February 9, 2021

Margate Community Redevelopment Agency
5790 Margate Boulevard
Margate, FL 33063
Attn: Ms. Donna Hicks, Buyer II

RE: ARCHITECTURAL SERVICES | RFQ NO. 2021-01

Dear Ms. Hicks and Members of the Selection Committee:

On behalf of our firm, **Saltz Michelson Architects, Inc. (SMA)**, we are pleased to submit our qualifications for the Margate Community Redevelopment Agency Architectural Services RFQ. As demonstrated throughout this proposal, we know Margate well having completed previous projects for the City, and we understand the nature and scope of the services requested. **We are committed to providing the Margate CRA with all of the necessary resources to complete your projects on time and within budget.**

Founded in 1976, SMA is an award-winning architectural firm and AIA Florida/Caribbean “2019 Firm of the Year” providing a full range of architectural design and planning services. Our available staffing consists of 26 professionals including 7 registered architects - 4 of which are LEED accredited professionals. The combined knowledge and expertise of the entire Saltz Michelson Architects Team will ensure a consistent standard of design and quality for each of your projects.

UNDERSTANDING OF THE WORK

For the past 45 years, SMA has accumulated an extensive list of open-ended contracts with multiple government and other public agencies — as such, we understand the unique needs of these diverse types of projects and have the experience to respond. From planned capital improvements, modernization projects, and design criteria to reroofs, ADA upgrades, problem solving, leak solving problems, remediation and repair after storms, we have the capability to fulfill the needs of MCRA.

EXPERIENCE WITH CONTINUING SERVICES CONTRACTS

Some of SMA's continuing long term contracts include Broward County (28 years), Memorial Healthcare System (26 consecutive years), and Broward College (24 years), among others. Below is a sampling of some of the projects we've completed under this type of contract - including with MCRA. Specific project examples are also illustrated throughout this proposal.

- **City of Margate:** Wayfinding Signage for Downtown Margate, Design Review Guidelines for Margate
- **Broward County (28 Years):** Transit support center, office renovations, hazardous waste drop-off facility, reports & studies, parking garage structural inspections, fire station programming, emergency operations center renovation, and a learning lab in the downtown main library
- **Memorial Healthcare System (26 Years):** A/E design services for all six of their hospitals and other medical facilities throughout the county
- **Broward College (24 Years):** Institute for Higher Learning, building renovations, office renovations, chiller building, dental lab, plaza design, facade renovation

AA-0002897

- **City of Coral Springs:** Humane Building addition, Building Department remodeling, Cypress Park Observation Tower, Cypress Hammock Park boardwalk replacement, World Trade Center Monument, Betti Stradling Park storage building
- **City of Lauderhill:** Police station firing range, Wolk Park, Maye Jenkins Park recreational building, West Ken Lark Park

TEAM

The SMA Team will provide the Margate CRA with quality and value - including prompt and accurate delivery of documents, as well as vigilant project administration and construction observation throughout the duration of each project. In addition, the current and projected workloads of the entire SMA Team will allow this contract to receive priority for service and staffing. Our proposed supporting team of consultants below has worked with us on numerous successful public projects and are experienced in all facets of expertise required by your RFQ:

- **Holland Engineering, Inc. (M/WBE):** Civil Engineering
- **Delta G Consulting Engineers, Inc. (M/WBE):** MEP/FP Engineering
- **Reliance Engineering, Inc. (M/WBE):** Structural Engineering
- **Dave Bodker Landscape Architecture/Planning, Inc.:** Landscape Architecture

STRENGTHS OF THE SMA TEAM

As a local Broward CBE firm with specific, relevant experience, and in conjunction with our decades of expertise and reliability, **SMA is the "right size" firm to provide you with personal service and principal involvement.** Our strengths include:

Saltz Michelson Architects commits to providing the best possible combination of talent and experience to the Margate Community Redevelopment Agency. We respectfully submit our qualifications and look forward to the opportunity of making a personal presentation to you. Thank you for your consideration.

Best Regards,
Saltz Michelson Architects, Inc.

CORPORATE HISTORY

3. CORPORATE HISTORY

A SALTZ MICHELSON ARCHITECTS, INC. PRIME ARCHITECT

SALTZ MICHELSON ARCHITECTS, INC. is an award-winning, architectural firm providing a full range of architectural and planning services. Our commitment to professionalism and strong project management has allowed us to play a key role in the development of public and private projects throughout Florida. The services we offer are tailored to the unique needs of our clients and the specific requirements of the projects for which we are responsible.

With offices in Fort Lauderdale and Doral, Florida, the firm was founded in 1976 by Mark L. Saltz, an architect and general contractor. Charles A. Michelson, now president of the firm, joined SMA in 1980 and became a principal in 1990. Today, of the twenty-six professionals employed by the firm, seven are registered architects - four of which are LEED Accredited Professionals. The combined knowledge and expertise of the entire Saltz Michelson Architects team ensures a consistent standard of design and quality for every project.

HISTORY

- 04/08/1976 The firm was established as Mark L. Saltz, AIA, Architect, a proprietorship in Hollywood.
- 07/17/1980 The firm was incorporated in the State of Florida as Mark L. Saltz Architects, Inc.
- 01/01/1990 Charles A. Michelson became a principal in the firm.
- 01/01/1996 The firm was renamed Saltz Michelson Architects, Inc. dba Saltz Michelson Architects.
- 2001 James M. Hartley Architects, a 45 year old firm, merged with Saltz Michelson Architects.
- 2011 Saltz Michelson Architects opens Miami office location.
- 2017 Charles Michelson becomes President of Saltz Michelson Architects.

