OCULUS PRODUCT SOLE SOURCE LETTER

May 5, 2022

Margate PD, FL

I am pleased to provide your department with the following sole source letter for the ACT MONKB-1. Advanced Covert Technology, Inc. is a sole provider and marketer of the Oculus product in the state of Florida. Oculus is a state of the art recording system that was developed with the help of Undercover Officers to fit all of their needs in an Advanced Digital Video Recorder. Some of these advanced features are unmatched in the industry are the low light capability of the cameras. The black and white Oculus Camera has a .003 lux rating in our 10x10mm camera. It also has an auto iris which allows more light into the camera in lower light conditions. In direct sun light it closes that iris which allows you to get great video with no washout in the worse direct lighting conditions. The Oculus offers the capability of a dual camera system with a fully programmable audio transmitter. The Oculus is the only on the body camera system that has this capability. Another great feature of the Oculus is the Kevlar coated cords. All of our camera leads are coated in Kevlar which allows for the lead to still be very flexible, but extremely durable at the same time. The Oculus has an informant mode where if you turn the Oculus on it cannot be turned off by the person using the Oculus. The only way to turn off the Oculus, in this mode, is for the officer to plug the Oculus into a computer or do a master power reset. The new Oculus has a state of the art system which allows you to conceal your camera behind a t-shirt. This is done using our Snap on Concealments (ACT SOC). The hole for the snap on concealments only has to be 1/32 of an inch. This is also unmatched in the industry because any other camera with a hole this small would cause a halo effect (silhouetting). This allows for perfect video in more covert situations. The NXTGEN is the newest technology in the undercover industry unmatched by its competitors with the ability to stream a double camera view live anywhere in the world. The size of the NXTGEN is the smallest in the industry. Its dimensions of 2" x 1.1" x 3" with internal Wi-Fi is unmatched. These are some of the features which make the Oculus sole source, there are other unique features which make it the most popular DVR on the market.

Please give Ryan Mitchell a call at (706) 414-7152 if you have any questions on this sole source letter or about the equipment.

Sincerely,

Ryan Mitchell
Advanced Covert Technology

To Whom It May Concern:

AGM Electronics is the Sole Source manufacturer for the AGM Products.

Not only is this equipment manufactured in the United States and carries a 7 year factory warranty, but AGM's Signal Conditioning design considerations include:

System Noise and Interference:

Wide dead band to rectify equipment operation causing system "bumps". Time delay to rectify pneumatic or hydraulic reverberation. Response time to rectify ambient noise and erratic sensor signals.

Condensation and Humidity: Circuitry is potted in high vacuum, degassed, chemically inert RTV rubber that precludes chemical and bacterial degeneration causing circuit failure.

Ground Loops: Optical isolation of module I/O/Power to virtually eliminate ground loop problems.

Loss of Signal: Automatic switching in all devices to accommodate lost of live-zero inputs signals.

Frequency Data:

Digital filters for narrow frequency band signals in an electrically noisy environment. Requirements:

The AGM Lab calibrates extremely narrow analog spans with high offsets at no charge. Calibration standards are traceable to the National Institute of Standards and Technology.

If you need further assistance, please let us know.

AGM offers a complete line of monitoring, control, telemetry and interface products; all with the 7-Year warranty.

Re: Rockwell Automation Authorized Allen-Bradley Distributors

Rockwell Automation extends and enhances its own significant automation capabilities by partnering with a network of authorized distributors. Some of the many benefits that customers enjoy working with their local authorized Allen-Bradley distributor include:

- Access to local distributor inventory (including spares and replacement parts)
- Technical assistance from local distributor product specialists
- A knowledgeable staff that has access to factory training
- Rockwell Automation support of local distributor activities

REXEL USA INC – Fort Lauderdale, FL is the only distributor authorized by Rockwell Automation to sell **Allen-Bradley** and **Rockwell Software** products, along with related services; including technical support contracts as well as training, in the geographic area in which your facility is located. As a matter of Company policy, Rockwell Automation only provides product and sales support to the local authorized distributor, and it is our practice and policy to always promote and recommend that customers buy from their local authorized Allen-Bradley / Rockwell Automation distributor. Rockwell Automation discourages purchasing from non-authorized sources, including distributors who may hold an Allen-Bradley appointment in another area.

If you purchase Allen-Bradley / Rockwell Automation products from an unauthorized source, you may not receive the latest version. The latest version of Allen-Bradley products, along with related factory product services, only is available through your local authorized Allen-Bradley / Rockwell Automation distributor.

Also, products that are not purchased directly from Rockwell Automation or its local authorized distributor may not be covered by a manufacturer's warranty. Rockwell Automation's standard

expanding human possibility

www.rockwellautomation.com

manufacturer's warranty covers new Allen-Bradley products for a period of one year from the date of Rockwell Automation's or its authorized Allen-Bradley distributor's invoice to the customer.

As a result, there is no assurance that products sourced from unauthorized parties will carry a valid and unexpired manufacturer's warranty. Customers purchasing products from unauthorized sources should not assume that they will receive any rights under any Rockwell Automation factory warranty. Only an authorized Allen-Bradley distributor may offer access to factory warranty coverage on Allen-Bradley products.

We recognize that price can be an important consideration in any purchasing decision; however, it also is important that customers understand what they are getting for that price (or in the case of purchases from an unauthorized source, what they are not getting). Rockwell Automation firmly believes that the best customer value in the long-run is achieved by dealing with the local authorized Allen-Bradley distributor.

Should you have any further questions, please do not hesitate to contact **REXEL** at 954.389.2253 or your local Rockwell Automation sales office at 813.466.6400.

Respectfully,

ARI-HETRA Sole Source Letter

March 10, 2022

Kimberly Smiley, CPPB
Purchasing Specialist
City of Margate
Purchasing Department
5790 Margate Boulevard
Margate, FL 33063

Ms. Smiley,

Please be advised that ARI Phoenix, Inc (d/b/a ARI-Hetra) is the direct manufacturer of ARI-Hetra Mobile Column Lifting Systems and accessories. **We are the only factory authorized company to offer service, preventative maintenance, safety inspections, and factory authorized replacement parts on ARI-Hetra Mobile Column Lifting Systems.** For over 30 years, ARI-Hetra has been the premium Heavy-Duty brand of maintenance equipment and leads in safety, reliability, durability and service.

The ARI-Hetra Mobile Column Lifting Systems are manufactured in the United States of America in Pinckard, AL. These systems have been safety certified by the Automotive Lift Institute (ALI), and by Met Laboratories. While other Mobile Lift Systems use Hydraulic drives, we offer the most advanced Ball-Screw Technology with a certified ARI-Hetra mobile, heavy-duty wheel engaging lift system that will improve the efficiency and safety of automotive maintenance:

- Precision Ball Screw Lifting Mechanism, with a simple mechanical drive
- Ball screw technology has a longer life than ACME thread
- There is no possibility of leaking seals like hydraulics used in other Mobile Lift Systems
- There are over 100 ball bearings sealed with grease fitting to ensure low friction
- Natural and redundant column synchronization
- Precision Height Adjustment (inching)
- Lifetime performance

REQUIREMENT SERVICE DESCRIPTION:

- Preventative Maintenance on existing ARI-Hetra Mobile Column Lift Systems which must be completed by a certified ARI-Hetra technician.
- Preferred service provider is ARI Phoenix, Inc (d/b/a ARI-Hetra).

Please let me know if you have any questions.

Thank you,

Dale

RE: Sole Source Provider Justification for ArmorerLink Firearm Management System

Dear Ms. Smiley:

With respect to Sole Source Provider (SSP) criteria, ArmorerLink Firearm Management System (ALFMS) meets the requirements of SSP for the following reasons:

- ArmorerLink is the sole developer and global provider of ALFMS to local, state, federal and military law enforcement agencies.
- ALFMS is a patent pending system filed with the United States Patent and Trademark Office on February 1, 2018, filing number: 62/625136.
- ALFMS is a unique system of innovative approach and methodology for an integrated law enforcement firearm tracking, training and maintenance system.
- ALFMS exclusive and predominant one-of-a-kind capabilities provides superior utility not obtainable from similar products.

