#### Key Features

- 3 Position Voltage Selection Switch (240V 1 Phase, 208V 3 Phase, 480V 3 Phase)
- Cam-Lock Connections
- Twist Lock Distribution Panel
- Non-Proprietary Controller
- DOT Approved Trailer
- Sound Attenuated Enclosure

## ENERMAX SERIES

TecnoGen's Enermax Series generator is built for reliability and is ideal for continuous heavy duty applications.

This series ranges in size from 25 kW to 1000kW and is equipped with market leading engines - Volvo, FPT, Kohler. Standard features include Deep Sea controller, camlocks, block heater, battery charger and external fuel connect.

HEIGHT (in.)	79

TecnoGen's 130kVA generator uses the FPT engine coupled to an industry standard Leroy Somer alternator producing 102kW of prime power. Standard features include camlocks, block heater and battery charger. The Deep Sea controller makes retrieving vital stats like fuel levels, run time and start logs easy and the sealed doors and 2" thick insulation throughout gives this gen a 70 dBA rating.

The internal fuel capacity is 130 gallons allowing for a run time of up to 24 hours @ 75% load. The convenient external fuel hook-up allows for quick connect to an additional fuel cell if needed. The TecnoGen Enermax series is built for reliability and is ideal for continuous heavy-duty applications. Available on trailer or skid mounted.