B HOLLAND ENGINEERING (M/WBE) CIVIL ENGINEER

HOLLAND ENGINEERING, INC., located in Fort Lauderdale, Florida, is a Florida Corporation established in 1995 by Susan C. Holland, P.E., the principal and founder. Ms. Holland brings over 30 years of engineering design experience to the firm. Over the past 20 years, Holland Engineering has developed an extensive clientele base which extends from Central Florida to the Florida Keys. On the public sector side, these clients include Broward County, Miami-Dade County, United States Department of Agriculture, Cities of Hollywood, Pembroke Pines and Delray Beach, Seminole Tribe of Florida and the School Boards of Miami-Dade County, Broward County and Palm Beach County.

On the private sector side, Holland Engineering has provided professional engineering services for a wide variety of projects, from residential homes to warehouse developments. Holland Engineering provides professional engineering services to hospitals, hotels, banks, marinas, nursing homes and medical centers, car washes, retail centers, industrial warehouses, restaurants, churches and residential projects.

3. CORPORATE HISTORY

C **DELTA G CONSULTING ENGINEERS, INC.** (M/WBE) MEP/FP ENGINEER

DELTA G CONSULTING ENGINEERS, INC. was founded in 1992. They are registered with the USGBC and a full service consulting engineering firm dedicated to providing their clients with the highest quality Electrical, HVAC, Plumbing and Fire Protection engineering services at a competitive cost. Delta G office has a total of 5 Registered Professional Engineers, 13 Engineers/Designers, and support staff, including, 12 LEED Accredited Professionals, and have over 300 years of Engineering Experience with the average engineer having 18 years of experience.

Delta G is experienced in low-rise, mid-rise and high-rise residential and office building design, hospitals, fire and police stations, airports, schools, library, municipal, retail, hotel, and single family custom homes design. Delta G is centrally located to serving clients in Miami-Dade, Monroe, Broward and Palm Beach Counties. Their headquarters is located in Downtown Fort Lauderdale with branch offices in Coral Gables. Possessing a firm understanding of large-scale projects, Delta G professionals bring to the design team strong relationships with major institutional clients and an in-depth knowledge of the engineering disciplines.

D **RELIANCE ENGINEERING, INC.** (M/WBE) STRUCTURAL ENGINEER

Founded in 1998, Reliance Engineering Inc. has over 23 years' design experience with commercial and institutional projects. They work hand in hand with architects and developers from the conceptual stages of projects to integrate the structure with the architecture for efficiency and aesthetics. They remain true to their core values of Quality and Integrity, delivering reliable and cost effective designs in a timely manner.

Reliance Engineering delivers construction documents using Building Information Modeling using Revit System. Three Dimensional Modelling improves coordination and communication resulting in construction cost savings. Reliance Engineering is also a Florida certified M/WBE firm.

E **DAVE BODKER LANDSCAPE ARCHITECTURE/PLANNING, INC.** LANDSCAPE ARCHITECTURE

Established in 1988, **DAVE BODKER LANDSCAPE ARCHITECTURE / PLANNING (DBLAP)** offers a full range of services, from conceptual design and planning through construction and installation administration. They take a personalized and detailed approach to every project to insure quality and to meet the client's budget and schedule.

Mr. Bodker's experience ranges from conceptual design and planning through supervision of construction. Their scope of projects includes single-family residential, commercial properties (restaurants, shopping centers, hotels, office complexes, banks), public and semi-public facilities (churches, schools, utility complexes, parks), and industrial facilities. Although they work primarily in South Florida, their firm is involved in projects throughout the state.

26 EMPLOYEES
7 REGISTERED ARCHITECTS
4 LEED AP

5. PROJECT TEAM

SALTZ MICHELSON ARCHITECTS, INC.

CHARLES A. MICHELSON, AIA, ACHA, LEED AP PRESIDENT

Years with Firm: 41

Mr. Michelson maintains an active role in the planning, design, and production of architectural projects for the firm. With his background in Urban Planning, he participates in programming, feasibility studies, site planning and other research projects. As Principal-in-Charge of the firm's public projects, Mr. Michelson has been responsible for overseeing the new construction, renovation and additions to numerous public buildings and has provided design services for numerous governmental and other public facilities.

SHEFF L. DEVIER, AIA SENIOR PROJECT MANAGER | SHAREHOLDER

Years with Firm: 20

Sheff Devier is a registered architect with over 45 years of experience with Institutional, Governmental, Medical, Educational and Recreational facilities. Sheff holds an important role in the firm's management and reviews staffing schedules on a weekly basis. He is responsible for mentoring young architects and for managing all of the large projects in the firm.

NORMAN I. SCHWARTZ, AIA, LEED GA PROJECT MANAGER

Years with Firm: 8

Mr. Schwartz has over 30 years of experience as Project Manager/Architect on the design, planning/development and construction for various public and private sector projects. His previous experience was as Architect for the City of Fort Lauderdale for seven years. While there, he was one of the staff architects responsible for the \$40 million Fire Bond program for the replacement of the City's 10 Fire Stations.

MADAY GUTIERREZ, RA PROJECT MANAGER

Years with Firm: 7

Ms. Gutierrez has over 22 years of architectural experience. Maday has recently completed a major renovation to the City of Sunrise's City Park. Other recent completed projects include Broward County Transit Electric Bus Charging Infrastructure (Continuing Contract), Miami-Dade County Public Schools (Continuing Contract), and City of Sunrise Athletic Complex Park.

FRIDA DUNAYER PROJECT MANAGER | INTERIORS

Years with Firm: 21

Ms. Dunayer has over 38 years of experience and has been responsible for the design, space planning, construction documents and consultant coordination for a wide array of projects. Her interior facilities design experience includes layout of existing furniture inventory and selection of complementary new pieces, interior selection of finishes from floor to ceiling materials, color, texture and patterns in agreement with client and/or end-user preferences, contracting with several manufacturers to provide Clients with best quality and pricing, design and detail of custom furniture and millwork as per user requirements.

JUAN PABLO GARCIA BIM MANAGER

Years with Firm: 6

Juan Garcia is responsible for coordinating and producing a broad range of projects including Government, Mixed-use, Medical, Institutional, and Sports facilities from schematics to construction. Juan heavily utilizes visualization tools to create renderings and models that dynamically demonstrate how designs will look and perform for prospective clients, regulatory agencies, and other members of the Building Team. He is responsible for all REVIT model coordination and performs the BIM clash detection analysis for the office.