Thank you,

Joe D. Ganete
Chief Executive Officer

www.as-h.com

All parts are provided and many exclusively manufactured by Alfa Laval, Inc. the Original Equipment Manufacturer of your equipment. Whereby Alfa Laval purchased Ashbrook Simon-Hartley Operations L.P. and Ashbrook Simon-Hartley is now doing business as Alfa Laval, Alfa Laval from henceforth is the Original Equipment Manufacturer of the Klampress®, Winklepress®, and Aquabelt®. Thus, we are the sole source provider for O.E.M. replacement parts.

Alfa Laval, Inc. continues to develop and bring technology to our industry. Due to the sensitive nature of Alfa Laval, Inc. technology our equipment and most replacement parts are either proprietary or patented, as each is designed specifically for your equipment, the application, and expected use; therefore, others cannot legally manufacture our equipment or offer Alfa Laval, Inc. replacement parts.

Constant investment in research and development, a commitment to quality, and improving our new equipment and our equipment currently in operation around the world, allows Alfa Laval, Inc. to bring the latest developments in technology to our industry and clients. This includes patented or proprietary items such as chicanes, wedge adjustments, cylinders, hydraulic systems, bearing housings, rollers, steering and tension systems, and so on. An illustration of this commitment is our quality assurance program; Alfa Laval, Inc. is the only manufacturer within our specific industry which is certified to ISO 9001 quality standards.

Thank you for requesting this information and the opportunity to fully explain our commitment. If you have any questions, I can be reached 1-800-547-7273 or direct line 281-985-4404.

Re: **Sole Source Letter for Axon Enterprise, Inc.'s TASER Energy Weapons, Axon brand products, and Axon Evidence (Evidence.com) Data Management Solutions**

A sole source justification exists because the following goods and services required to satisfy the agency's needs are only manufactured and available for purchase from Axon Enterprise. Axon is also the sole distributor and retailer of all TASER brand products for the agency identified in this letter.

TASER Energy Weapon Descriptions

TASER 7 Energy Weapon

- Multiple-shot energy weapon
- High-efficiency flashlight
- Close Quarter and Standoff cartridges
- Green LASER and dual red LASERs that adjust for cartridge angle
- Arc switch enables drive-stun with or without a TASER 7 Cartridge installed
- Central Information Display (CID): Displays mission critical data such as remaining battery energy, burst time, and cartridge status.
- Weapon logs
- TASER 7 Dock connected to Axon Evidence (Evidence.com) services
- Onboard self-diagnostic and system status monitoring and reporting
- Real-time clock updated when the battery pack is plugged into the TASER 7 Dock
- Ambidextrous safety switch
- Can be configured by the agency to alert Axon camera systems
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (unless configured by the agency to stop at five seconds). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position.
- Compatible with TASER 7 Cartridges only

TASER 7 CQ Energy Weapon

- Multiple-shot energy weapon for agencies that deploy energy weapons mostly at close quarters (CQ)
- High-efficiency flashlight
- Close Quarter cartridges
- Arc switch enables drive-stun with or without a TASER 7 Cartridge installed
- Central Information Display (CID): Displays mission critical data such as remaining battery energy, burst time, and cartridge status.
- Weapon logs
- TASER 7 Dock connected to Axon Evidence (Evidence.com) services

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- Onboard self-diagnostic and system status monitoring and reporting
- Real-time clock updated when the battery pack is plugged into the TASER 7 Dock
- Ambidextrous safety switch
- Can be configured by the agency to alert Axon camera systems
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (unless configured by the agency to stop at five seconds). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position.
- Compatible with 12-degree TASER 7 Cartridges only

X2 Energy Weapon

- Multiple-shot energy weapon
- High efficiency flashlight
- Static dual LASERs (used for target acquisition)
- ARC switch enables drive-stun with or without a Smart Cartridge installed
- Central Information Display (CID): Displays mission-critical data such as remaining battery energy, burst time, operating mode, and user menu to change settings and view data on a yellow-on-black display
- The Trilogy log system records information from a variety of sensors into three data logs: Event log, Pulse log, and Engineering log. Data can be downloaded using a universal serial bus (USB) data interface module connected to a personal computer (PC). Data may be transferred to Evidence.com services.
- Real-time clock with back-up battery
- Onboard self-diagnostic and system status monitoring and reporting
- Ambidextrous safety switch
- Capable of audio/video recording with optional TASER CAM HD recorder
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (except when used with an APPM or TASER CAM HD AS). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position
- Compatible with TASER Smart Cartridges only

X26P Energy Weapon

- High efficiency flashlight
- Red LASER (used for target acquisition)
- Central Information Display (CID): Displays data such as calculated remaining energy, burst time, and notifications
- The Trilogy log system records information from a variety of sensors into three data logs: Event log, Pulse log, and Engineering log. Data can be downloaded using a universal serial bus (USB) data interface module connected to a personal computer (PC). Data may be transferred to Evidence.com services.
- Real-time clock with back-up battery
- Onboard self-diagnostic and system status monitoring and reporting
- Ambidextrous safety switch
- Capable of audio/video recording with optional TASER CAM HD recorder
- The trigger activates a single cycle (approximately five seconds). Holding the trigger down will continue the discharge beyond the standard cycle (except when used with

SCOTTSDALE, ARIZONA 85255

AXON.COM

an APPM or TASER CAM HD AS). The energy weapon cycle can be stopped by placing the safety switch in the down (SAFE) position.

- Compatible with TASER standard series cartridges

Axon Signal Performance Power Magazine (SPPM)

- Battery pack for the X2 and X26P conducted energy weapons
- Shifting the safety switch from the down (SAFE) to the up (ARMED) positions sends a signal from the SPPM. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode. Axon Signal technology only works with Axon cameras.

TASER Brand Energy Weapon Model Numbers

1. Energy Weapons:
 - TASER 7 Models: 20008, 20009, 20010, and 20011
 - TASER 7 CQ Models 20213, 20214
 - TASER X2 Models: 22002 and 22003
 - TASER X26P Models: 11002 and 11003
2. Optional Extended Warranties for Energy Weapons:
 - TASER 7 – 4-year extended warranty, item number 20040
 - X2 – 4-year extended warranty, item number 22014
 - X26P – 2-year extended warranty, item number 11008
 - X26P – 4-year extended warranty, item number 11004
3. TASER 7 Cartridges (compatible with the TASER 7; required for this Energy Weapon to function in the probe deployment mode)
 - Standoff cartridge, 3.5 degrees, Model 20012
 - Close Quarter cartridge, 12 degrees, Model 20013
4. TASER standard cartridges (compatible with the X26P; required for this Energy Weapon to function in the probe deployment mode):
 - 15-foot Model: 22188
 - 21-foot Model: 22189
 - 21-foot non-conductive Model: 44205
 - 25-foot Model: 22190
5. TASER Smart cartridges (compatible with the X2; required for this Energy Weapon to function in the probe deployment mode):
 - 15-foot Model: 22184
 - 25-foot Model: 22185
 - 25-foot inert simulation Model: 22155
 - 25-foot non-conductive Model: 22157
6. TASER CAM HD recorder Model: 26810 (full HD video and audio) and TASER CAM HD with AS (automatic shut-down feature) Model: 26820. The TASER CAM HD is compatible with both the X26P and X2 energy weapons.
 - TASER CAM HD replacement battery Model: 26764
 - TASER CAM HD Download Kit Model: 26762

