## City of Margate, Florida

April 3, 2025

To the Honorable Mayor, Members of the City Commission, and Citizens of the City of Margate:

We are pleased to present the City of Margate's Annual Comprehensive Financial Report (ACFR) for the fiscal year ended September 30, 2024. State law requires that all general-purpose local governments publish a complete set of audited financial statements within nine months of the close of each fiscal year. The financial statements included in the report conform with generally accepted accounting principles (GAAP) and are audited by a firm of licensed certified public accountants in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States.

This report consists of management's representations concerning the financial operations and condition of the City. Responsibility for both the reliability of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh its benefit, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. To the best of our knowledge and belief, this financial report is complete and reliable in all material respects and is reported in a manner that presents fairly the financial position and results of operations of the various funds of the City of Margate.

State statutes require an annual audit by independent certified public accountants. The goal of the independent audit is to provide reasonable assurance that the City's financial statements for the fiscal year ended September 30, 2024, are free of material misstatement. Citrin Cooperman & Company LLP, a firm of licensed certified public accountants, has audited the City's financial statements and issued an unmodified ("clean") opinion for the fiscal year ended September 30, 2024. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor's report is located at the front of the financial section of this report.

As a recipient of federal, state, and county financial assistance, the City is subject to annual single audits in conformity with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and Chapter 10.550, Rules of the Auditor General of the State of Florida. Expenditures of federal awards and state financial assistance were above the applicable thresholds for the fiscal year ended September 30, 2024. Therefore, the City was required to have audits in accordance with the Uniform Guidance and Chapter 10.550.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of Transmittal is designed to complement MD&A and should be read in conjunction with it. The City’s MD&A can be found immediately following the report of the independent auditors.

The City of Margate, (the “City”), was created as a municipal corporation by Chapter 30962, Laws of Florida, Acts of 1955, to be known as the Town of Margate. In 1961, the Town of Margate was incorporated as a City. The City is located in southeastern Florida in Broward County. It encompasses an area of approximately 9 square miles with a population of approximately 58,544. The U.S. Census Bureau lists a median household income of \$60,852.

The City operates under the City Commission/City Manager form of government. The City Commission consists of the Mayor, Vice Mayor, and three commissioners. The five commission members are elected at-large on a non-partisan basis for a four-year term. Effective with terms beginning November 2012, term limitations for City Commissioners are three consecutive four- year terms. The mayor is elected annually by the members of the City Commission for a one-year term, not to exceed two years in succession. The City Commission determines policy, adopts legislation, approves the City’s annual budget, and hires the City Manager, City Attorney, City Clerk, Assistant City Manager, Police Chief, and Fire Chief. The City Manager is responsible for carrying out the policies of the City Commission, overseeing the daily management of the City, and for appointing the City’s department directors.

The City provides a full range of services including police and fire protection, emergency medical, water and wastewater, stormwater, parks and recreation, public improvements, streets, planning and zoning, and general administrative. Internal services for the City which are accounted for on a cost reimbursement basis consist of workers’ compensation and general liability, automobile, and various other types of insurance. This report includes all funds of the City. The City is financially accountable for two blended component units which consist of the City of Margate Community Redevelopment Agency (CRA) and the Northwest Focal Point Senior Center (Center). All component units are included as an integral part of the City’s financial statements. Additional information on both of these legally separate entities can be found in the notes to the financial statements. In addition to being included in the City’s financial statements and as required by amended Florida Statute 163.387(8), the CRA has produced its own separate stand-alone financial statements for fiscal year ended September 30, 2024.

The annual budget serves as the basis for the City’s financial planning and control. All City departments are required to submit requests for appropriation to the City Manager. These requests are used as a starting point for developing a proposed budget. The City Manager then presents the proposed budget to the City Commission by August 15th of each year. The operating budget includes proposed expenditures/expenses and the means of financing them. The City Commission is required to hold public hearings on the proposed budget and to adopt a final budget by September 30th of each year. The appropriated budget is prepared by fund, function, and department. The City Manager may approve transfers of appropriations within a department; however, transfers of appropriations between departments or funds require approval of the City Commission. Budget to actual comparisons are provided in this report for governmental funds for which an appropriated annual budget has been adopted. Program based budgeting has been implemented for each General Fund department, as well as all funds to provide program descriptions, goals/objectives, actual and budgeted expenditures/expenses, and performance measures to facilitate the reader’s understanding of City programs.

### **Local economy**

The information presented in the financial statements may be better understood when it is considered from the broader perspective in which the City operates. The City of Margate is situated in the heart of South Florida, which consists of Broward, Palm Beach and Miami-Dade counties. Being centrally located in Broward County, Margate is easily accessible via Interstate 75, Interstate 95, Interstate 595, Sawgrass Expressway, and Florida’s Turnpike. It is only approximately twenty minutes from Fort Lauderdale-Hollywood International Airport and Port Everglades, one of the western hemisphere’s most accessible deep-water seaports for cargo, cruise and trade ships. Major economic influences in the area include housing, job market, tourism/travel, construction, tax reform, weather events, and various other items.

There are over 1,881 registered businesses in the City ranging from small local stores/service companies to national and international corporate headquarters. It is home to some major employers including Northwest Medical Center, City of Margate, Broward County Schools, Walmart and JM Lexus.

The local economy in Margate continues to show positive signs of economic growth. The City's total taxable assessed value provided by the Broward County Property Appraiser of \$4.4 billion for FY 2024 is an increase of 10.5% from FY 2023. According to the Broward County Property Appraiser, the average assessed value for single family homes in the City was \$233,252.

The following development projects are currently in construction, in development/permit review, or recently completed:

- Melaleuca Gardens is a proposed new residential development of fifteen townhouses for 508 Melaleuca Drive. The original structure was demolished in 2018 and the applicant is currently reviewing and resolving the DRC pre-screen comments; no permits have been submitted for the new structure.
- Legacy of Margate/Marquesa at 5203-5231 Coconut Creek Parkway is expected to begin construction in 2025 for four buildings along with a clubhouse for a new 220-unit apartment complex; demolition has been completed and plan review corrections are pending.
- Permit#23-4316 tenant improvements of \$3,000,000.00 in total cost of construction was submitted 12/27/2023 for Allegheny Technologies Inc (ATI). This project is expected to be completed in 2025.
- Permit#23-2847 for development of "phase II retail outparcel building" portion of "NUVO Margate Self Storage" was approved for issuance 6/12/2024. This project includes the new construction of a 7,685 SQ FT building with two retail bays located at 830 S State Road 7. The total cost of construction for this project is \$1.1 million.
- Demo Permit#23-3030 to demolish 3 tenant spaces at 7210, 7220 and 7230 W Atlantic Boulevard has received their final inspection for demolition and closed on 3/29/2024. Publix will be built out to one space of 51,390 square feet with new construction permit #22-3778 and expected to open in the Spring of 2025.
- Certificate of Occupancy was issued on 4/10/2024 to Chipotle located at 5671 W Atlantic Boulevard for new construction.
- Permit#23-4170 for Interior remodel of Starbucks located at 6700 W Atlantic Blvd received their final inspections and closed the permit on 5/17/2024.
- Bethel Church of God submitted Permit#23-4291 on 12/26/2023 for Pre-Plan Review church expansion for \$925,000 in total cost of construction. Plan review corrections are pending.
- Permit#23-3794 for pre-plan review of interior renovation of Picanha Brazilian Restaurant located 5650 W. Sample Road was issued 4/16/2024 and inspections are actively being requested. The project is expected to be completed at the end of 2024.
- Permit#19-3496 for Emergency Power Service System at Northwest Medical Hospital located at 2801 N State Road 7 was submitted 12/11/2019. The total cost of construction for this project is \$6 Million. Inspections for this project are currently being requested, currently the permit expiration for this project is 5/05/2025.
- The Forest is a proposed 300 multifamily unit residential development at 787 S. State Road 7 and call center parking lot expansion at 777 S. State Road 7. Applicant is reviewing to resolve DRC completeness.
- Proposed redevelopment of the plaza at 3271 N. State Road 7 (formerly Florida Career College) into a 321-unit apartment building and 6,000 square feet of commercial space is pending DRC submittal.

The business community in the City of Margate has increased by 0.5% over the prior year. The last of the vacant lots are being developed and the increase of redeveloping existing commercial areas continues. Going forward, redevelopment will be the primary activity for growth. The Development Services Department has been tasked with analyzing the City's comprehensive plans to best attract a variety of new businesses to the City.

The CRA continues to move forward in implementing programs and projects contained in the Community Redevelopment Plan. The CRA completed several projects during the year as well as signing a contract to purchase additional property. The CRA also has capital projects started or underway, but not completed in FY 2024 including construction of Chevy Chase Plaza Improvements, Southgate Boulevard Improvements, Margate Boulevard Improvements, SW 6th Street Improvements and Gateway Signs as part of its Wayfinding Signage program.

The CRA has Commercial Property Improvement Grant Programs designed to encourage property owners to voluntarily upgrade the exteriors of their property. The programs are for facade improvements and/or landscaping upgrades for commercial properties located in the target areas on a reimbursement basis for pre-approved improvements. Eligible expenses for facade improvements include design fees, permits, light fixtures, signage, painting, etc., while eligible expenses for the landscaping upgrades include design fees, asphalt removal, plant materials, irrigation systems, etc. The CRA also has a New Business Incentive Grant Program designed to help facilitate the establishment of new businesses within the CRA. The program provides financial assistance as a grant for new businesses to reduce costs associated with the construction of new buildings to house the new businesses, providing incentives of a 5% reimbursement of eligible construction costs up to a maximum of \$500,000, subject to program requirements. In FY 2023 the CRA began distribution of a residential Property Improvement Grant (PIP) program for homesteaded residents located within the MCRA District who qualify for the reimbursement grant for up to \$10,000 for exterior home improvements and continued the program for FY 2024.

### **Long-term financial planning and relevant financial policies**

The City continues to mitigate the economic impact of a recovering economy on staff and residents. While City revenues are showing continued growth from Florida's economy and the shifting of funds to yield higher interest rates, City expenditures are also showing the effects of inflation. The potential increase in expenditures will be absorbed into proposed budgets or handled with a budget amendment, as necessary, with an expected use of reserve funds. The City was awarded American Rescue Plan Act of 2021 (ARPA) monies totaling approximately \$11 million of which \$10 million was used for revenue replacement in FY 2023, while the balance of \$849,938 is to be obligated for a portion of the NW 8th Street Roadway Reconstruction Project to cover storm water, water and wastewater related costs.

The City produces a long-range financial forecast to demonstrate past experience and expected trends for revenues and expenditures. The analysis helps to guide staff, management, and the City Commission on the position the City can expect in the near-term and the distant future. The analysis aids in decision-making related to the operating budget, capital projects, and various policies. Major funds have a ten-year financial forecast produced and used to determine the impact of long-term liabilities and the revenue streams available for funding them. In addition, the long-range plan incorporates the City's strategic plan.

The City has implemented a comprehensive investment policy to set forth the investment objectives and the parameters for the management of public funds of the City. The policy is designed to safeguard the City's funds, ensure the availability of operating and capital funds when needed, and provide for an investment return competitive with comparable funds and financial market indices. The policy was established in accordance with Section 218.415, Florida Statutes which establishes investment plan guidelines for Florida local governments. The policy was approved on December 17, 2014, by resolution of the City Commission.

The investment policy permits investment of City monies in the Florida's State Board of Administration's (SBA) Florida PRIME Investment Pool, United States Government Securities, United States Government Agencies, United States Sponsored Agencies, Interest Bearing Time Deposit or Savings Accounts, Repurchase Agreements, Commercial Paper, Corporate Notes, Asset Backed Securities, Bankers' Acceptances, State and/or Local Government Taxable and/or Tax-Exempt Debt, Money Market Mutual Funds, and Intergovernmental Investment Pools.

All securities are purchased on a delivery-versus-payment basis, which requires the City to have possession of the security before releasing funds. Investment securities are only purchased from Qualified Financial Institutions and investment institutions that are designated as Primary Securities Dealers by the Federal Reserve Bank of New York.

The City follows the requirements for Governmental Accounting Standards Board (GASB) Statement No. 54 - Fund Balance Reporting and Governmental Fund Type Definitions which enhances the usefulness of fund balance reporting by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balance is reported in five components: nonspendable, restricted, committed, assigned, and unassigned. Fund balances classified as nonspendable are not in spendable form or are legally/contractually required to be maintained intact. Restricted fund balances are constrained for specific purposes imposed by external parties, law, or specific legislation; while committed fund balances are amounts constrained for specific purposes imposed by formal action of the City Commission. Assigned fund balances represent amounts intended to be used for a specific purpose with no formal constraints. Unassigned fund balance is the residual classification of the General Fund and represents the net resources available at the end of the fiscal year.

The City formally adopted by resolution a fund balance policy in September 2015. The policy defined the various components of fund balance and the City Commission delegated authority to the City Manager to assign fund balances as appropriate. The policy also set forth that where expenditures are to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted, committed, assigned, and lastly unassigned.

Additionally, in FY 2015, the City Commission committed \$1,060,302 of fund balance to be used for Citizen Project Initiatives which will remain committed until all monies are spent. In February 2017, the fund balance policy was amended to commit an additional \$20,030 from the Student Involvement fund balance and the Residents Projects fund balance. A separate investment account was also set up for these monies and any interest earned is added to the committed fund balance. During FY 2019, the Commission passed a resolution to use some of the funds to pay for a weekly bulk trash pickup throughout the City. During FY 2020, the Commission passed a resolution to use committed fund balance monies to provide a sponsorship program for the registration, class, or session fees for children to participate in various recreation sports leagues for up to \$150 per child and not to exceed \$100,000. In addition, the Commission also passed a resolution to use committed funds to provide masks and hand sanitizer for senior citizen residents in the City to aid in the fight against COVID-19 in an amount not to exceed \$100,000. In FY 2021, the Commission passed a resolution to continue to use funds for registration, class, or session fees for children to participate in various recreation sports leagues for up to \$150 per child, not to exceed \$100,000 (reduced by amounts paid in FY 2020). The total spent for registration, class or session fees for FY 2020 through FY 2022 was \$77,745. The remaining committed fund balance at September 30, 2024, was \$988,227, which includes interest income.

The City is pursuing long-term economic growth through attracting new business, supporting and encouraging improvements to existing businesses, stimulating job growth, providing exceptional recreational and cultural opportunities, and building a positive image for the community where people can live, work, shop, and enjoy entertainment in one central location. In addition, the CRA has strived to carry out the CRA's goal of creating an active and walkable entertainment, recreation, and commercial district.

As of September 2024, the City's average unemployment rate was 3.6% which was higher than last year's rate of 3.1%. The City's unemployment rate was slightly above the County unemployment rate of 3.4% and the statewide unemployment rate of 3.5%. The City Commission/Administration is working to have a well-planned City incorporating key components to ensure a positive quality of life for the residents, and an economically stimulating environment for businesses to prosper.

Tax reform legislation or Amendment 1, effective in October 2008, provided for an additional \$25,000 property tax exemption for homesteaded properties, portability of the Save Our Homes benefit, and a \$25,000 exemption on personal tangible property.

Effective in November 2012, tax reform legislation or Amendment 2, provided that veterans disabled due to combat injury would receive a homestead property tax discount; Amendment 9, provided for the homestead property tax exemption for the surviving spouse of military veterans or first responders; and Amendment 11, provided for an additional homestead exemption to low-income seniors who maintain long-term residency. This legislation has affected the City's current and future property tax revenues and is described in detail in the notes to the financial statements beginning on page 29.

For fiscal year 2024, the City experienced an increase in municipal taxable property value of approximately \$416 million (10.5%). The City's total millage of 7.6004 in FY 2024 was lower than the FY 2023 (.0504 decrease) total millage. This decrease is reflective of a 0.4833 debt service millage for the voter approved parks bonds. The operating millage for FY 2024 of 7.1171 remained the same as the FY 2023 operating millage. The City continues to adjust to economic challenges, while managing resources effectively, to maintain a high quality of services that Margate's residents have come to expect and enjoy.