SUBCONSULTANTS PERSONNEL

HOLLAND ENGINEERING, INC. CIVIL ENGINEERING

SUSAN HOLLAND, PE, LEED AP, PRINCIPAL/CIVIL ENGINEER

Years with Firm: 24

Susan Holland is a registered engineer and is the president of Holland Engineering, Inc., and is responsible for overall design, construction specifications, permitting, scheduling, cost estimates, bidding, and documentation as it relates to the firm's civil engineering design services. Holland Engineering, Inc. is a civil and environmental engineering firm specializing in water distribution and sewer collection system designs, storm water management, roadway and parking area design, site planning and permitting.

AYITEY ARYEE, CIVIL ENGINEER

Years with Firm: 6

Ayitey Aryee is responsible for overall design, construction specifications, permitting, scheduling, cost estimates, bidding, and documentation as it relates to the firm's civil engineering design services. His experience includes over 9 years of experience on municipal and private civil engineering design projects. Design experience includes sanitary sewer systems and pump stations, water distribution, storm water management and roadway design.

DELTA G CONSULTING ENGINEERS, INC. MEP/FP ENGINEER

GEORGE SANJUAN, PE, LEED AP, PRINCIPAL/ELECTRICAL ENGINEER

Years with Firm: 26

George SanJuan created Delta G Consulting Engineers Inc. in 1992 and has led the growth of the firm to twenty-one. He is an Electrical Professional Engineer with over thirty years' experience as an electrical designer, project manager and Principal-in-charge. Mr. SanJuan is the Principal of the firm and spends most of his time assisting the project managers of our (4) fully staffed project teams and support personnel.

STEPHEN BENDER PE, LEED AP, MECHANICAL ENGINEER

Years with Firm: 29

Stephen Bender joined Delta G Consulting Engineers, Inc. in 2004 as a Mechanical Engineer. He has over 29 years of design experience in the Mechanical Engineering industry, including 9 years as a Project Manager for Delta G.

CRAIG BOZEMAN, ELECTRICAL ENGINEER

Years with Firm: 12

Mr. Craig Bozeman has over thirty-seven years of experience as an Electrical designer and project manager. He is responsible for total management of all aspects of projects to ensure they are completed on time and at the highest level of quality. Mr. Bozeman has designed Electrical systems for Office/Commercial, Educational, and Residential/Hotel.

IGOR LONCAREVIC, PLUMBING DESIGNER

Years with Firm: 5

Mr. Loncarevic is a Plumbing Designer of building system layouts based not only on Florida Building Code (Plumbing), but also other States plumbing codes and regulations, including sanitary & grease waste, domestic water supply, storm / condensate drainage, medical gases; generating floor plans, isometrics, details, etc., Also generated multiple plumbing reports based on inspections to hi-rise and low rise buildings

RELIANCE ENGINEERING, INC. STRUCTURAL ENGINEER

SANKAR WARIER, PE, PRINCIPAL/STRUCTURAL ENGINEER

Years with Firm: 23

Mr. Warier founded Reliance Engineering Inc. in 1998 and has over 23 years' design experience with commercial and institutional projects. Working hand in hand with architects and developers from the conceptual stages of projects to integrate the structure with the architecture for efficiency and aesthetics, he remains true to the core values of Quality and Integrity - delivering reliable and cost effective designs in a timely manner.

DAVE BODKER LANDSCAPE ARCHITECTURE/PLANNING, INC. LANDSCAPE ARCHITECTURE

DAVE BODKER, RLA

Years with Firm: 33

Dave has been working and living in South Florida since 1979 and has been president of Dave Bodker Landscape Architecture/Planning, Inc. (DBLAP) since 1988. His 39 years of experience in Florida has allowed him to work with many municipalities and governing agencies on a wide variety of project types, including both public and private sector projects. He has been recognized by his peers with the "Engineer of the Year" award in 2010.

8.

PROJECT MANAGEMENT

A PROJECT MANAGEMENT APPROACH

Our Team's overall project approach, rooted heavily in collaboration and interaction, recognizes the need to bring technical and economical points of view to the planning and design process. Our goal is to achieve cost savings and maintain levels of service and institutional integrity by optimizing the relationships between people, processes, and place. Our time-tested approach adds value through:

Objectivity – a system of asking the right questions, listening, and documenting your answers

- » Review, refine, and test facility improvement ideas and present new ideas and options for consideration without preconceived solutions

Collaboration – building consensus through the involvement of key stakeholders

- » Separate wants from needs objectively, and achieve consensus and buy-in for the agreed upon course of action
- » Identify all cost elements and drivers as well as cost avoidance opportunities through integrated cost modeling from the outset of activities

Analysis – a macro-level process that breaks the problem into its parts

- » Ensure that the MCRA gets the best solution for the right price

Given an unlimited budget and timetable, it's easy to generate a spectacular solution - but it is a challenge and opportunity to create a successful solution from a cost-sensitive point of view. **Working with all project stakeholders to achieve more from less is where the creativity and talent of our team and approach will distinguish itself.**

Collaboration & BIM Utilization

While planning and design is our business — exceptional project delivery sets us apart.

Collaboration, teaming, communication, and accountability are the key elements in our project delivery processes. We bring state-of-the-art technology and economical points of view to the planning and design process.

Our goal is to achieve cost savings and maintain levels of service and institutional integrity by optimizing the relationships between people, processes, and place. We will build consensus on projects that include multiple stakeholders with competing values and needs.

Our team also understands that BIM along with specific industry experience can be the most powerful pre-construction tool towards overall project success. From early design through construction and into the field, as well as into client occupancy, we leverage our use of BIM. Our entire team is on board and uses this technology to make sure our goals and objectives are met.

