Variance Criteria:

- Sec. 40.323(E)2 ULDC
 - *5 Criteria*

Variance Criteria:

- It shall be demonstrated that special conditions and circumstances exist which, if there is a literal and strict enforcement of the provisions of a zoning ordinance, would constitute a hardship or practical difficulty in the use of the property involved.

Variance Criteria:

- Owner's preference or economic disadvantage does not constitute a hardship. A self-created hardship does not constitute grounds for a variance.

Variance Criteria:

- No nonconforming use of neighboring lands, structures or buildings in the same district, and no permitted use of lands structures or buildings in other districts shall be considered grounds for a variance.

Variance Criteria:

- The Board shall find that the granting of the variance will not be contrary to the public interest or the general purpose sought to be accomplished by the zoning ordinances, is the minimum variance possible to make reasonable use of the land or structure, and shall not constitute that granting of a special privilege. In granting a variance, the Board may prescribe appropriate safeguards and conditions in conformity with the intent of the Code.