The City has an award-winning Police Department and an ISO Class I Fire Department. Other recognitions and awards include Playful City, USA; Tree City, USA: National Association of Town Watch's "National Night Out" Award; the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting for FY 1987 through FY 2023; the GFOA's Distinguished Budget Presentation Award for FY 2018 through FY 2024; and the 2019 Granicus Digital Efficiency Award. In 2020, the City earned the Better Buildings Goal Achiever Award from the Department of Energy for reducing the City's overall energy use intensity by 21.3%. In 2021, the National Council for Home Safety and Security ranked the City as one of the top 50 Safest Cities in Florida; The City's Communications team has won 3 consecutive Telly Awards from 2022 through 2024, most recently for their short video series "Happy Holidays from Our Margate," and previously for their video series highlighting local businesses.

### **Major Initiatives and transitions**

General government initiatives include:

- The City Commission approved the implementation of a staffing level goal of three fire department personnel on a fire engine and three fire department personnel on a fire rescue vehicle, utilizing existing fund revenue, fund balance and grants.
- The Building and Code Services Department had an Atlas kickoff meeting on May 21st 2024. Atlas Insite offers a comprehensive solution for managing workforce efficiency, enabling instant assignment adjustments, and facilitating the review of fieldwork conducted by inspectors. Its mobile counterpart, Atlas Inspections, empowers Building and Code inspectors with a robust system for posting building inspections and code results directly from the field.
- A schedule of fees and charges for water and wastewater services based on the Comprehensive Water and Sewer Rate Study completed in September 2023 was approved by the Commission on December 6, 2023 and updated water and sewer utility rates went into effect on 1/1/2024. The fees will assist in repayment of future debt to be used for financing water and wastewater renewal and replacement projects.
- The Finance Department received approval to begin implementation and customization of an Enterprise Resource Planning (ERP) software with Aclarian LLC to replace their financial system that was in place since 1997.
- The City was awarded the GFOA Distinguished Budget Presentation Award for the seventh time for the FY 2024 Adopted Budget Book representing a major achievement for the City and the meeting of nationally recognized requirements for an effective budget presentation.
- Public Works Department received a grant in the amount of \$235,852 from Florida Department of Environmental Protection (FDEP) to develop a Municipal Vulnerability Assessment (MVA) report; and a grant for \$500,000, which was increased with an additional \$600,000 from the State of Florida for stormwater infrastructure repairs.

- The 2019 General Obligation Bond proceeds were used to fund various projects throughout the year.
  - As of the 2023 Bond Project Presentation, there are four projects planned. The projects include Calypso Cove Improvements, Southeast Park Improvements (phase II), Oriole Park improvements, and Centennial Park Improvements.
  - All four projects are on-going as of the end of Fiscal Year 2024.
- Governmental capital projects completed in FY 2024 included the completion of Fire Station 58, Building and restroom renovations to Northwest Focal Point Senior Center (NWFPS), improvements to Andrews Field, and improvements to Southeast Park field turf.
- Department of Environmental and Engineering Services (DEES) continue to replace various water mains and wastewater gravity/force mains throughout the City. In addition, DEES projects started and/or completed in FY 2024 include rehabilitation of the Water Treatment Plant (WTP) East Accelerator tank, WTP West Gravity filter rehabilitation, valve actuators installation, and high service pumps building structural repairs.
- Over the past fourteen years, the City has used reserves in some Funds to help balance the budget. Although the budget may have used monies from fund balance/net position to balance the budget, savings are typically realized in areas, such as vacant position personnel related costs, contracts, consultants, fees, and other cost control resources.

**Financial Reporting Award and Acknowledgements**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Margate, Florida for its Annual Comprehensive Financial Report for the fiscal year ended September 30, 2023. This was the thirty-sixth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program’s requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the Finance Department for their tremendous efforts and support. Sincere appreciation is also extended to the City’s independent auditors for their guidance and patience in producing this report. In closing, due credit should be given to the Mayor and City Commissioners for their dedicated support/policy guidance for City operations.

Respectfully submitted,

Cale Curtis  
City Manager

## INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and  
Members of the City Commission  
City of Margate, Florida

### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Margate, Florida (the "City"), as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules, and the schedules related to pensions and other post-employment benefits, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

"Citrin Cooperman" is the brand under which Citrin Cooperman & Company, LLP, a licensed independent CPA firm, and Citrin Cooperman Advisors LLC serve clients' business needs. The two firms operate as separate legal entities in an alternative practice structure. The entities of Citrin Cooperman & Company, LLP and Citrin Cooperman Advisors LLC are independent member firms of the Moore North America, Inc. (MNA) Association, which is itself a regional member of Moore Global Network Limited (MGNL). All the firms associated with MNA are independently owned and managed entities. Their membership in, or association with, MNA should not be construed as constituting or implying any partnership between them.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying budgetary comparison schedules, combining and individual nonmajor fund financial statements and schedules, and schedule of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and Chapter 10.550, *Rules of the Florida Auditor General*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the budgetary comparison schedules, combining and individual nonmajor fund financial statements and schedules, and the schedule of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

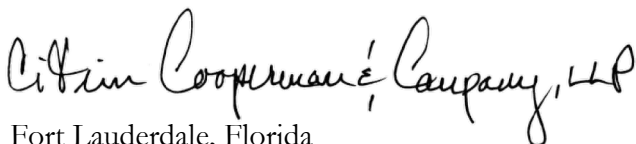

### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated April 3, 2025, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Fort Lauderdale, Florida  
April 3, 2025

# MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

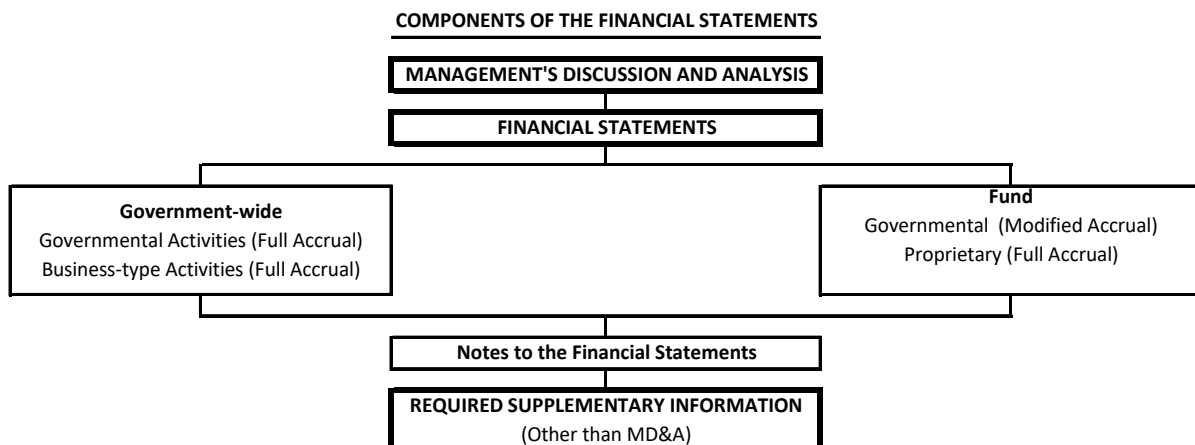

As management of the City of Margate, Florida (the City), we offer readers of the City’s financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2024. Since the management’s discussion and analysis (MD&A) is designed to focus on the current year’s activities, resulting changes and currently known facts, it should be read in conjunction with the transmittal letter and the City’s financial statements.

**Financial Highlights**

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of fiscal year 2024 by \$ 246.1 million (*net position*). Of this amount, \$ 19.7 million (*unrestricted net position*) may be used to meet the City’s ongoing obligations to citizens and creditors in accordance with the City’s fund designation and fiscal policies.
- The City’s net position increased by approximately \$ 25.4 million in comparison to the prior year. The business-type activities’ net position increased by \$ 8.9 million, while the net position of governmental activities increased by \$ 16.5 million.
- At the close of the current fiscal year, the City’s governmental funds reported combined ending fund balances of \$ 126.3 million, an increase of \$ 14.5 million in comparison with the prior year. Approximately 48.34% of this total amount, or \$ 61.1 million, is available for spending at the City’s discretion (*assigned and unassigned fund balances*).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$ 18.8 million, or 25% of total General Fund expenditures.
- The City’s total debt (bonds, leases and SBITAs) decreased by \$ 0.373 million.

**Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the City’s basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide Financial Statements:** The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Margate's finances, in a manner similar to a private-sector business.

The *statement of net position* shows the total assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of the City's financial health. The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods, i.e., uncollected taxes, and earned but unused vacation leave. The *statement of activities* provides a breakdown of revenues and expenses by function. Those functions generally supported by taxes and intergovernmental revenues, such as general government, public safety, economic and physical environment, culture and recreation, and public works, are considered governmental activities. Those functions that are primarily funded through user fees and charges are identified as business-type activities. In Margate, the latter activities include Water and Wastewater and Stormwater Utility.

The government-wide statements include not only the City of Margate itself, (known as the primary government), but also blended component units, such as the Margate Community Redevelopment Agency (CRA) and the Northwest Focal Point Senior Center (Center). Financial information for these blended component units is reported in the financial information presented for the primary government itself. In addition, as required by amended Florida Statute 163.387(8), each community redevelopment agency meeting the specified \$ 100,000 threshold must provide for a separate audit, basic financial statements, notes to the financial statements, management's discussion and analysis, and other required supplementary information.

The government-wide financial statements can be found on pages 16-17 of this report.

**Fund Financial Statements:** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City categorizes funds into three basic fund types: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide reconciliations to facilitate this comparison between governmental funds and governmental activities.

The City maintains nineteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Margate Community Redevelopment Agency Trust Fund, Recreation Trust Fund, and Margate Community Redevelopment Agency Capital Improvement Fund; these are considered to be major funds. All the other governmental funds are combined for presentation purposes as nonmajor funds. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 18 through 23 of this report.

*Proprietary Funds* are comprised of two different categories. Enterprise funds are the equivalent of business-type activities in the government-wide statements. These include the Water and Wastewater Fund and the Stormwater Utility Fund. The City maintains one Internal Service Fund, the General Insurance Fund, which provides support to City departments rather than providing services to the general public.

The basic proprietary fund financial statements can be found on pages 24 through 28 of this report.

**Notes to the Financial Statements** are integral to a complete understanding of both the government-wide and fund financial statements. The notes to the financial statements can be found on pages 29 through 67 of this report.

## **Other Information**

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the notes to the financial statements. Combining and individual fund statements and schedules can be found beginning on page 78 of this report.

## **Government-wide Financial Analysis**

### **Summary of Net Position**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Assets and deferred outflow of resources exceeded liabilities and deferred inflows of resources by \$ 246.1 million at the close of the most recent fiscal year.

Total deferred outflows of resources	<u>21,071</u>	<u>20,514</u>	<u>2,536</u>	<u>2,507</u>	<u>23,607</u>	<u>23,021</u>
Non-current liabilities	127,389	131,072	11,548	12,047	138,937	143,119
Other liabilities	7,342	6,764	5,551	16,192	12,893	22,956
Total liabilities	<u>134,731</u>	<u>137,836</u>	<u>17,099</u>	<u>28,239</u>	<u>151,830</u>	<u>166,075</u>
Pension related deferred inflows	12,610	10,829	643	450	13,253	11,279
OPEB related deferred inflows	5,872	6,865	1,146	1,296	7,018	8,161
Lease related deferred inflows	7,142	7,707	-	-	7,142	7,707
Total deferred inflows of resources	<u>25,624</u>	<u>25,401</u>	<u>1,789</u>	<u>1,746</u>	<u>27,413</u>	<u>27,147</u>
Net Position:						
Net investment in capital assets	72,881	75,021	92,982	80,287	165,863	155,308
Restricted	59,952	48,922	500	500	60,452	49,422
Unrestricted (deficit)	<u>(23,951)</u>	<u>(31,536)</u>	<u>43,686</u>	<u>47,478</u>	<u>19,735</u>	<u>15,942</u>
Total net position	<u>\$ 108,882</u>	<u>\$ 92,407</u>	<u>\$ 137,168</u>	<u>\$ 128,265</u>	<u>\$ 246,050</u>	<u>\$ 220,672</u>

By far the largest portion of the City’s net position (67.41%) reflects its investment in capital assets (for example, land, intangibles, improvements other than buildings, buildings, infrastructure, equipment and construction in progress), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City’s investment in its capital assets is reported net of related debt, the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The City’s net investment in capital assets increased by \$ 10.5 million during the year which is primarily due to an increase in capital assets for both business-type activities and governmental activities for major water and wastewater plant improvements such as the Infiltrate and Inflow rehabilitation and watermain replacements, as well as major improvements to the fire stations.

An additional portion of the City’s net position (24.57%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$ 19.7 million (8.02%) is unrestricted and may be used to meet the City’s ongoing obligations to citizens and creditors in accordance with its financial policies and strategies.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position for the business-type activities and positive balances in two of the three categories of net position (net investment in capital assets and restricted) for the governmental activities.

The City’s overall net position increased approximately \$ 25.4 million, from the prior fiscal year primarily resulting from an increase in capital asset acquisitions in both governmental and business type activities, along with management’s control of expenditures, the increase to revenues from updated fees and charges for water and wastewater services and increased property tax revenue due to Florida’s growing economy.

**City of Margate, Florida  
Management’s Discussion and Analysis  
September 30, 2024**

**Changes in Net Position**

The following schedule is a summary of the City’s operations for fiscal year 2024 with comparative information for fiscal year 2023:

	<b>Changes in Net Position</b> (in thousand dollars)					
	Governmental Activities		Business-type Activities		Total	
	2024	2023	2024	2023	2024	2023
<b>Revenues:</b>

Transfers	2,313	2,023	(2,313)	(2,023)	-	-
Increase (decrease) in net position	16,475	13,500	8,903	5,086	25,378	18,586
Net position, October 1	92,407	78,907	128,265	123,179	220,672	202,086
Net position, September 30	<u>\$ 108,882</u>	<u>\$ 92,407</u>	<u>\$ 137,168</u>	<u>\$ 128,265</u>	<u>\$ 246,050</u>	<u>\$ 220,672</u>

**Revenues:** For fiscal year ended September 30, 2024, revenues from governmental activities totaled \$102.3 million. This was an decrease of approximately \$ 2.8 million, or 2.73%, from the prior fiscal year. Additional details on the components of this change will be discussed below.

Governmental activities tax incremental revenues increased by approximately \$ 1.3 million, or 13%. This is the tax revenue that the CRA collects from the City, Broward County, and the North Broward Hospital District. These taxes are based on the incremental increase of the real property value, are dedicated to the redevelopment of the designated CRA area and cannot be used for general governmental purposes.

The City’s taxable value increased 7.1% from fiscal year 2023. The net increase in ad valorem taxes was approximately \$ 2.9 million or 9.6%.

Other changes in governmental activities resulted from the following:

- Charges for services increased by approximately \$ 627,000.
- Other taxes of the governmental activities, which include gas taxes, utility services taxes, franchise taxes and other taxes decreased by approximately \$ 0.6 million or 2.5%. These taxes are tied to usage by the public.
- Intergovernmental revenues decreased by \$ 72,000.
- Investment income increased by \$ 2.6 million primarily resulting from an easing of inflation, and the continued economic growth of the United States economy.
- Other revenues increased by approximately \$ 559,000 attributable to an increase of \$ 192,000 for gains on disposal of assets, an increase of \$ 256,000 from insurance loss recovery, and the remaining difference is spread across several accounts.
- Capital grants and contributions increased by \$ 150,000.
- Operating grants and contributions decreased by \$ 10.4 million, an 82.9% decrease from the previous year. This was largely due to a one-time ARPA funding from the US Department of Treasury for COVID related expenditures.

For fiscal year ended September 30, 2024, revenues from business-type activities totaled \$ 39.1 million. This was an increase of \$ 5.9 million, or 17.98 % from the prior fiscal year. Additional details on the components of this change are discussed below.

- Business-type charges for services increased slightly by \$ 5,499,000 to approximately \$ 35.1 million. This 18.6% increase is due to increased fees and rates effective January 1, 2024.
- Capital grants and contributions decreased by approximately \$ 305,000 in fiscal year 2024 mainly due to a decrease in contribution from developer of \$ 214,000 and a decrease in revenue from water and wastewater connection fees.
- Investment income increased by \$ 0.8 million due to an easing of inflation, and the continued economic growth of the United States economy.
- Other revenues decreased by \$ 21,000 for business-type activities.

