25	FieldTurf Hockey Gold	FieldTurf Hockey Gold	The FieldTurf Hockey Gold System is a revolutionary turf system- designed specifically for the highest levels of field hockey play. It is the industry's premiere field hockey offering. The product is built with the Elliptic fiber- a uniquely engineered filament with the same reliable, built-in durability characteristics that FieldTurf products have become known for. Shaped like a lens, the fiber is texturized through a high heat process to create its crimped effect. Within the water-based and sand-dressed FieldTurf Hockey Gold System, the Elliptic fiber retains its memory to hold its shape, providing a truly uniform and non-directional surface with exceptional durability. Excellent ball performance and low abrasion, better non-directional ball roll and speed than other traditional field hockey turfs, premium hockey performance, water based or sand dressed options for desired performance. Pad or foam underlayment required and additional cost.	Per Sq. Ft.	\$11.53	9.00%	\$10.49
26	EasyField - Removeable Tray System (10,000 sf minimum)	<b>EasyField - Removeable Tray System (10,000 sf minimum)</b>	FieldTurf's Removable Tray System has proven to be a viable performance solution for a facility's customized conversion needs. FieldTurf's removable trays consist of portable sect.	Per Sq. Ft.	\$25.00	9.00%	\$22.75
27	FieldTurf	FieldTurf Genius- Supply equipment (does not include monthly plan or pole)	FieldTurf Genius uses the latest in computer technology to document real time field usage and participation. Data is provided to owner's facilities department that identifies trends in field usage, peak/off peak times, and attendance. Through intelligent maintenance alerts and schedules, this technology will help you maintain a constant high level of surface performance throughout the life of the turf to maximize usage.	Cost per Unit	\$ 40,000.00	9%	\$ 36,400
28	FieldTurf	FieldTurf Genius supply with 8 year Monthly plan	FieldTurf Genius uses the latest in computer technology to document real time field usage and participation. Data is provided to owner's facilities department that identifies trends in field usage, peak/off peak times, and attendance. Through intelligent maintenance alerts and schedules, this technology will help you maintain a constant high level of surface performance throughout the life of the turf to maximize usage. Includes 8 year monthly fee.	Cost per Unit	\$ 60,000.00	9%	\$ 54,600
29	FieldTurf	FieldTurf Re-Cover (Replacement Overlay)	Install a new FieldTurf field on top of an eligible existing synthetic field. Process allows for consistent footing, ball-to-surface interaction and performance on Re-Cover, the existing field is carefully leveled to ensure planarity. A surfactant is then applied to the existing infill to lower surface tension and aid in reducing long-term compaction. (Additional costs may apply for additional leveling/base remediation).	Per Sq. Ft.	\$1.50	9%	\$1.37
30	FieldTurf	FieldTurf Double Play Speed	Baseball turf product designed for a "fast" field. Our development program pushed past the standard infield/outfield options to deliver optimal performance specifically for your field. DoublePlay allows you to design your entire field, start to finish, with precision. Pricing applies to a minimum purchase of 40,000 sf.	Per Sq. Ft.	\$7.25	9%	\$6.60
31	FieldTurf	FieldTurf Double Play Natural	Baseball turf product designed to play like a natural grass field. Our development program pushed past the standard infield/outfield to deliver optimal performance specifically for your field. DoublePlay allows you to design your entire field, start to finish, with precision. Pricing applies to a minimum purchase of 40,000 sf.	Per Sq. Ft.	\$6.65	9%	\$6.05
32	FieldTurf Triple Threat Speed	Triple Threat Speed	Softball turf product designed for a "fast" field. 57	BROCK POWERBASE	BROCK POWERBASE	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field. PowerBase provides ideal shock absorption and field stiffness for elite athletes such as NCAA, Professional Soccer, and Pro Football.	Per Sq. Ft.	\$3.60	9.00%	\$3.28
58	BROCK - SP 14	Brock SP 14	The original panel underlayment designed specifically for artificial turf. It can replace most of the traditional stone base and has a perfect track record for field drainage. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.60	9.00%	\$3.28
59	Beynon- Shock Base	Shock Base (26mm)	Shockbase Elayer is an elastic layer shock pad that is 26mm in normal thickness and provides an energy absorbing elastic layer for use with athletic field surfaces. Composition to be comprised of SBR rubber granules and moisture cured polyurethane binder. Pricing for 90,000 sf feet minimum. 8 year warranty.	Per Sq. Ft.	\$ 4.95	9.00%	\$4.50
60	Beynon- Shock Base	Shock Base (19 mm)	Shockbase Elayer is an elastic layer shock pad that is 19mm in normal thickness and provides an energy absorbing elastic layer for use with athletic field surfaces. Composition to be comprised of SBR rubber granules and moisture cured polyurethane binder. Pricing for 90,000 sf feet minimum. 8 year warranty.	Per Sq. Ft.	\$ 4.95	9.00%	\$4.50
61	Rondi-Versatile	Versatile	The ultimate drainage and shock underlayment/pad system. VersaTile installed under the turf system and above the base to provide added drainage and improved Gmax. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$2.50	9.00%	\$2.28
62	FieldTurf	Removal and Disposal	Work involves the removal and disposal of an existing synthetic turf athletic field. This work can only be performed in preparation for the installation of a new FieldTurf Field.	Per Sq. Ft.	\$2.00	9.00%	\$1.82
63	Natural Grass Field: Sod or Seed	Sod or Seed	Supply and Install a natural grass field via either sod or seed. Price does not include any preparation of ground. Grow in is not guaranteed.	Per Sq. Ft.	\$2.00	9.00%	\$1.82
64	TrueBlend	TrueBlend	<b>TRUEBLEND: BLENDED TO CREATE A SUPERIOR SOLUTION:</b> Made from natural cork and premier-grade elastomers, TrueBlend is produced by fusing these materials into one. The result is an infill that provides natural-like playing characteristics, aesthetics and the added benefit of easy upkeep. Natural materials and sophisticated engineering blended into one.	Per Sq. Ft.	\$2.45	9.00%	\$2.23
65	CoolPlay	CoolPlay	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Cork Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. (No additional pad required)	Per Sq. Ft.	\$1.15	9.00%	\$1.05
66	E-Core/EPDM	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$2.85	9.00%	\$2.59
67	EnviroFill	EnviroFill	Composed of coated sand (granules), our EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.75	9.00%	\$6.14

Pricing above does account for Sourcewell related fees. FieldTurf does reserve the right to request reduced remittance of fee on case-by-case mutually agreed upon circumstances.

#### FieldTurf SOURCEWELL General Pricing Notes:

- Shipping and Freight to Canada, Hawaii, Alaska or other areas outside of the continental US is not included in standard Primary pricing and will be an additional cost based on site location. Additional shipping costs will be based on the cost to transport equipment and materials from the closest US port to the job site. Additional costs may also be added for crew transportation and accommodations to any site outside of the continental US.
- FieldTurf offers financing options for customers who qualify.
- OPTIONAL Pricing (Hot List Pricing): Volume Discounts are available on supply and installation of turf surfacing and related site work on a case-by-case basis and will be discussed with owner and SOURCEWELL to determine an acceptable discount based on the applicable volume.
- Price per unit cost accounts for domestic shipping, use tax, state specific tax and wage rates (Davis Bacon, non-prevailing wages, prevailing wages).

5. FieldTurf works with SOURCEWELL to track sales by sending SOURCEWELL copies of quarterly reports on status of administrative fee remittance.
  6. If site work is required: Alternative Method of Costing covers any product and/or service not covered by catalog pricing, published price list, line-item price list, automated system for pricing, or is a product and /or service due to the projects or applications specifications, conditions and /or requirements that need to be custom designed, developed, manufactured and /or produced to meet the requirements of an individual project or sole source.
  7. If site work is required: Unit Price Book via RS MEANS estimate will be obtained for projects with site work line items not included in FieldTurf SOURCEWELL product pricing spreadsheet. RS MEANS is self contained and consists of a turn-key solution that includes a complete line-item listing of all the products, supplies, material, equipment, services, accessories and options with their description, specification, terms, conditions and associated pricing for each item, sub-assemblies and/or assemblies. FieldTurf reserves the right to offer a discount to the RS MEANS calculation to account for volume discounts or to stay within standard market pricing.
  8. FieldTurf maintains the right to add Administrative Management fees to projects that include site work .
  9. SOURCEWELL Pricing applies to turf fields that are 45,000sf or more. For projects less than 45,000 sf, owner, RS MEANS pricing will be used. Landscaping/Playground product sq. foot pricing applies for a minimum purchase of 5000 sf. For projects that do not meet the minimum requirement, owner, SOURCEWELL will use RS MEANS. Pricing is for track projects over 4000 sy and applies to only standard black or red colors. Custom color track surfacing is available at an increased price per square yard.
  10. New Construction – Sq. foot/yard pricing is for surfacing only. FieldTurf is prepared to offer turn key solutions for the construction of running tracks, courts, and fields through use of Alternative Costing and RS Means. The best value pricing for base or civil work is obtained through these costing methods.
- Site work or new construction may include but is not limited to: removal and disposal of existing sports surface, lighting, demolition, excavation, rock base aggregate, top rock, asphalt, concrete, sidewalks, turf shock absorption underlayment such as e-layer or padding, tie in to existing drainage, drainage systems, conduits, fencing, crack repair, asphalt repair, etc. which can be purchased through RS MEANS or Alternative Costing based on the owner's preference.

