Section 4: That the City Commission approves an amendment to Part 6 Future Land Use Plan Map, of Element I Future Land Use, Volume II: Data, Inventory and Analysis, of the City of Margate Comprehensive Plan, as follows:

The Future Land Use Map

The Future Land Use Map for the City of Margate is appended to this document. The appended map is a reduced version of the original one, which is drawn to a scale of one inch equals 400 feet. The designation of any given parcel can be ascertained from the included map by means of the identifying streets, canals, wetlands, parks, and other features shown thereon. The larger map is available for viewing or purchase at City Hall. Because it is the same scale as the base maps of the City, i.e. zoning, subdivision, and address, it can be overlain to further ascertain the designation of any parcel of land or water within the city limits.

The Future Land Use Plan is the City's guide for future growth, development and redevelopment, and it generally shows the planned distribution of various land uses throughout the City's boundary. The Future Land Use Map does not necessarily reflect the existing use or zoning of any particular parcel. It shows the distribution and location of land uses in a manner consistent with the physical and man-made characteristics of the parcel and of its neighboring uses. All development permits shall henceforth be granted only if they are consistent with this map and the goals, objectives, and policies of this plan.