**Sources of Revenue: Government-wide for Fiscal Year 2024**

**Expenses:** For fiscal year ended September 30, 2024, expenses for governmental activities totaled \$ 88.1 million, which was a decrease of approximately \$ 5.6 million from prior year expenses. For the fiscal year ended September 30, 2024, expenses for business-type activities totaled approximately \$ 27.8 million or an increase of \$ 1.8 million from prior year expenses. The decrease in expenditures for governmental activities was primarily due to a reduction in Public Safety expense for GASB 68 pension liability compared to the prior year. The increase in expenses for business type activities was primarily due to increased insurance costs and increased spending for repairs and maintenance.

**Functional Expenses: Government-wide for Fiscal Year 2024**

## Financial Analysis of the City's Funds

The City uses fund accounting to help ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds:** The focus of the City's Governmental Funds is to provide information on near-term inflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Overall, governmental funds ended the year with \$ 126.3 million in fund balance, including \$ 18.8 million in unassigned fund balance.

The *General Fund* is the main operating fund of the City. At the end of the current fiscal year, fund balance totaled \$ 55.1 million of which approximately \$ 98,000 is nonspendable, \$ 62,000 is restricted, \$ 988,000 is committed, \$ 35.1 million is assigned for future obligations, and \$ 18.8 million is unassigned. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total expenditures. Unassigned fund balance (\$ 18.8 million) represents 25.02% of total General Fund expenditures, while total fund balance represents 73.27% of that same amount.

The fund balance of the City's General Fund increased by approximately \$ 4.7 million. The increase was due to increased revenues from property taxes, investments, franchise, and utility fees. Total expenditures increased in the General Fund primarily due to GASB 87 capital outlay for new leased vehicles.

The following Margate Community Redevelopment Agency (CRA) funds were reported as major funds: Trust Fund and Capital Improvement Fund. The Trust Fund had a zero fund balance at the end of the current fiscal year end. This was the result of a transfer of monies to the CRA Capital Improvement Fund at year end as required by Florida Statutes. The CRA Capital Improvement Fund had a total fund balance of \$ 40.7 million at the end of the current fiscal year, all of which is restricted for future redevelopment projects. The increase of \$ 10.6 million in the fund balance of the Capital Improvement Fund was due to transfers from the Trust Fund for on-going capital projects and investment income.

The Recreation Trust Fund is also reported as a major fund. At the end of the current fiscal year, fund balance totaled \$ 1.9 million of which approximately \$ 564,000 is nonspendable, and \$ 1.4 million is restricted. Fund balance increased by approximately \$ 243,000 during the year ended September 30, 2024.

**Proprietary Funds:** The City's proprietary funds are presented in more detail in the fund statements but represent the same activities reflected in the business-type activities. Proprietary funds also include internal service funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements but in more detail.

The unrestricted net position of the Water and Wastewater Fund at the end of the year amounted to \$ 36.8 million and \$ 6.8 million in the Stormwater Utility Fund. The Water and Wastewater Fund experienced a \$ 6.8 million increase in net position and the Stormwater Utility Fund reported a \$ 2.0 million increase in net position.

At the end of fiscal year 2024 the City's self-insurance fund, the General Insurance Fund, had assets of \$ 7.7 million, as well as liabilities of approximately \$ 5.4 million which represented estimated claims payable. Ending net position was \$ 2.3 million. This is an increase of approximately \$ 250,000 from the prior year mainly due to an increase in investment income.

### Original Budget Compared to Final Budget

Throughout the year, there were some significant amendments, \$3.8 million, increasing the expenditures budget. These resulted primarily from:

1. The first FY 2024 amendment consisted of a General Fund, \$622,000, to budget \$542,000 balance forward for the Margate Property Improvement Program, \$8,000 for Governmental Accounting Standards (GASB) 96 requirements and \$71,500 to fund the City's portion of Solid Waste Disposal & Recyclable Materials processing Authority of Broward County. Also, to adjust all other funds, \$11,200, to budget the balance of Fire Station 58 project in the General Capital Projects Fund and \$1.3 million to fund the State Grant LPA0323 - Stormwater Infrastructure/Canal Embankment Restoration per Resolution 22-091 and State Grant 23PLN8 - Comprehensive Vulnerability Assessment per Resolution 23-068.
2. General Fund budget changes, \$3.1 million, to fund Aclarian ERP system implementation costs, GASB 87 capital leases implementation costs, Fire department increased staffing cost as a result of a mutual aid agreement and Parks and Recreation Department's equipment loss (pending insurance reimbursement).
3. The funding of \$260,000 for restroom and kitchen renovations at fire station 98 from the Public Safety Impact Fee Fund.
4. General Capital Projects Fund and partial Grant Funding, \$896,000, to fund LED lighting at Firefighters Park, Fire Station 58 landscape and lighting, and Senior Center Building Improvement.

### General Fund Budgetary Highlights

**Final budget compared to actual results.** General Fund revenues in total exceeded the final budget in all of the five major revenue categories. The final budget to actual revenues resulted in an increase of approximately \$ 7.7 million. The increase was primarily due to revenues from investment income (\$ 3.4 million), charges for services (\$1 million), franchise fees and utility service taxes (\$ 1.6 million).

Total General Fund expenditures were less than final budgeted by approximately \$ 6.4 million. The majority of this favorable budget was recognized in the various operating cost line item expenditures throughout the General Fund due to vacant budget positions, cost control measures, unspent funds allocated for specialized fire vehicles which were not readily available, and purchase orders encumbered to be expended in the following fiscal year.

In the governmental funds, major additions included the acquisition of lease vehicles for Police, Public Works, and various other departments; renovations/improvements at Andrews Field, Southeast Park, and capitalization of construction completed for Fire Station #58, renovations for Fire Station #2 and renovations for Northwest Focal Point Senior Center.

CRA additions included the acquisition of land and the completion of the Serino Park and Coral Gate Park improvements. Construction in progress projects include improvements for the Southgate Boulevard Median and Margate Boulevard.

**City of Margate, Florida  
Management’s Discussion and Analysis  
September 30, 2024**

---

Business-type additions included major infrastructure and building improvement projects for the infiltration and inflow rehabilitation, lift station renovations, water main replacements, aerial utility crossings improvements, and utility meter upgrades. In addition, major equipment additions included the acquisition of leased vehicles and the purchase of new equipment (an excavator, boom lift, telehandler, and back loader).

Additional information on the City’s capital assets can be found in Note 6 on pages 45 through 47 of this report.

**Debt Administration:** At the end of the fiscal year, the City had \$ 24.6 million in general obligation bonds (including \$ 3.2 million in bond premium), as well as \$ 6.6 million outstanding in leases and SBITAs for a total outstanding debt of \$ 31.3 million.

	<b>Outstanding Debt</b> (in thousand dollars)					
	Governmental Activities		Business-type Activities		Total	
	2024	2023	2024	2023	2024	2023

More detailed information about the City’s long-term liabilities is presented in Note 7 beginning on page 48 of this report.

**Economic Factors and Next Year’s Budgets and Rates**

The following factors affected the development of the Fiscal Year 2024/2025 budget. The local economy continued to show positive signs with the state’s growing population and strong labor market. Property taxes, which are 42.46% of the total General Fund revenue budget, are budgeted for no increase in the operating millage rate which remains at 7.1171, generating \$ 33.7 million, an increase of \$ 2.9 million higher than fiscal year 2024 amended due mainly to increased property values. The debt service millage reflects a decrease of 9.4% from .5337 to .4833 due to a decrease in the debt service payments for the outstanding General Obligation Refunding Bonds, Series 2016 and the General Obligation Bonds, Series 2019. The property taxes associated with the debt service millage are recorded in the respective debt service funds.

The City monitors Florida Legislature initiatives that may impact the City, such as changes to the Homestead exemption or to communications and sales taxes. State Shared Revenues (i.e., Sales Tax and Half Cent Sales Tax) and revenue from Recreation Fees continue to increase with Florida’s growing economy.

The water and wastewater rates increased beginning January 1, 2024, based on a Comprehensive Wate and Sewer Rate Study completed in September 2023 and approved by the Commission on December 6, 2023. There were no rate increases in Fiscal Year 2022 or Fiscal Year 2023.

The proposed rates would enable the utility to perform the necessary capital improvements and operational enhancements to remain compliant with the regulatory requirements of the Florida Department of Environmental Protection, the Florida Department of Health, and the U.S. Environmental Protection Agency. The rates should also be considered equitable, affordable, and competitive without causing "rate shock" to customers. Stormwater rates increased in January 2020 and will continue to have a 5% increase annually on October 1st of each year beginning with October 1, 2020.

### **Requests for Information**

This financial report is designed to provide a general overview of the City of Margate's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, City of Margate, 5790 Margate Boulevard, Margate, Florida 33063.

**Reconciliation of the Balance Sheet to the Statement of**  
**Net Position - Governmental Funds**  
**September 30, 2024**

---

**Fund Balances - Total Governmental Funds (Page 19)** \$ 126,308,723

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental fund.

Governmental capital assets	\$ 208,484,501	
Less: accumulated depreciation and amortization	(108,473,885)	100,010,616

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore are not reported in the funds.

Governmental bonds payable	\$ (24,656,885)	
Leases payable	(3,260,534)	
SBITAs payable	(2,785,639)	
Compensated absences payable	(12,008,237)	(42,711,295)

Bond interest payable not reported in the governmental funds. (331,054)

OPEB obligation and deferred amounts attributable to retiree benefits are not due and payable in the current period or do not represent current financial resources and therefore, are not reported in the funds.

Other post employment benefits (OPEB) liability	\$ (12,631,418)	
Deferred outflows relating to OPEB	5,547,526	
Deferred inflows relating to OPEB	(5,872,210)	(12,956,102)

Certain revenues are considered deferred inflows of resources in the fund financial statements due to availability of funds; under full accrual accounting they are considered revenues. 99,803

Certain pension-related amounts, such as net pension liability and deferred amounts are not due and payable in the current period or do not represent current financial resources and therefore, are not reported in the funds.

Net pension liability	\$ (66,748,296)	
Deferred outflows relating to pensions	15,523,222	
Deferred inflows relating to pensions	(12,609,945)	(63,835,019)

Internal service fund is used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. 2,296,106

**City of Margate, Florida**  
**Reconciliation of the Statement of Revenues, Expenditures and Changes**  
**in Fund Balances to the Statement of Activities - Governmental Funds**  
**For the Year Ended September 30, 2024**

---

**Net Change in Fund Balances - Total Governmental Funds (Page 22)** \$ 14,514,851

Amounts reported for governmental activities in the statement of activities (page 16) are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is depreciated or amortized over their estimated useful lives and reported as depreciation or amortization expense.

Expenditures for capital assets	\$	5,802,035	
Less: net book value of disposed capital assets		(42,566)	
Less: current year provision for depreciation and amortization		<u>(6,748,490)</u>	(989,021)

Bond proceeds are reported as financing sources in governmental funds financial statements and thus contribute to the net change in fund balance. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds financial statements, but reduces the liability in the statement of net position.

Principal repayments

General obligation bonds	\$	1,095,000	
Leases		798,572	
SBITAs		<u>537,691</u>	2,431,263

Proceeds from debt issuance

Lease financing	\$	(2,134,862)	
SBITAs financing		<u>(187,223)</u>	(2,322,085)

Revenues that are earned but not received within the availability period are recognized in the statement of activities when earned and subsequently in the governmental fund financial statements when they become available. The net difference is recorded as a reconciling item. (87,209)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Change in accrued compensated absences	\$	(457,431)	
Amortization of bond premiums		245,031	
Change in accrued interest payable		21,333	
Change in net pension liability and other related deferral amounts		2,494,468	
Change in OPEB liability and other related deferral amounts		<u>374,087</u>	2,677,488

Internal service funds are used by management to charge the cost of certain activities to individual funds. The net expense of certain activities in the internal service fund is reported with governmental activities. 249,523

**Change in Net Position of Governmental Activities (Page 17)** \$ 16,474,810

See accompanying notes to financial statements.

## Note 1 - Summary of Significant Accounting Policies

### A. Reporting Entity

The City of Margate, Florida (the "City"), in Broward County, was created as a municipal corporation by Chapter 30962, Laws of Florida, Acts of 1955, to be known as the Town of Margate. On June 22, 1961, the Town of Margate was incorporated as a City, and is governed by its present Charter dated March 15, 1979. It is located in the western portion of Broward County, Florida and has a population of approximately 58,725 living within an area of approximately 9 square miles. The City operates under the commission/city manager form of government. It provides the following services: general government, public safety, physical environment, transportation, economic environment, and culture and recreation. The City also operates two enterprise funds which provide water/wastewater services and stormwater services. In addition, an internal service fund is maintained for insurance.

As required by accounting principles generally accepted in the United States of America, these financial statements present the government and its blended component units; entities for which the government is considered to be financially accountable. A blended component unit, although a legally separate entity, is, in substance, part of the government's operations, and data from these units are combined with data of the primary government. A discretely presented component unit, on the other hand, would be reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government. The City has two blended component units with September 30 fiscal year-ends. The City has no discretely presented component units.

**Blended component units.** The Margate Community Redevelopment Agency (the "CRA") was established by the City under authority granted by Florida Statute, Chapter 163, Section III. The City determined that the CRA was necessary in order to establish the means by which debilitating blight can be arrested and erased and in order to proceed with a redevelopment and revitalization plan for the redevelopment area. The purpose was to deter blight and deterioration; protect and enhance property values; encourage and foster revitalization and economic growth; and to improve the quality of life for residents working or living within or adjacent to the redevelopment area. The CRA is a legally separate entity established by Ordinance 96-15 of the City of Margate Commission on October 2, 1996. As a tax increment district, the CRA receives operating revenues from taxing jurisdictions within Broward County for a period not to exceed 30 years after the date the governing body amends the plan. Funds are also provided by fees collected, investment income, and the unexpended fund balance from the previous year. The CRA is governed by a Board of Commissioners (the "Board"), which is composed of five members appointed by the Commission of the City of Margate, Florida. The Board exercises all powers granted to the Agency pursuant to Chapter 163, Section III of the Florida Statutes. Currently, the CRA Board is composed of the Margate City Commission.

The CRA includes the following Community Redevelopment Agency funds: Trust Fund, Capital Improvement Fund, and Loan Proceeds Fund. The Margate Community Redevelopment Agency Trust Fund and the Margate Community Redevelopment Agency Capital Improvement Fund meet the criteria for classification as major funds, and are presented as such on the fund level basic financial statements. The governing body of the City is the governing body of the CRA; accordingly a financial benefit relationship exists in that the assets of the CRA revert back to the City at the sunset of the CRA. Financial statements of the CRA can be obtained by contacting the City.

**Note 1 - Summary of Significant Accounting Policies (continued)**

The Northwest Focal Point Senior Center, (the “Center”), is a special district located in Margate, providing services to the elderly residing within the City, as well as Broward County. The Center funds its operations through grants from various governmental and charitable agencies, as well as in-kind services from the City. On August 19, 2009, the City of Margate passed Ordinance 2009-11 making the Center a dependent special district and a separate governmental body from the City of Margate. The Governing Board of the Center is composed of the elected officials of the City. The City provides various support services to the Center for a nominal fee and subsidizes some of the Center’s program costs. In addition, the Center subleases the building where it is located from the Areawide Council on Aging of Broward County, Inc., (the “Council”) for \$ 1 per year under a 99-year lease term. The Council rents the building from the City under the same terms and conditions. In April 2014, the Board, through resolution, delegated to the City of Margate’s City Manager the hiring and all employment related matters as to the Project Director and day-to-day oversight of the Project Director and operations of the Center. Additionally, the City advances the Center its operating funds which are repaid when reimbursement is received from grantors. The Center is reported as a nonmajor special revenue fund using the blended method since the governing body of the City is the governing body of the Center and management of the City has operational responsibility for the Center. The Center does not prepare stand alone financial statements.

Separate financial statements are not required for the Center (blended component unit); however separate financial statements have been prepared for the CRA. Effective for the fiscal year ended September 30, 2020, the Florida Legislature enacted Chapter 2019-163, Laws of Florida, which amended Section 163.387(8), Florida Statutes, to require that each CRA meeting the specified \$ 100,000 threshold provide for a separate audit and that the resultant audit report accompany the City annual financial report filed with the Florida Department of Financial Services. The CRA audit is to be separate from the audit of the County or the City that created the CRA, which must include within their reporting entities the CRA as a component unit. In addition, the separate CRA audit report must present stand-alone financial statements which include basic financial statements, notes to the financial statements, management’s discussion and analysis, and other required supplementary information.

