and supporting the following product lines in the stated territory: GE MDS Orbit MCR/ECR and Master Stations, and legacy equipment including but not limited to SD series, iNETII and MDS Net I/O.

GE INDC provides BCI with the commercial, technical, and logistics support required to successfully fulfill any awarded contract for any of the above-mentioned product lines.

GE INDC is headquartered in Rochester, NY, USA and is part of the business unit GE Renewable Energy from the General Electric conglomerate. GE INDC is responsible for the design, manufacture, commercialization and technical support of rugged communications equipment utilized in mission critical applications around the world.

January 29, 2024

This letter is to confirm that BlueRidge Armor, LLC is the sole manufacturer of pistol grade and rifle grade ballistic shields utilizing the VENGEANCE™ Series Viewport. No division of BlueRidge Armor, LLC nor any other company makes a similar or competing product. Competition is precluded by the existence of one or more copyrights, trademarks, secret processes, patents or patent pending components of the BlueRidge Armor VENGEANCE™ Series Viewport model.

There is no other like item(s) or product(s) available for purchase that would serve the same purpose or function. BlueRidge Armor, LLC is the listed authorized agent and has exclusive rights to manufacture this product.

This product must be purchased by institutions, departments and agencies in Florida from either *BlueRidge Armor, LLC* directly or through GL Distributors, Inc., located in Pembroke Pines, Florida. GL Distributors is our sole Florida authorized dealer.

Additional information may be obtained by contacting BlueRidge Armor LLC at 844-556-6855 or info@blueridgearmor.com. Thank you for your interest in our products.

Sincerely,

Dale Taylor

Margate Police Department
5790 Margate Blvd.
Margate, FL 33063

Dear Lisa,

We at Bowie International, LLC are the sole manufacturer and supplier of the Custom Fiberglass Coaches PRO 6WS7 animal control unit. We are the only manufacturer of a fiberglass animal control unit that is constructed of a molded one-piece fiberglass body for the exterior shell. We are also the sole provider of the Ultimate Safety Door with aluminum adjustable louvers that can be opened and closed.

We have been selling animal control units in the state of Florida and nationwide since 1969 with continued product design improvements and outstanding quality. We meet the needs of animal control officers all over the United States and continue to be a leader in the animal services industry.

Sincerely,

A handwritten signature in black ink, reading "Steve Sinnard". The signature is written in a cursive, flowing style.

Breaching Technologies, Inc.

SOLE SOURCE LETTER AND PATENT RESTRICTION

Breaching Technologies, Inc. is the holder of patents on the Ram, Pry and Explosives Doors (patent No. 6,877,988 B2). The patents were issued on April 12, 2005, and will expire on April 12, 2025. An additional patent was issued on March 6, 2012, for the shotgun doors (patent No. US 8,128,408). There are no other comparable products available that provide real-life training that would not be in violation of Breaching Technologies, Inc. patents. Each door has a patented socket and pin system that represents one to three lock combinations on a door. BTI patents prohibit the manufacturing of any other locking system, device or mechanism simulating the actual malfunction or destruction of a lock on a wood or metal frame door.

RE: Authorized Cat Dealer

Pantropic Power Products Inc. with its primary offices at 8205 NW 58th St. Miami, FL 33166 ("Dealer"), is the only authorized independent dealer in South Florida and of various models of Cat® branded machines, equipment, engines, oils, and spare parts ("Cat® products"). As an authorized Cat dealer, Dealer provides prompt, competent services for Cat® products in the following counties in the state of Florida: Indian River, Okeechobee, Glades, Charlotte, Lee, Hendry, Collier, Monroe, Dade, Broward, Palm Beach, Martin, and St. Lucie (the "Service Territory"). Dealer is the only Cat dealer with approved business locations in the Service Territory. Cat Technicians can diagnose and repair Caterpillar engines and equipment, using Caterpillar Electronic Technician (CAT ET) and Cat Service Information System (Cat SIS). Cat ET is a diagnostic software required to communicate, diagnose and service electronically controlled Caterpillar engines and machines

In the event Dealer ceases to be an authorized Cat dealer, support for Equipment will be available from either a newly appointed dealer or another Cat dealer in Caterpillar's dealer network.

If you have any questions concerning Caterpillar or Cat dealers, or require additional information, please contact me at the number below.

Sincerely,

Margate, FL 33063

Dear Lisa Pierre:

CUES is the sole source of genuine CUES Replacement Parts and Service. The following details will outline the many benefits of why to choose CUES as your sole provider.

Sole Source/OEM Justification:

- CUES is the sole manufacturer of the K2 Summit and Granite Net video/footage capture systems. CUES offers an in-house software support team for these systems. Other products on the market are 3rd party add-on programs that CUES in-house support team is unable to support.
- Our Cameras, Transporters, and Lamp II systems are solely manufactured by CUES. We are the sole manufacturer and supplier of these OEM (*Original Equipment Manufacturer*) products, and for the parts used in CUES pipeline inspection and rehabilitation equipment.
- We strongly recommend the use of genuine CUES Parts and Service due to potential compatibility problems. We have recorded instances where Non-OEM parts resulted in major damage to the electronic and other systems. The use of Non-OEM parts could void CUES warranty and CUES lifetime loaner policy.
- CUES maintains millions of dollars in inventory that eliminates the need to have an extensive parts inventory on-site. Our Manufacturing factory, Customer Support Center and Main Stockroom is located in Orlando, FL. We also have additional customer support locations throughout the US and Canada to fulfill any Parts or Service needs.

100% Full Circle Compatibility Note:

Current CUES equipment is 100% compatible with CUES existing TV equipment without modifications. This allows older equipment to operate on newer TV systems and newer equipment to operate on older TV systems giving you full circle compatibility. Other manufacturers may have components (i.e. Cameras, etc.) that can be modified to operate on existing CUES systems, however, this may require special one of a kind cables and/or modifications to the internal electronics of the camera, etc. Any modification to the system's electronics may void the CUES warranty and CUES lifetime loaner policy.

We appreciate your interest in Cues products. If you have any questions, please do not hesitate to contact me at 407-283-6069.

Best Regards,

Ana Cancel

FEDERAL SERVICES

November 28, 2023

**Excellence in Technology, Training and Service®
Sole Source Letter**

Dear Customer,

Please be advised NITV Federal Service (NFS) is the Sole Source for the Computer Voice Stress Analyzer III (CVSA® III), the CVSA® II, the CVSA® as well as all manufacturer approved certification training programs related to any version of the CVSA®.

NFS is the exclusive manufacturer/distributor of the CVSA® III, CVSA® II, and CVSA® and has no US distributors. Both the CVSA®III and CVSA®II incorporate version-unique and specialized processes protected by two US Patents: US Patent Number 7,321,855 "*Method for Quantifying Psychological Stress Levels Using Voice Pattern Samples,*" and US Patent Number 7,571,101 "*Quantifying Psychological Stress Levels Using Voice Patterns.*"

NFS is the only Voice Stress Analysis (VSA) manufacturer holding patents for its VSA technologies. The FACT® scoring system is exclusively offered by NFS and can precisely quantify stress in the human voice to evaluate CVSA® examination charts as Deceptive or Non-Deceptive with an accuracy level greater than 98%. Additionally, the CVSA® has been approved by the US Federal Court System and is used by approximately 3000 US and International Law Enforcement Agencies, as well as elements of the US Military and US Federal Agencies.

RE: TAC II SCADA System
Sole Source Status

Dear Ms. Smiley:

Please consider this document official confirmation that Data Flow Systems, Inc. (DFS), of Melbourne, Florida, is the sole source provider for the TAC II SCADA System and associated Remote Terminal Units (RTUs), Telemetry Control Units (TCUs), TAC Pack TCU RTUs, Hyper SCADA Servers (HSS), and DFS HTX SCADA Software as currently utilized by the City of Margate. DFS is also the sole source provider for all associated repairs, service and training.

DFS is responsible for the design, manufacture, and service of the entire TAC II SCADA System product line. There are no other manufacturers, dealers, distributors or service organizations that offer these products and associated services in the State of Florida. The TAC II SCADA System is Made in the USA.

Should you have any questions or require additional information, please contact me at 321-259-5009.

Sincerely,
Data Flow Systems, Inc.

Hello:

De Nora Water Technologies – formerly Severn Trent Services / Capital Controls – is the original equipment manufacturer of our line of gas feed and instrumentation products. As the OEM, we offer the only authorized repair of this equipment using the same parts that were used in the original product manufacture and test the equipment according to our ISO 9000 standards for the original equipment.

This letter confirms that our exclusive representative for the municipal market for the De Nora product for your region of Florida is:

TriNova Inc.
2401 Drane Field Road
Lakeland, FL 33811

They look forward to working with you.

Please let me know if you need additional information on this matter.

Sincerely,

Nancy Hatley

Dear Ms. Pierre,

Below is the authorized John Deere Construction Equipment Distributor for Central and South Florida.

Dobbs Equipment LLC
2730 S. Falkenburg Rd.
Riverview, FL 33578
Phone: 813-620-1000

As an authorized John Deere Construction Equipment Distributor, Dobbs Equipment LLC maintains an inventory of replacement parts and a staff of factory trained technicians to provide services and support to users of John Deere Construction Equipment.

On occasion other parts suppliers have attempted to represent themselves as suppliers of genuine John Deere parts. Please be advised that John Deere parts are sold only through Authorized distributors. John Deere Construction Equipment Companies do not provide other suppliers with design specifications, nor authorize any other manufacturer to make or distribute current John Deere replacement parts.

If you have any questions regarding identification of an authorized John Deere or Hitachi Distributor, please call me at 309-912-6521.

Sincerely,

Javier Mesa

February 5, 2024

City of Margate
5790 Margate Boulevard
Margate, Florida 33063

Attn: Procurement

Subject: Authorized Eaton Corporation - Direct Sales and Service Provider

Reference: Eaton Electrical Services & Systems 2024

Eaton Corporation purchased the Westinghouse Distribution and Control Business Unit (DCBU) in 1994. This acquisition included all manufacturing operations and technology used by Westinghouse to manufacture and sell electrical distribution and control products. As the current manufacturer of Westinghouse and Cutler-Hammer distribution equipment, the current design and manufacturing information, and all current revisions and modifications to products, are held by Eaton Corporation.