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- TASER CAM HD optional 4-year extended warranty, item number 26763
- 7. Power Modules (Battery Packs) for TASER 7 Energy Weapons:
 - Tactical battery pack Model 22018
 - Compact battery pack Model 22019
 - Non-Rechargeable battery pack Model 22020
 - Disconnect battery pack Model 20027
- 8. Battery Packs for X26P and X2 Energy Weapons:
 - Performance Power Magazine (PPM) Model: 22010
 - Tactical Performance Power Magazine (TPPM) Model: 22012
 - Automatic Shut-Down Performance Power Magazine (APPM) Model: 22011
 - eXtended Performance Power Magazine (XPPM) Model: 11010
 - eXtended Automatic Shut-Down Performance Power Magazine (XAPPM) Model: 11015
 - Axon Signal Performance Power Magazine (SPPM) Model: 70116
- 9. TASER 7 Dock:
 - TASER 7 Dock Core and Multi-bay Module: 74200
- 10. TASER Dataport Download Kits:
 - Dataport Download Kit for the X2 and X26P Model: 22013
- 11. TASER Blast Door Repair Kit Model 44019 and TASER Blast Door Replenishment Kit Model 44023
- 12. Energy Weapon Holsters:
 - Right-hand TASER 7 holster by Safariland Model: 20063
 - Left-hand TASER 7 holster by Safariland Model: 20068
 - Right-hand TASER 7 holster with cartridge carrier by Safariland Model: 20160
 - Left-hand TASER 7 holster by with cartridge carrier by Safariland Model: 20161
 - Right-hand X2 holster by BLACKHAWK Model: 22501
 - Left-hand X2 holster by BLACKHAWK Model: 22504
 - Right-hand X26P holster by BLACKHAWK Model: 11501
 - Left-hand X26P holster by BLACKHAWK Model: 11504
- 13. TASER Simulation Suit II Model 44550
- 14. TASER 7 conductive target Model: 80087
- 15. Blue X26P Demonstrator/LASER Pointer Model: 11023

Axon Digital Evidence Solution Description

Axon Body 3 Video Camera (DVR)

- Improved video quality with reduced motion blur and better low-light performance
- Multi-mic audio—four built-in microphones
- Wireless upload option
- Gunshot detection and alerts

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- Streaming audio and video capability
- “Find my camera” feature
- Verbal transcription with Axon Records (coming soon)
- End-to-end encryption
- Twelve-hour battery
- Up to 120-second buffering period to record footage before pressing record button

Axon Flex 2 Video Camera

- Video playback on mobile devices in the field via Bluetooth pairing
- Retina Low Light capability sensitive to less than 0.1 lux
- Audio tones to alert user of usage
- Low SD, high SD, low HD, and high HD resolution (customizable by the agency)
- Up to 120-second buffering period to record footage before pressing record button
- Multiple mounting options using magnetic attachment: head, collar, shoulder, helmet, ball cap, car dash, and Oakley sunglass mounts available
- 120-degree diagonal field of view camera lens, 102-degree horizontal field of view, and 55-degree vertical field of view

Axon Flex 2 Controller

- 12+ hours of battery operation per shift (even in recording mode)
- LED lights to show current battery level and operating mode
- Haptic notification available
- Tactical beveled button design for use in pocket
- Compatible with Axon Signal technology

Axon Air System

- Purpose-built solution for law enforcement UAV programs
- Supported applications on iOS and Android
- Automated tracking of pilot, aircraft, and flight logs
- Unlimited Storage of UAV data in Axon Evidence (Evidence.com)
- In application ingestion of data in Axon Evidence (Evidence.com)
- Axon Aware integration for live streaming and situational awareness

Axon Body 2 Video Camera

- Video playback on mobile devices in the field via Bluetooth pairing
- Retina Low Light capability sensitive to less than 1 lux
- Audio tones and haptic (vibration) notification to alert user of usage
- Audio mute during event option
- Wi-Fi capability
- High, medium, and low quality recording available (customizable by the agency)
- Up to 2-minute buffering period to record footage before pressing record button
- Multiple mounting options using holster attachment: shirt, vest, belt, and dash mounts available
- 12+ hours of battery operation per shift (even in recording mode)
- LED lights to show current battery level and operating mode
- 143-degree lens
- Includes Axon Signal technology

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

Axon Fleet 2 Camera

- Fully integrated with Axon Evidence services and Axon devices
- Automatic time synchronization with other Axon Fleet and Axon on-officer cameras allows for multi-camera playback on Axon Evidence.
- Immediate upload to Axon Evidence of critical event videos via 4G/LTE
- Wireless alerts from the TASER energy weapon Signal Performance Power Magazine (SPPM).
- Automatic transition from BUFFERING to EVENT mode in an emergency vehicle equipped with the Axon Signal Unit
- Decentralized system architecture without a central digital video recorder (DVR).
- Cameras that function independently and communicate wirelessly with the computer in the vehicle (MDT, MDC, MDU) for reviewing, tagging and uploading video.
- Wireless record alert based on Bluetooth communication from Axon Signal Vehicle when a configured input is enabled (e.g. emergency light, siren, weapon rack, etc.).
- Receives alerts from Axon Signal Sidearm.
- Plug-And-Play design allowing for cameras to be easily replaced and upgraded.
- Ability for an unlimited number of agency vehicles recording in the same vicinity with an Axon Fleet system to be automatically associated with one another when reviewing video in the video management platform. This feature is also supported across body cameras.

Axon Signal Unit (ASU)

- Communications device that can be installed in emergency vehicles.
- With emergency vehicle light bar activation, or other activation triggers, the Axon Signal Unit sends a signal. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode.

Axon Signal Performance Power Magazine (SPPM)

- Battery pack for the TASER X2 and X26P conducted electrical weapons
- Shifting the safety switch from the down (SAFE) to the up (ARMED) positions sends a signal from the SPPM. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode. Axon Signal technology only works with Axon cameras.

Axon Signal Sidearm Sensor

- Can be installed on common duty holsters
- Drawing a service handgun from the holster sends a signal from the Axon Signal Sidearm sensor. Upon processing the signal, an Axon system equipped with Axon Signal technology transitions from the BUFFERING to EVENT mode.

Axon Interview Solution

- High-definition cameras and microphones for interview rooms
- Covert or overt camera installations
- Touch-screen user interface
- Motion-based activation
- Up to 7-minute pre- and post-event buffering period
- Full hardware and software integration
- Upload to Axon Evidence services
- Interview room files can be managed under the same case umbrella as files from

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

Axon on-officer cameras and Axon Fleet cameras; i.e., Axon video of an arrest and interview room video are managed as part of the same case in Axon Evidence

- Dual integration of on-officer camera and interview room camera with Axon Evidence digital evidence solution

Axon Signal Technology

- Sends a broadcast of status that compatible devices recognize when certain status changes are detected
- Only compatible with TASER and Axon products

Axon Dock

- Automated docking station uploads to Axon Evidence services through Internet connection
- No computer necessary for secure upload to Axon Evidence
- Charges and uploads simultaneously
- The Axon Dock is tested and certified by TUV Rheinland to be in compliance with UL 60950-1: 2007 R10.14 and CAN/ CSA-C22.2 NO.60950-I-07+A1:2011+A2:2014 Information Technology Equipment safety standards.

Axon Evidence Data Management System

- Software as a Service (SaaS) delivery model that allows agencies to manage and share digital evidence without local storage infrastructure or software needed
- SaaS model reduces security and administration by local IT staff: no local installation required
- Automatic, timely security upgrades and enhancements deployed to application without the need for any local IT staff involvement
- Securely share digital evidence with other agencies or prosecutors without creating copies or requiring the data to leave your agency's domain of control
- Controlled access to evidence based on pre-defined roles and permissions and pre-defined individuals
- Password authentication includes customizable security parameters: customizable password complexity, IP-based access restrictions, and multi-factor authentication support
- Automated category-based evidence retention policies assists with efficient database management
- Ability to recover deleted evidence within seven days of deletion
- Stores and supports all major digital file types: .mpeg, .doc, .pdf, .jpeg, etc.
- Requires NO proprietary file formats
- Ability to upload files directly from the computer to Axon Evidence via an Internet browser
- Data Security: Robust Transport Layer Security (TLS) implementation for data in transit and 256-bit AES encryption for data in storage
- Security Testing: Independent security firms perform in-depth security and penetration testing
- Reliability: Fault- and disaster-tolerant infrastructure in at least 4 redundant data centers in both the East and West regions of the United States
- Chain-of-Custody: Audit logs automatically track all system and user activity. These logs cannot be edited or deleted, even by account administrators and IT staff
- Protection: With no on-site application, critical evidence stored in Axon Evidence is

