Margate, FL 33063

Dear Mr. Shambray:

Soil Tech Distributors, Inc. is pleased to provide the attached Bid Proposal Form in response to the City of Margate's Bid No. 2015-015 entitled "Aggregates, Top Soils, and Sand".

Soil Tech Distributors, Inc., is part of a Miami based family of companies with extensive trucking experience. Soil Tech and its sister companies, Bulk Express Transport and Intercity Disposal, are primarily engaged in the businesses of hauling rock, soils, sand and gravel, municipal solid wastes, construction and demolition debris, recyclable materials, ash, sludge, and wood by-products throughout Florida. Another related company, Rabsa, collects municipal solid waste under municipal contracts in the San Jose, Costa Rica metropolitan area. The Costa Rica business also includes the operation of a regional solid waste landfill.

The group's main office and trucking terminal is in Miami, but additional facilities exist in Tampa and Orlando. The Costa Rica operations are headquartered in Alajuela, a suburb of San Jose. The family of companies together comprises a privately owned trucking organization possessing over 300 tractors and trailers, dump trucks, loaders and excavators, and solid waste collection vehicles. Independent contractors working for the companies contribute another 250 dump trucks, tractors and trailers to the organization's physical asset base. This substantial investment in equipment makes the organization uniquely qualified to provide high quality and reliable transportation services to Florida's various heavy industries and local governments.

The company provides transportation services throughout the Florida peninsula, primarily from the Ocala area south to the Florida Keys. The largest line of-business is providing the transportation of waste materials. The company now loads and transports waste from many different transfer stations in Florida through contracts with Waste Management, Waste Services, Republic Services, and other smaller waste service providers.

In addition to the main lines of business, Soil Tech and its affiliated companies have a long and successful track record of providing disaster relief services in Florida. The companies have responded to the critical needs of cleaning up after natural disasters, including extensive work in the aftermaths of Hurricane Andrew in South Miami-Dade County, Hurricane Georges in the Florida Keys, Hurricane Irene in Miami Beach, Hurricane Gabrielle in Sarasota and Manatee Counties, Hurricane Charley in Lee County, and Hurricane Wilma in both Miami-Dade and Collier Counties. The companies' diverse processing, loading, and trucking resources and overall expertise provide invaluable assistance during the recovery from these types of catastrophic events.

The Miami office provides upper management and other support functions for the entire organization, but each of the many facilities has its own management, truck dispatching, and record keeping. Key personnel of note for Soil Tech Distributors include Ramon Mijares, President; Bernardo Mijares, Vice President; Albert Luer, Vice President; and Nicky Blanco, Dispatcher. These individuals are based in the Miami office, but travel the state regularly on company business. Together, they possess over 100 years' experience in the solid waste and trucking industries.

We are proud of the level of service that we have been able to provide to our customer base in Florida and we look forward to providing similar services to the various cities that are participating in the co-op bid.

I would be pleased to answer any questions you may have regarding this bid proposal.

Thank you.

Sincerely,

Bernardo Mijares
Vice President

USE OF SMS DATA/INFORMATION

The data in the Safety Measurement System (SMS) is performance data used by the Agency and Enforcement Community. A  symbol, based on that data, indicates that FMCSA may prioritize a motor carrier for further monitoring.

The  symbol is not intended to imply any federal safety rating of the carrier pursuant to 49 USC 31144. Readers should not draw conclusions about a carrier's overall safety condition simply based on the data displayed in this system. Unless a motor carrier in the SMS has received an UNSATISFACTORY safety rating pursuant to 49 CFR Part 385, or has otherwise been ordered to discontinue operations by the FMCSA, it is authorized to operate on the nation's roadways.

Motor carrier safety ratings are available at <http://safer.fmcsa.dot.gov> and motor carrier licensing and insurance status are available at <http://li-public.fmcsa.dot.gov/>.