The use of BIM helps not only the end-user have a better understanding of the end product, but it also optimizes the schedule, reduces project costs, increases collaboration and cohesion, and contributes to flawless communication and translation between the disciplines — ensuring that your quality, complex projects are delivered successfully.

B HOW SERVICES WILL BE EXECUTED

1. Programming

Programming will be the first phase in the design of your projects. It is the architect's first task and often the most important. The process is a simple and comprehensive organized method of inquiry and interaction. With the information gathered, we will develop elementary drawings and relationship diagrams indicating design considerations in relation to circulation and utilities, single line design plans, and cost and area analysis in relationship to program and budget.

2. Schematic Design

Upon approval of the Programming Phase, we will proceed into the Schematic Design Phase. The goal of this phase will be to create a safe, secure, functional, and aesthetic design that meets the project objectives.

Compromises among program requirements, budget and quality, appearance, security, and energy efficiency, along with many other decisions, will be made based upon input from the City.

The Schematic Design submittal will include more detailed plans and a review of program requirements, together with a cost analysis and its relationship to the established budget and program.

3. Design Development

During the Design Development Phase, all of the issues left unresolved at the end of Schematic Design will be flushed out and all engineering systems established. The design itself will achieve the refinement and coordination necessary for a truly polished structure. Without this phase, too many important areas of design exploration are compressed into the Schematic Design Phase or left to construction drawings.

The Design Development Phase will include detailed drawings of the building plans and will detail equipment locations, area calculations, finishes, fire code requirements, and building materials. Engineering (MEP) drawings and calculations will be provided in sufficient detail to identify systems and equipment modifications and the participation of specialty engineering items, if required by the program.

4. Final Construction Documents

The Contract Documents Phase will bring to completion all drawings and specifications necessary for construction. All drawings will be checked for completeness and coordination among disciplines. Final engineering calculations will be submitted, and specifications will be finalized with attention to standard materials and methods of construction.

This phase will include:

- Project management
- Coordination with the MCRA
- Consultant coordination
- Periodic project meetings with all parties
- Review all documents for design Intent
- Monitor the reviews with all applicable agencies

5. Bid/Negotiation Phase

During this phase, if the design/bid/build method is selected, we will generate all of the necessary bid documents based upon the City's legal requirements as part of our Technical Specifications book. We will then assist the City in the distribution of the Contract Documents to contractors interested in bidding the project. We will issue clarification and additional information addenda to the bidders, as necessary, to ensure the most competitive bidding climate.

Upon receipt of the bids, we will review the submitted documents for conformance to the bid requirements and assist the City in ranking the bidders and the ultimate award of the contract.

6. Construction Administration

Saltz Michelson Architects will provide staffing for the Construction Administration Phase which will include monitoring quality compliance, observing construction/installation status, reviewing submittals, and completing other customary construction phase services as Owner's Representatives. Monitoring and coordination will begin when the construction contract is awarded and will continue throughout the life of the project.

Personnel will be assigned to the project to the degree of expertise necessary to monitor the construction progress and assist in administrative activities. Professional and administrative personnel will also be assigned. The total CA Phase will be directed by the Project Manager and will include:

- Project management
- Consultant coordination
- General administration of the construction contract (pre-construction conference, architectural construction administration, and periodic site visits and job site meetings)
- Shop drawing review
- Response to Requests for Information (RFIs)
- Review of samples & materials
- Material substitutions
- Material color selections – color schemes & sample boards
- Review of mock-ups
- Electronic correspondence logs for immediate access to the most updated information
- Change order procedure
- Verifying and approving periodic pay requests
- Progress reports to owner
- Minutes from owner/architect/contractor project meetings
- Pre-final inspection (substantial completion punch list)

- Punch list and final inspections
- Final acceptance reports and procedures
- Project close-out documents

7. Participation with Governmental Agencies

On behalf of the City, we will interact with all of the governmental agencies as necessary to obtain building permits and effectively execute any approval process necessary. We have completed a variety of public and private entity projects in the hurricane prone regions of South Florida.

C MAINTAINING COST CONTROLS

Saltz Michelson Architects is committed to meeting all time and budget requirements specific to your contract. Our careful planning and effective scheduling is based on our understanding the relationship of time, money, and resource utilization within the office and specifically for the scope of work. Creating an outline that defines the project in concise and controllable components will develop this understanding.

As no client has unlimited resources, we consider maintaining cost control and designing to the budget to be among our most important functions. **Alternative materials and methods of construction will be evaluated to ensure that the MCRA gets the most for its construction budget.** Economics will be an ongoing consideration in the programming, design and development phases.

During the course of preparing design development, construction documents and specifications, and in conjunction with facility personnel, we will review materials and systems alternatives for purposes of value engineering. Long-term value versus higher up front costs will be identified and discussed.

Probable cost statements may be prepared at each stage of the project to monitor the size and design of the facility against the budget. **Our experience with similar projects will assist us in estimating preliminary budgets**, as well as the use of industry publications such as R. S. Means, giving us the most current square foot project costs.

QUALITY ASSURANCE/QUALITY CONTROL

Quality is an ongoing improvement process for us to meet and surpass the MCRA's requirements and expectations. With an emphasis on definition, communication, coordination, cooperation, and consistency, we approach each project as a team intent on producing world-class architecture in the context of your goals and expectations.

Our team's approach will rely on quality as integral to the process. From inception, our management activities will apply throughout the scope, schedule, and budget of your projects. In the public driven sector, we work closely with our clients as well as hand-in-hand with our equipment planners, civil engineers, MEP engineers, structural engineers, landscape architects and City/code officials. The only success we have is when our client is successful.

We have often entered into integrated project delivery where the stakeholders all have a share in the success of the project. We treat each other as partners, and this forms trust — something that is always our end goal.

Quality Assurance (QA)

Our planned and systematic approach to doing work providing confidence we will meet expectations.

Quality Control (QC)

We check work against a "control" standard to ensure that work is completed in accordance with the established criteria.

