CITY OF MARGATE
REQUEST FOR QUALIFICATIONS – RFQ 2024-008
WEST WWTP UPGRADES

I. PROJECT BACKGROUND: The City of Margate's wastewater treatment infrastructure comprises two semi-independent plants: the East Wastewater Treatment Plant (WWTP) and the West WWTP. The East WWTP, operating a conventional activated sludge process, has a capacity of 2.2 million gallons per day (MGD), while the West WWTP, utilizing rotating biological contactors (RBC), can handle 7.9 MGD. Both plants are strategically positioned to allow the diversion of influent flow between them as necessary, with the East WWTP's effluent directed to the West WWTP for final disinfection and disposal.

II. PROJECT NARRATIVE AND KEY OBJECTIVES: Established in 1984, the West WWTP is experiencing significant aging and wear, particularly in its headworks and RBC unit's functionality. This has resulted in frequent mechanical failures and considerable maintenance challenges. The City's capital improvement project is set to address these issues and aims to achieve the following key objectives:

Rehabilitation of the West WWTP Headworks: Structural rehabilitation and replacement of various components, including the bar screen, screening conveyor, aerated grit removal system, concrete repairs and relining, piping replacements, and more.

Replacement of RBC Units with Conventional Activated Sludge (CAS) Process: Construction of CAS aeration basin structures with fine bubble diffusers, replacing the RBC basins.

Construction of Additional Infrastructure: This includes building a new blower building, electrical room, secondary clarifier, and a return activated sludge/waste activated sludge (RAS/WAS) pump station. Converting existing secondary clarifiers and sludge pump stations to CAS service.

Capacity Increase: Expanding the capacity of the West WWTP to a minimum of 10.1 MGD, ideally to 12 MGD. This will equal or exceed the combined current capacities of the East and West WWTPs. The plan includes centralizing all influent flows to the upgraded West WWTP and decommissioning the East plant.

III. FUNDING AND PROJECT DELIVERY: This project envisioned as a fixed-price design-build (FPDB) initiative, requires the contractor to ensure that the upgraded facility can efficiently handle the increased capacity without negatively impacting the performance of the remaining treatment processes. Importantly, the project is slated to be funded through

state revolving funds or via bonds, with the City actively securing the necessary financing to commence construction in FY 2025.

IV. QUALIFICATIONS: The contractor must be capable of upgrading the West WWTP to handle the increased capacity efficiently while maintaining the integrity and performance of the entire treatment system in alignment with the City's funding and construction timeline. The respondents to this RFQ shall have Senior Professional Staff with demonstrated experience in the planning, design, permitting, construction management, administration, oversight, and operational start-up of municipal wastewater treatment facilities. Services during this Agreement are expected to consist of planning, design, permitting, construction engineering, and funding services. These qualifications are essential to ensure that the selected contractor has the appropriate state-recognized credentials, technical expertise, and experience to undertake and successfully complete the WWTP upgrades in compliance with Florida's regulatory standards and industry best practices:

Professional Engineering and Contractor Licenses in a Team:

- Professional Engineering licensed in various relevant fields for water and wastewater construction projects. These licenses include environmental, civil, mechanical, structural engineering, and others.
- Additionally, having in-house professional engineers and Design-Build Institute of America (DBIA) professionals is beneficial for value engineering and design-build projects.
- Mandatory possession of a specific Florida state contractor license is appropriate for the scope of work involved in wastewater treatment plant upgrades. This may include licenses in general construction, mechanical, plumbing, electrical, site utility, underground utility and excavation, and others. These certifications are critical to ensure the contractor has the necessary skills and knowledge to manage and execute complex WWTP upgrade projects successfully.

Proven Experience and Expertise in WWTP Upgrades: Demonstrated experience in large-scale upgrades, especially transitioning from RBC to CAS systems.

- At least 10 years of Florida State experience in designing, implementing, and upgrading water and wastewater treatment systems, including at least 5 years of experience in wastewater treatment systems, including significant components like advanced biological treatment processes, aeration systems, and effluent quality improvement technologies.
- Completing at least two (2) similar projects within the wastewater treatment industry in the last 10 years, demonstrating successful outcomes.

Resource Availability: Access to necessary resources, including skilled labor, industry experts, equipment, and materials.