See Pricing Notes PDF for additional details.

Proposed Prices shall be provided in Canadian funds and shall include all applicable Customs, duties, tariffs, overhead, materials, fuel, office All prices shall be quoted exclusive of applicable taxes, each of which, if applicable, should be stated separately.

Pricing is for standard colours only. Custom colours will be priced on a case by case basis.

Pricing includes the labor rates, shipping, etc necessary to supply and installation synthetic turf surfacing

Pricing is NOT TO EXCEED

		Supply and installation of synthetic turf system on an acceptable base. Price based on purchase of 70,000 sf minimum.

	XM7-50	1L x 1W (SF) Synthetic turf, Artificial turf; All weather turf. The FieldTurf XM7 System is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.75	9.00%	\$7.05
	XT-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT System features a slit-film fibre that has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$8.33	9.00%	\$7.58
	XT-60	Tested to FIFA Quality and FIFA Quality Pro standards, XT-60 features out Classic HD slitfilm fibre with a 2 layer ambient SBR / sand system.	Per Sq. Ft.	\$8.14	9.00%	\$7.41
	XT-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.96	9.00%	\$7.24
	XT-50	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.75	9.00%	\$7.05
	FTVT-CORE-1	FieldTurf's proprietary CORE fibre in a dual fiber monofilament / slitfilm single needle tufting pattern with Elite infill and tested to FIFA Quality and FIFA Quality Pro standards.	Per Sq. Ft.	\$9.44	9.00%	\$8.59

	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.28	9.00%	\$8.44
	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.42	9.00%	\$8.57
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.57	9.00%	\$7.80
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.49	9.00%	\$7.73
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$8.41	9.00%	\$7.65
	FTVT-57	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. 	ShockBase Pro	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$3.75
	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$135.34
	<b>SERVICE NAME</b>	<b>TRACK RESURFACING (to be installed on existing base and track system). 	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$51.67
	BSS-300 RE	<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$19.83

	FT-CORE 2.5"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.24	9.00%	\$ 8.41
	FT-CORE 2.25"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.44	9.00%	\$ 8.59
	FT-CORE 2"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.58	9.00%	\$ 7.80
	FTRV360-1	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.07	9.00%	\$ 8.26
	FTRV360-1 FIFA Recipe	Similar to FTRV360-1, FTRV360-1 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested.	Per Sq. Ft.	\$9.46	9.00%	\$ 8.61
	FTRV360-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.28	9.00%	\$ 8.44
	FTRV360-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.41	9.00%	\$ 7.65
	FTRV360-2 FIFA over VersaTile Recipe	Similar to FTRV360-2, FTRV360-2 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested. It should be installed with VersaTile which is priced separately below.	Per Sq. Ft.	\$8.56	9.00%	\$ 7.79
	FTHD-1	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.07	9.00%	\$ 8.26

	FTHD-57	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.28	9.00%	\$ 8.44
	FTHD-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Classic HD is the newest slit film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Couples with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$8.41	9.00%	\$ 7.65
	FTHD-2 FIFA Recipe	This FIFA Quality tested product combines our internally manufactured Classic HD fibre with a two layer ambient / sand system.	Per Sq. Ft.	\$7.81	9.00%	\$ 7.11
	XM7-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$8.31	9.00%	\$ 7.56
	XMRV360-60-38	XMRV360-60-38 (also referred to as FTRV-60-38oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$8.16	9.00%	\$ 7.43
	XMRV360-60-44	XMRV360-60-44 (also referred to as FTRV-60-44oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$8.34	9.00%	\$ 7.59
	XM7-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.95	9.00%	\$ 7.24
	XM7-50	1L x 1W (SF) Synthetic turf, Artificial turf; All weather turf. The FieldTurf XM7 System is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.77	9.00%	\$ 7.07
	XT-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT System features a slit-film fibre that has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$8.31	9.00%	\$ 7.56
	XT-60	Tested to FIFA Quality and FIFA Quality Pro standards, XT-60 features out Classic HD slitfilm fibre with a 2 layer ambient SBR / sand system.	Per Sq. Ft.	\$8.14	9.00%	\$ 7.41
	XT-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.95	9.00%	\$ 7.24
	XT-50	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.77	9.00%	\$ 7.07
	FTVT-CORE-1	FieldTurf's proprietary CORE fibre in a dual fiber monofilament / slitfilm single needle tufting pattern with Elite infill and tested to FIFA Quality and FIFA Quality Pro standards.	Per Sq. Ft.	\$9.40	9.00%	\$ 8.56
	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.24	9.00%	\$ 8.41

	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch to provide a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.44	9.00%	\$ 8.59
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch to provide a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.58	9.00%	\$ 7.80
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.48	9.00%	\$ 7.71
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$8.38	9.00%	\$ 7.63
	FTVT-57	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. 	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64
	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's PureFill cork infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80

NEW

	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product- not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impermeable resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84

		The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.		\$148.73	9%	\$ 135.34
BSS-2000			Per Sq. Yard			
	<b>SERVICE NAME</b>	<b>TRACK RESURFACING (to be installed on existing base and track system). 		BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.		\$56.78	9%	\$ 51.67
BSS-100 RE			Per Sq. Yard			
		<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.		\$96.52	9%	\$ 87.83
BSS-300 RE			Per Sq. Yard			
		BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.		\$107.87	9%	\$ 98.16
BSS-2000 RE 5mm			Per Sq. Yard			
		BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.		\$113.55	9%	\$ 103.33

	Versatile	The ultimate drainage and shock underlayment/pad system. VersaTile installed under the turf system and above the base to provide added drainage and improved Gmax. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$2.91	9.00%	\$ 2.65
	ProPlay 23mm	Shock pad system from Schmitz Foam Products, used as an underlayment to artificial turf system. Designed to reduce gmax. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$2.82	9.00%	\$ 2.56
	ThermaGreen 15mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.60	9.00%	\$ 2.37
	ThermaGreen 20mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.66	9.00%	\$ 2.42
	ThermaGreen 23mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.74	9.00%	\$ 2.49
	Thermagreen 25mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.84	9.00%	\$ 2.58
	ShockBase Pro	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	<b>Net base fee Price after Discount</b>
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$ 135.34
	<b>SERVICE NAME</b>	<b>TRACK RESURFACING (to be installed on existing base and track system). Pricing is applicable to projects with a minimum of 4000sy.</b>	<b>UNIT OF MEASURE</b>	<b>List Price/unit of measure</b>	<b>Discount Offered to Sourcwell members (9%)</b>	<b>Net base fee Price after Discount</b>
	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	BSS-300 RE	<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$ 87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$ 98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$ 19.83
	Hobart Coating	To resurface a running track using the Hobart Coating for Polyurethane tracks include all material and labor	Per Sq. Yard	\$28.21	9%	\$ 25.67
	In Situ Base	In-Situ Base: Combination of pea-gravel rock and polyurethane binder can be installed in lieu of asphaltic concrete to make a porous sub base. The In-Situ Base can also be used as a quick cure over concrete or asphalt prior to receiving synthetic track surfacing. Depth can range from ½" – 4" thick.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	Track Restriping (when no track surface is being installed)	• <b>Track Re-Striping:</b> Track striping to bring your track's lines back to life. Six, eight or nine lane tracks ranging from non-competition tracks, middle and high school level competition facilities and College and Universities. Matching of all associated line striping for your facility includes lane lines, event markings and lettering.	Lump Sum	\$34,065.29	9%	\$ 30,999.41
	Track Cleaning	• <b>Track Cleaning (FastTrack):</b> Cleaning your track free of dirt and debris to protect your track surface from abrasive materials and aesthetically enhancing it. Sweepers and blowers are used to clean topical debris and water can be used (Owners choice) for deeper cleaning.	Per Sq. Yard	\$34.07	9%	\$ 31.00

