## FLORIDA SHERIFFS ASSOCIATION & FLORIDA ASSOCIATION OF COUNTIES

### MID-SIZE 4-DOOR UTILITY VEHICLES - 4X2 SPECIFICATION #27

#### 2018 Ford Explorer (K7B)

The Ford Explorer (K7B) purchased through this contract comes with all the standard equipment as specified by the manufacturer for this model and FSA's base vehicle specification(s) requirements which are included and made a part of this contract's vehicle base price as awarded by specification by zone.

ZONE:	Western	Northern	Central	Southern
BASE PRICE:	\$24,810.00	\$25,147.00	\$25,892.00	\$25,247.00

While the Florida Sheriffs Association and Florida Association of Counties have attempted to identify and include those equipment items most often requested by participating agencies for full size vehicles, we realize equipment needs and preferences are going to vary from agency to agency. In an effort to incorporate flexibility into our program, we have created specific add/delete options which allow the purchaser to tailor the vehicle to their particular wants or needs.

The following equipment delete and add options and their related cost are provided here to assist you in approximating the total cost of the type vehicle(s) you wish to order through this program. Simply deduct the cost of any of the following equipment items you wish deleted from the base unit cost and/or add the cost of any equipment items you wish added to the base unit cost to determine the approximate cost of the type vehicle(s) you wish to order.

NOTE: An official listing of all add/delete options and their prices should be obtained from the appropriate dealer in your zone when preparing your order. Additional add/delete options other than those listed here may be available through the dealers, however, those listed here must be honored by the dealers in your zone at the stated prices.

TREMCO <sup>1</sup>	Tremco anti-theft - foot activated, dealer installed <small>Product Specifications: The Anti-Theft system will turn on automatically every time the vehicle shift lever is placed in the "park" position. The system shall not require a key or switch to activate, since quick departures are common in police procedures. This technology enhances 100% usage. With the motor running and the Anti-Theft system activated, the automatic transmission shift lever won't move out of the "park" position. The motor of a parked vehicle with the Anti-Theft system will be capable of starting, but the shift lever won't move out of the "park" position as in #2. The Anti-Theft system shall be deactivated by means of a not easily identifiable covert hidden floor switch system made of rubber material that has no electrical wires to sustain water damage. 1</small>	\$219.00 <sup>1</sup>	\$395.00

To: Alain Banatte

Sgt,

Tint estimation is below, do you need an invoice printed from them instead of the email? I was hoping they would attach an invoice.