Eaton Corporation created a new division in late 1997, now called the Eaton Engineering Services and Systems Division, in order to directly provide field engineering and service.

Today, pursuant to the agreements regarding the acquisition of the DCBU from Westinghouse in 1994, the only companies which are permitted to manufacture and sell electrical distribution equipment with an Eaton, Cutler-Hammer or Westinghouse trademark is Eaton Corporation. Eaton Electrical Services and Systems is the only engineering group which is authorized by the manufacturer to work on Eaton, Cutler-Hammer and Westinghouse electrical distribution products.

Our EESS engineers are available 7 days a week and can be reached by calling our office or our 24-hour hot line at (800) 498-2678. Included with this letter is a copy of our EESS -Technical Support and Service Rates in effect at this time along with Selling Policy 25-000. We offer a one-year warranty on all services and parts. If you have any questions regarding this information or requests for services, please contact Alejandro Gonzalez on his cell @ 856-325-0464 or feel free to contact me directly via cell phone 954-914-3669.

We appreciate this opportunity to be of service to you. If you have any questions or comments please feel free to contact us at any time.

DATE: November 28, 2023

TO: City of Margate

FROM: Jackie Ricks, Esri Contracts Specialist I/Contracts & Legal Department

RE: Esri Sole Source Justification for Geographic Information System Software

This letter confirms that Esri is the sole-source provider of Esri products and related maintenance services in the U.S. commercial, state, and local government marketplace, subject to the disclosures set forth below.

Esri has authorized certain resellers to resell sole source products, including Esri enterprise agreements, to state agencies of the State of California only under the California Software License Program (SLP). Esri distributes Esri software licenses in combination with non-Esri hardware, software or services through open-market value-added resellers, system integrators and OEMs. Esri also distributes Esri software licenses, subscriptions, and subscription renewals separately or in combination with non-Esri software or services through resellers to customers that provide architectural, engineering, and construction services. On request, Esri will provide open-market quotes for Esri products and maintenance to pass-through customer-designated resellers.

If you have further questions, please contact me at jricks@esri.com.

Flexamat® maintains a patented manufacturing process that embeds a polypropylene geogrid within the 5000 psi concrete block packaged in rolls. The underlayment included with the rolled system is not a generic system. The underlayment is designed as a two layered system. The Leno Weave Fabric is recommended to help filter soils and add additional woven strength to the tied block during installation. The Curlex® blanket used is an excelsior wood fiber that is specific to provide a soil amendment that will bind the soil and hold moisture to allow for vegetation establishment. Motz Enterprises, Inc. sells Flexamat® through a sole source distributorship. For the State of Florida, R.H. Moore & Associates is the sole source distributor for Flexamat®.

Dear Contract Officer,

The purpose of this letter is to confirm that FLYMOTION is the only company that produces the FM Ridgeback Communications Kit. This custom radio link is designed around the Spot UGV and is crucial to maintaining a secure connection during BVLOS operations in the field.

This solution allows for consistent communication between the Pilot and UGV, while beyond line of sight.

Due to the nature of the solution offered, the product listed above is being declared a sole-source item procurable solely from FLYMOTION.

RE: Hoffman/Lamson Products

Lisa,

This letter is to advise the City of Margate that your site is serviced for the Gardner Denver Hoffman and Lamson blower product line by our local sales representative office, TSC Jacobs South. As our local southern Florida sales rep, TSC Jacobs South has a 100% exclusive sales representation contract, with Gardner Denver, for southern Florida, for all of the municipal wastewater and/or water treatment multistage centrifugal blower applications.

This 100% exclusivity not only applies to all new equipment sales, it also encompasses all start-up and maintenance service contract for new and existing Gardner Denver Hoffman and Lamson blowers and exhausters in southern Florida. This 100 % exclusivity is also applicable for all Gardner Denver factory authorized service work, all replacement blowers, along with all spare and replacement blower and exhauster parts including motors and coupling replacement parts for the Gardner Denver multistage blowers.

We thank you for your use of Gardner Denver products and we look forward to continuing to work with your city.

Kind regards,

George Hubbard

Lisa Pierre
City of Margate
5790 Margate Boulevard
Margate, FL 33063

Dear Ms. Pierre:

This letter is being sent in response to your request regarding the Opticom™ priority control system. Opticom is manufactured by Global Traffic Technologies, LLC (GTT). Since 1968, Opticom has been the standard in priority control, now totaling more than 3,100 customers, 90,000+ intersections and 90,000+ vehicles worldwide. Worth noting, GTT's Opticom system is used in 48 of the 50 largest U.S. cities, amongst many other deployments in Canada, Europe, Asia-Pacific and the Middle-East.

GTT invests heavily in research and development, to ensure its customers always receive the best value and most feature-rich solutions when buying priority control. This effort has led to more than 100 patents, either granted or in-process.

While the topic of a mixed system sometimes emerges, please note that GTT designs, develops and tests each Opticom component as part of a "matched component system." This means that "mixing" non-Opticom components raises concerns, including:

- Security is accomplished through Opticom's proprietary design, which prevents unauthorized use of the system. Mixing components would significantly reduce or even eliminate the security measures GTT has built into the Opticom solution
- Mutual aid to and/or from surrounding communities depends on compatibility amongst signal priority solutions. The use of Opticom components with non-Opticom components has not been designed for or tested by GTT
- Proper testing of compatibility would require inclusion of all of the potential operating scenarios (temperature, humidity, electrical and accelerated life) and third-parties. Further, testing would need to be repeated each time an Opticom or third-party component was updated, making testing impractical. While the Opticom matched component system is guaranteed, mixing Opticom components with non-Opticom

.....

components voids the warranty of the connected Opticom components and transfers the liability of any such incompatibility from the manufacturer to the customer

- The Opticom model 764 phase selector is not compatible with other brands' GPS emitters
- The Opticom Central Management Software is a proprietary software program for the Opticom system that is not compatible with any other vendor's equipment or software

For the above reasons, GTT strongly recommends keeping the Opticom system whole.

In the state of Florida, Transportation Control Systems (TCS) is the authorized dealer for GTT. There are currently no other authorized dealers of GTT's products in Florida and GTT is the sole-source provider/manufacturer of Opticom products.

Please contact GTT or TCS if you have further questions or if you require additional detail. GTT and/or TCS will also provide a list of references if you'd like to talk with others about this topic.

Sincerely,

Subject: Distributor for Municipal Engineered Systems Water and Wastewater Market

Dear Ms. Lisa Pierre,

The Gorman-Rupp Company is a world leader in the production of pumps and engineered equipment for diversified markets. Our marketing strategy has been to establish a network of factory authorized distributorships trained to apply equipment unique to specific hydraulic applications. Some examples of these are construction, petroleum, industrial, water and wastewater. Our distributors are specialists and very knowledgeable within their defined market area and dedicated to helping you select and maintain the proper equipment for your application.

Please be advised Hudson Pump & Equipment the sole authorized distributor for Municipal Water and Wastewater Pumps, Lift Stations and parts for Broward County in the State of Florida. Hudson Pump & Equipment is responsible for supplying all Gorman-Rupp pumps and Gorman-Rupp parts used in municipal water and wastewater lift stations or treatment plants, including individual units installed in municipal collection systems.

Hudson Pump & Equipment
3524 Craftsman Blvd.
Lakeland, FL 33803
Telephone: 863.665.7867

This letter is valid from this date forward until such time Gorman-Rupp identifies a new Municipal distributor for your location, if the need arises. All previous letters you may have been provided are superseded by this letter.

We thank you for your interest in Gorman-Rupp products and look forward to working with you in any upcoming projects.

Sincerely,

Date: April 11, 2023

Subject: ITT Goulds Pumps Municipal Representation
State of Florida

To: Whom it may concern,

This Document serves as official notice that **Hudson Pump & Equipment, a Division of Tencarva Machinery Company** is the exclusive municipal representative for all sales of **ITT Industrial Process** products in the state of Florida. This exclusivity agreement applies to all ITT Industrial Process products as shown below:

- ITT Goulds Pumps sold under the “brand names” of **Goulds Pumps, Allis-Chalmers, Goyne Pump and Morris Pumps. (Please note: Goyne Pump Company was acquired by ITT Goulds Pumps in 1979 and Morris Pumps was acquired by ITT Goulds Pumps in 1981).**
- ITT Goulds Pumps’ repair parts sold under the “brand names” **Goulds Pumps, Allis-Chalmers, Goyne Pump and Morris Pumps.**
- ITT Monitoring & Control (Variable Frequency Drives) sold under the “brand names” of **ProSmart and PumpSmart**
- In addition, Hudson Pump is the “only” Goulds Pumps Authorized Service Center (ASC) within the state of Florida which gives them exclusive “authorized” rights for the repair / rebuild of Goulds Pumps equipment.

If you have any questions regarding this agreement, please don’t hesitate to contact me.

RE: Sole Source Letter - Handtevy Pediatric System

To Whom it May Concern,

This letter is to confirm that Pediatric Emergency Standards, Inc. ("PES") is the sole source provider of the Handtevy Pediatric System. The Handtevy System addresses the complexities of the critical patient by providing the only comprehensive pediatric system of care in the industry. Handtevy combines customization, technology, documentation, integration, durables and education to allow healthcare professionals to confidently treat pediatric patients rapidly and with confidence.

Handtevy is sole source as a result of the following:

1. Handtevy utilizes a proprietary Medication Management Software that allows healthcare providers to create custom medication and equipment guides tailored 100% to their pediatric protocols.
2. PES offers a clinical team comprised of pediatric physicians, nurses, paramedics and pharmacists for ongoing support.
3. The Handtevy System is the only "hybrid" system in the industry. Hybrid means both age based and length based offering providers a way to determine weight for dosing via age or length.
4. The Handtevy System is the only system that addresses children from preemie to age thirteen, and includes adult as well.
5. Custom medication and equipment guides created by the provider (addressed in #1) can be utilized in hard copy or via Handtevy Mobile. Hard copy medication guides are tear-proof, and water-proof. Reproduction of the hard copy medication guide is not permitted due version control, liability and copyright issues.
6. Handtevy Mobile is the only platform that offers custom medication dosing and equipment sizing on a mobile platform that can integrate into the ePCR for data collection.
7. The Handtevy Instructor Course is only taught by PES employed educators and is meant to be utilized with the Handtevy Pediatric System.
8. The Handtevy Pediatric Bag is the only bag that utilizes ages to correspond with the Handtevy dosing system.