	FTHD-1	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$10.67	9.00%	\$ 9.71
	FTHD-57	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$10.16	9.00%	\$ 9.25
	FTHD-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Classic HD is the newest slit film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Couples with FieldTurf's patented heavy 3-layer infill system and state-of-the art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.44	9.00%	\$ 8.59
	FTHD-2 FIFA Recipe	This FIFA Quality tested product combines our internally manufactured Classic HD fibre with a two layer ambient / sand system.	Per Sq. Ft.	\$9.13	9.00%	\$ 8.31
	XM7-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$10.02	9.00%	\$ 9.12
	XMRV360-60-38	XMRV360-60-38 (also referred to as FTRV-60-38oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$9.76	9.00%	\$ 8.88
	XMRV360-60-44	XMRV360-60-44 (also referred to as FTRV-60-44oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$10.02	9.00%	\$ 9.12
	XM7-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. Per Sq. Ft.	\$9.33	9.00%	\$ 8.49
	XM7-50	1L x 1W (SF) Synthetic turf, Artificial turf; All weather turf. The FieldTurf XM7 System is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$8.87	9.00%	\$ 8.07
	XT-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT System features a slit-film fibre that has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$10.07	9.00%	\$ 9.16
	XT-60	Tested to FIFA Quality and FIFA Quality Pro standards, XT-60 features out Classic HD slitfilm fibre with a 2 layer ambient SBR / sand system.	Per Sq. Ft.	\$9.58	9.00%	\$ 8.72
	XT-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$9.37	9.00%	\$ 8.53
	XT-50	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$8.92	9.00%	\$ 8.11
	FTVT-CORE-1	FieldTurf's proprietary CORE fibre in a dual fiber monofilament / slitfilm single needle tufting pattern with Elite infill and tested to FIFA Quality and FIFA Quality Pro standards.	Per Sq. Ft.	\$11.99	9.00%	\$ 10.91

	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$11.12	9.00%	\$ 10.12
	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$10.56	9.00%	\$ 9.61
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.80	9.00%	\$ 8.92
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$10.51	9.00%	\$ 9.56
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$10.39	9.00%	\$ 9.45

	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$ 135.34
	<b>SERVICE NAME</b>	<b>TRACK RESURFACING (to be installed on existing base and track system). 	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	BSS-300 RE	<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$ 87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$ 98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$ 19.83
	Hobart Coating	To resurface a running track using the Hobart Coating for Polyurethane tracks include all material and labor	Per Sq. Yard	\$28.21	9%	\$ 25.67
	In Situ Base	In-Situ Base: Combination of pea-gravel rock and polyurethane binder can be installed in lieu of asphaltic concrete to make a porous sub base. The In-Situ Base can also be used as a quick cure over concrete or asphalt prior to receiving synthetic track surfacing. Depth can range from ½" – 4" thick.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	Track Restriping (when no track surface is being installed)	• <b>Track Re-Striping:</b> Track striping to bring your track's lines back to life. Six, eight or nine lane tracks ranging from non-competition tracks, middle and high school level competition facilities and College and Universities. Matching of all associated line striping for your facility includes lane lines, event markings and lettering.	Lump Sum	\$34,065.29	9%	\$ 30,999.41
	Track Cleaning	• <b>Track Cleaning (FastTrack):</b> Cleaning your track free of dirt and debris to protect your track surface from abrasive materials and aesthetically enhancing it. Sweepers and blowers are used to clean topical debris and water can be used (Owners choice) for deeper cleaning.	Per Sq. Yard	\$34.07	9%	\$ 31.00

	FT-CORE 2.5"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.44	9.00%	\$ 8.59
	FT-CORE 2.25"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.60	9.00%	\$ 8.74
	FT-CORE 2"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.64	9.00%	\$ 7.86
	FTRV360-1	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.28	9.00%	\$ 8.44
	FTRV360-1 FIFA Recipe	Similar to FTRV360-1, FTRV360-1 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested.	Per Sq. Ft.	\$9.46	9.00%	\$ 8.61
	FTRV360-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.43	9.00%	\$ 8.59
	FTRV360-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.48	9.00%	\$ 7.71
	FTRV360-2 FIFA over VersaTile Recipe	Similar to FTRV360-2, FTRV360-2 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested. It should be installed with VersaTile which is priced separately below.	Per Sq. Ft.	\$8.56	9.00%	\$ 7.79

	FTHD-1	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.28	9.00%	\$ 8.44
	FTHD-57	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.43	9.00%	\$ 8.59
	FTHD-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Classic HD is the newest slit film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Couples with FieldTurf's patented heavy 3-layer infill system and state-of-the art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$8.48	9.00%	\$ 7.71
	FTHD-2 FIFA Recipe	This FIFA Quality tested product combines our internally manufactured Classic HD fibre with a two layer ambient / sand system.	Per Sq. Ft.	\$7.78	9.00%	\$ 7.08
	XM7-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$8.35	9.00%	\$ 7.60
	XMRV360-60-38	XMRV360-60-38 (also referred to as FTRV-60-38oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$8.20	9.00%	\$ 7.46
	XMRV360-60-44	XMRV360-60-44 (also referred to as FTRV-60-44oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$8.38	9.00%	\$ 7.62
	XM7-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.95	9.00%	\$ 7.24
	XM7-50	1L x 1W (SF) Synthetic turf, Artificial turf; All weather turf. The FieldTurf XM7 System is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.70	9.00%	\$ 7.01
	XT-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT System features a slit-film fibre that has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$8.35	9.00%	\$ 7.60
	XT-60	Tested to FIFA Quality and FIFA Quality Pro standards, XT-60 features out Classic HD slitfilm fibre with a 2 layer ambient SBR / sand system.	Per Sq. Ft.	\$8.14	9.00%	\$ 7.41
	XT-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.95	9.00%	\$ 7.24
	XT-50	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.70	9.00%	\$ 7.01
	FTVT-CORE-1	FieldTurf's proprietary CORE fibre in a dual fiber monofilament / slitfilm single needle tufting pattern with Elite infill and tested to FIFA Quality and FIFA Quality Pro standards.	Per Sq. Ft.	\$9.61	9.00%	\$ 8.74

	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.44	9.00%	\$ 8.59
	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.60	9.00%	\$ 8.74
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.64	9.00%	\$ 7.86
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.51	9.00%	\$ 7.75
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$8.44	9.00%	\$ 7.68
	FTVT-57	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. 	Thermagreen 25mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.84	9.00%	\$ 2.58
	ShockBase Pro	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$ 135.34
	<b>SERVICE NAME</b>	<b>TRACK RESURFACING (to be installed on existing base and track system). Pricing is applicable to projects with a minimum of 4000sy.</b>	<b>UNIT OF MEASURE</b>	<b>List Price/unit of measure</b>	<b>Discount Offered to Sourcewell members (9%)</b>	<b>Net base fee Price after Discount</b>
	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	BSS-300 RE	<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$ 87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$ 98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$ 19.83
	Hobart Coating	To resurface a running track using the Hobart Coating for Polyurethane tracks include all material and labor	Per Sq. Yard	\$28.21	9%	\$ 25.67
	In Situ Base	In-Situ Base: Combination of pea-gravel rock and polyurethane binder can be installed in lieu of asphaltic concrete to make a porous sub base. The In-Situ Base can also be used as a quick cure over concrete or asphalt prior to receiving synthetic track surfacing. Depth can range from ½" – 4" thick.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	Track Restriping (when no track surface is being installed)	• <b>Track Re-Striping:</b> Track striping to bring your track's lines back to life. Six, eight or nine lane tracks ranging from non-competition tracks, middle and high school level competition facilities and College and Universities. Matching of all associated line striping for your facility includes lane lines, event markings and lettering.	Lump Sum	\$34,065.29	9%	\$ 30,999.41
	Track Cleaning	• <b>Track Cleaning (FastTrack):</b> Cleaning your track free of dirt and debris to protect your track surface from abrasive materials and aesthetically enhancing it. Sweepers and blowers are used to clean topical debris and water can be used (Owners choice) for deeper cleaning.	Per Sq. Yard	\$34.07	9%	\$ 31.00