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- protected from local malware that may penetrate agency infrastructure
- **Stability:** Axon Enterprise is a publicly traded company with stable finances and funding, reducing concerns of loss of application support or commercial viability
- Application and data protected by a CJIS and ISO 27001 compliant information security program
- Dedicated information security department that protects Axon Evidence and data with security monitoring, centralized event log analysis and correlation, advanced threat and intrusion protection, and incident response capabilities
- Redact videos easily within the system, create tags, markers and clips, search 7 fields in addition to 5 category-based fields, create cases for multiple evidence files

Axon Evidence for Prosecutors

- All the benefits of the standard Axon Evidence services
- Ability to share information during the discovery process
- Standard licenses available for free to prosecutors working with agencies already using Axon Evidence services
- Unlimited storage for data collected by Axon cameras and Axon Capture

Axon Capture Application

- Free app for iOS and Android mobile devices
- Allows users to capture videos, audio recordings, and photos and upload these files to their Axon Evidence account from the field
- Allows adding metadata to these files, such as: Category, Title, Case ID, and GPS data

Axon Commander Services

- On-premises data management platform
- Chain of custody reports with extensive audit trail
- Automated workflows, access control, storage, and retention
- Compatible with multiple file formats

Axon View Application

- Free app for iOS and Android mobile devices
- Allows user to view the camera feed from a paired Axon Body, Axon Body 2, Axon Flex, or Axon Flex 2 camera in real-time
- Allows for playback of videos stored on a paired Axon Body, Axon Body 2, Axon Flex, or Axon Flex 2 system
- Allows adding meta-data to videos, such as: Category, Title, Case ID, and GPS data

Axon Records

- Continuously improving automated report writing by leveraging AI and ML on officer recorded video, photo, and audio from BWC, In-Car, Mobile App (Axon Capture), or other digital media
- Collaborative report writing through instantly synced workspaces allowing officers to delegate information gathering on scene
- Instant access to records allowing detectives to begin their investigation and records clerks to update information exchanges on things like missing people or stolen property as soon as possible
- Complete leveraging of Axon Evidence sharing to allow fast, efficient, digital, and

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

- secure sharing of records and cases to DAs and Prosecutors
- Robust API and SDK allows data to be easily ingested and pushed out to other systems—preventing data silos
- Deep integration with Axon Evidence putting video at the heart of the record and automating the process of tagging and categorizing digital evidence stored in Axon Evidence
- Automatic association of digital evidence to the record and incident through Axon Evidence integration
- In context search of master indexes (people, vehicles, locations, charges)—promoting efficient report writing through prefilling of existing data which promotes clean and deduped data in the system
- Quick views for users to track calls for service and reports in draft, ready for review, kicked back for further information, or submitted to Records for archiving.
- Federal and State IBRS fields are captured and validated—ensuring the officer knows what fields to fill and what information needs to be captured
- Intuitive validation ensures officers know what information to submit without being burdened by understanding the mapping of NIBRS to state or local crime codes
- Ability to create custom forms and add custom fields to incident reports—allowing your agency to gather the information you find valuable
- Software as a Service (SaaS) delivery model that allows agencies to write, manage, and share digital incident reports without local storage infrastructure or software needed
- SaaS model reduces security and administration by local IT staff: no local installation required
- Automatic, timely security upgrades and enhancements deployed to application without the need for any local IT staff involvement
- Securely share records and cases with other agencies or prosecutors without creating copies or requiring the data to leave your agency's domain of control
- Controlled access based on pre-defined users, groups, and permissions
- Password authentication includes customizable security parameters: customizable password complexity, IP-based access restrictions, and multi-factor authentication support
- Security Testing: Independent security firms perform in-depth security and penetration testing
- Reliability: Fault- and disaster-tolerant infrastructure in at least 4 redundant data centers in both the East and West regions of the United States
- Chain-of-Custody: Audit logs automatically track all system and user activity. These logs cannot be edited or deleted, even by account administrators and IT staff

Axon Standards

- Internal affairs and professional standards reporting
- Customizable information display, including custom forms
- Customizable workflows and user groups
- Automated alerts
- Compatible with digital documents, photos, and videos
- Connection with Transcription (beta)
- Shared Index with evidence.com and Records
- Data Warehouse allowing custom summary reports and integration into 3rd party

17800 N 85TH STREET
SCOTTSDALE, ARIZONA 85255

AXON.COM

analytic tools.

- Workflow analytics to provide SLA on throughputs
- Integration with the TASER 7 energy weapon for automatically pulling firing logs (alpha)
- Available as an option for Axon Records
- Automatically bundled with Officer Safety Plan 7+

Axon Professional Services

- Dedicated implementation team
- Project management and deployment best practices aid
- Training and train-the-trainer sessions
- Integration services with other systems

Axon Support Engineer:

- Dedicated Axon Regional/Resident Support Engineer Services
- Quarterly onsite visits
- Solution and Process Guidance custom to your agency
- White-Glove RMA and TAP (if applicable) Service for devices
- Monthly Product Usage Analysis
- Resident Support Engineer also includes onsite product maintenance, troubleshooting, and beta testing assistance

Axon Customer Support

- Online and email-based support available 24/7
- Human phone-based support available Monday–Friday 7:00 AM–5:00 PM MST; support is located in Scottsdale, AZ, USA
- Library of webinars available 24/7
- Remote-location troubleshooting

Margate, FL 33063

RE: Sole Source Letter

Dear Ms. Reczko,

Harold Beck and Sons, Inc. is a privately owned company that has manufactured high quality Beck electric actuators since 1936. Beck has established a reputation for precise control and reliability in the most demanding modulating industrial applications. Our company manufactures a very rugged and reliable actuator for valves and dampers. Beck drives are used extensively in both municipal and industrial WWTP facilities because our equipment is designed to be simple, user-friendly and very reliable.

Rather than utilize a network of representatives and distributors, Beck offers factory-direct sales and support. Our factory is the sole representative and distributor of Beck drives in the United States. Unique to the industry, this approach ensures that product quality is rigorously maintained and sales/support personnel are knowledgeable and informed. Instead of relying on advertising and representative companies, Beck Sales Engineers call directly on end-users to perform application review and provide expert advice.

Please contact us with any questions. I am available at your convenience to discuss Beck drives in greater detail.

Sincerely,

Dave Sylvanus

Margate, FL 33063

Dear Kimberly,

We at Bowie International, LLC are the sole manufacturer and supplier of the Custom Fiberglass Coaches PRO 6WS7 animal control unit. We are the only manufacturer of a fiberglass animal control unit that is constructed of a molded one-piece fiberglass body for the exterior shell. We are also the sole provider of the Ultimate Safety Door with aluminum adjustable louvers that can be opened and closed.

We have been selling animal control units in the state of Florida and nationwide since 1969 with continued product design improvements and outstanding quality. We meet the needs of animal control officers all over the United States and continue to be a leader in the animal services industry.

BREACHING TECHNOLOGIES, INC.

SOLE SOURCE LETTER and PATENT RESTRICTION

Breaching Technologies, Inc. is the holder of patents on ram, pry and explosive doors (Patent No. 6,877,988 B2). The patents were issued on April 12, 2005 and will expire on April 12, 2025. An additional patent was issued on March 6, 2012 for the shotgun doors (patent No. US 8,128,408). There are no other comparable products available that provide real-life training that would not be in violation of Breaching Technologies, Inc. patents. Each door has a patented socket and pin system that represents one to three lock combinations on a door. BTI patents prohibit the manufacturing of any other locking system, device or mechanism simulating the actual malfunction or destruction of a lock on a wood or metal frame door.