For more information, please visit our website at www.Handtevy.com.
Please feel free to contact me with any questions.

Thank you,

A handwritten signature in black ink that reads "Allison Antevy".

Re: Horizon Signal SQ4, SQ3 and SQ2 Portable Signal Systems

Dear Mr. Jones,

Please be advised that Horizon Signal Technologies, Inc. is the sole manufacturer and source of the SQ2, SQ3 and SQ4 portable traffic signal systems. Horizon Portable Traffic Signal Systems utilize unique operating software that provides a full matrix operating system including the exclusive conflict monitoring/malfunction management redundancy system. The unique attribute of the Horizon operating system enables the use of various add-on components to address specific application requirements.

If you have any questions or we can be of further assistance please feel free to contact us.

Sincerely,

David Krahulec
President

The Knox Company is the sole source manufacturer and inventor of Knox® Rapid Access products with manufacturing and/or assembly done in our Phoenix, Arizona facility. As the provider of the patented Knox eLock System™, Knox maintains the highest level of key and lock control devices and ensures the manufacturing process is strictly controlled using rigorous protocols.

As the leader in the rapid access product category, the Knox brand is the preferred and trusted rapid access provider by more than 15,000 first responder departments/agencies throughout the U.S. and Canada; and is the product most often selected over other lock box programs based on the company's more than forty-five-year reputation for integrity, quality, and reliability. Products include a complete line of eLock and mechanical lock boxes, cabinets, key switches, padlocks, the MedVault® Narcotics Vault, and locking FDC Caps all used by both Fire and EMS departments.

Knox also manufactures products that electronically secure the Knox Master Key: Sentralok® and KeySecure® Key Retention Systems that provide keypad access with full audit trail documentation.

Obtained UL Listings, include the following:

- UL 437: Standard for Key Locks
- UL 508: Standard for Industrial Control Equipment
- UL 1037: Standard for Anti-theft Alarms and Devices
- UL 1332: Standard for Organic Coating for Steel Enclosures for Outdoor Use Electrical Equipment
- UL 1610: Standard for Central-Station Alarm Units

Included with the Knox products are many services that benefit first responders. Mechanical master keys are provided to only authorized individuals at no charge, records of installation are compiled on request, and complimentary materials available to property owners.

Knox products satisfy stringent rapid entry requirements. Please contact us if we can provide additional information.

Sincerely,

The Knox Company

Wednesday, November 29, 2023

To whom it may concern

Thank you for your interest in the revolutionary new **Eagle® 3** mounted traffic safety RADAR system. For your records, we would like to provide the following statement: Kustom Signals, by signature below, certifies that it is the "*sole source*" manufacturer of the Eagle 3.

The Eagle 3 is the latest innovation in directional two-piece stationary/moving RADAR from Kustom Signals. The Eagle 3 introduces several new features and technology in the smallest mounted RADAR on the market. Some of these features include:

- **Front and Rear Scan** mode (patent pending) is a new method of two antenna operation that better supports the officer's target tracking history. Scan mode will automatically switch to and display the antenna with the fastest target while presenting only one target zone and one Doppler tone.
- The Eagle 3 is the first two-piece moving radar with a color LCD touch screen display. The operator not only has the ability to select the desired color for front and rear targets, but the target position will change to clearly indicate front or rear targets.
- The Eagle 3 delivers **outstanding performance**. Advanced signal processing techniques combined with more and faster processing provide the best performing RADAR on the market.
- The Eagle 3 introduces a new option to our patented **DuraTrak™** feature to assist the officer with target tracking history. Now the operator can select **DuraTrak™** target signal tracking bars or a Signal to Noise Ratio (SNR) indicator to assist with target identification.
- The Eagle 3 introduces **eFork™** (patent pending) an electronic tuning fork technology integrated in the remote control. The remote has a crystal based oscillator that produces a precise and stable electronic signal exactly like the signal produced by ringing a tuning fork. Additionally, the Eagle 3 supports both mechanical forks and electronic tuning forks to best support agency testing requirements.
- The Eagle 3 **Advanced Fork Test** (patented) allows the operator to quickly conduct comprehensive tuning fork tests for the front and rear antennas. The advanced fork test takes the user judgment and possible errors out of the equation by providing a clear pass/fail indication. **Optionally**, the Eagle 3 can be programmed to require a successful fork test to be completed before the unit can be placed into service.
- The Eagle 3 introduces a new **Fan Noise and Interference Learning** algorithm that processes and stores sources of noise and interference in the patrol vehicle. This virtually eliminates errors due to interference that can be problematic in Stationary and Moving Same Direction operations.

10901 W 84th Ter #100 TEL: 800.458.7866
Lenexa, KS 66214-1631 913.492.1400
www.KustomSignals.com FAX: 913.492.1703

- **QuikTrak®** is back! The Eagle 3 brings back this patented feature for simple one button operation. With the unit in HOLD, the operator may press and hold the Lock button, perform tracking history, release the button to lock the target and place the unit in HOLD.
- **ProLock™** is a new method to allow the operator to progressively lock an accelerating target. One button press relocks the faster speed without having to unlock first.
- **Dual Antenna Lock** allows the operator to lock a target on both antennas and display both target locks, greatly enhancing target identification even in heavy traffic. Additionally, the antenna direction will automatically switch to support target tracking from one antenna to the other.
- The Eagle 3 introduces a new **RADAR Events** log that stores all locked target speeds, fork tests, and even GPS Marked locations to internal memory. An easy to use PC utility allows the user to download these events to a spreadsheet and the GPS coordinates can be used to precisely locate where an event occurred.
- The Eagle 3 introduces a new Wireless Speed Sensing (WSS) technology (patent pending) based on Kustom's patented **TruTrak™** feature. The WSS utilizes satellite signals to steer the Eagle 3 to search for the Doppler patrol signal when coming out of HOLD. This feature enables Automatic Mode Switching and virtually eliminates patrol shadowing and combining. It has the added benefit of great performance while operating in inclement weather like fog, snow and even rain.
- The Eagle 3 **Certification Management** feature (patent pending) allows an agency to select a warning period to notify the operator when the RADAR needs to be recertified. **Optionally**, the Eagle 3 may be programmed to lockout the device when the certification has expired. An easy to use PC utility allows the agency to manage recertification.
- The display includes manual control or automatic adjustment to ambient light levels.
- The Eagle 3 supports complete enforcement control from the front panel buttons and touch screen in case the remote is misplaced or damaged.
- **Optionally**, the Eagle 3 supports integration with in-car video systems or a serial printer

Thank you for this opportunity to be of service. If you need anything further, please do not hesitate to contact us at (800) 4KUSTOM (458-7866).

To Whom It May Concern:

Thank you for your interest in LeadsOnline. We applaud and support your efforts to provide your community an efficient and secure method of collecting and analyzing pawn, secondhand, scrap metal recycler, OfferUp and eBay transaction data for use in criminal investigations.

This letter serves as a sole source document for services provided by LeadsOnline.

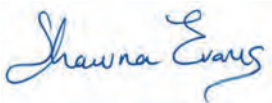

The LeadsOnline system functionality designed specifically for criminal investigations using transaction data from pawnshops, scrap yards, eBay, OfferUp, gold buyers and other secondhand stores is the exclusive proprietary property of LeadsOnline and is protected under the United States Copyright Act (17 U.S.C.), as well as by all applicable state and international copyright laws, and by the Lanham Act (15 U.S.C. §§1051-1141n). No other supplier has access to this technology which has been developed over 21 years.

LeadsOnline is also the sole source for over 1.5 BILLION transaction records from more than 21,000 businesses in all 50 states, including Florida. We provide law enforcement with investigative access *across jurisdictional boundaries* – borders previously used to the advantage of criminals to escape detection by local authorities.

LeadsOnline connects your agency to a network of over 5,000 law enforcement agencies throughout Florida and the rest of the United States. There is no similar service operating in your jurisdiction or in the surrounding area, and LeadsOnline is the sole source for information of this kind for investigations.

We look forward to serving your community and are available to answer any additional questions you may have.

Sincerely,

Shawna Evans

SINGLE SOURCE LETTER

To Whom It May Concern:,

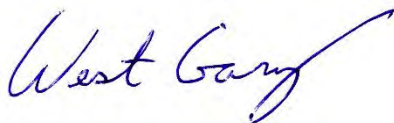

This is a single source letter to let you know that the product **Mountain Fresh** is a Momar exclusive product that is manufactured and sold exclusively by Momar, Inc. Momar is the creator, manufacturer, and seller of this product. Momar's technical and sales staff will answer any questions you have about this product, and we will support users with information about the proper application of this product.

Mountain Fresh is unique for the following reasons:

- It is manufactured in the following forms:
 - 20X Concentrate Liquid
 - Ready-To-Use Liquid
 - Total Release Fogger Aerosol
 - Handheld Aerosol
 - Meter-Mist Aerosol
- Contains a proprietary odor encapsulation chemistry paired with a unique blend of fragrance oils and essential oils that, together, eliminate a wide variety of smells including hydrogen sulfide, ammonia, thioethers, mercaptans, amines, acids, urine, animal waste, food waste, pet odors, and even cigarette smoke
- Safe on soft surfaces like linen, carpet, rugs, upholstered furniture, drapery, bedding, and clothing
- Safe on hard surfaces like lockers, toilets, tile & grout, dumpsters, and trash cans
- Compatible with most cleaning compounds in a wide pH range from 2-12
- APE, NPE, and phosphate free and safe in most drainage systems
- Neutral pH between 6 and 9, and compatible with bacteria programs and flocculant programs at most wastewater plants
- Liquid versions are non-flammable

Please contact me directly if you have any questions or further concerns about this Momar product.