	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.21	9.00%	\$ 8.38
	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.47	9.00%	\$ 8.62
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.49	9.00%	\$ 7.72
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.60	9.00%	\$ 7.83
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$8.52	9.00%	\$ 7.75
	FTVT-57	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.20	9.00%	\$ 7.46
	FTVT-50	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. 	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Bynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$ 135.34
	<b>SERVICE NAME</b>	<b>TRACK RESURFACING (to be installed on existing base and track system). Pricing is applicable to projects with a minimum of 4000sy.</b>	<b>UNIT OF MEASURE</b>	<b>List Price/unit of measure</b>	<b>Discount Offered to Sourcwell members (9%)</b>	<b>Net base fee Price after Discount</b>
	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	BSS-300 RE	<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$ 87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$ 98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$ 19.83

Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$12.18	9.00%	\$ 11.09
	FTRV360-1	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$14.06	9.00%	\$ 12.79
	FTRV360-1 FIFA Recipe	Similar to FTRV360-1, FTRV360-1 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested.	Per Sq. Ft.	\$13.89	9.00%	\$ 12.64
	FTRV360-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$13.34	9.00%	\$ 12.14
	FTRV360-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$12.11	9.00%	\$ 11.02
	FTRV360-2 FIFA over VersaTile Recipe	Similar to FTRV360-2, FTRV360-2 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested. It should be installed with VersaTile which is priced separately below.	Per Sq. Ft.	\$11.82	9.00%	\$ 10.76

	FTHD-1	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$13.86	9.00%	\$ 12.61
	FTHD-57	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$13.18	9.00%	\$ 11.99
	FTHD-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Classic HD is the newest slit film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Couples with FieldTurf's patented heavy 3-layer infill system and state-of-the art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$11.90	9.00%	\$ 10.83
	FTHD-2 FIFA Recipe	This FIFA Quality tested product combines our internally manufactured Classic HD fibre with a two layer ambient / sand system.	Per Sq. Ft.	\$11.29	9.00%	\$ 10.27
	XM7-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$12.74	9.00%	\$ 11.59
	XMRV360-60-38	XMRV360-60-38 (also referred to as FTRV-60-38oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$12.23	9.00%	\$ 11.13
	XMRV360-60-44	XMRV360-60-44 (also referred to as FTRV-60-44oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$12.48	9.00%	\$ 11.36
	XM7-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$11.59	9.00%	\$ 10.55
	XM7-50	1L x 1W (SF) Synthetic turf, Artificial turf; All weather turf. The FieldTurf XM7 System is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$10.85	9.00%	\$ 9.87
	XT-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT System features a slit-film fibre that has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$12.78	9.00%	\$ 11.63
	XT-60	Tested to FIFA Quality and FIFA Quality Pro standards, XT-60 features out Classic HD slitfilm fibre with a 2 layer ambient SBR / sand system.	Per Sq. Ft.	\$11.99	9.00%	\$ 10.91
	XT-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$11.64	9.00%	\$ 10.60
	XT-50	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$10.90	9.00%	\$ 9.92
	FTVT-CORE-1	FieldTurf's proprietary CORE fibre in a dual fiber monofilament / slitfilm single needle tufting pattern with Elite infill and tested to FIFA Quality and FIFA Quality Pro standards.	Per Sq. Ft.	\$15.58	9.00%	\$ 14.18

	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$14.30	9.00%	\$ 13.02
	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$13.59	9.00%	\$ 12.36
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$12.25	9.00%	\$ 11.15
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$13.22	9.00%	\$ 12.03
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$13.00	9.00%	\$ 11.83
	FTVT-57	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. 	Thermagreen 25mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.84	9.00%	\$ 2.58
	ShockBase Pro	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$ 135.34
	<b>SERVICE NAME</b>	<b>TRACK RESURFACING (to be installed on existing base and track system). Pricing is applicable to projects with a minimum of 4000sy.</b>	<b>UNIT OF MEASURE</b>	<b>List Price/unit of measure</b>	<b>Discount Offered to Sourcwell members (9%)</b>	<b>Net base fee Price after Discount</b>
	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	BSS-300 RE	<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$ 87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$ 98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$ 19.83
	Hobart Coating	To resurface a running track using the Hobart Coating for Polyurethane tracks include all material and labor	Per Sq. Yard	\$28.21	9%	\$ 25.67
	In Situ Base	In-Situ Base: Combination of pea-gravel rock and polyurethane binder can be installed in lieu of asphaltic concrete to make a porous sub base. The In-Situ Base can also be used as a quick cure over concrete or asphalt prior to receiving synthetic track surfacing. Depth can range from ½" – 4" thick.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	Track Restriping (when no track surface is being installed)	• <b>Track Re-Striping:</b> Track striping to bring your track's lines back to life. Six, eight or nine lane tracks ranging from non-competition tracks, middle and high school level competition facilities and College and Universities. Matching of all associated line striping for your facility includes lane lines, event markings and lettering.	Lump Sum	\$34,065.29	9%	\$ 30,999.41
	Track Cleaning	• <b>Track Cleaning (FastTrack):</b> Cleaning your track free of dirt and debris to protect your track surface from abrasive materials and aesthetically enhancing it. Sweepers and blowers are used to clean topical debris and water can be used (Owners choice) for deeper cleaning.	Per Sq. Yard	\$34.07	9%	\$ 31.00

	FT-CORE 2.5"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.53	9.00%	\$ 7.76
	FT-CORE 2.25"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.18	9.00%	\$ 8.36
	FT-CORE 2"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$7.90	9.00%	\$ 7.19
	FTRV360-1	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.36	9.00%	\$ 7.61
	FTRV360-1 FIFA Recipe	Similar to FTRV360-1, FTRV360-1 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested.	Per Sq. Ft.	\$8.49	9.00%	\$ 7.73
	FTRV360-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.02	9.00%	\$ 8.21
	FTRV360-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$7.73	9.00%	\$ 7.04
	FTRV360-2 FIFA over VersaTile Recipe	Similar to FTRV360-2, FTRV360-2 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested. It should be installed with VersaTile which is priced separately below.	Per Sq. Ft.	\$7.77	9.00%	\$ 7.07
	FTHD-1	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$8.36	9.00%	\$ 7.61

	FTHD-57	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.02	9.00%	\$ 8.21
	FTHD-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Classic HD is the newest slit film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Couples with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$7.73	9.00%	\$ 7.04
	FTHD-2 FIFA Recipe	This FIFA Quality tested product combines our internally manufactured Classic HD fibre with a two layer ambient / sand system.	Per Sq. Ft.	\$7.45	9.00%	\$ 6.78
	XM7-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.96	9.00%	\$ 7.25
	XMRV360-60-38	XMRV360-60-38 (also referred to as FTRV-60-38oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$7.83	9.00%	\$ 7.13
	XMRV360-60-44	XMRV360-60-44 (also referred to as FTRV-60-44oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$8.01	9.00%	\$ 7.29
	XM7-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.61	9.00%	\$ 6.92
	XM7-50	1L x 1W (SF) Synthetic turf, Artificial turf; All weather turf. The FieldTurf XM7 System is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.39	9.00%	\$ 6.73
	XT-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT System features a slit-film fibre that has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.96	9.00%	\$ 7.25
	XT-60	Tested to FIFA Quality and FIFA Quality Pro standards, XT-60 features out Classic HD slitfilm fibre with a 2 layer ambient SBR / sand system.	Per Sq. Ft.	\$8.14	9.00%	\$ 7.41
	XT-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.61	9.00%	\$ 6.92
	XT-50	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.39	9.00%	\$ 6.73
	FTVT-CORE-1	FieldTurf's proprietary CORE fibre in a dual fiber monofilament / slitfilm single needle tufting pattern with Elite infill and tested to FIFA Quality and FIFA Quality Pro standards.	Per Sq. Ft.	\$8.69	9.00%	\$ 7.91
	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.53	9.00%	\$ 7.76

	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.18	9.00%	\$ 8.36
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$7.90	9.00%	\$ 7.19
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.13	9.00%	\$ 7.40
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$8.04	9.00%	\$ 7.32
	FTVT-57	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. 	ShockBase Pro	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64
	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's PureFill cork infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80