Financial Stability: Strong financial health to assure timely and risk-free project completion.

Environmental and Safety Compliance: A track record of adhering to environmental regulations and safety standards.

Local Knowledge and Presence: Familiarity with local ordinances, regulations, and ideally, a local office for efficient project management.

Innovative and Sustainable Practices: Ability to employ innovative, efficient, and sustainable methods in wastewater treatment processes.

4.2 The DESIGN BUILDER shall provide services as expeditiously as is consistent with reasonable skill and care and the orderly progress of design and construction.

4.3 Time limits stated in the Contract Documents are of the essence of this Agreement. The WORK to be performed under this Agreement shall commence upon execution of a notice to proceed unless otherwise agreed and, subject to authorized Modifications, Substantial Completion shall be achieved as indicated in Article 14.

4.4 The Date of Substantial Completion of the WORK or an agreed upon portion thereof is the date when construction or an agreed upon portion thereof is sufficiently complete so the OWNER can occupy and utilize the WORK or agreed upon portion thereof for its intended use.

4.5 The schedule provided in the DESIGN BUILDER'S Proposal shall include a construction schedule consistent with Paragraph 4.2 above.

4.6 If the DESIGN BUILDER is delayed in the progress of the Project by acts or neglect of the OWNER, OWNER'S employees, separate Contractors employed by the OWNER, changes ordered in the WORK not caused by the fault of the DESIGN BUILDER, labor disputes, fire, unusual delay in transportation, adverse weather conditions not reasonably anticipatable, unavoidable casualties, or other causes beyond the DESIGN BUILDER'S control, or by delay authorized by the OWNER'S pending arbitration or another cause which the OWNER and DESIGN BUILDER agree is justifiable, the Contract Time shall be reasonably extended by Change Order.

4.7 CHANGE OF CONTRACT TIME:

ALL TIME LIMITS STATED IN THE CONTRACT DOCUMENTS ARE OF THE ESSENCE OF THE AGREEMENT. NO CLAIM FOR DAMAGES OR ANY CLAIM OTHER THAN FOR AN EXTENSION OF TIME SHALL BE MADE OR ASSERTED AGAINST THE CITY BY REASON OF ANY DELAYS. DESIGN BUILDER shall not be entitled to an increase in the Contract Price or payment or compensation of any kind from CITY for direct, indirect, consequential, impact or other costs, expenses or damages including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference or hindrance from any cause whatsoever, whether such delay, disruption, interference be reasonable or unreasonable, foreseeable or unforeseeable, or avoidable or unavoidable; provided, however, that this provision shall not preclude recovery of damages by DESIGN BUILDER for hindrances or delays due solely to fraud, bad faith or active interference on the part of CITY or its agents. Otherwise, DESIGN BUILDER shall be entitled only to extensions of the Contract Time as the sole and exclusive remedy for such resulting delay, in accordance with and to that extent specifically provided above. No extension of time shall be granted for delays resulting from

normal weather conditions prevailing in the area as defined by the average of the last ten (10) years of weather data as recorded by the United States Department of Commerce, National Oceanic and Atmospheric Administration at the Fort Lauderdale Weather Station.

4.8 NO RECOVERY FOR EARLY COMPLETION:

If the DESIGN BUILDER submits a schedule or expresses an intention to complete the WORK earlier than any required milestone or completion date, the CITY shall not be liable to the DESIGN BUILDER for any costs incurred because of delay or hindrance should the DESIGN BUILDER be unable to complete the WORK before such milestone or completion date. The duties, obligations and warranties of the CITY to the DESIGN BUILDER shall be consistent with and applicable only to the completion of the WORK and completion dates set forth in this Agreement.