Sincerely,

West Gary
Senior Vice President, Chief Technical Officer

Dear Ms. Pierre:

Thank you, City of Margate for your interest in the MSA product line.

This letter confirms that Ten 8 Fire & Safety LLC is the sole authorized distributor of MSA SCBA and Thermal Imaging Cameras for the Municipal Fire Service Market for Broward County, Florida.

By way of background, in the fire service / first responder markets, MSA imposes specific requirements upon our distributors, which can result in a small number of distributors authorized to call upon a particular region. We impose these requirements because the equipment we manufacture and sell requires the involvement of partners with special knowledge, training and experience. Accordingly MSA's distributors are obligated to acquire and maintain extensive knowledge, training, and experience necessary to properly educate, assist and service our end user customers before, during and after the sale. MSA's fire service / first responder distributor qualification requirements are likewise intended to ensure the highest possible end user customer experience.

If you desire additional information about MSA, its product lines, or channel partners, please do not hesitate to contact me. Thank you for your interest in our products.

Sincerely,

RE: Sole Source Provider – Musco Lighting System – Vinson Park Softball

Dear Ben,

For more than 45 years, Musco has specialized in sports-lighting. We design and engineer our products to operate as complete systems with major advantages in environmental light control, energy efficiency, durability, safety and cost-effectiveness. We take an active interest in how our products are performing in the field for our customers long after the sale.

Musco is the designer and manufacturer of the existing Total Light Control for LED™ lighting system installed on the Vinson Park softball fields. Musco's Total Light Control for LED luminaire assembly and other system components are specifically engineered based on field dimensions, light level requirements, spill and glare control, and other environmental concerns. The Total Light Control for LED product utilizes proprietary LED luminaire assemblies, drivers, driver programming, pole length wire harness assemblies, and electrical components enclosures. Due to these proprietary designs, and the specific Musco lighting design criteria for the fields, Musco does not recommend maintenance to the system using non-Musco replacement parts, or non-Musco service technicians that are not trained and qualified in the design and operation of Musco lighting systems. Musco Sports Lighting is the sole source provider for replacement parts for Musco's Total Light Control for LED lighting systems.

If you need additional information or have further questions regarding our products, please contact me at 800-825-6020.

Sincerely,

Dear Lisa,

This letter is to confirm that the Nusonics CM800 Transit-time Ultrasonic Flow Meter is a sole source product which is manufactured, sold and distributed exclusively by Systems Integrators LLC.

This equipment utilizes a unique system of measuring flow rates in a wide range of fluids. Utilizing transit time technology, it does not depend on the presence of particulates to make an accurate measurement. Additionally, the flow meter can tolerate up to 2% by volume of particles or bubbles in the process stream without affecting performance.

If you need additional information, please feel free to contact me at any time.

Sincerely,

Re: Sole Source of OCP&E Brand Chemicals

Dear Ms. Pierre:

OCP&E® Brand chemicals are sole sourced throughout the State of Florida by Publicly owned Treatment Works (POTWs). The following is a list of justifications for sole source purchase of OCP&E® Brand chemicals:

1. OCP&E® Brand chemicals are unique and proprietary. For example, OCP&E® Brand Peroxibase II is the only 12% hydrogen peroxide based chemical with an industrial grade peroxide stable deodorant, special surfactants, and a silicone defoamer. There is no equivalent in the marketplace. Whereas the City can procure various levels of hydrogen peroxide (12%, 25%, 35%, 50% and so on), the City cannot procure a chemical similar in chemical composition and performance to Peroxibase II. OCP&E® can provide other examples, if necessary. 2. OCP&E® is the sole distributor of OCP&E® Brand chemicals. 3. OCP&E® is the sole owner of OCP&E® Brand chemical formulations. 4. OCP&E® chemicals have been publicly advertised for bid on Demandstar™ by other public utilities, and there were no other bidders able to provide OCP&E® Brand chemicals. 5. OCP&E® can furnish the City with dozens of purchase orders issued by other public utilities where the chemicals were purchased on a sole source basis.

Best Regards,

A handwritten signature in black ink, appearing to read "Cinda Bennett", with a stylized flourish at the end.

Cinda Bennett
Owner and President

OCP&E is a 100% WBE/SDB/SBE and a certified drug-free and alcohol free workplace.

Please continue to support a Woman Owned Business. Women and Minorities were adversely affected by the pandemic, and we need your help to continue our growth. Thanks for your support.

Sole-Source Provider for

The PADtrax RFID Evidence and Accountability system from C&A Associates is the only system available that has successfully employed RFID technology to fully track and monitor items of evidence through the entire evidence management process in a Law Enforcement environment. With PADtrax agencies account for and track tagged evidence items from intake through movement into and out of an area secured with RFID detection devices. This document details reasons why this system is unique and outlines the reasons why the PADtrax system is a sole-source product with patents issued by the U.S. Patent Office (US 9,836,936 B1). PADtrax is the first structure specifically designed for the use of RFID Technology throughout the entire process of tracking evidence and evidence chain-of-custody assurance, and as such is the only product that is available for this use (i.e. it is a Sole Source product for tracking evidence in a Law Enforcement environment).

A common application for RFID integrators is to make a provision in software that allows an RFID "Smart Label" to be attached to an item so that it can be located with a handheld reader. While this does accomplish the task of making item location easier, it does not assist with any other process of item handling.

Some integrators do attempt to go beyond this by implementing "Chokepoint" or "Pinchpoint" technology into tracking. However, these attempts are often very coarse in their approach. This is because they log the status of a tagged item based on whether the mounted hardware successfully reads the tag. This process may be adequate in situations of less-critical tracking, more predictable movements (such as forklifts and conveyor belts), or situations where items can take a long time to be read, this would not be adequate for evidence room environments.

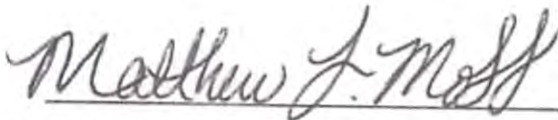

This is because of a few very important factors:

1. Evidence is transported in and out of evidence by humans. Human bodies introduce a multitude of effects in RF environments

2. Humans never do the same thing twice. Sometimes items are carried on the left, sometimes the right, etc.
3. Different quantities of items move quickly through the door each time.
4. Most critically, stationary items are often stored within the distance the RFID antenna can read moving objects. This means RFID chokepoint systems must be able to distinguish between moving and stationary items, which is often quite difficult to do in environments that are not tightly controlled (such as lab and testing environments). Most adjustments made to accomplish this are performed at a tradeoff (reliability, read time, etc). PADtrax utilizes proprietary phase-angle analysis and other algorithms in order to make decisions regarding tag movement, inventory, and more.
5. PADtrax analyzes a multitude of data in near-real-time to determine whether a RFIDtagged item is on the inside or outside of the closed door of the evidence room, because such measures are critical when tracking the movement of evidence, which is different than tracking things as they move across a loading dock, conveyor belt, etc.
6. PADtrax is designed to minimize the amount of physical constraint on users. The PADtrax system will accommodate the variances in the way evidence officers move items in and out.

These steps, and other procedures in the software, have allowed C&A Associates to receive award and issuance of a patent from the U.S. Patent Office for our use of RFID Technology specifically towards evidence chain-of-custody. We only use PADtrax for evidence accountability which sets us apart from other companies offering one system for all installations.

As the inventor and owner of the PADtrax product line, C&A is the sole-source provider for the PADtrax Evidence Accountability System.

Persistent Systems, LLC is the Original Equipment Manufacturer and sole North American distributor of the Wave Relay® system. Though Persistent does have an International Reseller Program, Persistent's Resellers are not authorized to resell Persistent's products within the United States or Canada. Finally, since Persistent does not prohibit its customers from reselling Persistent products, we cannot guarantee that you will not find Persistent products available for sale in the United States or Canada from entities other than Persistent.

Subject: NEOGOV Sole Source Letter

October 16, 2023

This letter is to confirm that Governmentjobs.com, Inc. (D/B/A/ NEOGOV), on behalf of itself and its subsidiaries PowerDMS, Inc., Cuehit, Inc., Ragnasoft LLC (D/B/A/ PlanIT Schedule), and Design PD, LLC (D/B/A Agency360) (collectively, "NEOGOV") is the sole source provider of PowerPolicy, a cloud-based software as a service ("SaaS") platform that combines document management, training and accreditation management, and electronically links that content to alert users whenever a change may impact compliance. As a result of our investment in innovation and unique expertise working in public safety, we have created a one-of-a-kind solution. A few of the unique properties of the system include:

- PowerPolicy uniquely links critical content to state and national standards to alert staff when changes may impact their compliance
- PowerPolicy helps manage and maintain crucial content including digital signatures and comprehensive workflows
- PowerPolicy, coupled with PowerStandards, uniquely links critical content to state and national standards to track and maintain continual compliance
- PowerPolicy offers public facing linkability for public transparency
- PowerPolicy offers a fully compatible mobile application that allows full acknowledgment as well as importing documents anytime from anywhere.
- PowerPolicy offers a full integration to most document formats for ease of editing
- PowerPolicy offers side-by-side comparison across all version's history of documents
- PowerPolicy offers customized analytics and scheduled delivery reporting

In addition, all PowerDMS training, system documentation, hosting services, information security, and software maintenance for the products listed herein are provided by or through NEOGOV personnel.

Note, this letter is for information purposes only. Recipients are advised to conduct independent analysis to determine whether procurement regulations applicable to their agency permit sole-source procurement.

Please let us know if you require any further information regarding our services.