NEW

	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product- not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84

		The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.		\$148.73		\$ 135.34

Per Sq. Ft.	\$7.86	9.00%	\$ 7.15
	XT-60	Tested to FIFA Quality and FIFA Quality Pro standards, XT-60 features out Classic HD slitfilm fibre with a 2 layer ambient SBR / sand system.	Per Sq. Ft.	\$8.14	9.00%	\$ 7.41
	XT-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.51	9.00%	\$ 6.84
	XT-50	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.31	9.00%	\$ 6.65
	FTVT-CORE-1	FieldTurf's proprietary CORE fibre in a dual fiber monofilament / slitfilm single needle tufting pattern with Elite infill and tested to FIFA Quality and FIFA Quality Pro standards.	Per Sq. Ft.	\$8.57	9.00%	\$ 7.80
	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.41	9.00%	\$ 7.65

	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.02	9.00%	\$ 8.20
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$7.80	9.00%	\$ 7.10
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.02	9.00%	\$ 7.30
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$7.93	9.00%	\$ 7.22
	FTVT-57	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. 	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64
	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89

	PUREFILL (Cork)	FieldTurf's PureFill cork infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product- not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	PURE GEO - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84

		The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$ 135.34

	FT-CORE 2.5"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.43	9.00%	\$7.67
	FT-CORE 2.25"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.16	9.00%	\$8.34
	FT-CORE 2"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$7.83	9.00%	\$7.12
	FTRV360-1	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.27	9.00%	\$7.52
	FTRV360-1 FIFA Recipe	Similar to FTRV360-1, FTRV360-1 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested.	Per Sq. Ft.	\$8.41	9.00%	\$7.65
	FTRV360-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.00	9.00%	\$8.19
	FTRV360-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$7.66	9.00%	\$6.97
	FTRV360-2 FIFA over VersaTile Recipe	Similar to FTRV360-2, FTRV360-2 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested. It should be installed with VersaTile which is priced separately below.	Per Sq. Ft.	\$7.70	9.00%	\$7.00

	FTHD-1	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$8.27	9.00%	\$7.52
	FTHD-57	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.00	9.00%	\$8.19
	FTHD-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Classic HD is the newest slit film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Couples with FieldTurf's patented heavy 3-layer infill system and state-of-the art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$7.66	9.00%	\$6.97
	FTHD-2 FIFA Recipe	This FIFA Quality tested product combines our internally manufactured Classic HD fibre with a two layer ambient / sand system.	Per Sq. Ft.	\$7.39	9.00%	\$6.72
	XM7-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.88	9.00%	\$7.17
	XMRV360-60-38	XMRV360-60-38 (also referred to as FTRV-60-38oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$7.76	9.00%	\$7.06
	XMRV360-60-44	XMRV360-60-44 (also referred to as FTRV-60-44oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$7.93	9.00%	\$7.22
	XM7-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.53	9.00%	\$6.86
	XM7-50	1L x 1W (SF) Synthetic turf, Artificial turf; All weather turf. The FieldTurf XM7 System is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.33	9.00%	\$6.67
	XT-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT System features a slit-film fibre that has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.88	9.00%	\$7.17
	XT-60	Tested to FIFA Quality and FIFA Quality Pro standards, XT-60 features out Classic HD slitfilm fibre with a 2 layer ambient SBR / sand system.	Per Sq. Ft.	\$8.14	9.00%	\$7.41
	XT-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.53	9.00%	\$6.86
	XT-50	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.33	9.00%	\$6.67
	FTVT-CORE-1	FieldTurf's proprietary CORE fibre in a dual fiber monofilament / slitfilm single needle tufting pattern with Elite infill and tested to FIFA Quality and FIFA Quality Pro standards.	Per Sq. Ft.	\$8.60	9.00%	\$7.82

	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.43	9.00%	\$7.67
	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.16	9.00%	\$8.34
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$7.83	9.00%	\$7.12
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.04	9.00%	\$7.32
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$7.97	9.00%	\$7.25
	FTVT-57	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. 	ShockBase Pro	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$3.75
	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$135.34
	<b>SERVICE NAME</b>	<b>TRACK RESURFACING (to be installed on existing base and track system). Pricing is applicable to projects with a minimum of 4000sy.</b>	<b>UNIT OF MEASURE</b>	<b>List Price/unit of measure</b>	<b>Discount Offered to Sourcewell members (9%)</b>	<b>Net base fee Price after Discount</b>
	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$51.67
	BSS-300 RE	<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$19.83
	Hobart Coating	To resurface a running track using the Hobart Coating for Polyurethane tracks include all material and labor	Per Sq. Yard	\$28.21	9%	\$25.67
	In Situ Base	In-Situ Base: Combination of pea-gravel rock and polyurethane binder can be installed in lieu of asphaltic concrete to make a porous sub base. The In-Situ Base can also be used as a quick cure over concrete or asphalt prior to receiving synthetic track surfacing. Depth can range from ½" – 4" thick.	Per Sq. Yard	\$56.78	9%	\$51.67
	Track Restriping (when no track surface is being installed)	<ul style="list-style-type: none"> <li><b>Track Re-Striping:</b> Track striping to bring your track's lines back to life. Six, eight or nine lane tracks ranging from non-competition tracks, middle and high school level competition facilities and College and Universities. Matching of all associated line striping for your facility includes lane lines, event markings and lettering.</li> </ul>	Lump Sum	\$34,065.29	9%	\$30,999.41

	Versatile	The ultimate drainage and shock underlayment/pad system. VersaTile installed under the turf system and above the base to provide added drainage and improved Gmax. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$2.91	9.00%	\$ 2.65
	ProPlay 23mm	Shock pad system from Schmitz Foam Products, used as an underlayment to artificial turf system. Designed to reduce gmax. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$2.82	9.00%	\$ 2.56
	ThermaGreen 15mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.60	9.00%	\$ 2.37
	ThermaGreen 20mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.66	9.00%	\$ 2.42
	ThermaGreen 23mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.74	9.00%	\$ 2.49
	Thermagreen 25mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.84	9.00%	\$ 2.58
	ShockBase Pro	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27
	<b>SERVICE NAME</b>	<b>Grooming and Maintenance products</b>	<b>UNIT OF MEASURE</b>	<b>List Price/unit of measure</b>	<b>Discount Offered to Sourcewell members (9%)</b>	<b>Net base fee Price after Discount</b>

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$ 135.34
	<b>SERVICE NAME</b>	<b>TRACK RESURFACING (to be installed on existing base and track system). Pricing is applicable to projects with a minimum of 4000sy.</b>	<b>UNIT OF MEASURE</b>	<b>List Price/unit of measure</b>	<b>Discount Offered to Sourcwell members (9%)</b>	<b>Net base fee Price after Discount</b>
	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	BSS-300 RE	<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$ 87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$ 98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$ 19.83
	Hobart Coating	To resurface a running track using the Hobart Coating for Polyurethane tracks include all material and labor	Per Sq. Yard	\$28.21	9%	\$ 25.67
	In Situ Base	In-Situ Base: Combination of pea-gravel rock and polyurethane binder can be installed in lieu of asphaltic concrete to make a porous sub base. The In-Situ Base can also be used as a quick cure over concrete or asphalt prior to receiving synthetic track surfacing. Depth can range from ½" – 4" thick.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	Track Restriping (when no track surface is being installed)	• <b>Track Re-Striping:</b> Track striping to bring your track's lines back to life. Six, eight or nine lane tracks ranging from non-competition tracks, middle and high school level competition facilities and College and Universities. Matching of all associated line striping for your facility includes lane lines, event markings and lettering.	Lump Sum	\$34,065.29	9%	\$ 30,999.41
	Track Cleaning	• <b>Track Cleaning (FastTrack):</b> Cleaning your track free of dirt and debris to protect your track surface from abrasive materials and aesthetically enhancing it. Sweepers and blowers are used to clean topical debris and water can be used (Owners choice) for deeper cleaning.	Per Sq. Yard	\$34.07	9%	\$ 31.00