DTIME FRAMES & SCHEDULING

Saltz Michelson Architects is committed to meeting all time requirements specific to your contract. Our careful planning and effective scheduling is based on our understanding the relationship of time, money, and resource utilization within the office and specifically for the scope of work. Creating an outline that defines the project in concise and controllable components will develop this understanding.

Maintaining Time Schedules

Schedules will be developed for each of the project elements so that the actual performance can be compared to the outline schedule. Control of the overall project performance will be achieved by:

1. Monitoring every activity in progress
2. Immediate identification, evaluation, and implementation of corrective actions to restore the progress
3. Cost control by evaluating design alternatives and the extensive experience of our senior staff

Our adherence to these systems, policies and procedures within Saltz Michelson Architects will result in the successful completion of your multifaceted projects - on time and within budget.

OFFEROR'S CERTIFICATION

10 OFFEROR'S CERTIFICATION

OFFEROR'S CERTIFICATION MCRA RFQ NO. 2021-01

WHEN OFFER IS A CORPORATION

IN WITNESS WHEREOF, the Offeror hereto has executed this Proposal Form this 8th day of February, 2021.

Saltz Michelson Architects, Inc.
Printed Name of Corporation

Florida
Printed State of Incorporation

By:
Signature of President or other authorized officer

Charles A. Michelson, President
Printed Name of President or other authorized officer

3501 Griffin Road
Address of Corporation

Fort Lauderdale, FL 33312
City/State/Zip

(954) 266-2700
Business Phone Number

State of Florida

County of Broward

The foregoing instrument was acknowledged before me by means of X physical presence or online notarization this day of February 8, 2021, by (Name), Charles Michelson, President (Title) of Saltz Michelson Architects, Inc. (Company Name) on behalf of the corporation, who is personally known to me or who has produced as identification and who did (did not) take an oath.

WITNESS my hand and official seal.

OFFEROR'S QUALIFICATION STATEMENT

OFFEROR'S QUALIFICATION STATEMENT MCRA RFQ NO. 2021-01

The undersigned certifies under oath the truth and correctness of all statements and of all answers to questions made hereinafter:

SUBMITTED TO: City of Margate (Purchasing Manager)

ADDRESS: 5790 Margate Boulevard
Margate, Florida 33063

CIRCLE ONE

SUBMITTED BY: Saltz Michelson Architects, Inc.
 NAME: Charles A. Michelson, AIA, ACHA, LEED AP, President
 ADDRESS: 3501 Griffin Road, Fort Lauderdale, FL 33312
 PRINCIPAL OFFICE: 3501 Griffin Road, Fort Lauderdale, FL 33312

Corporation
 Partnership
 Individual
 Other

1. State the true, exact, correct and complete name of the partnership, corporation, trade or fictitious name under which you do business and the address of the place of business. (Attach corporate documents from the State of Florida (sunbiz.org) to this statement.)

The correct name of the Offeror is: Saltz Michelson Architects, Inc.
 The address of the principal place of business is: 3501 Griffin Road, Fort Lauderdale, FL 33312

2. If Offeror is a corporation, answer the following:

- a. Date of Incorporation: 07/17/1980
- b. State of Incorporation: Florida
- c. President's name: Charles A. Michelson
- d. Vice President's name: Not applicable
- e. Secretary's name: Natalia Castro
- f. Treasurer's name: Charles A. Michelson
- g. Name and address of Resident Agent:
Charles A. Michelson
3501 Griffin Road
Fort Lauderdale, FL 33312

3. If Offeror is an individual or a partnership, answer the following:

a. Date of organization: Not applicable.

b. Name, address and ownership units of all partners:

Not applicable.

c. State whether general or limited partnership:

Not applicable.

4. If Offeror is other than an individual, corporation or partnership, describe the organization and give the name and address of principals:

Not applicable.

5. If Offeror is operating under a fictitious name, submit evidence of compliance with the Florida Fictitious Name Statute.

Please see attached.

6. How many years has your organization been in business under its present business name?

25 Years.

a. Under what other former names has your organization operated?

Mark L. Saltz Architects, Inc.
Mark L. Saltz, AIA, Architect

7. Indicate registration, license numbers or certificate numbers for the businesses or professions which are the subject of this RFQ. Please attach certificate of competency and/or state registration.

Corporate License: AA0002897
State Registration: P96000091528 (See Tab 7)

8. Have you ever failed to complete any work awarded to you? If so, state when, where and why?

SMA has never failed to complete any work awarded to us.

THE OFFEROR ACKNOWLEDGES AND UNDERSTANDS THAT THE INFORMATION CONTAINED IN RESPONSE TO THIS QUALIFICATIONS STATEMENT SHALL BE RELIED UPON BY OWNER IN AWARDING THE CONTRACT AND SUCH INFORMATION IS WARRANTED BY OFFEROR TO BE TRUE. THE DISCOVERY OF ANY OMISSION OR MISSTATEMENT THAT MATERIALLY AFFECTS THE OFFEROR'S QUALIFICATIONS TO PERFORM UNDER THE CONTRACT SHALL CAUSE THE OWNER TO REJECT THE PROPOSAL AND, IF AFTER THE AWARD, TO CANCEL AND TERMINATE THE AWARD AND/OR CONTRACT.

--	---	--

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Under our **continuing contract** with the City of Weston, this project includes the renovation of 15 park restroom buildings located at various parks throughout the city. The scope of the work includes complete internal demo and reinstallation of new fixtures, partitions, floor and wall tile surfaces, and restroom accessories.

The restrooms finishes utilized full height "sheet" wall tile to minimize grout lines and seams with the material. The result not only adds to the visual impact but helps in maintaining the life of the material. Sizes of restrooms in this project range from 2-5 stalls each.