Sincerely,

Joshua Snyder

PRIDE is a self-funded enterprise whose mission makes a positive difference in Florida. We make communities safer and save taxpayers money by training eligible inmates in vocational skills and transitioning them into the job market upon completion of their sentences. This job-centered approach lowers the number of repeat offenders and reduces criminal justice costs for all citizens. Customers invest in Florida when they purchase PRIDE products and services by starting the training-to-job cycle. PRIDE is not run for a profit; instead we combine enterprise with social mission to create a positive impact on communities, people, and customers.

we are
PRIDE

IMPACT THROUGH INDUSTRY

about**PRIDE**

For over 40 years PRIDE has helped keep Florida communities safe by significantly reducing recidivism rates of ex-offenders. Inmates receive real world skills through over 37 job training programs in 17 state facilities offering hundreds of certifications that prepare them for re-entry into communities as productive citizens. Inmates that participate in PRIDE training programs are three times less likely to commit a new offense upon release from a correctional institution than non-participants.

Collaborating with the Florida Department of Corrections (FDC), PRIDE offers TABE and GED Academy programs at every PRIDE Industry institution. These online software programs are offered within our Career Resource Centers (CRC) and prepare inmates for their successful GED completion. The normal flow begins with an inmate starting with TABE Academy, advance to GED Academy, and finally, the FDC administers the GED test. PRIDE's GED program participants allow the FDC to increase the number of inmates preparing and completing his/her GED.

In the photo at left, you have: Govinda Rai, Braille Manager, Remero Green, Director, Mission Programs, Inmate Victor Mackey, GED graduate, and Julia Gonzalez, Workforce Development Specialist.

PRIDE is the only private program of its type in the US and operates as a not-for-profit corporation, with board oversight, to fulfill four missions defined by Florida statute. PRIDE is funded exclusively through the net proceeds from sales of products and services manufactured by PRIDE inmate training programs. PRIDE serves as a model example of the privatization of government functions and reduces the cost of state government for Florida's taxpayers by millions of dollars every year.

moving**FORWARD**

As PRIDE enters a new decade, we continue to centralize our focus on embracing new technology as directed by our Strategic Plan. Significant financial resources are being invested in state-of-the-art computers/servers, upgraded infra-structure hardware/software systems, and cybersecurity detection and monitoring software. Installation of sophisticated firewalls that block access to our network and a rigorous cybersecurity framework will ensure that our company and customers' digital processing will be processed efficiently and securely.

Our IT professionals, with the assistance of highly qualified IT consultants are developing not only advanced security systems, but a new platform for both our website and e-commerce portal. Our unified web experience will provide customers with an experience that provides product information, an automated shopping cart, and will be linked directly with PRIDE's re-designed website. We are also rebuilding

our entire infrastructure from a “greenfield” base. No system that operated on our legacy servers or workstations will be used.

These investments will not only allow us to meet the future needs of our customers but will enhance our ability to offer meaningful vocational and job training work programs to our inmate workforce. As we progress through the next year, we will also explore opportunities to upgrade our ERP system and provide a customer relationship management solution that will benefit both our organization and our customers.

We urge you to contact our Customer Service Department if you have any questions regarding the ordering process or any concern about a specific order. Thank you for your patience during our rebuilding phase and for your support of the PRIDE mission.

Re: Microclor® OSHG Systems

Dear Ms. Pierre,

PSI Water Technologies, Inc. ("PSI") of Milpitas, California proposes to supply new and repaired electrolytic cells and ancillary components to the City of Margate for use in the City of Margate's Microclor® On-Site Hypochlorite Generation (OSHG) System. The Microclor® OSHG System is designed, manufactured, and supplied by PSI. The system, which is the subject of one or more patents and patent applications (see www.psipatents.com) employs a unique vertical cell design. PSI is the sole manufacturer and supplier of the proprietary electrolytic cells utilized in the Microclor® OSHG Systems.

PSI employs factory-trained service technicians who possess extensive experience in the installation, start-up, repair and refurbishment of the Microclor® OSHG System. Additionally, Odyssey Manufacturing Co. (Odyssey) is the exclusive manufacturer's representative for PSI within the State of Florida for Microclor® OSHG Systems and replacement components, including electrolytic cells. No other representative or distributor can offer or sell the Microclor® OSHG Systems, or provide maintenance, repair and replacement parts and services for Microclor® OSHG systems in the State of Florida.

If you have questions, please contact our Regional Sales Manager, Pete Kyrkos, at 614/477-7329.

Sincerely,

Guy Chadwell

PSTrax Sole Source Letter

Margate Fire Department

Prepared for:

Fire Chief Robert Lorenzo

Margate Fire Department
1835 Banks Rd.
Margate, FL. 33063

PSTrax is the industry-leading Operations Readiness and Logistics Management system for Fire & EMS agencies. We offer agencies across the world a cloud-based system consisting of seven modules that automate your vehicle, equipment, inventory, and controlled substance checks. Pick and choose which modules your agency would like to start with. We will implement a custom-configured system for your agency and help maintain and update the system after implementation is complete.

Our goal is to build long-term relationships with each of our clients.

November 30, 2023

Robert Lorenzo Fire Chief
Margate Fire Department
1835 Banks Rd.
Margate, FL 33063

Re: Sole Source Provider

Fire Chief Lorenzo,

This letter is to inform Margate Fire Department, that Station Automation, Inc. (dba PSTRax) is considered a sole source provider in its space and has been purchased as such by other major fire departments across the country.

Multiple unique differentiators make PSTRax a sole source provider. We have provided them below.

Specialty Solution

PSTRax is the industry-leading Operations Readiness and Logistics Management system for Fire & EMS agencies and has been for over 14 years. Agencies across the world utilize PSTRax to consolidate all their operations checks – Vehicle, SCBA, PPE, Critical Asset, Station, Inventory and Controlled Substance – into a single, cloud-based solution. Your agency will be able to manage and track all its apparatus, equipment, inventories, and controlled substances in one place.

Tailored Solution

PSTRax currently provides seven modules – Vehicle, SCBA, PPE, Critical Asset, Station, Inventory, and Controlled Substance. Your agency can tailor the solution to its needs by selecting which modules best fit your greatest needs. If you do not start with all the modules, you can add additional modules later. This is very different than other companies that require you to purchase an entire solution even if you do not need all the functionality. PSTRax is the sole provider of the modules it provides.

Unique Functionality

PSTrax is the only stand-alone company specifically focused on operations checks and logistics management for Fire & EMS agencies. This is very different than other companies that have different core competencies (RMS, Training, EMS supplies, etc.) but “bolt-on” basic solutions in an attempt to be a “one-stop-shop”. PSTrax has 14 years of experience in this space and has developed deep functionality that is unique to us.

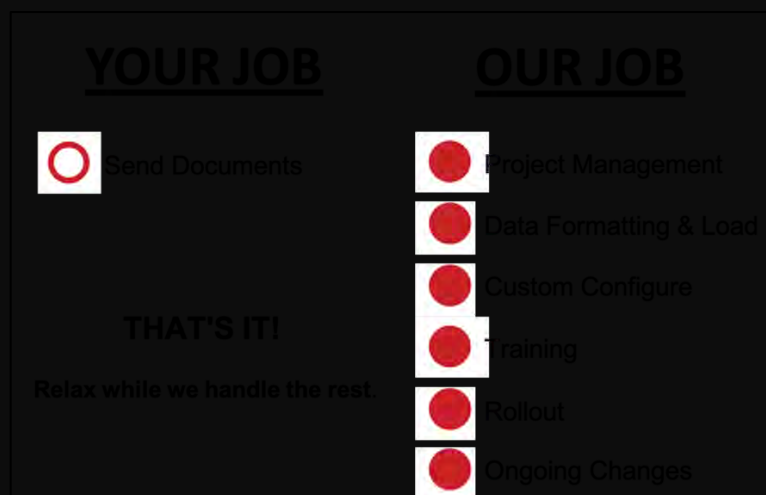

Custom Configured To You

We recognize that each agency is as unique as the community it serves. PSTrax is completely custom configured for each agency based on its processes and requirements. The system will be built to the specifications of your agency. This is very different than other solutions in our space that have a “boilerplate template” approach that agencies must conform to.

Full-Service Solution

We combine proprietary software, in-house consultants and unlimited ongoing support to custom-configure a completely turnkey system built specifically for your agency based on your requirements. PSTrax is the only full-service solution in the marketplace.

The diagram below shows all the services provided by PSTrax. No other vendor offers this full-service approach.

Built For You

No one wants to take on another project and build another software program. We take the project off your plate and will build a custom-configured system based on your requirements. This is very different than other vendors that require the client to take on the implementation project themselves. Our implementation team will meet with your agency on an initial project kickoff meeting to discuss your checklists, apparatus, equipment, inventories, and roster. Then, you simply email us your documents in any format. From there, we will manage the entire project from beginning to end. Our team will normalize your data, import it into the system, configure the system based on your processes, and deliver a turnkey solution ready for rollout.

Unlimited Support

Other vendors have hour limits or hourly fees for customer support. These services are unlimited with PSTrax. Your agency can contact our support team at any time for assistance. We are available via phone and email to assist. Alternatively, support tickets can be submitted directly to the system.

Unlimited Training

Other vendors have hour limits or hourly fees for customer support. These services are unlimited with PSTrax. Our team will provide a full training program during the initial implementation and create custom video training resources based on your processes. We will also provide ongoing training throughout the term of the agreement upon request.

Unlimited Ongoing Changes

Other vendors have hour limits or hourly fees for ongoing changes. These services are unlimited with PSTrax. In addition to building the system for your agency, we also help maintain it over time. We act as your “administrative assistant” to make any changes you do not wish to make yourself. As with any software program, there will be changes and adjustments needed over time. For example, you may want to make system configuration changes, you may purchase new equipment or vehicles that need to be loaded and setup in PSTrax, or you may need to adjust checklists or inventories for a particular apparatus. Your agency can make these changes itself, or we will do it for you.

No Hardware Investment

PSTrax is a cloud-based system that can be used with any device – phone, tablet, computer, tough book – and any operating system. This means your agency can continue to use the existing hardware it has already invested in. All data is stored in the cloud, not on the devices themselves. This helps ensure your data is always safe. Additionally, multiple crew members can complete checks at the same time. This means that 3 or 4 person crews can work together as a team to complete checks in real-time using their devices.

Made For Crews

Designed for crews first. PSTrax is the most intuitive and easy to use system for operations checks. This ensures a high adoption rate with the crews and the long-term success of the system. PSTrax is built with responsive design and scales to look great regardless of the screen size or device being used. This is very different than other vendors in the space that have “clunky” systems or systems built with older technology that is not easy to use and/or cannot be used on different devices.