	FTHD-57	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.55	9.00%	\$ 8.69
	FTHD-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Classic HD is the newest slit film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Couples with FieldTurf's patented heavy 3-layer infill system and state-of-the art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$8.28	9.00%	\$ 7.54
	FTHD-2 FIFA Recipe	This FIFA Quality tested product combines our internally manufactured Classic HD fibre with a two layer ambient / sand system.	Per Sq. Ft.	\$8.00	9.00%	\$ 7.28
	XM7-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$8.53	9.00%	\$ 7.76
	XMRV360-60-38	XMRV360-60-38 (also referred to as FTRV-60-38oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$8.39	9.00%	\$ 7.63
	XMRV360-60-44	XMRV360-60-44 (also referred to as FTRV-60-44oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$8.56	9.00%	\$ 7.79
	XM7-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$8.16	9.00%	\$ 7.42
	XM7-50	1L x 1W (SF) Synthetic turf, Artificial turf; All weather turf. The FieldTurf XM7 System is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.93	9.00%	\$ 7.22
	XT-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT System features a slit-film fibre that has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$8.53	9.00%	\$ 7.76
	XT-60	Tested to FIFA Quality and FIFA Quality Pro standards, XT-60 features out Classic HD slitfilm fibre with a 2 layer ambient SBR / sand system.	Per Sq. Ft.	\$8.14	9.00%	\$ 7.41
	XT-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$8.16	9.00%	\$ 7.42
	XT-50	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.93	9.00%	\$ 7.22
	FTVT-CORE-1	FieldTurf's proprietary CORE fibre in a dual fiber monofilament / slitfilm single needle tufting pattern with Elite infill and tested to FIFA Quality and FIFA Quality Pro standards.	Per Sq. Ft.	\$9.27	9.00%	\$ 8.44

	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.11	9.00%	\$ 8.29
	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.71	9.00%	\$ 8.84
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.45	9.00%	\$ 7.69
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.69	9.00%	\$ 7.91
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$8.60	9.00%	\$ 7.83
	FTVT-57	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. 	Thermagreen 25mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.84	9.00%	\$ 2.58
	ShockBase Pro	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$ 135.34

	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	BSS-300 RE	<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$ 87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$ 98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$ 19.83
	Hobart Coating	To resurface a running track using the Hobart Coating for Polyurethane tracks include all material and labor	Per Sq. Yard	\$28.21	9%	\$ 25.67
	In Situ Base	In-Situ Base: Combination of pea-gravel rock and polyurethane binder can be installed in lieu of asphaltic concrete to make a porous sub base. The In-Situ Base can also be used as a quick cure over concrete or asphalt prior to receiving synthetic track surfacing. Depth can range from ½" – 4" thick.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	Track Restriping (when no track surface is being installed)	• <b>Track Re-Striping:</b> Track striping to bring your track's lines back to life. Six, eight or nine lane tracks ranging from non-competition tracks, middle and high school level competition facilities and College and Universities. Matching of all associated line striping for your facility includes lane lines, event markings and lettering.	Lump Sum	\$34,065.29	9%	\$ 30,999.41
	Track Cleaning	• <b>Track Cleaning (FastTrack):</b> Cleaning your track free of dirt and debris to protect your track surface from abrasive materials and aesthetically enhancing it. Sweepers and blowers are used to clean topical debris and water can be used (Owners choice) for deeper cleaning.	Per Sq. Yard	\$34.07	9%	\$ 31.00

	FT-CORE 2.5"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.21	9.00%	\$ 8.38
	FT-CORE 2.25"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.75	9.00%	\$ 8.88
	FT-CORE 2"	Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf CORE fibre is a proprietary dual-polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.52	9.00%	\$ 7.75
	FTRV360-1	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.04	9.00%	\$ 8.23
	FTRV360-1 FIFA Recipe	Similar to FTRV360-1, FTRV360-1 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested.	Per Sq. Ft.	\$9.15	9.00%	\$ 8.33
	FTRV360-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.59	9.00%	\$ 8.73
	FTRV360-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.36	9.00%	\$ 7.60
	FTRV360-2 FIFA over VersaTile Recipe	Similar to FTRV360-2, FTRV360-2 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested. It should be installed with VersaTile which is priced separately below.	Per Sq. Ft.	\$8.39	9.00%	\$ 7.63

	FTHD-1	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.04	9.00%	\$ 8.23
	FTHD-57	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.59	9.00%	\$ 8.73
	FTHD-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Classic HD is the newest slit film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Couples with FieldTurf's patented heavy 3-layer infill system and state-of-the art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$8.36	9.00%	\$ 7.60
	FTHD-2 FIFA Recipe	This FIFA Quality tested product combines our internally manufactured Classic HD fibre with a two layer ambient / sand system.	Per Sq. Ft.	\$8.07	9.00%	\$ 7.34
	XM7-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$8.61	9.00%	\$ 7.84
	XMRV360-60-38	XMRV360-60-38 (also referred to as FTRV-60-38oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$8.46	9.00%	\$ 7.70
	XMRV360-60-44	XMRV360-60-44 (also referred to as FTRV-60-44oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$8.64	9.00%	\$ 7.86
	XM7-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$8.23	9.00%	\$ 7.49
	XM7-50	1L x 1W (SF) Synthetic turf, Artificial turf; All weather turf. The FieldTurf XM7 System is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$8.00	9.00%	\$ 7.28
	XT-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT System features a slit-film fibre that has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$8.61	9.00%	\$ 7.84
	XT-60	Tested to FIFA Quality and FIFA Quality Pro standards, XT-60 features out Classic HD slitfilm fibre with a 2 layer ambient SBR / sand system.	Per Sq. Ft.	\$8.14	9.00%	\$ 7.41
	XT-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$8.23	9.00%	\$ 7.49
	XT-50	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$8.00	9.00%	\$ 7.28
	FTVT-CORE-1	FieldTurf's proprietary CORE fibre in a dual fiber monofilament / slitfilm single needle tufting pattern with Elite infill and tested to FIFA Quality and FIFA Quality Pro standards.	Per Sq. Ft.	\$9.37	9.00%	\$ 8.53

	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.21	9.00%	\$ 8.38
	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.75	9.00%	\$ 8.88
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.52	9.00%	\$ 7.75
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.78	9.00%	\$ 7.99
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$8.70	9.00%	\$ 7.92
	FTVT-57	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. 	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$ 135.34
	SERVICE NAME	TRACK RESURFACING (to be installed on existing base and track system). Pricing is applicable to projects with a minimum of 4000sy.	UNIT OF MEASURE	List Price/unit of measure	Discount Offered to Sourcewell members (9%)	Net base fee Price after Discount
	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	BSS-300 RE	BSS 300 RE The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$ 87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$ 98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$ 19.83
	Hobart Coating	To resurface a running track using the Hobart Coating for Polyurethane tracks include all material and labor	Per Sq. Yard	\$28.21	9%	\$ 25.67
	In Situ Base	In-Situ Base: Combination of pea-gravel rock and polyurethane binder can be installed in lieu of asphaltic concrete to make a porous sub base. The In-Situ Base can also be used as a quick cure over concrete or asphalt prior to receiving synthetic track surfacing. Depth can range from ½" – 4" thick.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	Track Restriping (when no track surface is being installed)	• <b>Track Re-Striping:</b> Track striping to bring your track's lines back to life. Six, eight or nine lane tracks ranging from non-competition tracks, middle and high school level competition facilities and College and Universities. Matching of all associated line striping for your facility includes lane lines, event markings and lettering.	Lump Sum	\$34,065.29	9%	\$ 30,999.41
	Track Cleaning	• <b>Track Cleaning (FastTrack):</b> Cleaning your track free of dirt and debris to protect your track surface from abrasive materials and aesthetically enhancing it. Sweepers and blowers are used to clean topical debris and water can be used (Owners choice) for deeper cleaning.	Per Sq. Yard	\$34.07	9%	\$ 31.00

	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$ 135.34
	<b>SERVICE NAME</b>	<b>TRACK RESURFACING (to be installed on existing base and track system). Pricing is applicable to projects with a minimum of 4000sy.</b>	<b>UNIT OF MEASURE</b>	<b>List Price/unit of measure</b>	<b>Discount Offered to Sourcewell members (9%)</b>	<b>Net base fee Price after Discount</b>
	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	BSS-300 RE	<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$ 87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$ 98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$ 19.83