<input checked="" type="checkbox"/> Same Team Members

The Hollywood West Sports Park was an obsolete community park which outlived its usefulness to and was under utilized by the community. After a public referendum to issue a General Obligation Bond was passed by the City of Hollywood, Florida voters in 2004, along with a \$100,000 grant from Broward County, the City engaged Saltz Michelson Architects to master plan the 12.24 acre site, create a new 10,195 square foot community center with full kitchen, and redevelop the sports park into a contemporary state-of-the-art facility.

The new sports park contains a baseball field, multi-use regulation soccer/football field, 2 intramural soccer fields, a skate park, tot lot, outdoor play area, covered seating areas, outdoor performance stage, concession/toilets and storage building, along with the community center, all illuminated for nighttime use. In addition the existing 55 parking spaces were increased to 152. SMA was able to preserve the 75 existing oak trees, which were incorporated into the design.

SCRUTINIZED COMPANIES CERTIFICATION

Scrutinized Company Certification

I hereby swear or affirm that as of the date below this company is not listed on a Scrutinized Companies list created pursuant to 215.4725, 215.473, or 287.135, Florida Statutes. Pursuant to 287.135, Florida Statutes I further affirm that:

- (1) This company is not participating in a boycott of Israel such that it is not refusing to deal, terminating business activities, or taking other actions to limit commercial relations with Israel, or persons or entities doing business in Israel or in Israeli-controlled territories, in a discriminatory manner.
- (2) This Company does not appear on the Scrutinized Companies with Activities in Sudan List where the State Board of Administration has established the following criteria:
 - Have a material business relationship with the government of Sudan or a government-created project involving oil related, mineral extraction, or power generation activities, or
 - Have a material business relationship involving the supply of military equipment, or
 - Impart minimal benefit to disadvantaged citizens that are typically located in the geographic periphery of Sudan, or
 - Have been complicit in the genocidal campaign in Darfur.
- (3) This Company does not appear on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List where the State Board of Administration has established the following criteria:
 - Have a material business relationship with the government of Iran or a government- created project involving oil related or mineral extraction activities, or
 - Have made material investments with the effect of significantly enhancing Iran's petroleum sector.
- (4) This Company is not engaged in business operations in Cuba or Syria.

NON-COLLUSIVE AFFIDAVIT

NON-COLLUSIVE AFFIDAVIT FORM

State of Florida)

County of Broward)

Charles A. Michelson, AIA, ACHA, LEED AP being first duly sworn, deposes and says that:

He/she is the President/Owner, (Owner, Partner, Officer, Representative or Agent) of Saltz Michelson Architects, Inc., the Offeror that has submitted the attached Proposal;

He/she is fully informed regarding the preparation and contents of the attached Proposal and of all pertinent circumstances regarding such Proposal;

Such Proposal is genuine and is not a collusive or sham Proposal;

Neither the said Offeror nor any of its officers, partners, owners, agents, representatives, employees or parties in interest, including this affiant, have in any way colluded, conspired, connived or agreed, directly or indirectly, with any other Offeror, firm, or person to submit a collusive or sham Proposal in connection with the Work for which the attached Proposal has been submitted; or to refrain from bidding in connection with such Work; or have in any manner, directly or indirectly, sought by agreement or collusion, or communication, or conference with any Offeror, firm, or person to fix the price or prices in the attached Proposal or of any other Offeror, or to fix any overhead, profit, or cost elements of the Proposal price or the Proposal price of any other Offeror, or to secure through any collusion, conspiracy, connivance, or unlawful agreement any advantage against (Recipient), or any person interested in the proposed Work;

The price or prices quoted in the attached Proposal are fair and proper and are not tainted by any collusion, conspiracy, connivance, or unlawful agreement on the part of the Offeror or any other of its agents, representatives, owners, employees or parties in interest, including this affiant.

DRUG-FREE WORKPLACE PROGRAM FORM

DRUG-FREE WORKPLACE PROGRAM FORM

In accordance with Section 287.087, State of Florida Statutes, preference shall be given to businesses with Drug-free Workplace Programs. Whenever two or more bids which are equal with respect to price, quality, and service are received for the procurement of commodities or contractual service, a bid received from a business that certifies that it has implemented a Drug-free Workplace Program shall be given preference in the award process. In the event that none of the tied vendors have a Drug-free Workplace program in effect, the MCRA reserves the right to make final Decisions in the MCRA's best interest. In order to have a Drug-free Workplace Program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893, Florida Statutes, or of any controlled substance law of the United States or any State, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community by any employee who is convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation.

If bidder's company has a Drug-free Workplace Program, so certify below:

AS THE PERSON AUTHORIZED TO SIGN THE STATEMENT, I CERTIFY THAT THIS FIRM COMPLIES FULLY WITH THE ABOVE REQUIREMENTS.

SIGNATURE OF BIDDER: _____

DATE: 02/08/2021

16.

BYRD-ANTI LOBBYING CERTIFICATION

BYRD ANTI LOBBYING CERTIFICATION FOR CONTRACTS, GRANTS, LOANS, AND COOPERATIVE AGREEMENTS

To be submitted with each bid or offer exceeding \$100,000

The undersigned certifies, to the best of his or her knowledge and belief, that:

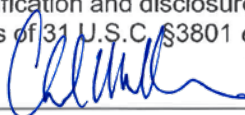

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, Saltz Michelson Architects, Inc., certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. §3801 *et seq.* apply to this certification and disclosure, if any.

STATEMENT OF COMPLIANCE

17. STATEMENT OF COMPLIANCE

STATEMENT OF COMPLIANCE - SMALL AND MINORITY BUSINESSES, WOMEN'S BUSINESS ENTERPRISES, AND LABOR SURPLUS AREA FIRMS

The undersigned Contractor hereby swears under penalty of perjury that Contractor took the following affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms were used when possible:

- (1) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
- (2) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
- (3) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
- (4) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
- (5) Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

REPRESENTATIVE PROJECTS

Broward County (Continuing Contract), Broward County, FL: For over 28 years, SMA has been involved with multiple projects with varying scopes, sizes, and costs. Some of these projects included office renovations, convention center design criteria, electric bus charging infrastructure, transit support building, reports and studies, and many other projects.