Own Your Data

Your data is your data. We store it safely in the cloud for you. Your agency has full rights and full access to its data. Information can be exported directly from the system anytime. PSTrax can also provide full data extracts upon request. This is very different than some other vendors that keep the data if an agency cancels their service.

If you have any additional questions or would like to schedule a demo, please do not hesitate to contact us.

Thank You,

Scott Bergeron, President

Subject: Purafil Sole Source Letter

F.J. Nugent & Associates, Inc., represented by Jason Alberga, Purafil ESD's sole and exclusive authorized representative for chemical filtration and environmental monitoring products and service for Purafil in all parts in Florida except the panhandle. This includes all publicly owned and operated water and wastewater treatment facilities in South, Central, and Eastern Florida.

F.J. Nugent & Associates, Inc. is the ONLY company in South, Central, and Eastern Florida which is authorized and technically supported by Purafil ESD of Doraville, GA, USA to market, distribute, service, and support Purafil ESD current and future installations in the municipal market.

Purafil ESD's technology comes with several no charge added value services, required to be performed for proper system installation and performance. F.J. Nugent is authorized, and factory trained by Purafil as a Purafil authorized service provider for Purafil, Inc. technologies.

Also, as per Purafil ESD's operating principles - one of many things that the end user gets is free access to Purafil ESD scientists and technical support team. This is crucial to an end user, as gaseous contaminants are known to change over time. This in turn would require Purafil to get involved and recommend a more unique or tailored chemical media for the removal of these newly introduced contaminants. If the original product is not a Purafil, Inc. supported product, this service like many others will not be extended.

Thank you.

Sincerely,

Chad Douglas

RE: Sole Source Manufacturer/Distributor

PVP Communications, Inc is the sole manufacturer/distributor of PVP helmet communications. These helmet communication systems are uniquely designed to address the specific communications and safety needs dictated by the use of motorcycles in the field of law enforcement.

PVP Communications' ***Motor-One™*** and ***Freedom™ Wireless Systems*** are designed, patented, manufactured and distributed exclusively by PVP Communications under United States Patents 6,311,052; 7,062,301; 7,203,525 and 9,042,944. The Motor-One and Freedom Wireless systems are the only product of its kind that incorporates ***Bluetooth®*** wireless technology in police motor applications.

All PVP products are proudly made in the USA!

PVP Communications is the only establishment that can provide a complete helmet, PVP headset and a factory installation as a complete package.

Our **Sidekick** line of headsets are the only ones available to integrate cell phone with a two-way radio for law enforcement. The **Sidekick** line is patent pending.

PVP Communications also understands the importance of product reliability and support with our customers and provides not only a one-year limited warranty, but telephone technical support and modular designs that provide ease of maintenance for customers in the field.

We look forward to being of service to you in the future!

Sincerely,

Jay Calzada
VP of Operations

Please be advised that Radarsign LLC, is the manufacturer and sole authorized provider of the Radarsign brand speed feedback signs. The models include the TC-400, TC-400AC, TC-600S, TC-600AC, TC600Z, TC-800S, TC800AC, TC1100S, and TC1100AC.

Each model has unique features in the industry that are not found on other manufacturer's standard offerings:

TC-400

- Hinged door opening to battery packs allow the front portion of the sign to be disconnected from the rear portion with no tools required, making the sign very portable and easy to transport.
- Thick aluminum plate that covers the entire display area, and full polycarbonate cover that when combined, provide the most vandal resistant design in the industry.
- Standard Wi-Fi connection for operation of the sign requires no special software, apps, or hardware, allowing any smart phone, tablet or laptop to manage the radar sign operation up to 300 feet from the sign.
- Over the air software upgrades using Wi-Fi, so software fixes and upgrades can be done in the field.
- Possum Switch feature allows the radar sign to 'play dead' for 30 minutes when attached by force.

TC-600S & TC-600AC

- Thick aluminum plate that covers the entire display area, and full polycarbonate cover that when combined, provide the most vandal resistant design in the industry.
- Standard Wi-Fi connection for operation of the sign requires no special software, apps, or hardware, allowing any smart phone, tablet or laptop to manage the radar sign operation up to 300 feet from the sign.
- Over the air software upgrades using Wi-Fi, so software fixes and upgrades can be done in the field.
- Possum Switch feature allows the radar sign to 'play dead' for 30 minutes when attached by force.
- Full Matrix display with 13" tall display includes word alerts SLOW DOWN and TOO FAST. Additional message alerts include smiley face, red/blue strobe, simulated camera flash, sharp curve, left and right facing chevrons, thank you, fine alert, sharp curve and school zone.

TC-800S & TC-800AC

- Thick aluminum plate that covers the entire display area, and full polycarbonate cover that when combined, provide the most vandal resistant design in the industry.
- Standard Wi-Fi connection for operation of the sign requires no special software, apps, or hardware, allowing any smart phone, tablet or laptop to manage the radar sign operation up to 300 feet from the sign.
- Over the air software upgrades using Wi-Fi, so software fixes and upgrades can be done in the field.
- Possum Switch feature allows the radar sign to 'play dead' for 30 minutes when attached by force.
- Full Matrix display with 15" tall display includes word alerts SLOW DOWN and TOO FAST. Additional message alerts include smiley face, red/blue strobe, simulated camera flash, sharp curve, left and right facing chevrons, thank you, fine alert, sharp curve and school zone.
- Secured external battery housings allowing field battery changes.

TC-1100S & TC-1100AC

- Thick aluminum plate that covers the entire display area, and full polycarbonate cover that when combined, provide the most vandal resistant design in the industry.
- Standard Wi-Fi connection for operation of the sign requires no special software, apps, or hardware, allowing any smart phone, tablet or laptop to manage the radar sign operation up to 300 feet from the sign.
- Over the air software upgrades using Wi-Fi, so software fixes and upgrades can be done in the field.
- Possum Switch feature allows the radar sign to 'play dead' for 30 minutes when attached by force.
- Full Matrix display with 18" tall display includes word alerts SLOW DOWN and TOO FAST. Additional message alerts include smiley face, red/blue strobe, simulated camera flash, sharp curve, left and right facing chevrons, thank you, fine alert, sharp curve and school zone.
- Secured external battery housings allowing field battery changes.

Thank you for very much for considering Radarsign brand products.

Best Regards,

Anna Duckworth

Subject: City of Margate, FL – Margate WTP
RDP Project #25024

Lisa,

In response to your request, The TEKKEM™ Slaking system is a fully automatic low maintenance method of slaking lime . The engineered system installed at Margate, FL is proprietary in nature, specifically developed for RDP's Tekkem Slaker system. As such, it is protected by U.S. patent #5,746,983, #7,416,673, and #8,133,401 B2. While RDP is appreciative of the bonds that we have formed with the city of Margate, in particular the Margate WTP, we would be unable to support or troubleshoot "third party" components that were purchased to substitute that which was originally manufactured and configured for RDP's proprietary process.

Please do not hesitate to contact me if you require further clarification on the contents of this letter.

Very truly yours,
RDP Technologies, Inc.

Re: Service and Repairs for the Ruselectric
Equipment Located at Everest Waste Water Facility
Ruselectric shop order number 32913

Dear Kimberly,

The letter is to confirm that Siemens Industry, Inc. dba Ruselectric, A Siemens Business does not authorize nor does it recognize maintenance, upgrades or repairs performed by third parties on Ruselectric Control and Switchgear equipment. The Emergency equipment manufactured by Siemens Industry, Inc. dba Ruselectric, A Siemens Business and installed at your facility is a custom built system. Siemens Industry, Inc. dba Ruselectric, A Siemens Business maintains a staff of factory employed and fully trained field service engineers that are qualified to perform annual inspections, maintenance, repairs and necessary enhancements and upgrades. There are no third party service organizations that have the expertise, experience and record documentation to enable them to fully support a complex specialty system of this type. Further, any maintenance or modification work performed on your Ruselectric equipment by third parties will not be documented at Siemens Industry, Inc. dba Ruselectric, A Siemens Business and will prevent Siemens Industry, Inc. dba Ruselectric, A Siemens Business from providing competent emergency service when required.

We hope this meets with your approval and if you have any questions, please feel free to contact us.

Very truly yours,

David Crider

RE: Spacesaver Representation

Dear Ms. Pierre:

Spacesaver distributes its products through a network of Area Contractors. Each Spacesaver Area Contractor under obligation and contract is required to sell, service and install Spacesaver High Density Mobile Storage Systems, compact shelving and storage products in their given Primary Area of Responsibility. Patterson Pope has sole authority of these responsibilities in the state of Florida.

Spacesaver specifies that all installations must be performed by factory trained and certified technicians. I confirm that Patterson Pope is the only Spacesaver authorized installation / service technicians certified to install, service, move or add on to any new or existing Spacesaver system in their primary area of responsibility. Any existing Spacesaver system must be moved by a factory trained and certified Spacesaver installer in order to maintain its warranty and the availability of parts.

No other party other than Patterson Pope is authorized, trained or certified (which is contingent on activating and maintaining warranty) to conduct Spacesaver work in this territory. Please also note that the warranty is void if work is done by others and no other company can purchase replacement or upgrade parts for the Spacesaver systems.

We are pleased to have this firm represent Spacesaver and to have their experienced staff available locally to address your product and service needs. Spacesaver Corporation thanks you for your interest in our products and services.