A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The CORE fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.72	9.00%	\$ 7.93
	FTRV360-1	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.36	9.00%	\$ 8.52
	FTRV360-1 FIFA Recipe	Similar to FTRV360-1, FTRV360-1 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested.	Per Sq. Ft.	\$9.64	9.00%	\$ 8.78
	FTRV360-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$9.30	9.00%	\$ 8.47
	FTRV360-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Produced in FieldTurf's own fibre manufacturing plant, the FieldTurf Revolution 360 fibre is a proprietary polymer formulation that resists splitting and degradation and includes industry leading ultraviolet inhibitor technology. A state-of-the-art extrusion process provides an intricate and thick construction for superior tear resistance and resilience. The Revolution 360 fibre was designed to provide extraordinary durability and longevity. Includes FieldTurf's patented infill and SureLock Coating System.	Per Sq. Ft.	\$8.55	9.00%	\$ 7.78
	FTRV360-2 FIFA over VersaTile Recipe	Similar to FTRV360-2, FTRV360-2 FIFA Recipe has a slightly modified infill mixture and has been FIFA Quality Pro tested. It should be installed with VersaTile which is priced separately below.	Per Sq. Ft.	\$8.68	9.00%	\$ 7.90

	FTHD-1	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.36	9.00%	\$ 8.52
	FTHD-57	Classic HD is the newest slit-film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Coupled with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$9.30	9.00%	\$ 8.47
	FTHD-2	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. Classic HD is the newest slit film fibre from FieldTurf. It was carefully crafted to maximize durability and safety, as well as being aesthetically pleasing. Couples with FieldTurf's patented heavy 3-layer infill system and state-of-the-art SureLock coating method, the FieldTurf Classic HD turf system has been designed to be the very best synthetic turf system with unparalleled player safety and turf drainage rates.	Per Sq. Ft.	\$8.55	9.00%	\$ 7.78
	FTHD-2 FIFA Recipe	This FIFA Quality tested product combines our internally manufactured Classic HD fibre with a two layer ambient / sand system.	Per Sq. Ft.	\$7.99	9.00%	\$ 7.27
	XM7-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$8.60	9.00%	\$ 7.82
	XMRV360-60-38	XMRV360-60-38 (also referred to as FTRV-60-38oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$8.40	9.00%	\$ 7.64
	XMRV360-60-44	XMRV360-60-44 (also referred to as FTRV-60-44oz) combines our Revolution 360 fibre with two layer ambient SBR / sand infill and meets FIFA Quality and FIFA Quality Pro testing. Can be installed with no pad or over Thermagreen 15mm to achieve FIFA standards.	Per Sq. Ft.	\$8.58	9.00%	\$ 7.81
	XM7-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The FieldTurf XM7 system is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$8.16	9.00%	\$ 7.43
	XM7-50	1L x 1W (SF) Synthetic turf, Artificial turf; All weather turf. The FieldTurf XM7 System is built with a proven, in-house ridged-monofilament fibre technology, providing your surface with durability and resilience characteristics that match the top products in the industry. The infill in the XM7 system is FieldTurf's 2-layer SBR Rubber and Silica Sand infill that has been installed on hundreds and hundreds of fields worldwide to ensure proper safety and athlete cushion.	Per Sq. Ft.	\$7.92	9.00%	\$ 7.20
	XT-65	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT System features a slit-film fibre that has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$8.60	9.00%	\$ 7.82
	XT-60	Tested to FIFA Quality and FIFA Quality Pro standards, XT-60 features out Classic HD slitfilm fibre with a 2 layer ambient SBR / sand system.	Per Sq. Ft.	\$8.14	9.00%	\$ 7.41
	XT-57	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$8.16	9.00%	\$ 7.43
	XT-50	1L x 1W (SF), Synthetic turf; Artificial turf; All weather turf. The XT system has been designed to be the best of the best in terms of slit-film durability and softness, coupled with a 2-layer infill system of SBR Rubber and Silica Sand to provide a proper cushion.	Per Sq. Ft.	\$7.92	9.00%	\$ 7.20
	FTVT-CORE-1	FieldTurf's proprietary CORE fibre in a dual fiber monofilament / slitfilm single needle tufting pattern with Elite infill and tested to FIFA Quality and FIFA Quality Pro standards.	Per Sq. Ft.	\$9.69	9.00%	\$ 8.82

	FTVTP-1	FieldTurf Vertex Prime 2.5" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.53	9.00%	\$ 8.67
	FTVTP-57	FieldTurf Vertex Prime 2.25" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$9.47	9.00%	\$ 8.62
	FTVTP-2	FieldTurf Vertex Prime 2.0" is comprised of specially designed slit-film fibres and high performance ridged monofilament fibers. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres are tufted together in the same stitch for a superior aesthetic appearance. Elite Infill . 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.72	9.00%	\$ 7.93
	FTVT-65	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. The fibrillation process of the slit-film component allows for proper infill encapsulation while the monofilament fibres facilitate grass-like ball roll and a better aesthetic appearance. Both fibres have withstood stringent testing and were designed to resist matting. Prestige Infill. 8 year warranty. Price applicable for fields that are greater than 70,000 sf.	Per Sq. Ft.	\$8.76	9.00%	\$ 7.97
	FTVT-60-RV360-47	FieldTurf FTVT-60-RV360-47 combines our Revolution 360 fibre with our specially designed slitfilm fibres into a product which is both FIFA Quality and FIFA Quality Pro certified as well as meeting World Rugby Standards when installed over Thermagreen20mm pad (priced separately).	Per Sq. Ft.	\$8.68	9.00%	\$ 7.90
	FTVT-57	FieldTurf Vertex is comprised of specially designed slit-film fibres and high performance monofilament fibres. 	Thermagreen 25mm	Shock pad system from ThermaGreen, used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$2.84	9.00%	\$ 2.58
	ShockBase Pro	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	ShockBase Select	Shock pad system used as an underlayment to artificial turf system. Designed to reduce gmax.	Per Sq. Ft.	\$4.12	9.00%	\$ 3.75
	Brock PowerBase YSR	Brock PowerBase is a molded expanded polypropylene underlayment that is engineered for specific applications, primarily shock and drainage layers under artificial turf athletic fields and playgrounds. Product only available with purchase of FieldTurf field.	Per Sq. Ft.	\$4.38	9.00%	\$ 3.99
	Brock SP 14	Panel underlayment designed specifically for artificial turf. Product only available with purchase of FieldTurf turf surface.	Per Sq. Ft.	\$3.22	9.00%	\$ 2.93
	CoolPlay V3	CoolPlay utilizes FieldTurf's exclusive and innovative Extruded Composite top dressing which allows the system to deliver the same behavior and overall stability as the elite systems but with an added heat reduction feature - up to 35 degrees cooler! No change in playability vs. sand/cryogenic rubber system. Natural UV resistance. No additional pad required. Pricing valid with FieldTurf elite systems.	Per Sq. Ft.	\$0.98	9.00%	\$ 0.89
	EPDM	A copolymer of ethylene and propylene having diene linkages that can be cross-linked with peroxides or sulfur. Similar feel and performance to SBR. No additional pad needed. High to medium resiliency depending on filter level. (no additional shock pad required)	Per Sq. Ft.	\$3.00	9.00%	\$ 2.73
	EnviroFill	Composed of coated sand (granules), EnviroFill infill offers an alternative solution that is environmentally and maintenance friendly. Engineered to replicate the look and feel of a natural grass surface, this system will provide a safe and durable solution for your facility. (Shock pad required at an additional cost).	Per Sq. Ft.	\$6.05	9.00%	\$ 5.51
	ECO-GRIND	ECO GRIND (no additional pad required) is one of the most cost-efficient alternatives to SBR. Made from post-industrial recycled products (running shoes) these reclaimed materials are ground-up to create a new, clean, eco-friendly infill and another alternative to crumb rubber. EcoGrind is the ideal answer for high use facilities looking for a proven infill solution.	Per Sq. Ft.	\$4.00	9.00%	\$ 3.64