RE: Authorized Cat Dealer

Dear City of Margate:

Pantropic Power Products Inc, with its primary offices at 8205 NW 58th St, Miami, FL 33166 ("Dealer"), is an authorized independent dealer of various models of Cat® branded machines, equipment, engines, oils and spare parts ("Cat® products"). As an authorized Cat dealer, Dealer provides prompt, competent services for Cat® products in the following counties in the state of Florida: Indian River, Okeechobee, Glades, Charlotte, Lee, Hendry, Collier, Monroe, Dade, Broward, Palm Beach, Martin, and St. Lucie (the "Service Territory"). Dealer is the only Cat dealer with approved business locations in the Service Territory, however, Cat dealers may sell or service Cat® Products outside their respective Service Territory.

In the event Dealer ceases to be an authorized Cat dealer, support for Equipment will be available from either a newly appointed dealer or another Cat dealer in Caterpillar's dealer network.

If you have any questions concerning Caterpillar or Cat dealers, or require additional information, please contact me at the number below.

(800) 327-7791

Dear Kimberly Smiley,

CUES is the sole source of genuine CUES Replacement Parts and Service. The following details will outline the many benefits of why to choose CUES as your sole provider.

Sole Source/OEM Justification:

- CUES is the sole manufacturer of the K2 Summit and Granite Net video/footage capture systems. CUES offers an in-house software support team for these systems. Other products on the market are 3rd party add-on programs that CUES in-house support team is unable to support.
- Our Cameras, Transporters, and Lamp II systems are solely manufactured by CUES. We are the sole manufacturer and supplier of these OEM (*Original Equipment Manufacturer*) products, and for the parts used in CUES pipeline inspection and rehabilitation equipment.
- We strongly recommend the use of genuine CUES Parts and Service due to potential compatibility problems. We have recorded instances where Non-OEM parts resulted in major damage to the electronic and other systems. The use of Non-OEM parts could void CUES warranty and CUES lifetime loaner policy.
- CUES maintains millions of dollars in inventory that eliminates the need to have an extensive parts inventory on-site. Our Manufacturing factory, Customer Support Center and Main Stockroom is located in Orlando FL. We also have additional customer support locations throughout the US and Canada to fulfill any Parts or Service needs.

100% Full Circle Compatibility Note:

Current CUES equipment is 100% compatible with CUES existing TV equipment without modifications. This allows older equipment to operate on newer TV systems and newer equipment to operate on older TV systems giving you full circle compatibility. Other manufacturers may have components (i.e. Cameras, etc.) that can be modified to operate on existing CUES systems, however this may require special one of a kind cables and/or modifications to the internal electronics of the camera, etc. Any modification to the system's electronics may void the CUES warranty and CUES lifetime loaner policy.

We appreciate your interest in Cues products. If you have any questions, please do not hesitate to contact me at 1-800-327-7791 extension:

Best Regards,
Abigail Burton

Excellence in Technology, Training and Service®
Sole Source Letter

Dear Customer,

Please be advised NITV Federal Service (NFS) is the Sole Source for the Computer Voice Stress Analyzer III (CVSA® III), the CVSA® II, the CVSA® as well as all manufacturer approved certification training programs related to any version of the CVSA®.

NFS is the exclusive manufacturer/distributor of the CVSA® III, CVSA® II, and CVSA® and has no US distributors. Both the CVSA® III and CVSA® II incorporate version-unique and specialized processes protected by two US Patents: US Patent Number 7,321,855 "*Method for Quantifying Psychological Stress Levels Using Voice Pattern Samples*," and US Patent Number 7,571,101 "*Quantifying Psychological Stress Levels Using Voice Patterns*."

NFS is the only Voice Stress Analysis (VSA) manufacturer holding patents for its VSA technologies. The FACT® scoring system is exclusively offered by NFS, and can precisely quantify stress in the human voice to evaluate CVSA® examination charts as Deceptive or Non-Deceptive with an accuracy level greater than 98%. Additionally, the CVSA® has been approved by the US Federal Court System, and is used by approximately 2,500 US and International Law Enforcement Agencies, as well as elements of the US Military and US Federal Agencies.

For more information please visit our website at www.cvsa1.com or contact us by calling (561) 798-6280

RE: TAC II SCADA System
Sole Source Status

Dear Ms. Smiley:

Please consider this document official confirmation that Data Flow Systems, Inc. (DFS), of Melbourne, Florida, is the sole source provider for the TAC II SCADA System and associated Remote Terminal Units (RTUs), Telemetry Control Units (TCUs), TAC Pack TCU RTUs, Hyper SCADA Servers (HSS), and DFS HTX SCADA Software as currently utilized by the City of Margate. DFS is also the sole source provider for all associated repairs, service and training.

DFS is responsible for the design, manufacture, and service of the entire TAC II SCADA System product line. There are no other manufacturers, dealers, distributors or service organizations that offer these products and associated services in the State of Florida. The TAC II SCADA System is Made in the USA.

Should you have any questions or require additional information, please contact me at 321-259-5009.

Sincerely,
Data Flow Systems, Inc.

Attn: Cecil Hall

Subject: Authorized Eaton Corporation - Direct Sales and Service Provider

Reference: Eaton Electrical Services & Systems 2022

Eaton Corporation purchased the Westinghouse Distribution and Control Business Unit (DCBU) in 1994. This acquisition included all manufacturing operations and technology used by Westinghouse to manufacture and sell electrical distribution and control products. As the current manufacturer of Westinghouse and Cutler-Hammer distribution equipment, the current design and manufacturing information, and all current revisions and modifications to products, are held by Eaton Corporation.

Eaton Corporation created a new division in late 1997, now called the Eaton Engineering Services and Systems Division, in order to directly provide field engineering and service.

Today, pursuant to the agreements regarding the acquisition of the DCBU from Westinghouse in 1994, the only companies which are permitted to manufacture and sell electrical distribution equipment with an Eaton, Cutler-Hammer or Westinghouse trademark is Eaton Corporation. Eaton Electrical Services and Systems is the only engineering group which is authorized by the manufacturer to work on Eaton, Cutler-Hammer and Westinghouse electrical distribution products.

Our EESS engineers are available 7 days a week and can be reached by calling our office or our 24-hour hot line at (800) 498-2678. Included with this letter is a copy of our EESS -Technical Support and Service Rates in effect at this time along with Selling Policy 25-000. We offer a one-year warranty on all services and parts. If you have any questions regarding this information or requests for services please contact Andrew Raposo on his cell @ 410-349-6629 or feel free to contact me directly at my office, 954-571-8282 Ext. 3016 or cell phone 954-914-3669.

Redlands, CA 92373

DATE: March 9, 2022

TO: City of Margate

FROM: Jackie Ricks, Esri Contract Coordinator/Contracts & Legal Department

RE: Esri Sole Source Justification for Geographic Information System Software

This letter confirms that Esri is the sole-source provider of Esri products and related maintenance services in the U.S. commercial, state, and local government marketplace, subject to the disclosures set forth below.

Esri has authorized certain resellers to resell sole source products, including Esri enterprise agreements, to state agencies of the State of California only under the California Software License Program (SLP). Esri distributes Esri software licenses and maintenance in combination with non-Esri hardware, software or services through open-market value-added resellers, system integrators and OEMs. Esri also distributes Esri software licenses, subscriptions, and subscription renewals separately or in combination with non-Esri software or services through resellers to customers that provide architectural, engineering, and construction services. On request, Esri will provide open-market quotes for Esri products and maintenance to pass-through customer-designated resellers.

Flexamat® maintains a patented manufacturing process that embeds a polypropylene geogrid within the 5000 psi concrete block packaged in rolls. The underlayment included with the rolled system is not a generic system. The underlayment is designed as a two layered system. The Leno Weave Fabric is recommended to help filter soils and add additional woven strength to the tied block during installation. The Curlex® blanket used is an excelsior wood fiber that is specific to provide a soil amendment that will bind the soil and hold moisture to allow for vegetation establishment. Motz Enterprises, Inc. sells Flexamat® through a sole source distributorship. For the State of Florida, R.H. Moore & Associates is the sole source distributor for Flexamat®.