Sincerely,

SPACESAVER CORPORATION

MADE IN 

Sole Source for STALKER II Stationary Directional Radar

This is to confirm and verify that Applied Concepts, Inc., 855 E. Collins, Richardson, TX 75081 is the sole source manufacturer of the **STALKER II Stationary Directional Radar**. There is no other Stationary Directional Radar instrument being manufactured that meets the specifications below:

- **Stationary Directional Radar** - The Stalker II SDR, stationary directional radar, has the range and performance of a vehicle-mounted radar in a versatile hand-held package with patented direction-sensing technology.
- **Directional-sensing, Strongest and Faster Display** - in all target modes, and Faster Target Lock in all target modes come standard on all of Stalker's police radar guns. DSP technology enables faster speed tracking and track-thru lock, just like Stalker's dash-mount radars.
- **Both In-Car and Motorcycle Use** - Installed either as a fixed radar using Stalker's dedicated vehicle or motorcycle mounts, or hand-held and stowed in a lockable motorcycle holster, the Stalker II has proven itself to be reliable, accurate, and durable, mile after mile.
- **Three Window Backlit Rear Display** - Backlit LCD with 3 speed windows. The display's LCD windows simultaneously show the Strongest Target, Faster Target, and has direction arrows that indicate the direction of travel for both the Strongest and Faster targets separately.
- **Full-Function Remote Control** - The full function remote control adds to the Stalker II's versatility and provides direct access to the operator settings that can also be accessed in the Operator Menu.
- **Detachable Battery Handle** - With its detachable high-capacity battery handle, the Stalker II is easily mounted to any law enforcement vehicle and will go from hand-held to dash mount and back to hand-held in a snap.
- Applied Concepts, Inc was awarded an ISO 9001:2015 Certificate of Registration for design, manufacture, and service of speed measurement products. This is unique in our market segment.

All Stalker Radar products are made in the USA and are in full compliance with the Buy American Act.

The **STALKER II Stationary Directional Radar** can only be purchased directly from Applied Concepts, Inc. or through one of our Regional Sales Managers.

Respectfully Submitted,

William H. Titterington

Sole Source for STALKER Lidar RLR Speed Measurement Instrument

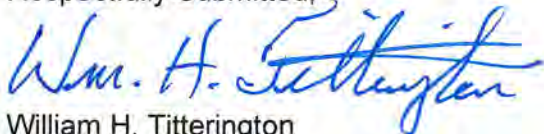

This is to confirm and verify that Applied Concepts, Inc., 855 E. Collins, Richardson, TX 75081 is the sole source manufacturer of the **STALKER Lidar RLR Speed Measurement Instrument**. There is no other Lidar instrument being manufactured that meets the specifications below:

- **Weight & Durability** - The Stalker RLR Lidar is a mere 2.3 lbs & is lighter than any comparable hand-held laser on the market. Built to perform under the harshest conditions. Waterproof & dustproof, it is the only Lidar gun in the industry that has passed the stringent MIL-STD-810H Transit Drop Test.
- **Power Versatility** – The RLR's lithium-ion battery pack snaps instantly into the pistol grip, provides power for at least two shifts, and withstands more than 500 charging cycles. Alternately, the RLR AA uses six alkaline or Ni-MH rechargeable AA batteries.
- **Acquisition & Range** – The RLR's average target acquisition time of 1/3 of a second or less, & range in excess of 9,000 ft, makes the RLR a very effective speed enforcement tool.
- **C-Thru Mode Technology** - Stalker Lidar RLR's C-Thru Technology enables the lidar to track targets despite the presence of trees, leaves, bushes, utility poles, and other obstructions between it and the target.
- **Windshield / Obstruction Mode** – The Inclement Weather/Obstruction Mode allows the unit to work in rain, snow, blowing dust, fog, as well as through fences and tree branches.
- **School Zone/Construction Zone Mode** – Set the RLR to track vehicles only within an operator-defined area, such as a school zone or construction zone. All other vehicles will be ignored.
- Applied Concepts, Inc was awarded an ISO 9001:2015 Certificate of Registration for design, manufacture, and service of speed measurement products. This is unique in our market segment.

All Stalker Radar products are made in the USA and are in full compliance with the Buy American Act.

The **STALKER Lidar RLR Speed Measurement Instrument** can only be purchased directly from Applied Concepts, Inc. or through one of our Regional Sales Managers.

Respectfully Submitted,

William H. Titterington

**Sole Source for STALKER SAM/SAM-R (Speed Awareness Monitor) Trailers
And Stalker MC360 (Message Center) Trailers**

This is to confirm and verify that Applied Concepts, Inc., 855 E. Collins, Richardson, TX 75081 is the sole source manufacturer of the **STALKER SAM/SAM-R Trailers and STALKER MC360 Trailers**. There is no other trailer instrument being manufactured that meets the specifications below:

- **Fast, Long-Range Radar** - The Stalker Street Dynamics' SAM trailer features the same radar technology used by over 85% of state law enforcement agencies in the US.
- **Solar/Battery Power** - Top-mounted solar panels recharge a day's worth of battery use with only 2.5 hours of bright sunlight, while our 4D & 6V deep-cycle batteries provide 18 to 21 days of continuous operation, yielding longer operational time in reduced sunlight times.
- **Display Graphics and Messages** - The Stalker Trailers feature advanced LED technology that makes the lights brighter without putting additional strain on the battery. The LEDs also remain at consistent brightness throughout the battery's discharge cycle. Consistently Bright Display Legible at 1,000'.
- **Collect Traffic Data** - In addition to measuring speeds, the radar unit in the speed trailers can be used to collect and store traffic data including vehicle speeds, vehicle classification, 85th percentile data, and more.
- Stalker Radar is the sole source supplier for the Speed Awareness Monitor (SAM & SAM-R) & the Message Center 360 (MC360) trailers for Law Enforcement & Public Works. All 3 trailers are manufactured by Hill & Smith, Inc. (formally Precision Solar Controls) located in Garland, Texas.
- Applied Concepts, Inc was awarded an ISO 9001:2015 Certificate of Registration for design, manufacture, and service of speed measurement products. This is unique in our market segment.

All Stalker Radar products are made in the USA and are in full compliance with the Buy American Act.

The **STALKER SAM/SAM-R Trailers And Stalker MC360 Trailers** can only be purchased directly from Applied Concepts, Inc. or through one of our Regional Sales Managers.

Streamline Automation Systems, LLC develops, markets and supports our proprietary systems used for Streamline Inspections. Our proprietary SaaS (Software as a Service) technology is the only one of its kind in the industry that is a 100% cloud based administrative portal with the option to license the Streamline Inspections Apple iPad or Windows Mobile Tablet application directly to the cloud database. No other solution on the market can claim to be completely cloud based and work in off-line mode with iPad devices or Windows Tablets in the field to the extent to which our software allows. Our solution combines features like a Permitting module, a module for Community Risk Reduction (CRR) to include home safety surveys and smoke detector installs as well as a smoke detector database and API integration and data from The Compliance Engine. An optional Risk Assessment module is now also available to create risk assessment profiles of properties and place them on heat maps in the system. We also support customer portals for Self-Certification of violations and e-mail templates to send notifications. All components of our system are designed and produced by Streamline Automation Systems in Roseville, California.

Re: Sole Source Symbiont™ Provider

Dear Ms. Bono:

Symbiont Service Corp. is the exclusive distributor of the Symbiont™ GeoThermal Pool/Spa heater, which is manufactured by AquaCal in St. Petersburg, Florida. AquaCal manufactures these heaters designed and engineered specially to Symbiont™ specifications. The heater is labeled as a Symbiont™ with a special model number and AquaCal sells them exclusively to Symbiont Service Corporation.

As long as the Symbiont™ model heater is installed by Symbiont Service Corp., it comes with a five-year labor and seven year all parts warranty. Additionally, Symbiont Service Corp. is the factory-authorized provider of parts and service to support this specialized warranty. Any repairs performed by an unauthorized repair facility will void the warranty for the Symbiont™ heater.

Please feel free to call me if you have any questions or concerns at 1-800-881-4328 or you can e-mail me at sandy@symbiontservice.com.

Sincerely,
Symbiont Service Corp.

**RE: Teleflex LLC—Sole Source for the Arrow™ EZ-IO™
Intraosseous Vascular Access System**

Dear Valued Customer:

Thank you for your interest in the Arrow™ EZ-IO™ System, which uses a proprietary patented needle and power driver technology. Teleflex is the sole manufacturer of these components. The EZ-IO™ System is currently the only battery-operated intraosseous vascular access device that may be extended for up to 48-hour dwell time.*

Through our direct sales team, Teleflex LLC, a wholly owned subsidiary of Teleflex Incorporated, markets, sells and/or services all non-federal Arrow™ EZ-IO™ Device customers within the continental United States.

Please call our customer service to assist you with any questions or concerns: 1-866-246-6990.

This letter is to confirm that the MPV armored rescue vehicle is a sole source product that is manufactured, sold and distributed exclusively by Terradyne Armored Vehicles Inc. No division of Terradyne Armored Vehicles Inc. nor any other company makes a similar or competing product. Unique features of the MPV include:

1. Unaltered Ford F550 base chassis frame rails, driveshaft, fuel lines, brake lines and exhaust system for proven reliability and Ford warranty support
2. 145 inch wheelbase
3. One-piece windshield for optimum field of view
4. Demonstrated testing and compliance with Federal Motor Vehicle Safety Standards
5. NIJ IV ballistic resistance compliance at zero degrees obliquity at the top end of the specified velocity range. The competition advertises NIJ IV ballistic protection at 30 degrees obliquity. The NIJ standard specifies ballistic resistance at zero degrees obliquity.
6. .30-06 M2 Armor Piercing multi-hit capability on opaque armor tested to NIJ IV parameters
7. .50 M33 multi-hit capability on opaque armor tested to UL 752 Level 10 parameters
8. On board power deployable skip shield with NIJ III ballistic protection
9. Remote power door lock actuators
10. Superior interior space and head protection when situated on outboard rails compared to other products
11. Optional 3 inch thick bolt-on transparent armor for multi-hit armor piercing resistance
12. NATO 4569 Level II full vehicle destructive ballistic & blast tested
13. NTOA Member Tested & Certified
14. Highest in-class ballistic resistance capabilities
15. USAF air transport certified for C-130, C-17 and C-5 aircraft
16. Curb weight does not exceed Ford F550 19,500 lb Gross Vehicle Weight Rating
17. Automated chemical munitions delivery system – patent pending.
18. The only tactical armored vehicle available on the Florida Sheriffs Association Cooperative Purchasing Program

This product must be purchased directly by government agencies from Terradyne Armored Vehicles Inc. at the address listed above. If you require additional information, don't hesitate to contact me at 905-895-1010 Extension 710 or visit our website at www.terradyneinc.com.

