City of Margate  
5790 Margate Boulevard  
Margate, FL 33063

Attn: Mr. Spencer L. Shambray, Purchasing Manager

Re: Furnish and Deliver Aggregates Top Soil and Sand (Co-Op Bid) Bid No. 2018-001

Dear Mr. Shambray:

Since the renewal of our Bid Agreement with the City of Margate executed on September 14, 2021, Florida Superior Sand, Inc. has experienced unforeseen and unprecedented cost increases across all aspects of our operation by virtue of skyrocketing fuel prices.

From December, 2020 through March, 2022 the cost of fuel to operate equipment essential to our operation increased over 200% (See Palmdale Oil Company invoices attached.)

Additionally, rising fuel costs have seen material prices spike industry wide. (See material supplier notices of price increases attached.)

Finally, rising fuel prices have caused hauling rates to increase dramatically, thus impacting the cost of delivering products to our customers. (See notices of hauling rate increases attached.)

Therefore, as a direct result of the adverse effect that the unprecedented spike in fuel costs has had on all levels of our business operation, and pursuant to the applicable provisions of the bid document, we are requesting a price increase of \$4.05/ton, effective immediately.

We greatly appreciate the long standing business relationship which we have had with the City of Margate and look forward to continuing to serve the needs of the City under our Bid Agreement.

Very truly yours,

FLORIDA SUPERIOR SAND, INC.

Marion A. Jefferson  
Secretary/Treasurer

Valued Customers,

We hope this email finds you well. We are currently finding ourselves again receiving price increases from our vendors. We have received increases from Plastic Components, Garcia Mining, Prime Source, Clark Dietrich, Lanco & Flamco. Material prices and availability are still volatile and will be increasing an average of 10% above the current price. Unfortunately, this notice comes without the proper notification, as we are pushing them out as soon as we receive them. The price of fuel has also drastically increased, directly impacting our operating cost. Due to that, we will no longer be able to offer flat rate deliveries for the Stucco and Mason sand. We will be zoning out the South Florida market, each zone will be priced accordingly.

Our cost has already increased but we will maintain our pricing for the remainder of the week. This price structure will go into effect on Monday March 7th. We encourage you to verify pricing prior to placing any orders, feel free to contact us if you have any questions.

As far as Aggregates, Fills and Cement products such as Concrete Mix, Portland and Stucco Cement, they are not increasing at this time but the quarries have already been advising us of an increase in the months of June or July.

We will be contacting customers that have flat rate plant hauls and implementing rates with fuel surcharges.

ASR Materials

**Dear Valued Customers,**

We would like to thank you for being a loyal customer to ASR Materials as your preferred source for your construction material needs. 2021 has come with a lot of surprises and we expect that trend to continue throughout 2022. We appreciate your business, and our commit to you is to continue to find and source cost effective materials of the highest quality.

In recent weeks, we have been receiving price increase letters for all of our vendors effective January 2022. Although we are still negotiating 2022 pricing, we are expecting an increase and based on the current price announcements that we have received you can expect the following increases.

- All Coarse, Fine Aggregates & Silica will Increase \$2.50 per ton
- All Fills and Base Materials will increase \$1.50 per ton
- Bagged Masonry / Portland Products will increase 8 %
- Plastics (Stucco) 10 %
- Bonding agents and adhesives 10%
- Metal Lath's 10 %

We will continue to negotiate with our vendors and we expect to finalize the price increase mid December.