Financial statement information related to each entity are also included as separate columns in the financial statements reported for the City.

**B. Government-wide and Fund Financial Statements**

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (“GAAP”) as applied to governmental units. Governmental Accounting Standards Board (“GASB”) is the standard-setting body for governmental accounting and financial reporting.

Effective for fiscal year end September 30, 2024, the City implemented two new GASB statements of financial accounting standards.

*Statement No. 99, Omnibus 2022*, was issued in April 2022. This Statement will enhance comparability in accounting and financial reporting and improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. All required disclosures were added.

**Note 1 - Summary of Significant Accounting Policies (continued)**

*Statement No. 100 - Accounting Changes and Error Corrections- an amendment of GASB Statement No. 62*, was issued in June 2022. This Statement will enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. All required disclosures were added.

Pronouncements Issued But Not Yet Adopted - The City's management has not yet determined the effect these statements will have on the City's financial statements.

*Statement No. 101 - Compensated Absences*, was issued in June 2022. This Statement will aim to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The provisions of this Statement are effective for fiscal year ending September 30, 2025.

*Statement No. 102 - Certain Risk Disclosures*, was issued in December 2023. This Statement establishes financial reporting requirements for risks related to vulnerabilities due to certain concentrations or constraints. The requirements of this Statement apply to the financial statements of all state and local governments. The provisions of this Statement are effective for the fiscal year ending September 30, 2025.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Fiduciary funds have been excluded from this presentation since these resources are not available for general government funding purposes. These statements report on the government as a whole and provide a consolidated financial picture of the government. As part of the consolidation process, interfund activities are eliminated to avoid distorted financial results. The City does not report any fiduciary funds.

The amounts reported as internal balances represent the residual amounts due between governmental and business-type activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

**C. Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The statement of activities demonstrates the degree to which the direct expenses of given functions or segments are offset by program revenues. *Direct expenses* are those expenses that are clearly identifiable within a specific function or segment. *Program revenues* include 1) charges to customers for goods, services, or privileges provided and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Since the governmental fund financial statements are presented on a different measurement focus and basis of accounting than the government-wide statements, a reconciliation is provided which briefly explains the adjustments necessary to reconcile the governmental fund financial statements to the governmental activities of the government-wide presentations.

**Note 1 - Summary of Significant Accounting Policies (continued)**

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement focus is used to describe types of transactions and events reported in a fund's operating statement. Basis of accounting is when revenues and expenditures/expenses are recognized in accounts and reported in the financial statements. Basis is also related to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized in the accounting period in which they become measurable and available to finance expenditures of the current period. Measurable is the amount of the transaction that can be determined and available is collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures including leases and SBITAs, as well as expenditures related to compensated absences, claims, and judgment, are recorded only when payment is due. General capital asset acquisitions, including entering into contracts giving the City the right to use assets, are reported as expenditures in governmental funds. Issuance of long-term debt and financing through leases and subscription-based information technology arrangements are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, utility service taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and are recorded as earned since they are measurable and available. In applying the susceptible to accrual concept to intergovernmental revenues, revenues are recognized when all eligibility requirements are met. All other revenue items are considered to be measurable and available only when cash is received by the City.

The financial transactions of the City are recorded in individual funds. The operations of each fund are accounted for using a separate set of self-balancing accounts. These accounts consist of assets, liabilities, deferred outflows of resources, deferred inflows of resources, fund equities, revenues, and expenditures/expenses. Fund accounting is used to demonstrate legal compliance and to assist financial management by segregating transactions related to certain government functions or activities.

Generally accepted accounting principles establish minimum criteria to determine major funds. These criteria consist of a percentage of the assets, liabilities, deferred outflows/inflows of resources, revenues, and expenditures/expenses of the applicable fund category and the governmental and enterprise funds combined. Nonmajor funds are presented in the single column in the respective fund statements.

**Note 1 - Summary of Significant Accounting Policies (continued)**

The City reports the following major governmental fund:

The *General Fund* is the primary operating fund of the City. It accounts for all financial resources of the general government except those required to be accounted for in a separate fund, due to legal or other requirements. Revenue is derived primarily from property taxes, utility service taxes, franchise taxes, licenses and permits, intergovernmental, and charges for services. General operating expenditures, fixed charges, and capital outlay costs that are not paid through other funds are paid from the General Fund.

The *Margate Community Redevelopment Agency Trust Special Revenue Fund* accounts for the redevelopment of certain designated areas. Revenue is derived primarily from tax incremental revenue, which is the revenue that the CRA collects from the City, Broward County, and the North Broward Hospital District. Those taxes are based on the incremental increase of the real property value and are dedicated to the redevelopment of the area. Revenues are also derived from rental of properties owned by the CRA.

The *Recreation Trust Fund* accounts for the revenues generated from cell phone towers. The funds are used for the development and improvement of recreation facilities.

The *Margate Community Redevelopment Agency Capital Improvement Capital Projects Fund* accounts for the capital projects of the CRA and redevelopment of the designated redevelopment areas. Resources and revenues are derived from the transfer of funds from the CRA Trust Fund as required by Florida Statutes and any related interest earned during the year.

All remaining governmental funds are aggregated and reported as nonmajor funds. Additionally, the City reports the following fund types, which are a summary of all the nonmajor governmental funds.

The *Special Revenue Funds* are used to account for resources legally restricted for the financing of particular activities or projects.

The *Debt Service Funds* are used to account for the accumulation of resources for, and the payment of general long-term debt principal and interest.

The *Capital Projects Funds* are used to account for and report financial resources that are assigned to expenditures for capital outlay, including acquisition or construction of major capital projects.

The City reports the following proprietary funds:

The *Water and Wastewater Fund* accounts for the operation of the City's water and wastewater system. The City reports this fund as a major proprietary fund.

The *Stormwater Utility Fund* accounts for the operation of the City's stormwater management utility which includes collection, disposal and treatment of stormwater. The City reports this fund as a nonmajor proprietary fund.

The *Internal Service General Insurance Fund* accounts for the financing of the general insurance coverage provided to other departments or agencies of the City on a cost reimbursement basis.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements with the exception of the cost allocation from the Water and Wastewater Fund and Stormwater Utility Fund to the General Fund. Elimination of this allocation would distort the direct costs and program revenues reported for those sectors.

**Note 1 - Summary of Significant Accounting Policies (continued)**

Amounts reported as program revenues in the government-wide financial statements include 1) charges to customers for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Taxes and other items not classified as program revenues are reported as general revenues.

Proprietary funds distinguish *operating revenues* and *expenses* from nonoperating items. *Operating revenues and expenses* generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the costs of sales, maintenance, and services; administrative expenses; and depreciation on capital assets. All revenues and expenses that do not meet this definition are reported as nonoperating revenues and expenses.

**D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance**

**Cash and cash equivalents and investments:** The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments (including restricted assets) with original maturities of three (3) months or less from the date of acquisition, Florida's State Board of Administration's (SBA) Florida PRIME Investment Pool ("Florida PRIME"), Florida Public Assets for Liquidity Management (FL PALM), money market accounts, and equity in the City's pooled cash.

State statutes require all deposits of the City, including demand deposit accounts, time deposit accounts and money market accounts be held in institutions designated by the Treasurer of the State of Florida as "qualified depositories" and accordingly, are covered by a collateral pool as required by that statute.

Pooled cash is an investment tool employed by the City that maximizes earning potential by investing large amounts of idle cash for short periods of time. It is available for use by all funds with the exception of cash and investments required to be segregated due to legal restrictions or bond covenants. Income earned from the pooling of investments is allocated to the respective funds. Each fund's equity in the City's pooled cash is considered to be a cash equivalent since the funds can deposit or effectively withdraw cash at any time without prior notice or penalty.

In addition to insurance provided by the Federal Depository Insurance Corporation, all deposits are held in banking institutions approved by the State Treasurer of the State of Florida to hold public funds. Under Florida Statutes Chapter 280, Florida Security for Public Deposits Act, the State Treasurer requires all Florida qualified depositories to deposit with the Treasurer of other banking institution eligible collateral. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. Accordingly, all amounts reported as deposits are insured or collateralized with securities held by the entity or its agent in the entity's name.

The City invests surplus funds in a variety of investment vehicles including the Florida PRIME, an external investment pool. The City owns shares of the pool and not the underlying securities. The SBA administers the fund and provides regulatory oversight. Florida Prime is governed by Chapters 215 and 218, Florida Statutes, and Chapter 19-7, Florida Administrative Code. These rules provide guidance and establish policies/general operating procedures for administration of the pool.

**Note 1 - Summary of Significant Accounting Policies (continued)**

The Florida PRIME has adopted operating procedures consistent with the requirement for a 2a-7 like fund. A 2a-7 like external investment pool is one that is not registered with the Securities and Exchange Commission (SEC) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with SEC Rule 2a-7, which governs the operation of SEC regulated money market funds. The City's investment in the Florida PRIME is reported at amortized cost. The fair value of the position in the pool is equal to the value of the pool shares. The Florida PRIME is rated by Standard and Poor's and has a current rating of AAAm. The investments in Florida PRIME are not insured by FDIC or any other governmental agency.

The City also invests surplus funds in the Florida Public Assets for Liquidity Management (FL PALM). FL PALM is a common law trust organized under the laws of the State of Florida and is a SEC Rule 2a-7 like external investment pool similar to money market funds in which shares are owned in the fund rather than the underlying investments. These amounts are reported at amortized cost which approximates fair value. The FL PALM is rated by Standard and Poor's and has a current rating of AAAm. The investments in FL PALM are not insured by FDIC or any other governmental agency.

The City previously adopted *GASB Statement No. 79, Certain External Investment Pools and Pool Participants* (applicable to the Florida PRIME and the FL PALM accounts) which requires the disclosure of the presence of any limitations or restrictions on withdrawals in the notes to the financial statements. Chapter 218.409(8)(a), Florida Statutes, states that "The principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the Executive Director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the Trustees, the Joint Legislative Auditing Committee, the Investment Advisory Council, and the Participant Local Government Advisory Council.

The Trustees shall convene an emergency meeting as soon as practicable from the time the Executive Director has instituted such measures and review the necessity of those measures. If the Trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the Executive Director until the Trustees are able to meet to review the necessity of the moratorium. If the Trustees agree with such measures, the Trustees shall vote to continue the measures for up to an additional 15 days. The Trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the Trustees exceed 15 days." With regard to liquidity fees, Florida Statutes 218.409(4) provides authority for the SBA to impose penalties for early withdrawal, subject to disclosure in the enrollment materials of the amount and purpose of such fees. At present, no such disclosures have been made. As of September 30, 2024, there were no redemption fees or maximum transaction amounts or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

**Note 1 - Summary of Significant Accounting Policies (continued)**

Investments are reported at fair value (quoted market price or the best available estimate thereof). However, money market investments, including short term, highly liquid investments with a remaining maturity at time of purchase of one year or less, are reported at amortized cost. Income from investments held by the individual funds is recorded in the respective fund as it is earned. All other investments owned by the City are accounted for in the City's investment pool. Income earned from this pool is allocated to the respective funds.

**Receivables and payables:** During the course of operations, the City has numerous transactions between funds to provide goods or render services. Transactions between funds that are representative of lending/borrowing arrangements outstanding at the fiscal year end are referred to as "due to/from other funds" or "advances to/from other funds". Any residual outstanding balances between the governmental activities and business-type activities at year end are reported in the government-wide financial statements as "internal balances".

All trade and other receivables are shown net of allowance for uncollectibles. Long-term receivables are analyzed for their collectability based on the terms and conditions of the agreements. In addition to those receivables specifically identified as uncollectible, a general allowance is calculated based on the City's historical bad-debt experience.

**Inventory and prepaid items:** Inventories are valued at the lower of cost or market using the first-in/first-out (FIFO) method. The costs of inventories are recorded as expenditures when purchased (purchase method).

Certain payments to vendors reflecting costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items in the governmental fund financial statements are classified as nonspendable fund balance. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

**Restricted assets:** Restricted assets in the enterprise funds include funds restricted for customer deposits.

**Capital assets:** Capital assets, which include land, buildings, improvements other than buildings, infrastructure, machinery and equipment, intangibles, construction in progress, lease assets and subscription-based information technology agreements, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds.

The government defines capital assets as assets with an initial, individual cost of more than \$ 5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized, but are expensed as incurred.

Major outlays for capital assets and improvements are capitalized as projects are constructed. In accordance with GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period* interest incurred during the construction phase of capital assets is expensed as incurred.

**Note 1 - Summary of Significant Accounting Policies (continued)**

Capital assets of the primary government, as well as the component units, are depreciated or amortized using the straight-line method over the following estimated useful lives:

Capital Assets	Years
Infrastructure	20-40
Buildings	40-50
Machinery and equipment	2-15
Improvements other than buildings	6-20

Contributions of funds from federal, state, or local services for the purpose of purchasing property, plant, and equipment, as well as connection fees intended to recover the cost of connecting new customers to the system are recorded as capital contributions on the proprietary statement of revenues, expenses, and changes in net position.

**Deferred outflows/inflows of resources:** In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represent a consumption of net assets that applies to future periods and will not be recognized as an outflow of resources (expense/expenditure) until then. The City has the following items that qualify for reporting in this category: pension and OPEB related deferred outflows reported in the government-wide statement of net position and in the statement of net position - proprietary funds. Deferred outflows of resources relating to the pension and OPEB plans (the "Plans") include contributions made to the Plans subsequent to the measurement date of the net liabilities, differences between expected and actual experience, changes in assumptions or inputs, net difference in projected and actual earnings on the Plans' investments and changes in proportion and differences between City contributions and proportionate share of contribution.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represent an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The City has the following items that qualify for reporting in this category: pension and OPEB related amounts, lease-related amounts and unavailable revenues.

Pension and OPEB related deferred inflows include changes in assumptions or inputs, net difference in projected and actual earnings on the Plans' investments, difference between expected and actual experience and changes in proportion and differences between City contributions and proportionate share of contributions.

Lease-related amounts are recognized at the inception of leases in which the City is the lessor. The deferred inflow of resources is recorded in an amount equal to the corresponding lease receivable plus certain additional amounts received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The inflow of resources is recognized in a systematic and rational manner over the term of the lease.

The governmental funds report unavailable revenues that are deferred and recognized as an inflow of resources in the period that the amounts become available.

**Note 1 - Summary of Significant Accounting Policies (continued)**

**Compensated absences:** It is the City's policy to permit eligible employees to accumulate earned but unused vacation and sick pay benefits, which will be paid to employees upon separation from City service if certain criteria are met. The accumulated compensated absences and associated employee-related costs are accrued when incurred in the government-wide and proprietary fund financial statements. The current portion is the amount estimated to be used in the following fiscal year. Expenditures for accumulated compensated absences have been reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Compensated absences for governmental funds represent a reconciling item between the funds and government-wide presentations. In the proprietary fund financial statements, vested or accumulated vacation and sick leave, both current and non-current, is recorded as an expense and liability of the relevant proprietary fund as the benefits accrue to employees.

**Unearned revenue:** Unearned revenue represents resources that have been received, but not yet earned.

**Long-term obligations:** In the government-wide financial statements, and proprietary fund types, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

In the fund financial statements, the face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**Property taxes:** The State of Florida permits the City to levy property taxes up to 10 mills of assessed property valuation for the General Fund except for special benefits and debt service obligations which may be issued with the approval of those taxpayers subject to ad valorem taxes. The operating millage rate levied by the City and budgeted for the 2023-2024 fiscal year was 7.1171 mills and the debt service millage was 0.4833 mills. On January 29, 2008, the Florida electorate approved an amendment to the Florida Constitution relative to property taxation. This amendment (referred to as Amendment 1) was placed on the ballot by the Florida Legislature at a special session held during 2007 and became effective October 1, 2008. Amendment 1 increased the current \$ 25,000 homestead exemption by an additional \$ 25,000 (by exempting the assessed value between \$ 50,000 and \$ 75,000), except for school district taxes. Amendment 1 also provided "portability", allowing property owners to transfer up to \$ 500,000 of the "Save Our Homes" benefits to their next homestead when they move. "Save Our Homes" became effective in 1995 and limits (caps) the annual increase in assessed value for homesteaded property to three percent (3%) or the percentage change in the Consumer Price Index, whichever is less. In addition, Amendment 1 also provided a \$ 25,000 exemption for tangible personal property and a ten percent (10%) cap on increases in the annual assessment of non-homesteaded properties.