Re: Flowserve Pump Company
Sales Channel Coverage
Water Resources Market

Dear Ms. Smiley:

Carter & Verplanck, a DXP Company is the sole and exclusive representative for Flowserve Pump Company (formerly Ingersoll Dresser Pump Company) products in the Water Resources market. These product lines include brand names such as Worthington, Pacific, Ingersoll-Rand, Byron Jackson, Durco, Wilson-Snyder, Ingersoll-Dresser Pumps, Scienco, Sier-Bath, Stork, and United, along with the sale of pumping units. This agreement also includes all After-Market sales such as parts, repairs, revamps, rebuilds, and service.

Please be advised that Flowserve Pump Company own all of the above named pump manufacturers, and have incorporated them under one name, Flowserve Pump Company.

The geographical areas of responsibility for Carter & Verplanck, a DXP Company, are the states of Georgia, Florida, and Tennessee.

Mr. Ken Walker is the principal of record at Carter & Verplanck.

Very truly yours,

A handwritten signature in black ink that reads "Sam Moore". The signature is written in a cursive, flowing style.

Dear Contract Officer,

FLYMOTION is the only company that produces the FM Ridgeback Communications Kit. This custom radio link is designed around the Spot UGV, and crucial to maintaining a secure connection during BVLOS operations in the field.

This solution allows for consistent communication between the Pilot and UGV, while beyond line of sight.

Due to the nature of the solution offered, the product listed above is being declared a sole-source item procurable solely from FLYMOTION.

Sincerely,

Chase Haley, Sales Lead
FLYMOTION

Subject: Sole Source Proposal

Dear Kimberly,

There are only two known ways to heat an emergency diesel generator, resistance block heaters, and GEO-THERMAL SYSTEMS® heat pumps.

This is to certify that GEO-THERMAL SYSTEMS®, INC. is the only company in the world that provides heat pumps for the heating of emergency diesel generators. As owners of the patent, we are the sole source for the patented GEO-THERMAL SYSTEMS® heat pumps.

Geo-Thermal Systems, Inc. is the owner of U.S. Patent No.: RE 33,051, which describes the system that utilizes recovery heat from a heat pump to provide heat to a diesel engine.

We look forward to continuing to contribute to the City of Margate's energy conservation efforts.

Sincerely,

GEO-THERMAL SYSTEMS®, INC.

Kimberly Smiley
City of Margate
5790 Margate Boulevard
Margate, FL 33063

Dear Ms. Smiley:

This letter is being sent in response to your request regarding the Opticom™ priority control system. Opticom is manufactured by Global Traffic Technologies, LLC (GTT). Since 1968, Opticom has been the standard in priority control, now totaling more than 3,100 customers, 70,000+ intersections and 70,000+ vehicles worldwide. Worth noting, GTT's Opticom system is used in 41 of the 50 largest U.S. cities, amongst many other deployments in Canada, Europe, Asia-Pacific and the Middle-East.

GTT invests heavily in research and development, to ensure its customers always receive the best value and most feature-rich solutions when buying priority control. This effort has led to more than 100 patents, either granted or in-process.

While the topic of a mixed system sometimes emerges, please note that GTT designs, develops and tests each Opticom component as part of a "matched component system." This means that "mixing" non-Opticom components raises concerns, including:

- Security is accomplished through Opticom's proprietary design, which prevents unauthorized use of the system. Mixing components would significantly reduce or even eliminate the security measures GTT has built into the Opticom solution
- Mutual aid to and/or from surrounding communities depends on compatibility amongst signal priority solutions. The use of Opticom components with non-Opticom components has not been designed for or tested by GTT
- Proper testing of compatibility would require inclusion of all of the potential operating scenarios (temperature, humidity, electrical and accelerated life) and third-parties. Further, testing would need to be repeated each time an Opticom or third-party component was updated, making testing impractical. While the Opticom matched component system is guaranteed, mixing Opticom components with non-Opticom

.....

components voids the warranty of the connected Opticom components and transfers the liability of any such incompatibility from the manufacturer to the customer

- The Opticom model 764 phase selector is not compatible with other brands' GPS emitters
- The Opticom Central Management Software is a proprietary software program for the Opticom system that is not compatible with any other vendor's equipment or software

For the above reasons, GTT strongly recommends keeping the Opticom system whole.

In the state of Florida, Transportation Control Systems (TCS) is the authorized dealer for GTT. There are currently no other authorized dealers of GTT's products in Florida and GTT is the sole-source provider/manufacturer of Opticom products.

Please contact GTT or TCS if you have further questions or if you require additional detail. GTT and/or TCS will also provide a list of references if you'd like to talk with others about this topic.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. C. Dolsky', with a long horizontal flourish extending to the right.

Subject: Distributor for Municipal Engineered Systems Water and Wastewater Market

Dear Ms. Kimberly Smiley,

The Gorman-Rupp Company is a world leader in the production of pumps and engineered equipment for diversified markets. Our marketing strategy has been to establish a network of factory authorized distributorships trained to apply equipment unique to specific hydraulic applications. Some examples of these are construction, petroleum, industrial, water and wastewater. Our distributors are specialists and very knowledgeable within their defined market area and dedicated to helping you select and maintain the proper equipment for your application.

Please be advised Hudson Pump & Equipment the sole authorized distributor for Municipal Water and Wastewater Pumps, Lift Stations and parts for Broward County in the State of Florida. Hudson Pump & Equipment is responsible for supplying all Gorman-Rupp pumps and Gorman-Rupp parts used in municipal water and wastewater lift stations or treatment plants, including individual units installed in municipal collection systems.

Hudson Pump & Equipment
3524 Craftsman Blvd.
Lakeland, FL 33803
Telephone: 863.665.7867

This letter is valid from this date forward until such time Gorman-Rupp identifies a new Municipal distributor for your location, if the need arises. All previous letters you may have been provided are superseded by this letter.

We thank you for your interest in Gorman-Rupp products and look forward to working with you in any upcoming projects.

Subject: ITT Goulds Pumps Municipal Representation
State of Florida

To: Whom it may concern,

This Document serves as official notice that **Hudson Pump & Equipment, a Division of Tencarva Machinery Company** is the exclusive municipal representative for all sales of **ITT Industrial Process** products in the state of Florida. This exclusivity agreement applies to all ITT Industrial Process products as shown below:

- ITT Goulds Pumps sold under the "brand names" of **Goulds Pumps, Allis-Chalmers, Goyne Pump and Morris Pumps**. (Please note: Goyne Pump Company was acquired by ITT Goulds Pumps in 1979 and Morris Pumps was acquired by ITT Goulds Pumps in 1981).
- ITT Goulds Pumps' repair parts sold under the "brand names" **Goulds Pumps, Allis-Chalmers, Goyne Pump and Morris Pumps**.
- ITT Monitoring & Control (Variable Frequency Drives) sold under the "brand names" of **ProSmart and PumpSmart**
- In addition, Hudson Pump is the "only" Goulds Pumps Authorized Service Center (ASC) within the state of Florida which gives them exclusive "authorized" rights for the repair / rebuild of Goulds Pumps equipment.

If you have any questions regarding this agreement, please don't hesitate to contact me.

Best regards,

About Granicus

TECHNOLOGY FOR THE PEOPLE WHO ARE CHANGING OUR WORLD.

Granicus provides technology that empowers government organizations to create better lives for the people they serve. By optimizing decision-making processes Granicus strives to help government realize better outcomes and have a greater impact for the citizens they serve.

Granicus Key Values:

- Granicus Solutions connect more than 150 million people
- Over a decade of government-focused experience
- Creating a powerful network to enhance government transparency and citizen engagement
- Offering the industry's leading cloud-based solutions for communications, meeting and agenda management, and digital services
- More than 3,000 public sector organizations are Granicus clients

Granicus Presents:

MEETING AND AGENDA SOLUTIONS

The Granicus Meeting and Agenda Solutions are a class of integrated software solutions designed to utilize and leverage the rapidly evolving technologies associated with legislative management. Currently, Granicus partners with Margate (City) for multiple government technology solutions including Legistar, Government Transparency, and Boards and Commissions.