Thank you for your interest in our products.

Dear Mr. Lisa Pierre:

THOR GUARD, Inc is the sole manufacturer and sole, authorized marketer of THOR GUARD Lightning Prediction and Warning Systems. THOR GUARD is the only company in the world that manufactures a true lightning prediction system based on changes and shifts of earth's electrostatic atmosphere.

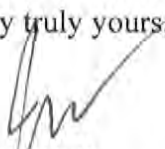

THOR GUARD products are American made. All aspects of our business including our executive team, employees, research, development, and manufacturing are based in Sunrise, Florida.

THOR GUARD products are designed and operate through the use of our exclusive proprietary technology. Our Patent and Trademark numbers are 4,095,221 and 2,390,039, respectively. THOR GUARD has not authorized any company or individual to manufacture our products or utilize our unique trade secret engineering and software systems. We are not a franchisor. Only authorized sales and services representatives of THOR GUARD have access to authentic, THOR GUARD products as well as the service expertise to properly install and maintain our systems.

We hope this position statement provides you with the necessary information to distinguish THOR GUARD lightning prediction technology from existing lightning detection systems which assert to compete with THOR GUARD.

Thank you for your continued support of THOR GUARD products. Please contact us if you have any questions or require additional information.

Very truly yours,

Jason Wolk

To whom it may concern,

This letter is in response to a request for a Sole Source Letter from our company.

U.S. Saws Inc is the sole manufacturer of the (US75005) VEX400 BATTERY POWERED VALVE EXERCISER. The product engineers at U.S. Saws Inc developed this product and manufacturing techniques that, to our knowledge, no other manufacturer utilizes or duplicates.

Some exclusive features include: a hand trigger guard, overload protection, (3) shaft extensions, a stable two-legged base design feature that eliminates the need to brace the exerciser when operating making it less injury prone and a shear pin protected gearbox that protects the operator and the machine from damage.

All components are proudly made in the USA.

Sincerely,

David Glynn

Justification Letter

*Training Management | Operations & Asset Management | Workforce Management |
Early Intervention and Performance Management | EHS Management*

This document serves as a justification letter for Vector Solutions' integrated suite of systems for online training and live skill evaluations (Vector LMS and Vector Evaluations+), operations and asset management (Vector Check It), workforce management (Vector Scheduling), early intervention and performance management (Guardian Tracking) and EHS Management, which are all developed and provided solely by Vector Solutions, the industry's leading provider of solutions to train, prepare, and retain your personnel.

Service Description

Vector Solutions' industry-leading online training, operations, scheduling, evaluations, early intervention and performance, and EHS management system is a comprehensive suite of proprietary web-based solutions for Fire and EMS departments and is the industry's only all-in-one operational hub for the management of training, assets, employee scheduling, skill assessments and safety compliance. The unique, one-of-a-kind software features exclusive software tools built with fire departments in mind, including best-in-class training courses and recordkeeping applications.

Training

Vector Solutions features the industry's leading Learning Management System (LMS) for scheduling, delivering, tracking, and reporting online courses and in-person training.

The software was developed for fire and EMS departments and when creating it, Vector Solutions leveraged partnerships with the NFPA and CAPCE to develop a new approach to training and continuing education. With the abundance online education available via the internet, Vector LMS has revolutionized fire and EMS training and continued education, which allowed departments to offer online training from any location and with minimal loss of personnel productivity. In addition to convenience and compliance benefits, the online training methodology, which has become common across all industries, can be completed at a fraction of the cost of managing and delivering classroom education using traditional methods.

Key features of Vector LMS include:

- Vector Solutions features the industry's leading learning management system for scheduling, delivering, and tracking online training courses.
- Vector Solutions offers more than 500 hours of training for fire departments, including more than 250 hours of accredited EMS continuing education courses.
 - Vector Solutions is organizationally accredited through CAPCE, the Commission on Accreditation for Pre-Hospital Continuing Education.
 - Vector Solutions features NFPA 1001, NFPA 1021, NFPA 1410, NFPA 1500, as well as Occupational Safety and Health Administration (OSHA), and more in its training catalog.
- The Vector Solutions platform features unique applications for managing fire department training, recordkeeping, and compliance tasks, including:
 - Activities Builder to assign custom training.
 - Credentials Manager to automate required training, onboarding, license renewals, etc.
 - ISO Training Tracker that offers an easy way to record hours spent on live skills training, simplifying ISO compliance.
 - Community Resources to share resources like policies, training programs, etc. across ECCs.
 - File Center to store your policies, bulletins, training resources, and more.
 - Test Builder to validate comprehension of training phases, policies, and more.
 - Report Generator to monitor training status of all personnel with an at-a-glance dashboard of who is overdue on their required training.
 - Events Manager to schedule training and manage registrations, or to keep staff up to date on upcoming events.
- Vector LMS Enterprise enables agencies to collaborate in a shared training platform while still managing their own Vector Solutions sites.

Live Skills Training

Vector Evaluations+, a live skill evaluation solution, modernizes skill assessments with electronic skill sheets and forms that are accessible via a mobile app or web-based system.

Key features of Vector Evaluations+ include:

- Agencies can eliminate paper processes and record, evaluate, and verify officer competencies in the field.
- Record an entire crew's training in a few clicks and sync in the LMS training management platform.

- Trainees better comprehend their performance and areas needed for adjustment with live video capture of their tactics and techniques.
- In addition to recording videos and taking photos from the Evaluations+ app, best practice resources can be uploaded to help trainees comprehend a technique or strategy.
- The app comes with a library of pre-built skill sheets, or agencies can easily create their own to best suit their own needs.
- Multiple electronic signatures confirm both the trainee and supervisor have signed off to confirm an assessment or performance review. Additional layers of signatures can be added as needed, as is often required by public safety agencies.
- Use the Evaluations+ app to document performance reviews and other operational activities, like observation reports for group trainings.
- Sync your mobile data through the workforce management LMS platform for a better 360-view into your personnel's overall competencies. This also simplifies record keeping by enabling agencies to keep all data in one place.

Inspections and Asset Management

The Vector Solutions platform can be extended to the Vector Check It operations and asset management system for conducting inspections of equipment, apparatus, and inventory.

Key features of Vector Check It include:

- Integrated always available mobile application and web-based platform accessible from anywhere streamlines inspections and maintenance for vehicles, equipment, controlled substances, medical supplies, and other logged inventory.
- 24/7 real-time views of equipment status and location.
- Exclusive module for secure, cradle-to-grave management of controlled substances for ALS agencies.
- Secure tracking of expiration dates of all types of controlled substances and other resources assigned to a specific vehicle, person, or storage facility.
- Built-in verification features, such as eSignatures, employee pin numbers, and facial recognition technology, to ensure accountability.
- Push notifications, email alerts, and custom check-step comments to communicate the completion of an inspection, create check-step comments, or notify supervisors of issues.
- Ability to open service tickets for apparatus or equipment in need of repair to track its status, costs, and other information with intuitive workflows.

- Produce comprehensive reports with visually-driven data to view check history, performance, and other measurable steps, empowering agencies to make informed decisions when submitting annual reports or budget requests.

Scheduling Personnel

Vector Scheduling provides a workforce management and employee resourcing software built for the complex organizational tasks for mission-critical industries.

Key features of Vector Scheduling include:

- A snapshot overview of shift schedules, minimum staffing levels, and employees' qualification in a dynamic workforce management dashboard.
- Meeting the needs of a mobile workforce, the accompanying mobile app keeps your teams connected and enables them to accept shifts, respond to callbacks, and more from their mobile devices.
- The ability to send mass employee notifications via calls/texts/pages/push notifications to a team or the entire department in seconds, speeding response time in the event of a critical incident.
- Give your personnel the convenience of checking schedules and requesting a day off or shift trade from their mobile device. Similarly, supervisors can check, approve, or deny requests as needed from their mobile devices.
- Automated approvals or denials based on agency-defined qualifiers can also be implemented, ensuring policies set by unions or other overseeing entities are abided by.
- Intelligent reporting offers insight into overtime and special assignments trends.
- Automate overtime hiring and reduce grievances with agency-defined, intelligent rules to assign the right staff quickly and fairly to the right shifts and assignments.
- Customizable and exportable reports to empower agencies to make informed decisions when submitting annual audits or budget requests. Reports include in-depth filters to analyze employee hours, payroll, overtime, and more.
- Access the program through the workforce management and operational LMS platform.

Early Intervention and Performance Management

Guardian Tracking is a performance management and early intervention solution that helps transform the culture within agencies by equipping personnel with a process for consistent feedback and positive recognition and helps identify personnel in need of intervention before an adverse event takes place. No other software offers the breadth of

functionality for performance documentation, early intervention, or early recognition provided by our proprietary platform.

Key features of Guardian Tracking include:

- Protect the health and well-being of your first responders.
- Flag firefighters for increased screening to catch cancer sooner.
- Identify first responders who might need additional mental health support.
- Document how you protect the health of your team.
- Minimize absenteeism, burnout, and hours lost to illness.
- Encourage more peer-to-peer recognition.
- Increased productivity and teamwork.
- Improved job satisfaction.
- A team that feels a strong connection to your agency's mission.
- Better immediate and consistent performance feedback.
- Improved evaluation process with tangible data to support your ratings.

Environment, Health, and Safety

Vector EHS Management is a comprehensive safety tracking solution that offers a web-based system and mobile application to streamline incident reporting, corrective actions and producing OSHA forms.

Key features of Vector EHS Management include:

- A mobile application that streamlines the incident reporting process and records incident details at the scene for accurate account of what occurred.
- Easily manage the claims process and track every variable to minimize costs of worker's compensation or employee leave.
- Track hazards or potential exposures with detailed reports and notify key stakeholders.
- Assign corrective actions after incident investigations, such as refresher training, and communicate corrective tasks to personnel through Vector EHS Management.
- Automatically translate incident reports to produce OSHA forms 300, 300A and 301 to easily export OSHA logs.
- Comprehensive reports show incident history to identify trends, address problem areas and more.