Current tax collections for the year ended September 30, 2024 were approximately 98.5% of the total tax levy, net of discounts allowed.

Property taxes based on assessed values at January 1 are levied on November 1 of each year. A four percent discount is allowed if the taxes are paid in November, with the discount declining by one percentage point each month thereafter. Taxes become delinquent on April 1 of each year and tax certificates for the full amount of any unpaid taxes and assessments are auctioned beginning June 1 of each year.

**Note 1 - Summary of Significant Accounting Policies (continued)**

Property tax revenue is recorded when it becomes available. Available means due and collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

The City Commission establishes the tax levy of the City. The adoption of the final millage rate for fiscal year 2023-2024 occurred on September 20, 2023. Under Florida law, the assessment of all properties and the collection of all county, municipal, special district and school board property taxes are provided by Broward County’s Property Appraiser and Tax Collector, who are elected County officials.

The property tax calendar for the revenues billed and received for the fiscal year ended September 30, 2024 is shown as follows:

Lien date	January 1, 2023
Levy date, tax bills mailed	November 1, 2023
Last date for 4% discount on taxes paid	November 30, 2023
Last date for 3% discount on taxes paid	December 31, 2023
Last date for 2% discount on taxes paid	January 31, 2024
Last date for 1% discount on taxes paid	February 28, 2024
Final due date of payment of taxes	March 31, 2024
First date for auctioning tax certificates on delinquent accounts	June 1, 2024

**Net position/fund balance:** Net position is the result of assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position of the government-wide and proprietary funds are categorized as (a) net investments in capital assets, (b) restricted, or (c) unrestricted. The first category represents net investments in capital assets reduced by accumulated depreciation and any outstanding debt incurred to acquire, construct or improve those assets excluding unexpended debt proceeds. The restricted category represents the balance of assets restricted by requirements of debt covenants and other externally imposed constraints or by legislation in excess of the related liabilities payable from restricted assets. Unrestricted net position consists of the net position not meeting the definition of either of the two other components. Restricted fund balance is used first when both restricted and unrestricted are available unless legal documents/contracts prohibit this.

In the fund financial statements, governmental funds report five categories of fund balances: nonspendable, restricted, committed, assigned, and unassigned. Nonspendable fund balances include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Restricted fund balances are amounts constrained for specific purposes by external parties (creditors, grantors, contributors), law, or enabling legislation legally enforceable by external parties.

Amounts that can only be used for specific purposes pursuant to constraints imposed by the City Commission (highest level of decision making authority) through an ordinance or resolution (which are both equal and the highest level of decision making) are classified as committed fund balances. The limitation imposed by the resolution/ordinance remains in place until similar action is taken (adoption of another resolution/ordinance) to remove or revise the limitation. Assigned fund balances are amounts without formal constraints, but are intended to be used for specific purposes. This intent can be expressed by the City Commission or through the Commission delegating this responsibility to City management.

**Note 1 - Summary of Significant Accounting Policies (continued)**

The authority of the City Manager to make these designations is provided for through resolution and fund balance policy. Unassigned fund balance represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund is the only fund that reports a positive unassigned balance. In all other funds, unassigned fund balance is limited to negative residual fund balance.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is used first, followed by assigned fund balance. Unassigned fund balance is used last.

**Use of estimates:** The preparation of financial statements in conformity with GAAP in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from these estimates.

**Note 2 - Deposits and Investments**

**Deposits:** At year-end, the City's carrying amount of deposits was \$ 64,711,359 including petty cash funds and cash on hand totaling \$ 8,748 as of September 30, 2024, and the combined bank balances totaled \$ 64,614,377. The City had \$ 63,089,086 of deposits in excess of the federal insured level of \$ 250,000 held in qualified public depositories. Accordingly, deposits whose balances exceed the limits of federal depository insurance are collateralized pursuant to Florida Statutes, Chapter 280, Florida Security for Public Deposits Act which sets forth the investment objectives and parameters for the management of public funds for the City.

*Custodial Credit Risk.* Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. All of the City's deposits are entirely insured by federal depository insurance or collateralized by the multiple financial institution collateral pool pursuant to Florida Statutes, Chapter 280, "Florida Security for Public Deposit Act". Under this Act, all qualified public depositories are required to pledge eligible collateral having a fair value equal to or greater than the average daily or monthly balance of all public deposits, multiplied by the depository's collateral pledging level.

The City has \$ 37,141,565 invested in the Florida PRIME and \$ 36,792,745 invested in the FL PALM as of September 30, 2024. The fair value of both the Florida PRIME and the FL PALM is the same as the book value of the pool shares.

**Investments:** The City adopted a formal investment policy in December 2014 in accordance with Section 218.415, Florida Statutes (Local Government Investment Policies). It was designed to safeguard the City's funds, ensure the availability of operating and capital funds when needed, and provide for an investment return competitive with comparable funds and financial market indices.

**Note 2 - Deposits and Investments (continued)**

Authorized investments include Florida PRIME, United States Government Securities, United States Government Agencies, Federal Instrumentalities, Interest Bearing Time Deposit of Savings Accounts, Repurchase Agreements, Commercial Paper, Corporate Notes, Bankers' Acceptances, State and/or Local Government Taxable and/or Tax-Exempt Debt, Money Market Mutual Funds, and Intergovernmental Investment Pools.

The City's investment policy stipulates the following maximum portfolio percentages:

Authorized Investments	Maximum % Portfolio Composition	Maximum % Individual Issuers	Maximum % Individual Sectors
Florida Local Government Surplus Trust Fund (Florida PRIME)	25%	N/A	N/A
U.S. Government Securities	100%	N/A	N/A
U.S. Government Agencies	50%	10%	N/A
U.S. Sponsored Agencies	80%	25%	N/A
Interest Bearing Time Deposit	10%	10%	N/A
Repurchase Agreements	20%	5%	N/A
Commercial Paper	25%	2%	10%
Corporate Notes	25%	2%	10%
Asset Backed Securities	10%	2%	5%
Bankers' Acceptances	15%	5%	N/A
State/Local Government Taxable/Tax Exempt General Obligation Bonds	25%	N/A	N/A
State/Local Government Taxable/Tax Exempt Revenue/Excise Bonds	10%	N/A	N/A
Money Market Mutual Funds	35%	15%	N/A
Intergovernmental Investment Pools	25%	N/A	N/A

*Interest Rate Risk.* Interest rate risk is the risk that changes in market interest rates will adversely affect the value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The City manages its exposure to declines in fair value by limiting its investment portfolio with a final maturity of seven years or less from the date of purchase and weighted average duration of the entire portfolio of less than three years.

The City employs several investment duration and investment management strategies to minimize the City's portfolio interest rate risk. The City maintains sixty days or more of liquidity in short term securities with maturity and diversification limitations to further minimize changes in market price, as interest rates changes.

The weighted average days to maturity at September 30, 2024 for the SBA Florida PRIME and FL PALM was 39 days and 42 days, respectively.

**Note 2 - Deposits and Investments (continued)**

Information about the sensitivity of the fair values of the City’s investments to market rate fluctuations is provided by the following table that shows the distribution of City funds as of September 30, 2024:

Investment Type	Fair Value	Remaining Maturity (in years)	
		Less Than 1	1 to 5
U.S. Treasury Notes	\$ 20,725,716	\$ 11,982,903	\$ 8,742,813
U.S. Agency Notes	11,409,703	3,623,719	7,785,984
Money Market Funds	3,076,872	3,076,872	-
Corporate Notes	8,022,036	2,627,138	5,394,898
U.S. Sponsored Agencies	6,439,663	-	6,439,663
Asset Backed Securities	1,005,698	144	1,005,554
Municipal/Provincial Bonds	655,713	277,648	378,065
	<u>\$ 51,335,401</u>	<u>\$ 21,588,424</u>	<u>\$ 29,746,977</u>

*Credit risk.* The City’s investment policy limits investments to the safest types of securities. Investment transactions shall seek to keep capital losses at a minimum and to attain this objective, diversification is required in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio. Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Florida PRIME and FL PALM are rated AAAM by Standard and Poor’s. City monies that are invested in U.S. Government obligations are considered to have no credit risk.

*Custodial Credit Risk.* Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. All City investments are being held by a third party commercial trust bank and are fully insured and collateralized under the name of the City or its agent.

**City of Margate, Florida**  
**Notes to Basic Financial Statements**  
**September 30, 2024**

**Note 2 - Deposits and Investments (continued)**

The following table discloses Standard and Poor's credit ratings by investment type for each of the City's fixed income securities.

	<u>Fair Value</u>	<u>Percentage of Portfolio</u>
U.S. government guaranteed	\$ 23,802,588	46.37%
AAA	893,184	1.74%
AA+	17,849,366	34.77%
AA	443,134	0.86%
AA-	655,714	1.28%
A+	279,558	0.54%
A	3,254,834	6.34%
A-	3,707,675	7.22%
BBB+	336,835	0.66%
NR	112,513	0.22%
Total credit risk debt securities	\$ <u>27,532,813</u>	<u>53.63%</u>
Total fixed income securities	\$ <u>51,335,401</u>	<u>100.00%</u>

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The City has the following recurring fair value measurements as of September 30, 2024:

<u>Investments</u>	<u>September 30, 2024</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
U.S. Treasury Notes	\$ 20,725,716	\$ 20,725,716	\$ -	\$ -
U.S. Agency Notes	11,409,703	11,409,703	-	-
Money Market Funds	3,076,872	3,076,872	-	-
Corporate Notes	8,022,036	8,022,036	-	-
U.S. Sponsored Agencies	6,439,663	6,439,663	-	-
Asset Backed Securities	1,005,698	1,005,698	-	-
Municipal/Provincial Bonds	<u>655,713</u>	<u>655,713</u>	<u>-</u>	<u>-</u>
Total investments measured at fair value	\$ 51,335,401	\$ <u>51,335,401</u>	\$ <u>-</u>	\$ <u>-</u>
Investments measured at amortized cost:				
Florida PRIME	37,141,565			
FL PALM	36,792,745			
Cash and cash equivalents:				
Money market funds and other deposits	64,702,611			
Petty cash	<u>8,748</u>			
Total unrestricted and restricted cash, cash equivalents and investments	\$ <u>189,981,070</u>			

These Level 2 holdings consist of government instrumentality securities and corporate bonds. The fair value of these investments is determined through matrix pricing and the valuations are provided by an independent pricing source which relies upon multiple broker data feeds.

**City of Margate, Florida**  
**Notes to Basic Financial Statements**  
**September 30, 2024**

**Note 3 - Receivables**

Receivables as of September 30, 2024 for the City’s individual funds in the aggregate, including the allowances for uncollectible receivables are as follows:

	General Fund	Margate Community Redevelopment Agency Trust Fund	Recreation Trust Fund	Margate Community Redevelopment Agency Capital Improvement Fund	Water and Wastewater Fund	Nonmajor and other Funds	Total
Intergovernmental	\$ 938,648	\$ -	\$ -	\$ -	\$ 23,392	\$ 828,051	\$ 1,790,091
Accounts	209,317	-	-	-	4,393,880	294,157	4,897,354
Taxes	1,245,609	-	-	-	-	-	1,245,609
Others	1,526,198	-	938	5,310	204,336	46,266	1,783,048
Gross receivables	3,919,772	-	938	5,310	4,621,608	1,168,474	9,716,102
Less: allowance for uncollectible	(977,755)	-	-	-	(10,000)	-	(987,755)
Net total receivables	\$ <u>2,942,017</u>	\$ <u>-</u>	\$ <u>938</u>	\$ <u>5,310</u>	\$ <u>4,611,608</u>	\$ <u>1,168,474</u>	\$ <u>8,728,347</u>

**Note 4 - Transfers**

The outstanding balance between funds results from the time lag between the dates that payment between funds is made. Transfers at September 30, 2024, consisted of the following:

Transfers Out:	Transfers in:			Total
	General Fund	Margate Community Redevelopment Agency Capital Improvement Fund	Nonmajor Governmental Funds	
General Fund	\$ -	\$ -	\$ 50,000 b	\$ 50,000
Margate Community Redevelopment Agency Trust Fund	-	8,988,463 a, b	-	8,988,463
Recreation Trust Fund	-	-	-	-
Nonmajor Governmental Funds	-	-	500,000 b	500,000
Water and Wastewater Fund	2,312,674 c	-	-	2,312,674
Total	\$ <u>2,312,674</u>	\$ <u>8,988,463</u>	\$ <u>550,000</u>	\$ <u>11,851,137</u>

Reasons for these transfers are set forth below:

- a) Annual sweep between funds
- b) Capital improvements
- c) Return on Investment (ROI)

Water & Wastewater Equipment	<u>312,975</u>	<u>64,271</u>
	<u>\$ 11,557,734</u>	<u>\$ 15,410,638</u>

**Note 7 - Long-Term Debt**

**Governmental Activities**

**General Obligation Bonds**

**\$ 9,105,000 General Obligation Bonds, Series 2019** - In November 2018, a majority of the electors voting at a referendum within the City approved the issuance of general obligation bonds in a principal amount not exceeding \$10 million for purposes of improving parks and recreation projects and paying certain costs and expenses related to the issuance of the Bonds. In April 2019, the City issued the General Obligation Bonds, Series 2019 in the principal amount of \$ 9,105,000. The bonds were issued for the purpose of acquiring, constructing, equipping, renovating, replacing and improving parks and recreation projects. The outstanding bonds bear an interest rate from 3.0% to 5.0%, payable semiannually on January 1st and July 1st of each year. The Series 2019 Bonds are general obligations of the City and are payable from unlimited ad valorem taxes on all taxable real and tangible personal property within the City (except exemptions provided by applicable law). There is no limitation as to the rate or amount of ad valorem taxes that can be levied for the purpose of repaying the Series 2019 Bonds. The bonds will mature on July 1, 2039 with the first principal payment due July 1, 2020. The bonds maturing on and after July 1, 2030 may be subject to redemption prior to their respective maturities. \$ 7,565,000

The annual debt service requirements until maturity for the General Obligation Bonds, Series 2019 outstanding at September 30, 2024, are as follows:

Year Ending September 30,	Series 2019		
	Principal	Interest	Total
2025	\$ 365,000	\$ 286,850	\$ 651,850
2026	385,000	268,600	653,600
2027	405,000	249,350	654,350
2028	425,000	229,100	654,100
2029	445,000	207,850	652,850
2030-2034	2,550,000	718,500	3,268,500

**Note 7 - Long-Term Debt (continued)**

**\$ 18,950,000 General Obligation Refunding Bonds, Series 2016** - In July 2016, the City issued the General Obligation Refunding Bonds, Series 2016. The bonds were issued to refund the General Obligation Bonds, Series 2007 which was used to finance various projects consisting of repavement, repair and installation of streets, sidewalks and bridges within the City. The outstanding bonds bear an interest rate from 2.0% to 5.0%, payable semi-annually on January 1st and July 1st of each year. The Series 2016 Bonds are general obligations of the City and are payable from unlimited ad valorem taxes on all taxable real and tangible personal property within the City (except exemptions provided by applicable law). There is no limitation as to the rate or amount of ad valorem taxes that can be levied for the purpose of repaying the Series 2016 Bonds. The July 1, 2037 maturity date remains unchanged. The bonds maturing on and after July 1, 2027 may be subject to redemption prior to their respective maturities.

\$ 13,875,000

The annual debt service requirements until maturity for the General Obligation Refunding Bonds, Series 2016 outstanding at September 30, 2024, are as follows:

<u>Year Ending September 30,</u>	<u>Series 2016</u>		
	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	\$ 785,000	\$ 693,750	\$ 1,478,750
2026	820,000	654,500	1,474,500
2027	865,000	613,500	1,478,500
2028	905,000	570,250	1,475,250
2029	955,000	525,000	1,480,000
2030-2034	5,525,000	1,860,750	7,385,750
2035-2037	4,020,000	408,500	4,428,500
	<u>\$ 13,875,000</u>	<u>\$ 5,326,250</u>	<u>\$ 19,201,250</u>

**Bonds Authorized, but Unissued**

In February 2009, the City passed an ordinance authorizing the issuance of Water and Sewer Revenue Bonds, Series 2009 in the aggregate principal not to exceed \$ 12,190,000 to finance all or a portion of the cost of constructing, acquiring and equipping certain improvements to the water and sewer system of the City. As of September 30, 2024, the City has not issued the 2009 Series of Water and Sewer Revenue Bonds.