4.9 LIQUIDATED DAMAGES:

Upon failure of the DESIGN BUILDER to complete the WORK within the time specified for completion, (plus approved extensions if any) DESIGN BUILDER shall pay to CITY the sum of five hundred and xx/100 dollars (\$500.00) for each calendar day that the completion of the WORK is delayed beyond the time specified in the Contract for completion, as fixed and agreed liquidated damages and not as a penalty. Liquidated damages are hereby fixed and agreed upon between the parties, recognizing the impossibility of precisely ascertaining the amount of damages that will be sustained by CITY as a consequence of such delay and both parties desiring to obviate any question of dispute concerning the amount of said damages and the cost and effect of the failure of DESIGN BUILDER to complete the Contract on time. Regardless of whether or not a single Contract is involved, the above-stated liquidated damages shall apply separately to each portion of the WORK for which a time of completion is given. CITY shall have the right to deduct from and retain out of moneys which may be then due or which may become due and payable to DESIGN BUILDER, the amount of such liquidated damages and if the amount retained by CITY is insufficient to pay in full such liquidated damages, the DESIGN BUILDER shall pay in full such liquidated damages. DESIGN BUILDER shall be responsible for reimbursing CITY, in addition to liquidated damages or other per day damages for delay, for all costs of engineering, and inspection and other costs incurred in administering the construction of the project beyond the completion date specified or beyond an approved extension of time granted to DESIGN BUILDER whichever is later.

ARTICLE 5

PAYMENTS

5.1 CONTRACT PRICE:

CITY shall pay DESIGN BUILDER in current funds as full compensation for the performance of all the WORK subject to additions and deductions by Change Order as provided in this Agreement, the Contract Price of \$ _____,

5.2 PROGRESS PAYMENTS:

5.2.1 The DESIGN BUILDER shall deliver to the OWNER itemized Application for Payment in such detail as indicated in Article 14. DESIGN BUILDER may requisition payments for WORK completed during the project at intervals of not more than once a month. The DESIGN BUILDER'S requisition shall show a complete breakdown of the project components, the quantities completed and the amount due, together with a certification by the DESIGN BUILDER that the DESIGN BUILDER has disbursed to all subcontractors and suppliers their pro-rata shares of the payment out of previous progress payments received by the DESIGN BUILDER for all WORK completed and materials furnished in the previous period or properly executed releases of liens by all subcontractors, suppliers and materialmen who were included in the DESIGN BUILDER'S previous applications for payment, and any other supporting documentation as may be required by the ENGINEER or Contract Documents. Each requisition shall be submitted in triplicate to the ENGINEER for approval. The CITY shall make payment to the DESIGN BUILDER within thirty (30) calendar days after approval by the ENGINEER of the DESIGN BUILDER'S requisition for payment.

5.2.2 Five percent (5%) of all monies earned by the DESIGN BUILDER shall be retained by the CITY until the WORK is totally completed as specified, and accepted by the CITY unless, at some point during the construction period, a retainage reduction is required to comply with Section 218.735(8), Florida Statutes.

5.3 The Application for Payment shall constitute a representation by the DESIGN BUILDER to the OWNER that, to the best of the DESIGN BUILDER'S knowledge, information and belief, the design and construction have progressed to the point indicated; the quality of the WORK covered by the application is in accordance with the Contract Documents; and the DESIGN BUILDER is entitled to payment in the amount requested.

5.4 The DESIGN BUILDER shall pay each subcontractor, upon receipt of payment from the OWNER, out of the amount paid to the DESIGN BUILDER on account of such Subcontractor's WORK, the amount to which said Subcontractor is entitled in accordance with the terms of the DESIGN BUILDER'S contract with such Subcontractor. The DESIGN BUILDER shall, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to sub-Subcontractors in similar manner.

5.5 The OWNER shall have no obligation to pay or to be responsible in any way for payment to a Subcontractor of the DESIGN BUILDER except as may otherwise be required by law.

5.6 No progress payment or partial or entire use or occupancy of the Project by the OWNER shall constitute an acceptance of WORK not in accordance with the Contract Documents.

5.7 The DESIGN BUILDER warrants that: (1) title to WORK, materials and equipment covered by an Application for Payment will pass to the OWNER either by incorporation in construction or upon receipt of payment by the DESIGN BUILDER, whichever occurs first; (2) WORK, materials and equipment covered by previous Applications for Payment are free and clear of liens, claims, security interests or encumbrances, hereinafter referred to as "liens"; and (3) no WORK, materials or equipment covered by an Application for Payment will have been acquired by the DESIGN BUILDER, or any other person performing work at the site or furnishing materials or equipment for the Project, subject to an agreement under which an interest therein or an encumbrance thereon is retained by the seller or otherwise imposed by the DESIGN BUILDER or such other person.