Key Benefits:

- Granicus is the only supplier of the Granicus Meeting and Agenda Solutions.
- Individual features of the Granicus Meeting and Agenda Solutions can be found in other applications, but Granicus's unique architecture offers a comprehensive combination of benefits that are not available through any other solution.
- Granicus is the only company that can provide regular maintenance and periodic updates to these solutions.
- The Granicus Support Team is the only team capable and experienced enough with these solutions to provide ongoing technical support through telephone or online communication.

Legistar

Granicus Legistar allows organizations to reach new levels of automation with a complete legislative solution that manages decisions and automates the workflow of legislative items from introduction to final passage.

Extensive configurability sets Legistar apart from the rest with unlimited workflow sequences that can be customized to cater to an unlimited number of users, records and managing bodies. Legistar automates legislation drafting and agenda creation with a built-in, customizable workflow that tracks each item throughout the approval process.

Key Functionality

- Eliminate manual workloads
- Automate agenda workflows
- Track legislation
- Customize approval sequences
- Integrate with Microsoft Word
- Publish to the Web
- Integrate with other Granicus Meeting and Agenda Solutions
 - Deerfield Beach also has a Laserfiche Integration that allows documents to be imported from Laserfiche to Legistar and for Legistar to export reports or attachments to Laserfiche

Government Transparency

Granicus Government Transparency Suite enables organizations to build a content-rich collection of live and archived public meeting webcasts and records without hassle, enabling agencies to reach a broader audience and further meet modern transparency demands.

Key Functionality

- Stream live and archive content
- Easily share and complete meeting recap
- HD capabilities
- Reporting for in-depth analysis
- Integrate agendas with video for better indexing and searching
- Index video for keyword searchability
- Closed captioning services are also available

Boards and Commissions

Boards and Commissions allows clerks and staff to easily manage the entire committee appointment process. The system displays and promotes current and upcoming vacancies in the organization's existing website in real time. Applicants can apply online, and clerks receive the information on the admin dashboard in an organized format.

Key Functionality

- Single online application for citizens
- Automated public listing of board rosters and vacancies
- One-click report generation
- Board roster management dashboard
- Embeddable buttons and widgets

Awarding the contract to Granicus is the only appropriate action for the City to receive the Granicus Meeting and Agenda Solutions. Failure to award this effort to Granicus will leave the City without access to a streamlined solution that saves time and money by eliminating manual work and automating the entire meeting process. This would have a tremendous negative impact on the City in supporting its mission goals to easily engage more citizens.

Please reach out to Granicus for additional information.

RE: Sole Source Letter - Handtevy Pediatric System

To Whom it May Concern,

This letter is to confirm that Pediatric Emergency Standards, Inc. ("PES") is the sole source provider of the Handtevy Pediatric System. The Handtevy System addresses the complexities of the critical patient by providing the only comprehensive pediatric system of care in the industry. Handtevy combines customization, technology, documentation, integration, durables and education to allow healthcare professionals to confidently treat pediatric patients rapidly and with confidence.

Handtevy is sole source as a result of the following:

1. Handtevy utilizes a proprietary Medication Management Software that allows healthcare providers to create custom medication and equipment guides tailored 100% to their pediatric protocols.
2. PES offers a clinical team comprised of pediatric physicians, nurses, paramedics and pharmacists for ongoing support.
3. The Handtevy System is the only "hybrid" system in the industry. Hybrid means both age based and length based offering providers a way to determine weight for dosing via age or length.
4. The Handtevy System is the only system that addresses children from preemie to age thirteen, and includes adult as well.
5. Custom medication and equipment guides created by the provider (addressed in #1) can be utilized in hard copy or via Handtevy Mobile. Hard copy medication guides are tear-proof, and water-proof. Reproduction of the hard copy medication guide is not permitted due version control, liability and copyright issues.
6. Handtevy Mobile is the only platform that offers custom medication dosing and equipment sizing on a mobile platform that can integrate into the ePCR for data collection.
7. The Handtevy Instructor Course is only taught by PES employed educators and is meant to be utilized with the Handtevy Pediatric System.
8. The Handtevy Pediatric Bag is the only bag that utilizes ages to correspond with the Handtevy dosing system.

For more information, please visit our website at www.Handtevy.com.
Please feel free to contact me with any questions.

Thank you,

City of Margate Fire Department

Knox Company is the sole source manufacturer, inventor and supplier of Knox® Rapid Entry products. All Knox products are manufactured at our factory in Phoenix, Arizona

The Knox System is preferred by more than 16,000 fire departments and is selected above other lock box programs based on the company's over forty seven year reputation for product integrity, quality and reliability. Products include a complete line of lock boxes, cabinets, key switches, padlocks, locking FDC plugs and caps and the MedVault® Narcotics Drug Locker.

Knox also manufactures two products that electronically secure the Knox Master Key: KeySecure 5 and KeySecure 6® Key Retention Systems that provide keypad access with full audit trail documentation.

The MedVault® Narcotics Drug Locker provides even more detailed audit information for any vehicles that carry narcotics onboard.

All Knox Rapid Entry System devices carry a UL listing for resistance to physical attack. In addition, products have been UL certified and tested in the following categories:

- UL 437 Standard for Safety for Key Locks
- UL 1037 Standard for Anti Theft Alarms and Devices
- UL 1610 Standard for Central Station Alarms

Knox maintains the highest level of key and lock control. Each exclusively serial coded key is made in our Phoenix plant. These keys are strictly controlled and are only made by Knox.

Included with the Knox System are many services that benefit the fire department. Records of installations in your community are compiled on request, and complimentary materials for distribution to property owners are also provided.

I hope this information helps document how the Knox System satisfies your rapid entry requirements. Please let me know if I can provide further information.

Friday, March 11, 2022

Dear Ms. Smiley:

Thank you for your interest in our EAGLE® II Series radar unit. For your records, we would like to provide the following statement: Kustom Signals, by signature below, certifies that it is the "sole source" manufacturer and supplier of the EAGLE II Series.

For your information, I've listed a few features and capabilities that make the EAGLE II Series unique:

- True DSP (Digital Signal Processing) technology allows us to program the EAGLE II Series to recognize various signals, resulting in the ability to minimize fan speed interference.
- TruTrak allows radar to use the patrol vehicle's speedometer as a reference. The speedometer tells the radar where to "search" for the patrol vehicle return speed. As a result, patrol speed related problems such as combined speeds, splitting speeds and shadowing are eliminated.
- Four models are available to suit your needs and budget. Features range from the basics such as RF Hold, range control and target speed lock, to the "loaded" Golden EAGLE II with Same Direction, Fastest Vehicle and Stopwatch Modes. You can also choose K-, and Ka-band antennas.
- The EAGLE II Series is one of the smallest radar series available. While all EAGLE II radar are compact, the Golden EAGLE II features a control/display that can be easily detached from the counting unit and mounted almost anywhere.
- The third display allows you to lock a target speed then continue monitoring it in the active display for unbeatable tracking history.
- It has the ability to interface to our Digital Eyewitness In-Car Video system to help establish "probable cause."
- The buttons provide "tactile feedback". This is a small detail but one we've found is preferred by users.

I hope this information is helpful. If you need anything further, please do not hesitate to give me a call at 1-800/4KUSTOM (458-7866). You can reach me from 7:00am to 4:00pm, Central Time.

Sincerely,
Sydney Burke

LEADSONLINE.COM

March 9, 2022

To Whom It May Concern:

Thank you for your interest in LeadsOnline. We applaud and support your efforts to provide your community an efficient and secure method of collecting and analyzing pawn, secondhand, scrap metal recycler, OfferUp and eBay transaction data for use in criminal investigations.

This letter serves as a sole source document for services provided by LeadsOnline.

The LeadsOnline system functionality designed specifically for criminal investigations using transaction data from pawnshops, scrap yards, eBay, OfferUp, gold buyers and other secondhand stores is the exclusive proprietary property of LeadsOnline and is protected under the United States Copyright Act (17 U.S.C.), as well as by all applicable state and international copyright laws, and by the Lanham Act (15 U.S.C. §§1051-1141n). No other supplier has access to this technology which has been developed over 21 years.