**Arbitrage**

The City has performed the required arbitrage liability computation in accordance with the Internal Revenue Service (IRS) arbitrage regulations. As of September 30, 2024, there are no rebatable arbitrage liabilities for the outstanding bond issues.

The following is a summary of changes in long-term liabilities of the City for the year ended September 30, 2024.

In governmental activities, compensated absences, net pension liability, and OPEB obligation are generally liquidated by the General Fund. For business-type activities, compensated absences, net pension liability, and OPEB obligation are generally liquidated by either the appropriate fund of Water and Wastewater or Stormwater Utility. Claims and judgments are generally liquidated by the Internal Service General Insurance Fund.

**Note 8 - Leases and Subscription-Based Information Technology Arrangements (SBITAs)**

During 2022, the City implemented Government Accounting Standards Board (GASB) Statement No. 87, *Leases*. GASB No. 87 enhances the relevance and consistency of information of the City’s leasing activities. It establishes requirements for lease accounting based on the principle that leases are financing of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

**City as Lessee**

In fiscal year 2021, the City entered into a Fleet Management Program with Enterprise FM Trust. The City anticipates that the program will streamline fleet management, slow the increasing cost of fleet maintenance, provide optimal vehicle replacement times, and increase cost savings. At September 30, 2024, the total costs of these lease assets for the City’s governmental activities is \$ 5,237,054, less accumulated amortization of \$ 1,619,991. At September 30, 2024, the total costs of these leases for the City’s business-type activities is \$ 1,760,695, less accumulated amortization of \$ 328,887.

The future lease payments under these lease agreements are as follows:

Year Ending September 30,	Governmental Activities Leases		
	Principal	Interest	Total
2025	\$ 936,644	\$ 199,211	\$ 1,135,855
2026	896,697	139,768	1,036,465
2027	644,005	85,713	729,718
2028	576,168	40,128	616,296
2029	207,020	4,844	211,864
	<u>\$ 3,260,534</u>	<u>\$ 469,664</u>	<u>\$ 3,730,198</u>

Year Ending September 30,	Business-type Leases		
	Principal	Interest	Total

2029	5,284	95	5,379
	<u>\$ 310,176</u>	<u>\$ 42,948</u>	<u>\$ 353,124</u>

**Note 8 - Leases and Subscription-Based Information Technology Arrangements (SBITAs) (continued)**

**City as Lessor**

The City, as a lessor, previously entered into multiple lease agreements involving land for the use of companies to construct and operate cell towers. Payments on these leases range from approximately \$ 42,000 to \$ 81,000 annually, including interest from 0.27% to 2.04%, through October 2024, with lesser amounts through February 2050. These payments are set to increase annually between 5% and 15% per lease. For the year ended September 30, 2024, the City received rental revenue of \$ 546,080 and interest revenue of \$ 135,318, recorded as miscellaneous revenues on the combining statement of revenues, expenditures, and changes in fund balances in the Recreation Trust Fund.

At September 30, 2024, the City has lease receivables in the Recreation Trust Fund of \$ 7,706,229, including interest receivable of \$ 48,850. Future minimum payments under these leases due to the City through maturity are as follows:

Year Ending September 30,	Principal	Interest	Total
2025	\$ 432,498	\$ 131,155	\$ 563,653
2026	392,423	124,951	517,374
2027	342,214	119,116	461,330
2028	363,182	113,977	477,159
2029	392,705	108,316	501,021
2030-2034	2,065,983	440,306	2,506,289
2035-2039	1,509,499	295,560	1,805,059
2040-2044	906,195	176,008	1,082,203
2045-2049	1,004,879	89,856	1,094,735
2050	247,801	5,055	252,856
	<u>\$ 7,657,379</u>	<u>\$ 1,604,300</u>	<u>\$ 9,261,679</u>

The Margate CRA currently has various lease arrangements for two shopping complexes it owns located along Margate Boulevard. The properties have aggregate costs of approximately \$ 3.1 million and \$ 4.3 million in land and building, respectively. The buildings have a total carrying value of \$ 2.7 million at September 30, 2024. Depreciation expense for the year was approximately \$ 85,500. Total rental revenues from these properties during the fiscal year amounted to approximately \$ 861,000. The leases have a termination clause of 12 months or less.

**SBITAs**

During 2023, the City implemented GASB No. 96, *Subscription Based Information Technology Arrangements* (SBITAs). This statement requires recognition of certain cloud-based right-to-use (RTU) software implementation and subscription assets and associated lessee liabilities that previously were classified as operating subscriptions and recognized as outflows of resources based upon the payment provisions of the contract. It establishes a single model for IT subscription accounting based upon the foundational principle that software subscriptions are financings of the right to use an underlying asset. SBITAs where the maximum possible lease term is one year or less continue to be reported as operating subscriptions.

**Note 8 - Leases and Subscription-Based IT Arrangements (SBITAs) (continued)**

The City is committed under various SBITAs. At September 30, 2024, the total costs of these SBITA assets for the City’s governmental activities is \$ 4,081,976, less accumulated amortization of \$ 1,153,658. At September 30, 2024, the total costs of these SBITA assets for the City’s business-type activities is \$ 397,484, less accumulated amortization of \$ 84,501.

The future lease payments under these SBITA arrangements are as follows:

Year Ending September 30,	Governmental Activities SBITAs		
	Principal	Interest	Total
2025	\$ 538,245	\$ 106,024	\$ 644,269
2026	449,915	84,531	534,446
2027	416,921	66,950	483,871
2028	389,300	50,878	440,178
2029	313,489	36,392	349,881
2030	677,769	37,371	715,140
	<u>\$ 2,785,639</u>	<u>\$ 382,146</u>	<u>\$ 3,167,785</u>

Year Ending September 30,	Business-type SBITAs		
	Principal	Interest	Total
2025	\$ 66,655	\$ 12,294	\$ 78,949
2026	73,262	9,635	82,897
2027	80,330	6,711	87,041
2028	87,877	3,516	91,393
	<u>\$ 308,124</u>	<u>\$ 32,156</u>	<u>\$ 340,280</u>

**Note 9 - Florida Retirement System**

As provided by Chapters 121 and 112, Florida Statutes, the Florida Retirement System (“FRS”) provides two cost sharing, multiple employer defined benefit plans administered by the Florida Department of Management Services, Division of Retirement, including the FRS Pension Plan (“Pension Plan”) and the Retiree Health Insurance Subsidy (“HIS Plan”) and a defined contribution pension plan (“Investment Plan”). As a general rule, membership in the FRS is compulsory for all employees working in a regularly established position for a state agency, county government, City school board, state university, community college, or a participating city or special City within the State of Florida. The FRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are established by Chapter 121, Florida Statutes, and Chapter 60S, Florida Administrative Code. Amendments to the law can be made only by an act of the Florida State Legislature.

**Note 9 - Florida Retirement System (continued)**

State of Florida annually issues a publicly available financial report that includes financial statements and required supplementary information for the FRS. The latest available report may be obtained by writing to the State of Florida Division of Retirement, Department of Management Services, P.O. Box 9000, Tallahassee, Florida 32315-9000, or by calling (844) 377-1888 or by visiting the Web site: [www.dms.myflorida.com/workforce\\_operations/retirement/publications](http://www.dms.myflorida.com/workforce_operations/retirement/publications).

**Pension Plan:**

Plan Description - The Pension Plan is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program ("DROP") for eligible employees.

Benefits Provided - Benefits under the Pension Plan are computed on the basis of age, average final compensation, and service credit. For Pension Plan members enrolled before July 1, 2011, Regular class members who retire at or after age 62 with at least six years of creditable service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% times years of service times final average compensation based on the five highest years of salary. Vested members with less than 30 years of service may retire before age 62 and receive reduced retirement benefits. Special Risk Administrative Support class members who retire at or after age 55 with at least six years of creditable service or 25 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% times years of service times final average compensation based on the five highest years of salary.

Special Risk class members (sworn law enforcement officers, firefighters, and correctional officers) who retire at or after age 55 with at least six years of credited service, or with 25 years of service regardless of age, are entitled to a retirement benefit payable monthly for life, equal to 3.0% times the years of service times their final average compensation based on the five highest years of salary for each year of creditable service. Senior Management Service class members who retire at or after age 62 with at least six years of creditable service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 2.0% times the years of service times their final average compensation based on the five highest years of salary for each year of creditable service. Elected Officers' class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 3.0% times the years of service (3.33% for judges and justices) times their final average compensation based on the five highest years of salary for each year of creditable service.

For Plan members enrolled on or after July 1, 2011, the vesting requirement is extended to eight years of creditable service for all these members and increasing normal retirement to age 65 or 33 years of service regardless of age for Regular, Senior Management Service, and Elected Officers' class members, and to age 60 or 30 years of service regardless of age for Special Risk and Special Risk Administrative Support class members. Also, the final average compensation for all these members will be based on the eight highest years of salary.

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the Pension Plan before August 1, 2011, the annual cost-of living adjustment is three percent per year. The COLA formula for retirees with an effective retirement date or DROP begin date on or after August 1, 2011, will be the sum of the pre-July 2011 service credit divided by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

**Note 9 - Florida Retirement System (continued)**

In addition to the above benefits, the DROP program allows eligible members to defer receipt of monthly retirement benefit payments while continuing employment with a FRS employer for a period not to exceed 96 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest. There are no required contributions by DROP participants.

Contributions - Effective July 1, 2011, all enrolled members of the FRS, other than DROP participants, are required to contribute three percent of their salary to the FRS. In addition to member contributions, governmental employers are required to make contributions to the FRS based on state-wide contribution rates established by the Florida Legislature. These rates are updated as of July 1 of each year. The employer contribution rates by job class for the periods from October 1, 2023 through June 30, 2024 and from July 1, 2024 through September 30, 2024, respectively, were as follows: Regular - 13.57% and 13.63%; Special Risk Administrative Support - 39.82% and 39.82%; Special Risk - 32.67% and 32.79%; Senior Management Service - 34.52% and 34.52%; Elected Officers' - 58.68% and 58.68%; and DROP participants - 21.13% and 21.13%. These employer contribution rates include 2.00% HIS Plan subsidy for the period October 1, 2023 through September 30, 2024. During the year ended September 30, 2024, the City contributed \$ 7,785,070 to the Pension Plan.

**HIS Plan:**

Plan Description - The HIS Plan is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided - For the fiscal year ended September 30, 2024, eligible retirees and beneficiaries received a monthly HIS payment of \$ 7.50 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$ 45 and a maximum HIS payment of \$ 225 per month. To be eligible to receive these benefits, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions - The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. The HIS contribution was 2.00% for the period October 1, 2023 through September 30, 2024. The City contributed 100% of its statutorily required contributions for the current and preceding five years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or cancelled. During the year ended September 30, 2024, the City contributed \$ 862,141 to the HIS Plan.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At September 30, 2024, the City reported liabilities of \$ 57,899,891 for its proportionate share of the Pension Plan's net pension liability and \$ 15,142,196 for the HIS Plan's net pension liability for a total pension liability of \$ 73,042,087. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2024. At June 30, 2024, the City's proportionate share was .149671282 percent for the Pension Plan and .100941398 percent for the HIS Plan, which were an increase of .000031194 percent and a decrease of .004347969 percent respectively, from the proportionate share measured as of June 30, 2023.

**Note 9 - Florida Retirement System (continued)**

For the year ended September 30, 2024, the City recognized pension expense of \$ 6,380,261 for the Pension Plan and pension expense of \$ 259,022 for the HIS Plan for a total net pension expense of \$ 6,639,283. At September 30, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources		
	Pension Plan	HIS Plan	Total
Differences between expected and actual experience	\$ 5,849,443	\$ 146,208	\$ 5,995,651
Changes of assumptions	7,935,709	267,981	8,203,690
Changes in proportion and differences between City contributions and proportionate share of contributions	128,007	49,033	177,040
City contributions subsequent to the measurement date	2,281,662	230,901	2,512,563
	<u>\$ 16,194,821</u>	<u>\$ 694,123</u>	<u>\$ 16,888,944</u>

Description	Deferred Inflows of Resources		
	Pension Plan	HIS Plan	Total
Differences between expected and actual experience	\$ -	\$ 29,075	\$ 29,075
Changes of assumptions	-	1,792,642	1,792,642
Net differences between projected and actual investment earnings	3,848,328	5,476	3,853,804
Changes in proportion and differences between City contributions and proportionate share of contributions	5,874,434	1,702,734	7,577,168
	<u>\$ 9,722,762</u>	<u>\$ 3,529,927</u>	<u>\$ 13,252,689</u>

Deferred outflows of resources related to employer contributions paid subsequent to the measurement date and prior to the employer’s fiscal year end will be recognized as a reduction of the net pension liability in the subsequent reporting period ending September 30, 2024. The amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**Note 9 - Florida Retirement System (continued)**

Year Ended September 30,	Employer Share of Deferred Outflows/Inflows		
	Pension Plan	HIS Plan	Total
2025	\$ (3,203,599)	\$ (612,464)	\$ (3,816,063)
2026	7,396,133	(661,095)	6,735,038
2027	(387,342)	(801,138)	(1,188,480)
2028	(140,269)	(599,736)	(740,005)
2029	525,474	(313,992)	211,482
Thereafter	-	(78,280)	(78,280)
Total	\$ <u>4,190,397</u>	\$ <u>(3,066,705)</u>	\$ <u>1,123,692</u>

**Actuarial Assumptions** - The Florida Retirement System Actuarial Assumption Conference is responsible for setting the assumptions used in the funding valuations of both pension plans pursuant to section 216.136 (10), Florida Statutes. The Pension Plan’s valuation is performed annually. The HIS Plan has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the Pension Plan was completed in 2019 for the period July 1, 2018, through June 30, 2023. Because the HIS Plan is funded on a pay-as-you-go basis, no experience study has been completed for that program. The actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the Pension Plan. The total pension liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Pension Plan	HIS Plan
Inflation	2.40%	2.40%
Salary increases	3.50%, average, including inflation	3.50%, average, including inflation
Investment rate of return	6.70%, net of pension plan investment expense, including inflation	N/A
Actuarial cost method	Individual entry age	Individual entry age
Mortality table	PUB-2010 with Projection Scale MP-2021	PUB-2010 with Projection Scale MP-2021

**Long-term Expected Rate of Return** - The long-term expected rate of return on Pension Plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy’s description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption.

The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

**Note 9 - Florida Retirement System (continued)**

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	3.3%	3.3%	1.1%
Fixed income	29.0%	5.7%	5.6%	3.9%
Global equity	45.0%	8.6%	7.0%	18.2%
Real estate	12.0%	8.1%	6.8%	16.6%
Private equity	11.0%	12.4%	8.8%	28.4%
Strategic investments	2.0%	6.6%	6.2%	8.7%
	100.0%			
Assumed inflation - Mean			2.4%	1.5%

(1) As outlined in the Pension Plan's Investment Policy

**Discount Rate** - The discount rate used to measure the total pension liability was 6.70% for the pension plan. The pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

The discount rate used to measure the total pension liability was 3.93% for the HIS Plan. In general, the discount rate for calculating the HIS Plan's total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS Plan benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the municipal bond rate of 3.93% was used to determine the total pension liability. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

**Sensitivity of the City's Proportionate Share of the Net Position Liability to Changes in the Discount Rate** - The following table presents the sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate. The sensitivity analysis, below, shows the impact to the City's proportionate share of the net pension liability if the discount rate was 1.00% lower or 1.00% higher than the current discount rate at June 30, 2024:

	1% Decrease (5.70%)	Current Discount Rate (6.70%)	1% Increase (7.70%)
City's proportionate share of the net pension liability for Pension Plan	\$ 101,843,881	\$ 57,899,891	\$ 21,087,479
	1% Decrease (2.93%)	Current Discount Rate (3.93%)	1% Increase (4.93%)
City's proportionate share of the net pension liability for HIS Plan	\$ 17,237,444	\$ 15,142,196	\$ 13,402,801

**Note 9 - Florida Retirement System (continued)**

**Investment Plan:**

The SBA (State Board of Administration) administered the defined contribution plan officially titled the FRS Investment Plan. The Investment Plan is reported in the SBA’s annual financial statements and in the State of Florida Annual Comprehensive Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS Defined Benefit Plan. City employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual members’ accounts, are defined by law, but the ultimate benefit depends, in part, on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class, as the Pension Plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of plan members. Allocations to the investment members’ accounts during the 2023-2024 fiscal year, as established by Section 121.72, Florida Statutes, are based on percentage of gross compensation, by class, as follows:

<u>Class</u>	<u>Allocation Rate</u>
Elected Officials	16.34%
Senior Management	12.67%
Special Risk	19.00%
Regular Employees	11.30%

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the Pension Plan vesting is transferred to the Investment Plan, the member must have the years of service required for Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on these funds. Non-vested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five-year period, the employee will regain control over his or her account. If the employee does not return within the five-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended September 30, 2024, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the City.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The City’s pension expense for the Investment Plan totaled \$ 1,659,916 for the fiscal year ended September 30, 2024.