5.8 If the Agreement provides for retainage, within 30 calendar days after reaching the earlier of substantial completion or beneficial occupancy, the CITY and the contractor will inspect the work and develop a punch list covering those items required to render complete, satisfactory, and acceptable the construction services purchased by the CITY. The punch list will include a schedule of values that provides the estimated cost to complete each item on the punch list. If the CITY and DESIGN BUILDER are unable to agree on an item or value, the CITY has final discretion whether to include an item and the amount for valuation of the cost to complete each item on the punch list. Within 20 business days after the creation of the punch list, the remaining contract balance, including retainage, will be paid to the contractor less an amount equal to 150 percent of the cost to complete the items on the punch list. Upon reaching final acceptance for an item or all items, the 150 percent withheld for each item will be released with final payment. For projects valued at \$10 million or more, the 30 calendar day period may be extended to 45 calendar days.

5.9 FINAL INSPECTION:

Upon written notice from DESIGN BUILDER that the entire WORK or an agreed portion thereof is complete, CITY and ENGINEER will make a final inspection and will notify DESIGN BUILDER in writing of all particulars in which this inspection reveals that the WORK is incomplete or defective. DESIGN BUILDER shall immediately take such measures as are necessary to remedy such deficiencies.

5.10 FINAL APPLICATION FOR PAYMENT:

After DESIGN BUILDER has completed all such corrections to the satisfaction of CITY and ENGINEER and delivered all maintenance and operating instructions, schedules, guarantees, bonds, certificates of inspection, marked up record documents and other documents required by the Contract Documents, and after ENGINEER has indicated that the WORK is acceptable, DESIGN BUILDER may make application for final payment. The final application for payment shall be accompanied by (1) complete and legally effective releases or waivers of all liens arising out of or filed in connection with the WORK; or (2) DESIGN BUILDER'S receipts in full covering all labor, materials and equipment for which a lien could be filed; or (3) a final affidavit stating that all laborers, materialmen, suppliers and Subcontractors who worked for DESIGN BUILDER under this Contract have been paid in full or if the fact be otherwise, identifying the name of each lienor who has not been paid in full and the amount due or to become due each for labor, services or materials furnished. If any Subcontractor or supplier fails to furnish a release or receipt in full, DESIGN BUILDER may furnish a bond satisfactory to CITY to indemnify CITY against any lien.

In addition, DESIGN BUILDER shall also submit with the final application for payment, the completed set of "As-Built" drawings for review and approval. The "As-Built" drawings shall be

prepared, sealed and certified by a professional registered land surveyor licensed by the State of Florida. Final payment to DESIGN BUILDER shall not be made until said drawings have been reviewed and approved by ENGINEER. Prior to approval, if necessary, the drawings may be returned to DESIGN BUILDER for changes or modifications if in the opinion of ENGINEER they do not represent correct or accurate "As-Built" drawings.

5.11 FINAL PAYMENT AND ACCEPTANCE:

5.11.1 If, on the basis of ENGINEER'S observation of the WORK during construction and final inspection, and ENGINEER'S review of the final Application for Payment and accompanying documentation, ENGINEER is satisfied that the WORK has been completed and DESIGN BUILDER'S other obligations under the Contract Documents have been fulfilled, ENGINEER will, within ten (10) calendar days after receipt of the final Application for Payment, indicate in writing ENGINEER'S recommendation of payment and present the Application to CITY for payment. Thereupon ENGINEER will give written notice to CITY and DESIGN BUILDER that the WORK is acceptable. Otherwise, ENGINEER will return the Application to DESIGN BUILDER, indicating in writing the reasons for refusing to recommend final payment, in which case DESIGN BUILDER shall make the necessary corrections and resubmit the Application. Thirty (30) calendar days after presentation to CITY of the Application and accompanying documentation, in appropriate form and substance, and with ENGINEER'S recommendation and notice of acceptability, the amount recommended by ENGINEER will become due and will be paid by CITY to DESIGN BUILDER.