City of Coral Springs (Continuing Contract), Coral Springs, FL: Under this continuing contract with the City (2001 - 2004, and again in 2015), projects have included the Humane Building Addition, Building Department Remodeling, Cypress Park Observation Tower, Cypress Hammock Park Boardwalk Replacement, World Trade Center Monument and Betti Stradling Park Storage Room Building.

Memorial Healthcare System (Continuing Contract), Broward County, FL: Under our open-ended contract (twenty-six consecutive years) with the South Broward District/Memorial Healthcare System, we have been the architects for numerous AHCA approved projects within its six hospitals and numerous other medical facilities.

State of Florida Department of Management Services WXEL-TV/PBS Studio Reglazing & Reroofing (Continuing Contract), Boynton Beach, FL: Complete roof replacement, curtain wall (building envelope) replacement and emergency back-up A/C system for control rooms support. New glazing storefront and window systems along select areas of the east, north and west sides of the building were removed and reinstalled. The work was completed in phases so the facility could remain in operation during construction.

City of Key West Community Center (Continuing Contract), Key West, FL: Under the firm's continuing contract with the City, a report was developed based on several months of research, meetings and reviews with City staff. After analyzing fourteen sites, the report identified the existing Community Services site (90,000 SF) for redevelopment and preliminary planning and programming is underway to redesign this site and provide a new and or expanded Community Services Building of approximately 15,000 - 20,000 SF.

Lauderhill Police Department Building Expansion - Firing Range (Continuing Contract), Lauderhill, FL: Design Criteria for a ± 5,000 SF single-story building, to include a gun range, scenario rooms, dining room, computer room, classroom, support spaces, and modifications to the exiting parking lot.

CHARLES A. MICHELSON AIA ACHA LEED AP

ROLE: Principal-In-Charge

City of Lauderdale Lakes City Hall & Public Works (Continuing Contract), Lauderdale Lakes, FL: Phased renovation of administrative and commissioner offices, kitchen area, conference room, IT spaces, and ADA upgrades. Public Works included administrative and planning offices, field operations offices, field personnel locker rooms, and ADA upgrades.

Palm Beach Sheriff's Office Training Facility (Continuing Contract), West Palm Beach, FL: An existing 32,600 SF one-story gymnasium for secondary education which was renovated to fulfill a training program including defensive tactics, simunitions, sworn trainer and general classroom space, and administrative offices, including all support functions.

Wellington Aquatic Center, Wellington, FL (Continuing Contract): Demolition of the existing Aquatic Center and the construction of a 4,905 SF community facility. The program for the new building included a multipurpose room for meetings and classes, and various support spaces such as administrative offices, locker rooms, weight room, restrooms and public accommodations.

City of Tamarac Fire Stations 41 & 78 (Continuing Contract), Tamarac, FL: Under a continuing contract with the City, various A/E design services to improve the aesthetics and functional properties to meet the City's program for Fire Stations 41 & 78 - this included redesigning portions of the façade, remodeling interior day room and kitchen, and upgrading private sleeping quarters. Other areas of the buildings were brought up to Code, and communication capabilities were enhanced. The generator station for FS 41 was upgraded and the entire building received impact glass and a fire sprinkler system.

City of Lauderdale Lakes City Hall & Public Works (Continuing Contract), Lauderdale Lakes, FL: Phased renovation of administrative and commissioner offices, kitchen area, conference room, IT spaces, and ADA upgrades. The Public Works offices included administrative and planning offices, field operations offices, field personnel locker rooms, and ADA upgrades.

Miami-Dade County Public Schools (Continuing Contract), Miami-Dade County, FL: Under the firm's continuing contract with the School Board, renovation projects for various schools including field and scope validation, design development, and construction administration. Work included new MEP infrastructure and architectural renovations to entry canopies, playgrounds, and window/storefront replacements.

City of Sunrise Athletic Complex Park, Sunrise, FL: Addition of a new 15,000 SF athletic building, a playground, and a plaza for food vendors. The project also included renovating the 1,156,848 SF park, adding three new multi-sport fields and a concession stand with sports commentator tower. In addition, there will be five new covered outdoor basketball fields.

SHEFF L. DEVIER AIA, SENIOR PROJECT MANAGER | SHAREHOLDER

ROLE: Senior Project Manager/Quality Control

Sheff Devier is a registered architect with over 46 years of experience with Institutional, Governmental, Medical, Educational and Recreational facilities. Sheff holds an important role in the firm's management and reviews staffing schedules on a weekly basis. He is responsible for mentoring young architects and for managing all of the large projects in the firm.

AFFILIATIONS

American Institute of Architects (AIA)

Broward County (Continuing Contract), Broward County, FL: For over 28 years, SMA has been involved with multiple projects with varying scopes, sizes, and costs. Some of these projects included office renovations, convention center design criteria, electric bus charging infrastructure, transit support building, reports and studies, and many other projects.

Broward College (Continuing Contract), Broward County, FL: Successful completion of multiple college remodeling projects under the firm's continuing contract (24 years) on all four of their campuses including a student affairs center and administrative offices.

Miami Dade College (Continuing Contract), Miami, FL: Under the firm's open-ended contract, renovations to North Campus Building 10000 - a deferred maintenance project.

City of Weston Emergency Operations Center, Weston, FL: A 25,000 SF, three-story EOC with offices for building code, zoning code, fire code, code enforcement and records storage on the 1st floor; emergency operations center, kitchen facilities, IT offices, and multipurpose space on the second; and emergency staff sleeping quarters and support space on the third.

Broward County Transit Center, Lauderhill, FL: A new 3,000 SF transit center to serve over 8,000 daily transit passengers and includes 10+ bus bays, drivers' lounge, breakroom, customer service area, restrooms, and security booth (first net-zero facility in Broward).