**Note 10 - Risk Management**

The City is exposed to risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; illness of and injuries to employees; and natural disasters.

The City has established one internal service fund, the General Insurance Fund, which provides funds for expenses incurred in the insurance programs of workers' compensation and other claims. The City purchases commercial insurance for employee health care coverage, general liability, property, boiler and machinery, public officials' liability, police professional liability, law enforcement officer and firefighter insurance, accidental death and dismemberment and excess workers compensation coverage.

The General Insurance Fund is accounted for as an Internal Service Fund in which assets are set aside for claim settlements. All self-funded insurance program premiums are charged to the General Fund, Building Fund, Stormwater Utility Fund and Water and Wastewater Fund, as applicable. The total charge allocated to each fund is determined by trending actual claims experience. Funding for expenses incurred from unexpected and unusual claims are accounted for through a reserve established for such purposes.

The City recorded an estimated liability for indemnity of workers' compensation claims and general insurance claims against the City. Claims liabilities are based on estimates of the ultimate cost of reported claims (including future claims adjustment expense) and an estimate for claims incurred but not reported, based on historical experience. Claims liabilities include specific, incremental claim adjustment expenses, allocated loss adjustment expenses, and are reduced for estimated recoveries on unsettled claims such as salvage or subrogation.

The following represents the changes in approximate aggregate liabilities for the City from October 1, 2022 to September 30, 2024:

	General Insurance Fund
	<u>                    </u>
Liability balance, October 1, 2022	\$ 5,717,865
Claims and changes in estimates	2,276,264
Claims payments	<u>(2,008,808)</u>
Liability balance, September 30, 2023	5,985,321
Claims and changes in estimates	620,516
Claims payments	<u>(1,307,611)</u>
Liability balance, September 30, 2024	\$ <u><u>5,298,226</u></u>
Claims and payments due within one year	\$ <u><u>1,808,367</u></u>
Assets available to pay claims at September 30, 2024	\$ <u><u>2,296,106</u></u>

The City has not had a significant reduction in insurance coverage. For each of the past three years, major categories of risk, and settled claims have not exceeded the City's retention and excess coverage in force.

**Note 11 - Commitments and Contingencies**

The City is currently the defendant in a number of litigation issues and claims that arose in the normal course of operations. City management intends to defend such matters. In the opinion of management, the ultimate outcome of these claims and issues will not have a material effect on the activities or net position of the City.

In FY 2015, City management noticed inconsistencies in supporting documentation for grant (housing related) awards, notified auditors and funding agencies, and provided information and supporting documentation for review. The grants program became the subject of an active police investigation and a forensic audit. As a result of these actions, the former grants manager pled guilty at arraignment and was sentenced to prison time in August 2017.

The U.S. Department of Housing and Urban Development Office of Inspector General performed an audit of the City's Neighborhood Stabilization Program (NSP) grants related to this same issue. An audit report detailing findings and recommendations was issued in May 2018. The report indicated that \$ 811,571 was spent on ineligible costs and that the Miami Office of Community Planning and Development should require the City to repay the \$ 811,571 to the program from non-Federal funds.

In October 2018, one of the audited properties with ineligible costs was sold and net proceeds remitted to the City totaled \$ 181,385. These monies were deposited thereby reducing the amount recorded in the financial statements to \$ 630,186 as a liability for the potential repayment. Therefore, the financial statements include only an adjustment for \$ 630,186 for NSP in the General Fund and do not include any other adjustments that might result from the outcome of this uncertainty. The City is waiting on instruction from HUD for further disposition of these monies. The City is currently working to settle all items related to this matter. The City has been given permission from HUD to begin the close our process for NSP grants and possibly transferring the program income, currently being held by the City, to the CDBG program.

Audits may be forthcoming for other grant programs.

In fiscal year 2014, the CRA was audited by the Broward Office of the Inspector General (the "OIG"). The OIG audit determined that the CRA failed to comply with the requirements of the Florida Statutes for the allocation and disposition of carryforward TIF funds of approximately \$ 2.7 million. The management of the CRA and legal counsel responded in a letter that they believe that they are in compliance with the statutory requirements. As of September 30, 2024, the CRA has not received an update from the OIG with regard to the audit results during fiscal year 2014. The financial statements do not reflect any adjustments that might result from this uncertainty.

**Note 12 - Other Post-Employment Benefits**

**Plan description and funding policy.** The City offers to retiring employees a one-time opportunity to participate in the City’s employee group health and life insurance program (the “Plan”). The Plan is a single-employer defined benefit OPEB plan administered by Cigna Corporation. The post-employment benefits are extended to retirees and continued at the discretion of the City Commission, which reserves the right (subject to State Statute and any collective bargaining agreements) to change or terminate benefits and to change contributions required from retirees in the future as circumstances change.

The participation of retirees and their eligible dependents in the Plan is at a premium cost to the retiree that is no more than the premium cost applicable to active employees. A retiring member who rejects this initial opportunity to continue to participate in the Plan will not be entitled to another opportunity to renew participation at any time in the future. The coverage provided under this Plan is supplemental and/or secondary to coverage under any and all other health insurance plans or programs that are provided to or carried by the retiring member from any other source.

The following table provides a summary of the number of participants in the Plan as of September 30, 2023 (latest valuation date):

Inactive Plan members or beneficiaries currently receiving benefits	80
Inactive Plan members entitled to but not yet receiving benefits	-
Active Plan members	<u>476</u>
Total Plan members	<u><u>556</u></u>

Currently, the City’s OPEB benefits are unfunded. This plan is not accounted for in a trust fund, as there are no assets accumulated in a trust that falls under the definition of GASB 75. To date, the City has followed a pay as you go funding policy, therefore, only those amounts necessary to provide for the City’s reporting of current year benefit costs and expenses have been contributed from the General Fund. State law prohibits the City from separately rating retirees and active employees for medical plan benefits. Therefore, the City assigns to both groups a blended rate and makes available to both groups the same plan options. Contribution rates are provided for in collective bargaining agreements negotiated with various unions representing employees. Effective January 1, 2018, retirees that are not Medicare eligible are responsible for 35% of premium costs with the City contributing 65%. Effective January 1, 2021, the Federation of Public Employees (FPE) Collective Bargaining Agreement for retirees covered under this agreement that are not Medicare eligible are responsible for 40% of premium costs with the City contributing 60%. Retirees eligible for Medicare are responsible for the full premium. Life insurance coverage for retiree and spouse is 100% retiree paid. The Plan does not issue a stand-alone financial report and it is not included in the report of a public employee retirement system or a report of another entity.

**Note 12 - Other Post-Employment Benefits (continued)**

**Actuarial Methods and Assumptions:** The actuarial valuation of the calculation of OPEB involves estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the City and plan members) and include the types of benefits in force at the valuation date and the historical pattern of sharing benefit costs between the City and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The total OPEB Liability was rolled forward twelve months from the valuation date to the measurement date using standard actuarial techniques.

The total OPEB liability at September 30, 2024 was based on an actuarial valuation dated September 30, 2023 with a measurement date of September 30, 2023, using the following actuarial assumptions:

Actuarial Cost Method	Entry Age Normal
Inflation	2.50%
Discount Rate	4.63%
Salary Increases	Salary increase rates used in the July 1, 2022 actuarial valuation of the Florida Retirement System; 3.4% - 8.2%, including inflation.
Retirement Age	Retirement rates used in the July 1, 2022 actuarial valuation of the Florida Retirement System. They are based on the results of a statewide experience study covering the period 2013 through 2018.
Mortality	Mortality rates are the same as used in the July 1, 2022 actuarial valuation of the Florida Retirement System. These rates were taken from adjusted Pub-2010 mortality tables published by the Society of Actuaries with generational mortality improvements using Scale MP-2018. Adjustments to referenced tables are based on the results of a statewide experience study covering the period 2013 through 2018.
Healthcare Cost Trend Rates	Based on the Getzen Model, with a trend of 0% for 2023 (to reflect actual premiums), 6.25% for 2024, and gradually decreasing to an ultimate trend rate of 4.00%.
Aging Factors	Based on the 2013 SOA Study "Health Care Costs-From Birth to Death".
Expense	Administrative expenses are included in the per capita health costs.

**Note 12 - Other Post-Employment Benefits (continued)**

Changes in assumptions and other inputs include the change in the discount rate from 4.40% as of the beginning of the measurement period to 4.63% as of September 30, 2023. This change is reflected in the Schedule of Changes in Total OPEB Liability.

Effective July 1, 2023, per Senate Bill 7024, the retirement eligibility for Special Risk members hired on or after July 1, 2011 was lowered to the earlier of: (1) age 55 with 6 years of creditable service, or (2) 25 years of creditable service regardless of age. In addition, the maximum DROP participation period was extended from 5 years to 8 years for all eligible for DROP.

**Discount Rate:** The discount rate used to measure the total OPEB liability at September 30, 2023 was 4.63%. Because the City’s OPEB costs are funded on a pay-as-you-go funding structure, a tax-exempt municipal bond rate based on an index of 20 year general obligation bonds with an average AA credit rating as of the measurement date was used to determine the total OPEB liability. The discount rate was 4.40% as of the beginning of the measurement year.

**Total OPEB Liability of the City:** The components of the City’s net OPEB liability at September 30, 2024, are as follows:

Total OPEB liability	\$ 15,497,402
OPEB Plan fiduciary net position	<u>-</u>
City's net OPEB liability	<u>\$ 15,497,402</u>
OPEB Plan fiduciary net position as a percentage of total OPEB liability	0.00%

**Changes in Total OPEB Liability**

Fiscal year ended September 30, 2024	
Total OPEB liability:	
Service cost	\$ 293,670
Interest on total OPEB liability	669,299
Changes of benefit terms	426,983
Change in assumptions and other inputs	(97,938)
Benefit payments	<u>(1,424,574)</u>
Net change in total OPEB liability	(132,560)
Total OPEB liability, beginning	<u>15,629,962</u>
Total OPEB liability, ending	<u>\$ 15,497,402</u>

**Note 12 - Other Post-Employment Benefits (continued)**

**Sensitivity of the Total OPEB Liability to Changes in the Discount Rate:** The following table presents the total OPEB liability, calculated using the discount rate of 4.63%, as well as what the City’s total OPEB liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current discount rate:

	<u>1% Decrease (3.63%)</u>	<u>Current Discount Rate (4.63%)</u>	<u>1% Increase (5.63%)</u>
Total OPEB liability	\$ <u>15,935,093</u>	\$ <u>15,497,402</u>	\$ <u>15,000,687</u>

**Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates:** The following table presents the total OPEB liability of the City, as well as what the City’s total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage-point lower or one percentage-point higher than the current trend rate:

	<u>1% Trend Decrease</u>	<u>Trend Rate Assumption</u>	<u>1% Trend Increase</u>
Total OPEB liability	\$ <u>14,513,902</u>	\$ <u>15,497,402</u>	\$ <u>16,502,993</u>

**OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:** For the year ended September 30, 2024, the City recognized OPEB expense of \$ 1,041,812. At September 30, 2024, the City has deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 4,699,857	\$ -
Changes in assumptions and other inputs	545,689	7,018,396
Benefits paid subsequent to measurement date	<u>1,472,431</u>	<u>-</u>
Total	\$ <u>6,717,977</u>	\$ <u>7,018,396</u>

**Note 12 - Other Post-Employment Benefits (continued)**

\$ 1,472,431 reported as deferred outflows of resources related to OPEB contributions resulting from City benefits made after the measurement date, but before the end of the City’s fiscal year will be recognized as a reduction of the OPEB liability in the year ended September 30, 2024 rather than the current fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Fiscal Year Ending September 30,</u>	<u>Deferred Inflows of Resources</u>
2024	\$ (348,141)
2025	(348,141)
2026	(348,141)
2027	(92,033)
2028	(132,161)
Thereafter	<u>(504,233)</u>
	<u>\$ (1,772,850)</u>

**Note 13 - Deferred Compensation Plan**

The City offers its employees an optional deferred compensation plan in accordance with Internal Revenue Code Section 457. The Plan available to all full-time employees permits them to defer a portion of their salaries until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The City has no liability or fiduciary responsibility for the Plan; therefore, it is not included in the City’s financial statements.

**Note 14 - Encumbrances**

Encumbrance accounting is utilized to the extent necessary to assure budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of encumbrances expected to be honored upon performance by vendors in the next year were as follows:

Governmental Funds	
General Fund	\$ 3,329,691
Nonmajor Funds	<u>3,762,139</u>
Total	<u>\$ 7,091,830</u>

**Note 15 - Governmental Grants**

The grant and contract revenue amounts received are subject to audit and adjustments. If any expenditure is disallowed by the grantor agencies as a result of such an audit, any claim for reimbursement to the grantor/contract agencies becomes a liability of the City. In the opinion of management, all grant and contract expenditures are in compliance with the terms of the agreement and applicable federal, state, and local laws and regulations.

**Note 16 - C51 Reservoir**

In December 2019, the City Commission approved an agreement for capacity allocation in Phase 1 of the C-51 Reservoir Agreement between Palm Beach Aggregates, LLC and the City providing for a regional alternative water supply. Per Chapter 163 of the Florida Statutes, the City is required to develop a 10-year water supply facilities work plan that incorporates the projects proposed by the City in the 2018 update of the Lower East Coast (LEC) water supply plan or other alternate projects approved by South Florida Water Management District (SFWMD). The C-51 Reservoir Project and storage capacity for water supply allocation is considered an alternative water supply as defined in Florida Statutes Section 371.019(1).

This agreement for capacity allocation provides for the City, as a governmental entity that owns and operates a public water utility, to contribute its pro-rata share of the capital costs and operating and maintenance costs in exchange for a contractual allocation of the permitted storage capacity in the Phase 1 Reservoir as an alternative water supply. The Capacity Allocation Agreement provides for two million gallons per day of storage capacity in the C-51 Reservoir. The regional alternative water supply stores excess wet-season storm runoff for later distribution and use during the dry season. A series of interconnected reservoirs (collectively, the C-51 Reservoir) will be constructed to receive and store water from areas under the jurisdiction of the SFWMD. Each party will be charged a pro rata contribution of capital costs and following construction a pro rata contribution of operating and maintenance costs based upon their respective storage allocation and consumptive use permit. During 2023, the City expensed \$ 9.2 million for its cost share on the C-51 Reservoir based on the initial capacity of two million gallons per day. Phase 1 of the project was completed in September 2023. This project was included in the City's five-year capital improvement plan for FY 2023. The initial estimated annual operations payment is \$ 36,551 per MGD of the City's final capacity allocation which includes certain renewal and replacement costs. For Fiscal Year 2024 the City paid \$77,590 based on 2 MGD to C-51 NFP towards the annual operations cost.

**Note 17 - Date of Management Review**

The City's management has evaluated subsequent events through April 3, 2025, the date which the financial statements were available for issue.

**Note 1 - Budgetary Information**

The following procedures are used to establish the budgetary data reflected in the financial statements:

Annual appropriated budgets are adopted for all governmental funds. Budgets are prepared on a basis consistent with accounting principles generally accepted in the United States of America (GAAP). All annual appropriations lapse at fiscal year-end.