5.11.2 If, through no fault of DESIGN BUILDER, final completion of the WORK is significantly delayed and if ENGINEER so confirms, CITY shall, upon receipt of DESIGN BUILDER'S final Application for Payment and recommendation of ENGINEER, and without terminating the Agreement, make payment of the balance due for that portion of the WORK fully completed and accepted. If the remaining balance to be held by CITY for WORK not fully completed or corrected is less than the retainage stipulated in the Agreement, and if bonds have been furnished as required, the written consent of the surety to the payment of the balance due for that portion of the WORK fully completed and accepted shall be submitted by DESIGN BUILDER to ENGINEER with the Application for such payment. Such payment shall be made under the terms and conditions governing final payment, except that it shall not constitute a waiver of claims.

5.11.3 Final payment, constituting the entire unpaid balance of the Contract Price, shall be paid by the CITY to the DESIGN BUILDER when the WORK has been completed, the Contract fully performed, and a final certificate for payment has been issued by the ENGINEER. The making of final payment shall constitute a waiver of claims by CITY except those arising from:

- .1 Liens, claims, security interests or encumbrances arising out of this Agreement and unsettled.
- .2 Faulty or defective WORK and latent defects discovered after acceptance.
- .3 Failure of the WORK to comply with the requirements of the Contract Documents.
- .4 Terms of special warranties required by the Contract Documents.

.5 Any of DESIGN BUILDER'S continuing obligations under this Agreement.

The acceptance of final payment by DESIGN BUILDER or the Subcontractor for materials and supplies shall constitute a waiver of claims by that payee except those previously made in writing and identified by payee as unsettled at the time of final application for payment.

5.12 CITY'S RIGHT TO WITHHOLD PAYMENT:

The CITY may withhold in whole or in part, final payment or any progress payment to such extent as may be necessary to protect itself from loss on account of:

5.12.1 Defective WORK not remedied.

5.12.2 Claims filed or reasonable evidence indicating the probable filing of claims by other parties against the DESIGN BUILDER.

5.12.3 Failure of the DESIGN BUILDER to make payments to Subcontractors or suppliers for materials or labor.

5.12.4 Damage to another DESIGN BUILDER not remedied.

5.12.5 Liability for liquidated damages has been incurred by the DESIGN BUILDER.

5.12.6 Reasonable evidence that the WORK cannot be completed for the unpaid balance of the Contract Price.

5.12.7 Reasonable evidence that the WORK will not be completed within the Contract Time.

5.12.8 Failure to carry out the WORK in accordance with the Contract Documents.

When the above grounds are removed or resolved or the DESIGN BUILDER provides a surety bond or a consent of surety satisfactory to the CITY which will protect the CITY in the amount withheld, payment may be made in whole or in part.

5.13 FINAL PAYMENT:

5.13.1 Neither final payment nor amounts retained, if any, shall become due until the DESIGN BUILDER submits to the OWNER (1) an affidavit that payrolls, bills for materials and equipment, and other indebtedness connected with the Project for which the OWNER or OWNER'S property might be liable have been paid or otherwise satisfied, (2) consent of surety, if any, to final payment, (3) a certificate that insurance required by the Contract Documents is in force following completion of the WORK, and (4) if required by the OWNER, other data establishing payment or satisfaction of obligations, such as receipts, releases and waivers of liens arising out of this Agreement, to the extent and in such form as may be designated by the OWNER. If a DESIGN BUILDER refuses to furnish a release or waiver required by the OWNER, the DESIGN BUILDER may furnish a bond satisfactory to the OWNER to indemnify the OWNER against such lien. If such lien remains unsatisfied after payments are made, the DESIGN BUILDER shall reimburse the OWNER for moneys the latter may be compelled to pay in discharging such lien, including all costs and reasonable attorneys' fees.

5.13.2 Final payment constituting the entire unpaid balance due shall be paid by the OWNER to the DESIGN BUILDER upon the OWNER'S receipt of the DESIGN BUILDER'S final Application for Payment when the WORK has been completed and the Contract fully performed except for those responsibilities of the DESIGN BUILDER which survive final payment.

5.13.3 The making of final payment shall constitute a waiver of all claims by the OWNER except those arising from:

- .1 unsettled liens;
- .2 faulty or defective WORK appearing after Substantial Completion;
- .3 failure of the WORK to comply with requirements of the Contract Documents;
- .4 terms of special warranties required by the Contract Documents.

5.13.4 Acceptance of final payment shall constitute a waiver of all claims by the DESIGN BUILDER except those previously made in writing and identified by the DESIGN BUILDER as unsettled at the time of final Application for Payment.