	ECOGREEN	EcoGreen is built from premium, virgin TPE that have been selected for their characteristics to deliver a stable surface over the long-term. Each pellet has built-in memory and rebounds back to its original shape after compression. Resistant to UV degradation, it is a durable and fully recyclable infill alternative. (Shock pad required at an additional cost).	Per Sq. Ft.	\$4.18	9.00%	\$ 3.80
	ECOMAX	EcoMax is an extruded composite of recycled materials and thermoplastic elastomer (TPE). It is a new, impact absorbing infill that offers safe and comfortable performance and the best value in its category regarding durability, price, and performance. (Shock pad required at an additional cost)	Per Sq. Ft.	\$3.18	9.00%	\$ 2.89
	PUREFILL (Cork)	FieldTurf's <b>PureFill cork</b> infill is an all-natural infill. It is an organic, recyclable and sustainable product that is harvested from the cork oak tree every nine years, without harming the trees. It is 100% environmentally-friendly and non-toxic. (Shock pad required at an additional cost).	Per Sq. Ft.	\$0.87	9.00%	\$ 0.80
	PURESELECT (Olives)	PureSelect- Olive Cores Organic (fibre Based). Fully organic material, proven heat reduction, natural UV resistance. Infill looks like natural soil. Natural product-not chemically produced. Provides playing characteristics similar to natural turf. (Shock pad required at additional cost)	Per Sq. Ft.	\$2.00	9.00%	\$ 1.82
	Pure GEO (Coconut)	<b>PURE GEO</b> - Environmentally Friendly and Sustainable - Made from coconut peat and cork, our infill provides natural-like playing characteristics all while offering heat reduction benefits and an aesthetic that is close to natural turf. Proven and reliable, this organic option is a great fit if you are searching for something more...natural! (Shock pad required at additional cost)	Per Sq. Ft.	\$2.50	9.00%	\$ 2.27

	BSS-100	All-Weather track surface. The BSS 100 is the cost effective solution local schools and communities who are in search of an all-weather track system. This IAAF certified system is paved in place utilizing a machine installed base of single compound polyurethane binder and SBR rubber granules. The surface is finished with multiple spray applications of 100% solids, pigmented polyurethane and EPDM granules or environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$79.49	9%	\$ 72.33
	BSS-200	All-weather track surface. The IAAF certified BSS 200 running track allows for safe, long-term training while providing an excellent surface to meet virtually every level of competition. The BSS 200 starts with a paved-in-place base layer of high performance polyurethane and SBR rubber granules. It's then coated with our two component polyurethane sealer, making the surface impermeable. Pigmented EPDM granules and single component polyurethane structural spray combine to form the spray applied top layer.	Per Sq. Yard	\$107.87	9%	\$ 98.16
	BSS-300	All weather track surface. The IAAF Certified BSS 300 running track is a durable, all-weather, flood and chip sandwich system with excellent shock absorption and the highest return of energy. It's impervious, resilient, and fast, and can take on anything that comes its way. The Dual Durometer Sandwich system features a paved-in-place polyurethane basemat, topped with a two-component seal coat and finished with a flow-applied layer of two-component polyurethane and embedded or encapsulated texture.	Per Sq. Yard	\$113.55	9%	\$ 103.33

	BSS-1000 13mm	All-weather track surface. The BSS 1000 13mm is a full pour polyurethane surface that allows athletes to perform at their highest level while training or in competition. Its bio-engineered force reduction layer integrates very fine SBR rubber granules with environmentally friendly polyurethane to create an impermeable shock-absorbing cushion. The BSS 1000 can be found at some of the world's most prestigious and renowned facilities in your choice of embedded, encapsulated or Hobart textured EPDM granules mixed throughout the top layer to give your athletes total control.	Per Sq. Yard	\$143.60	9%	\$ 130.67
	BSS-1000 ML	BSS 1000 ML: The BSS 1000 ML is an IAAF Certified full pour multilayered track and field surface for schools and Universities that desire a full pour track surface to meet competitive bidding requirements. Comprised of UV stabilized two-component polyurethane, recycled SBR granules and EPDM, the BSS 1000 ML is a three (3) layer system that exceeds the requirements of IAAF performance standards. The BSS 1000 ML starts with the application of BEYPUR 250 two-component polyurethane, upon which SBR granules are broadcasted and reclaimed. The next layer is comprised of BEYPUR 270, a specialty polyurethane elastomer with superior physical properties that give the final product outstanding resiliency. The wear layer of UV stabilized, BEYPUR 250 is then applied with your choice of embedded, encapsulated or Beynon's specialized Hobart texture. The BSS 1000ML is IAAF Certified at 14.1mm and is backed by an industry leading 5-year warranty. The BSS 1000 ML polyurethane materials are manufactured in our ISO 9001:2008 certified facility.	Per Sq. Yard	\$137.19	9%	\$ 124.84
	BSS-2000	The Olympic caliber BSS 2000 is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 is designed and manufactured for optimal competitive performance indoors and out. EPDM granules-embedded, encapsulated or Hobart textured- are mixed throughout the wear layer giving athletes the necessary traction for improved response times and total control.	Per Sq. Yard	\$148.73	9%	\$ 135.34
	<b>SERVICE NAME</b>	<b>TRACK RESURFACING (to be installed on existing base and track system). Pricing is applicable to projects with a minimum of 4000sy.</b>	<b>UNIT OF MEASURE</b>	<b>List Price/unit of measure</b>	<b>Discount Offered to Sourcewell members (9%)</b>	<b>Net base fee Price after Discount</b>
	BSS-100 RE	BSS 100 RE Economical and durable, the Beynon Sports BSS 100 RE is a permeable resurfacing system that features; a two coat structural spray application that is used to resurface an existing polyurethane base mat or structural spray track surface. The BSS 100 RE is applied to tracks that are showing wear but still have structural integrity. The resulting finish is a virtually seamless textured wearing coat that will rejuvenate and extend the life of the track surface. The resurfacing application consists of 100% solids, pigmented polyurethane and EPDM granules or the environmentally friendly BEYPUR 160 water-based structural spray that only Beynon offers.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	BSS-300 RE	<b>BSS 300 RE</b> The Beynon Sports BSS 300 RE is an impermeable resurfacing system that features; a two component polyurethane seal coat layer and two component polyurethane with 1.3mm embedded EPDM granules to resurface an existing polyurethane base mat or structural spray track surface. The resulting finish is an impermeable, seamless embedded textured wearing coat that will rejuvenate and extend the life of your track surface. It is also available in encapsulated and Hobart textures.	Per Sq. Yard	\$96.52	9%	\$ 87.83
	BSS-2000 RE 5mm	BSS 2000 RE 5mm TOP-COATING OF EXISTING SURFACES OF 4,500 SQ.YDS OR MORE ;The Olympic-caliber BSS 2000 RE 5mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 5mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 5mm is designed and manufactured for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$107.87	9%	\$ 98.16

	BSS-2000 RE 7mm	BSS 2000 RE 7mm: The Olympic-caliber BSS 2000 RE 7mm is IAAF certified and offers athletes the highest level of control and maximum energy return. It makes training more manageable and allows athletes to compete at their best. The BSS 2000 RE 7mm running track can be TUNED to meet the precise durometer required to meet the desires and needs of your coaching staff, athletes and facility managers. The BSS 2000 RE 7mm is designed and manufactured to re-energize your track surface by installing a uniform 2 mm impermeable seal coat + 5mm embedded overlay for optimal competitive performance with either an embedded, encapsulated or Hobart textured topcoat for unmatched traction and durability for improved response times and total control by athletes.	Per Sq. Yard	\$113.55	9%	\$ 103.33
	Water Based	To resurface a running track using the Beynon Water Based Spray- BeyPur 160. Price is to be ADDED to the BSS-100 RE, BSS-200 RE, BSS-100, BSS-200 RED track options only.	Per Sq. Yard	\$21.80	9%	\$ 19.83
	Hobart Coating	To resurface a running track using the Hobart Coating for Polyurethane tracks include all material and labor	Per Sq. Yard	\$28.21	9%	\$ 25.67
	In Situ Base	In-Situ Base: Combination of pea-gravel rock and polyurethane binder can be installed in lieu of asphaltic concrete to make a porous sub base. The In-Situ Base can also be used as a quick cure over concrete or asphalt prior to receiving synthetic track surfacing. Depth can range from ½" – 4" thick.	Per Sq. Yard	\$56.78	9%	\$ 51.67
	Track Restriping (when no track surface is being installed)	• <b>Track Re-Striping:</b> Track striping to bring your track's lines back to life. Six, eight or nine lane tracks ranging from non-competition tracks, middle and high school level competition facilities and College and Universities. Matching of all associated line striping for your facility includes lane lines, event markings and lettering.	Lump Sum	\$34,065.29	9%	\$ 30,999.41
	Track Cleaning	• <b>Track Cleaning (FastTrack):</b> Cleaning your track free of dirt and debris to protect your track surface from abrasive materials and aesthetically enhancing it. Sweepers and blowers are used to clean topical debris and water can be used (Owners choice) for deeper cleaning.	Per Sq. Yard	\$34.07	9%	\$ 31.00