1. On or before August 15 of each year, the City Manager submits to the City Commission a proposed operating budget for the fiscal year beginning October 1. The operating budget includes proposed expenditures and the means of financing them. The City Commission holds budget workshops and two public hearings to solicit comments and suggestions from the citizens.
2. Prior to October 1, a final budget is legally adopted by City Ordinance. The appropriated budget is prepared by fund, function and department. The City Manager may approve transfers of appropriations within a department; transfers of appropriations between departments or funds, however, require approval of the City Commission. Accordingly, the legal level of budgetary control is at the department level, except for the Margate CRA and Northwest Focal Point Senior Center where budgetary control is at the Agency level.
3. The Opioid Settlement Fund does not have a legally adopted budget, as the City is still exploring possible projects for using these funds.
4. Encumbrance accounting is employed in governmental funds. Encumbrances outstanding at year end are reported as a component of either assigned or restricted fund balance and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent fiscal year.
5. Debt service expenditures are included within their respective department expenditure balances.

**Notes to Schedule:**

\*This schedule is intended to show information for seven years. Additional years will be displayed as they become available.

Changes in assumptions include the change in the discount rate from 4.40% as of the beginning of the measurement period to 4.63% as of September 30, 2023.

Benefit changes reflected in the total OPEB liability for the measurement period ending September 30, 2023: Effective July 1, 2023, per Senate Bill 7024, the retirement eligibility for Special Risk members hired on or after July 1, 2011 was lowered to the earlier of: (1) age 55 with 6 years of creditable service, or (2) 25 years of creditable of service regardless of age. In addition, the maximum DROP participation period was extended from 5 years to 8 years for all eligible for DROP.

*Plan Assets.* No assets are accumulated in a trust that meets all of the criteria of GASB No. 75, *paragraph 4*, to pay benefits.

COMBINING AND INDIVIDUAL FUND  
FINANCIAL STATEMENTS  
AND SCHEDULES

## NONMAJOR GOVERNMENTAL FUNDS

### Special Revenue Funds

Special Revenue Funds are used to account for resources legally restricted for the financing of particular activities or projects.

**Road Fund** - To account for the receipt and disbursement of the City's portion of the state revenue sharing of the gasoline tax and local option gas tax.

**Impact Fees Fund** - To account for public safety projects. Revenues are derived from impact fees collected during the building permit process.

**Police Officers Training Fund** - To account for the receipt and disbursement of funds derived from court costs assessed for the purpose of law enforcement education expenditures.

**Confiscated Properties Fund** - To account for revenues generated by Police Department confiscations and investigative reimbursements.

**Building Fund** - To account for the activities of the Building Department that safeguards public health, safety, and general welfare through the administration and enforcement of the Florida Building Code and all local ordinances to ensure the highest level of building code compliance.

**Housing and Urban Development (HUD) Grant Fund** - To account for Federal funds received from the United States Department of Housing and Urban Development. These funds are used for home repairs, home ownership assistance, park rehabilitation, landscaping of blighted areas, commercial revitalization, and administration.

**Underground Utility Trust Fund** - To account for the receipt and disbursement of funds derived from developers' contributions to be expended on future projects that place existing or future utility lines underground.

**Opioid Settlement Fund** - To account for the receipt and disbursement of funds derived from the Florida Opioid Settlement Trust Fund.

**Northwest Focal Point Senior Center Fund** - To account for the revenues and expenditures of the special district that provides services to the elderly.

**Transportation Surtax Fund** - To account for the receipt and disbursement of funds derived from an interlocal agreement between the City and Broward County for the One Penny Transportation Surtax. This fund has had no activity since inception through the fiscal year ending September 30, 2024, and is included for budgetary presentation purposes only.

### Debt Service Fund

**General Obligation Refunding Bonds, Series 2016 Debt Service Fund** - To account for and report financial resources that are restricted for principal and interest on general long-term debt, for the General Obligation Refunding Bonds, Series 2016.

**General Obligation Bonds, Series 2019 Debt Service Fund** - To account for the accumulation of property taxes used to pay principal, interest and related costs of the General Obligation Bonds, Series 2019.

### Capital Projects Funds

**General Capital Projects Fund** - To account for financial resources segregated for the acquisition or construction of major capital facilities other than those financed by enterprise operations.

**General Obligation Bonds Proceeds 2019 Fund** - To account for the use of the 2019 bond proceeds for the costs of acquiring, constructing, equipping, renovating, replacing, and improving parks and recreation projects.

**Margate Community Redevelopment Agency Loan Proceeds Capital Projects Fund** – To account for the capital projects financed by loan proceeds of the CRA for the financing and redevelopment of the designated redevelopment areas.

# STATISTICAL SECTION

## STATISTICAL SECTION

This part of the City's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>CONTENTS</u>	<u>PAGE</u>
<b>Financial Trends</b> These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	101-111
<b>Revenue Capacity</b> These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	112-115
<b>Debt Capacity</b> These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	116-119
<b>Demographic and Economic Information</b> These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and provide comparison over time and with other governments.	120-121
<b>Operating Information</b> These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	122-124

*Sources: Unless otherwise noted, the information in these schedules is derived from the Annual Comprehensive Financial Reports for the relevant year.*

**City of Margate, Florida**  
**Direct and Overlapping Governmental Activities Debt**  
**As of September 30, 2024 (dollars in thousands)**

**Table 12**

<b>Governmental Unit</b>	<b>Debt Outstanding</b>	<b>Estimated Percentage Applicable</b>	<b>Amount Applicable to Primary Government</b>
Debt repaid with property taxes			
Broward County School Board	\$ 2,093,019	1.51%	\$ 31,605
Broward County	9,400	1.67%	157
Subtotal, overlapping debt			31,762
<b>City of Margate direct debt</b>			<b>30,704</b>
<b>Total direct and overlapping debt</b>			<b>\$ 62,466</b>

Sources: Taxable value data used to estimate applicable percentages provided by the Broward County Property Appraiser.  
Debt outstanding data provided by each governmental unit as listed above.

Notes: Overlapping governments are those that coincide with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Margate. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account.

For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of other governmental unit's taxable assessed value that is within the City's boundaries and dividing it by each unit's total taxable assessed value.

2022	-	-	-	-	-	-
2023	-	-	-	-	-	-
2024	-	-	-	-	-	-

Notes: Revenues are defined as all rates, fees, charges, assessments, or other income received by the City or accrued to the City from the operation of the Water and Wastewater System, and also includes the earning and investment income deposited in the Operations and Maintenance Fund and the Renewal and Replacement Fund derived from the investment and re-investment of monies on deposit.

Net revenues are defined as revenues remaining after deduction of operating expenses. For purposes of determining compliance with the rate covenant and parity bond provisions, net revenues shall not include nonpledged revenues.

Nonpledged revenues are defined as connection charges, special assessment charges, capacity reservation charges, meter fees, contributions in aid of construction and other capital contributions, and any non-recurring charges hereafter imposed.

Operating expenses are defined as current expenses, paid or accrued, of operations, maintenance and ordinary current repairs of the Water and Wastewater System and its facilities.

The bonds matured on October 1, 2020 and were paid off.

# COMPLIANCE SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable Mayor and  
Members of the City Commission  
City of Margate, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Margate, Florida (the "City"), as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated April 3, 2025.

### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

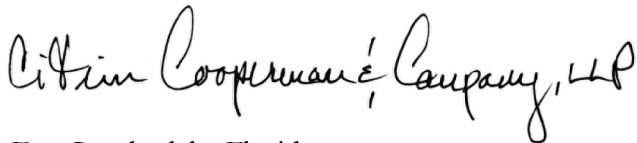

## Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Fort Lauderdale, Florida  
April 3, 2025

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR  
FEDERAL PROGRAM AND STATE PROJECT AND ON INTERNAL CONTROL  
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND CHAPTER 10.550,  
*RULES OF THE FLORIDA AUDITOR GENERAL*

To the Honorable Mayor and  
Members of the City Commission  
City of Margate, Florida

**Report on Compliance for Each Major Federal Program and Major State Project**

***Opinion on Each Major Federal Program and Major State Project***

We have audited the City of Margate, Florida's (the "City") compliance with the types of compliance requirements described in the OMB *Compliance Supplement* and the compliance requirements described in the Florida Department of Financial Services' *State Projects Compliance Supplement* that could have a direct and material effect on the City's major federal program and major state project for the year ended September 30, 2024. The City's major federal program and major state project are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program and major state project for the year ended September 30, 2024.

***Basis for Opinion on Each Major Federal Program and Major State Project***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, *Rules of the Florida Auditor General*. Our responsibilities under those standards, the Uniform Guidance, and Chapter 10.550, *Rules of the Florida Auditor General*, are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program and major state project. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the City's federal programs and major state projects.

"Citrin Cooperman" is the brand under which Citrin Cooperman & Company, LLP, a licensed independent CPA firm, and Citrin Cooperman Advisors LLC serve clients' business needs. The two firms operate as separate legal entities in an alternative practice structure. The entities of Citrin Cooperman & Company, LLP and Citrin Cooperman Advisors LLC are independent member firms of the Moore North America, Inc. (MNA) Association, which is itself a regional member of Moore Global Network Limited (MGNL). All the firms associated with MNA are independently owned and managed entities. Their membership in, or association with, MNA should not be construed as constituting or implying any partnership between them.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance, and Chapter 10.550, *Rules of the Florida Auditor General*, will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program and major state project as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance, and Chapter 10.550, *Rules of the Florida Auditor General*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and Chapter 10.550, *Rules of the Florida Auditor General*, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Report on Internal Control over Compliance***

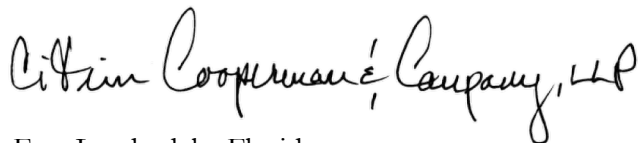

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or state project on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state project will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

"Citrin Cooperman" is the brand under which Citrin Cooperman & Company, LLP, a licensed independent CPA firm, and Citrin Cooperman Advisors LLC serve clients' business needs. The two firms operate as separate legal entities in an alternative practice structure. The entities of Citrin Cooperman & Company, LLP and Citrin Cooperman Advisors LLC are independent member firms of the Moore North America, Inc. (MNA) Association, which is itself a regional member of Moore Global Network Limited (MGNL). All the firms associated with MNA are independently owned and managed entities. Their membership in, or association with, MNA should not be construed as constituting or implying any partnership between them.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550, *Rules of the Florida Auditor General*. Accordingly, this report is not suitable for any other purpose.

## MANAGEMENT LETTER IN ACCORDANCE WITH THE RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

To the Honorable Mayor and  
Members of the City Commission  
City of Margate, Florida

### Report on the Financial Statements

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Margate, Florida (the "City") as of and for the fiscal year ended September 30, 2024, and have issued our report thereon dated April 3, 2025.

### Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, *Rules of the Florida Auditor General*.

### Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditor's Report on Compliance for Each Major Federal Program and State Project and Report on Internal Control Over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated April 3, 2025, should be considered in conjunction with this management letter.

### Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings and recommendations made in the preceding annual financial audit report.

### Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The City of Margate, Florida was incorporated as a municipality in 1961 under Chapter 30962, Laws of Florida, Acts of 1955. The City includes the following blended component units: Margate Community Redevelopment Agency (CRA) established under the authority of Florida Statute Chapter 163, Section III in 1996 and the Northwest Focal Point Senior Center (the "Center") established as a dependent special district in August 2009 by the City of Margate Ordinance 2009-11.

"Citrin Cooperman" is the brand under which Citrin Cooperman & Company, LLP, a licensed independent CPA firm, and Citrin Cooperman Advisors LLC serve clients' business needs. The two firms operate as separate legal entities in an alternative practice structure. The entities of Citrin Cooperman & Company, LLP and Citrin Cooperman Advisors LLC are independent member firms of the Moore North America, Inc. (MNA) Association, which is itself a regional member of Moore Global Network Limited (MGNL). All the firms associated with MNA are independently owned and managed entities. Their membership in, or association with, MNA should not be construed as constituting or implying any partnership between them.

## Financial Condition

Sections 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific conditions met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures for the City. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by the same.

Section 10.554(1)(i)2., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

## Property Assessed Clean Energy (PACE) Programs

As required by Section 10.554(1)(i)6.a., *Rules of the Auditor General*, the City is required to include a statement as to whether a PACE program authorized pursuant to Section 163.081 or Section 163.082, Florida Statutes, did/did not operate within the City's geographical boundaries during the fiscal year under audit.

As required by Section 10.554(1)(i)6.b., *Rules of the Auditor General*, if a PACE program was operating within the geographical areas of the City, a list of all program administrators and third-party administrators that administered the program.

As required by Section 10.554(1)(i)6.c., *Rules of the Auditor General*, if a PACE program was operating within the geographical areas of the City, the full names and contact information of each such program administrator and third-party administrator.

The City did operate a PACE program within the City's geographical boundaries during the fiscal year under audit. The City maintains a list of program administrators and third party-party administrators on the City's website.

## Special District Component Units

Section 10.554(1)(i)5.c, *Rules of the Auditor General*, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district to provide the financial information necessary for proper reporting of the component unit, within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554 (1)(i)6, *Rules of the Auditor General*, the City reported the specific information in Exhibit 1 accompanying this report. The information for compliance with Section 218.39(3)(c), Florida Statutes and Section 10.554(1)(i)6, *Rules of the Auditor General*, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

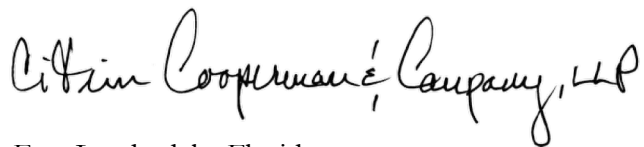

## Additional Matters

Section 10.554(1)(i)3., *Rules of the Auditor General*, requires us to communicate noncompliance with provisions of contracts or grant agreements, or fraud, waste, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

"Citrin Cooperman" is the brand under which Citrin Cooperman & Company, LLP, a licensed independent CPA firm, and Citrin Cooperman Advisors LLC serve clients' business needs. The two firms operate as separate legal entities in an alternative practice structure. The entities of Citrin Cooperman & Company, LLP and Citrin Cooperman Advisors LLC are independent member firms of the Moore North America, Inc. (MNA) Association, which is itself a regional member of Moore Global Network Limited (MGNL). All the firms associated with MNA are independently owned and managed entities. Their membership in, or association with, MNA should not be construed as constituting or implying any partnership between them.

### Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Members of the City Commission, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH  
SECTION 218.415 FLORIDA STATUTES

To the Honorable Mayor and  
Members of the City Commission  
City of Margate, Florida

We have examined the City of Margate, Florida's (the "City") compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies* (the "specified requirements"), during the year ended September 30, 2024. Management is responsible for the City's compliance with the specified requirements. Our responsibility is to express an opinion on the City's compliance with the specified requirements based on our examination.

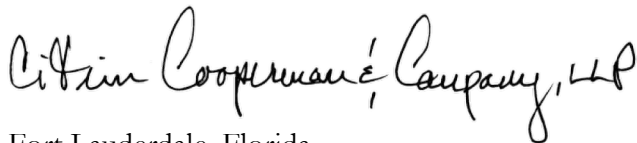

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent of the City and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to the examination engagement.

Our examination does not provide a legal determination on the City's compliance with the specified requirements.

In our opinion, the City complied, in all material respects, with the specified requirements for the year ended September 30, 2024.

This report is intended solely for the information and use of the City Commission, management, and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.

**Note 1 - Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance (the "Schedule") includes the federal and state grant activity of the City of Margate, Florida (the "City"). The information in the Schedule is presented in accordance with the requirements of Title 2 *U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* and Chapter 10.550, *Rules of the Florida Auditor General*. Because the Schedule presents only a selected portion of the operations, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City.

**Note 2 - Summary of Significant Accounting Policies**

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, and Chapter 10.550, *Rules of the Florida Auditor General*, as well as other applicable provisions of contracts and grant agreements, wherein certain types of expenditures are not allowable or are limited as to reimbursements, as applicable.

**Note 3 - Indirect Cost Rate**

The City did not elect to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.