Broward County Main Library Wind Mitigation, Fort Lauderdale, FL: Wind mitigation and renovation of Broward County's flagship main library and covered pedestrian bridge to current Florida Building Code and FM Global Standards.

West Pines Soccer Park & Community Building, Pembroke Pines, FL: Design, permitting and construction of a freestanding 1,700 SF meeting room/restroom building and two additional lighted practice soccer fields at the West Pines Soccer Park and Nature Preserve.

Boulevard Heights Community Center & Hollywood West Sports Park, Hollywood, FL: A new 12.24 acre sports park and new 10,195 SF community center with banquet room, kitchen, meeting rooms, crafts room, and pre-school room.

Palm Beach County EOC Support Center Renovation, West Palm Beach, FL: Extensive renovation of a two-story, 57,000 SF building which functions as a support facility for the adjacent EOC during critical events. The building envelope was hardened to withstand 180 MPH wind loads and now functions as a 24 hour facility including sleeping quarters.

NORMAN I. SCHWARTZ AIA, LEED GA, PROJECT MANAGER

ROLE: Project Manager

Mr. Schwartz has over 30 years of experience as Project Manager/Architect on the design, planning/development and construction for various public and private sector projects. His previous experience was as Architect for the City of Fort Lauderdale for seven years. While there, he was one of the staff architects responsible for the project designs and management of various scopes and sizes including the \$40 million Fire Bond program for the replacement of the City's 10 Fire Stations.

Broward County Ravenswood Transit Facility Enhancement & Retrofit (Continuing Contract), Dania Beach, FL: Renovations and modernization to the facility's infrastructure including replacement of automatic gates, building structural repair, parking garage grading/drainage, and exterior renovation to protect underground fuel storage tanks.

Miami-Dade County Public Schools (Continuing Contract), Miami-Dade County, FL: Under the firm's continuing contract with the School Board, renovation projects for eleven schools including field and scope validation, design development, and construction administration. Work included new MEP infrastructure and architectural renovations to entry canopies, playgrounds, and window/storefront replacements.

City of Weston (Continuing Contract), Weston, FL: Under the firm's continuing contract, renovation of 15 park restroom buildings within various parks throughout the City. The scope of the work includes complete internal demo and reinstallation of new fixtures, partitions, floor and wall tile surfaces, and restroom accessories.

Florida Department of Management Services WXEL-TV/PBS Reglazing & Roof Replacement (Continuing Contract), Boynton Beach, FL: Complete roof replacement, curtain wall (building envelope) replacement and emergency back-up A/C system for control rooms support. New glazing storefront and window systems along select areas of the east, north and west sides of the building were removed and reinstalled.

City of Margate Fire Station No. 58, Margate, FL: A new 16,816 SF Replacement Fire Station including apparatus bays, dormitory space, restroom/shower facilities, kitchen and an added facilities for FD Administration-EOC, dayroom living area, office space, Telecommunication room, server room and UPS battery backup for the entire facility, storage and janitorial rooms, exercise/fitness room, and laundry/decontamination for both the fire station and living areas.

City of Hollywood Fire Station 45, Hollywood, FL: A new 7,224 SF replacement fire station with sleeping bunk rooms, kitchen/dining room, day room, exercise room, office and watch room. In addition, the station has two large apparatus bays with support spaces of bunker gear, storage, medical and other building support areas. New building and site designed and built to "LEED Standards" for sustainability and will pursue LEED Gold Certification.

City of Sunrise Athletic Complex Park, Sunrise, FL: Addition of a new 15,000 SF athletic building, a playground, and a plaza for food vendors. The project also included renovating the 1,156,848 SF park, adding three new multi-sport fields and a concession stand with sports commentator tower. There will also be five new covered outdoor basketball fields.

MADAY GUTIERREZ RA, PROJECT MANAGER

ROLE: Project Manager

Ms. Gutierrez has over 22 years of architectural experience. Maday has recently completed a major renovation to the City of Sunrise's City Park.

REPRESENTATIVE PROJECTS

Broward County Transit Electric Bus Charging Infrastructure (Continuing Contract),

Pompano Beach, FL: Under our continuing contract with the County, a new electric bus charging infrastructure within the existing Transit Ravenswood Road and Copans Road Maintenance Facilities. The infrastructure will include, new parking spaces to accommodate 40' and 45' electric buses, a new canopy system and the charging and associated electrical equipment.

Miami-Dade County Public Schools (Continuing Contract), Miami-Dade County, FL:

Under the firm's continuing contract with the School Board, renovation projects for various schools including field and scope validation, design development, and construction administration. Work included new MEP infrastructure and architectural renovations to entry canopies, playgrounds, and window/storefront replacements.

City Park Renovations, Sunrise, FL: Renovation of ± 50,000 SF of the park's playing fields, walking paths, restrooms, and playground equipment; renovation and expansion of the existing parking area; and addition of two new basketball courts and a new covered theatrical stage shelter.

City of Sunrise Athletic Complex Park, Sunrise, FL: Addition of a new 15,000 SF athletic building, a playground, and a plaza for food vendors. The project also included renovating the 1,156,848 SF park, adding three new multi-sport fields and a concession stand with sports commentator tower. In addition, there will be five new covered outdoor basketball fields.

Broward County Addiction Recovery Center (BARC), Fort Lauderdale, FL: New two-story 51,419 SF building which houses a fifty bed detoxification unit, outpatient counseling services, medical exam spaces and other related operational and business functions (LEED Gold).

Miami-Dade County Empowerment Center, Miami, FL: A 28,000 SF multipurpose facility to accommodate 60 emergency shelter beds (with flexibility to expand in the future). The space creates a welcoming, safe and accessible shelter environment that supports patrons and families.

Morrison Hotel, Dania Beach, FL: An approximately 97,000 SF, seven-story hotel built from the ground up with parking, a lobby and restaurant/bar on the ground floor, and meeting rooms and pool on the second.