LeadsOnline is also the sole source for over 1.5 BILLION transaction records from more than 21,000 businesses in all 50 states, including Florida. We provide law enforcement with investigative access *across jurisdictional boundaries* – borders previously used to the advantage of criminals to escape detection by local authorities.

LeadsOnline connects your agency to a network of over 4,800+ law enforcement agencies throughout Florida and the rest of the United States. There is no similar service operating in your jurisdiction or in the surrounding area, and LeadsOnline is the sole source for information of this kind for investigations.

We look forward to serving your community and are available to answer any additional questions you may have.

Sincerely,

SINGLE SOURCE LETTER

To Whom It May Concern;

This is a single source letter to let you know that the product **Mountain Fresh** is a Momar exclusive product that is manufactured and sold exclusively by Momar, Inc. Momar is the creator, manufacturer, and seller of this product. Momar's technical and sales staff will answer any questions you have about this product, and we will support users with information about the proper application of this product.

Mountain Fresh is unique for the following reasons:

- It is manufactured in the following forms:
 - 20X Concentrate Liquid
 - Ready-To-Use Liquid
 - Total Release Fogger Aerosol
 - Handheld Aerosol
 - Meter-Mist Aerosol
- Contains a proprietary odor encapsulation chemistry paired with a unique blend of fragrance oils and essential oils that, together, eliminate a wide variety of smells including hydrogen sulfide, ammonia, thioethers, mercaptans, amines, acids, urine, animal waste, food waste, pet odors, and even cigarette smoke
- Safe on soft surfaces like linen, carpet, rugs, upholstered furniture, drapery, bedding, and clothing
- Safe on hard surfaces like lockers, toilets, tile & grout, dumpsters, and trash cans
- Compatible with most cleaning compounds in a wide pH range from 2-12
- APE, NPE, and phosphate free and safe in most drainage systems
- Neutral pH between 6 and 9, and compatible with bacteria programs and flocculant programs at most wastewater plants
- Liquid versions are non-flammable

Please contact me directly if you have any questions or further concerns about this Momar product.

Sincerely,

West Gary
Senior Vice President, Chief Technical Officer

Dear Ms. Smiley:

Thank you, City of Margate for your interest in the MSA product line.

This letter confirms that Ten 8 Fire Equipment Inc is the sole authorized distributor of MSA SCBA and Thermal Imaging Cameras for the Municipal Fire Service Market for Broward County, Florida.

By way of background, in the fire service / first responder markets, MSA imposes specific requirements upon our distributors, which can result in a small number of distributors authorized to call upon a particular region. We impose these requirements because the equipment we manufacture and sell requires the involvement of partners with special knowledge, training and experience. Accordingly MSA's distributors are obligated to acquire and maintain extensive knowledge, training, and experience necessary to properly educate, assist and service our end user customers before, during and after the sale. MSA's fire service / first responder distributor qualification requirements are likewise intended to ensure the highest possible end user customer experience.

If you desire additional information about MSA, its product lines, or channel partners, please do not hesitate to contact me. Thank you for your interest in our products.

Sincerely,

A handwritten signature in blue ink that reads "Scott McGuire". The signature is written in a cursive, flowing style.

Dear Kimberly,

This letter is to confirm that the Nusonics CM800 Transit-time Ultrasonic Flow Meter you have inquired about is a sole source product which is manufactured, sold and distributed exclusively by Systems Integrators LLC.

This equipment utilizes a unique system of measuring flow rates in a wide range of fluids. Utilizing transit time technology, it does not depend on the presence of particulates to make an accurate measurement. Additionally, the flow meter can tolerate up to 2% by volume of particles or bubbles in the process stream without affecting performance.

If you need any additional information please feel free to contact me at anytime.

Kind Regards,

A handwritten signature in cursive script that reads 'James Gaston'.

Re: Sole Source of OCP&E Brand Chemicals

Dear Ms. Smiley:

OCP&E® Brand chemicals are sole sourced throughout the State of Florida by Publicly owned Treatment Works (POTWs). The following is a list of justifications for sole source purchase of OCP&E® Brand chemicals:

1. OCP&E® Brand chemicals are unique and proprietary, there are no equivalents in the marketplace. For example, OCP&E® Brand Peroxibase II is the only 12% hydrogen peroxide based chemical with an industrial grade peroxide stable deodorant, special surfactants, and a silicone defoamer. There is no equivalent in the marketplace. Whereas the City can procure various levels of hydrogen peroxide (12%, 25%, 35%,

50% and so on), the City cannot procure a chemical similar in chemical composition and performance to Peroxibase II. OCP&E® can provide other examples, if necessary. 2. OCP&E® is the sole manufacturer of OCP&E® Brand chemicals. 3. OCP&E® is the sole distributor of OCP&E® Brand chemicals. 4. OCP&E® is the sole owner of OCP&E® Brand chemical formulations. 5. OCP&E® chemicals have been publicly advertised for bid on Demandstar™ by other public utilities, and there were no other bidders able to provide OCP&E® Brand chemicals. 6. OCP&E® can furnish the City with dozens of purchase orders issued by other public utilities where the chemicals were purchased on a sole source basis.

Best Regards,

Cinda Bennett

Cinda Bennett

we are PRIDE

IMPACT THROUGH INDUSTRY

about PRIDE

PRIDE is a self-funded enterprise whose mission makes a positive difference in Florida. We make communities safer and save taxpayers money by training eligible inmates in vocational skills and transitioning them into the job market upon completion of their sentences. This job-centered approach lowers the number of repeat offenders and reduces criminal justice costs for all citizens. Customers invest in Florida when they purchase PRIDE products and services by starting the training-to-job cycle. PRIDE is not run for a profit; instead we combine enterprise with social mission to create a positive impact on communities, people, and customers.

For over 40 years PRIDE has helped keep Florida communities safe by significantly reducing recidivism rates of ex-offenders. Inmates receive real world skills through over 37 job training programs in 17 state facilities offering hundreds of certifications that prepare them for re-entry into communities as productive citizens. Inmates that participate in PRIDE training programs are three

times less likely to commit a new offense upon release from a correctional institution than non-participants.

PRIDE is the only private program of its type in the US and operates as a not-for-profit corporation, with board oversight, to fulfill four missions defined by Florida statute. PRIDE is funded exclusively through the net proceeds from sales of products and services manufactured by PRIDE inmate training programs. PRIDE serves as a model example of the privatization of government functions and reduces the cost of state government for Florida's taxpayers by millions of dollars every year.

moving FORWARD

As PRIDE enters a new decade, we continue to centralize our focus on embracing new technology as directed by our Strategic Plan. Significant financial resources are being invested in state-of-the-art computers/servers, upgraded infrastructure hardware/software systems, and cybersecurity detection and monitoring software. Installation of sophisticated firewalls that block access to our network and a rigorous cybersecurity framework will ensure that our company and customers' digital processing will be processed efficiently and securely.

Our IT professionals, with the assistance of highly qualified IT consultants are developing not only advanced security systems, but a new platform for both our website and e-commerce portal. Our unified web experience will provide customers with an experience that provides product information, an automated shopping cart, and will be linked directly with PRIDE's re-designed website. We are also rebuilding our entire infrastructure from a "greenfield" base. No system that operated on our legacy servers or workstations will be used.

These investments will not only allow us to meet the future needs of our customers but will enhance our ability to offer meaningful vocational and job training work programs to our inmate workforce. As we progress through the next year, we will also explore opportunities to upgrade our ERP system and provide a customer relationship management solution that will benefit both our organization and our customers.

We urge you to contact our Customer Service Department if you have any questions regarding the ordering process or any concern about a specific order. Thank you for your patience during our rebuilding phase and for your support of the PRIDE mission.

Re: Microclor OSHG Systems

Dear Ms. Smiley,

PSI Water Technologies, Inc. ("PSI") of Milpitas, California proposes to provide new and repaired electrolytic cells and ancillary components to the City of Margate for the City's Microclor® On-Site Hypochlorite Generation (OSHG) system. The Microclor® OSHG system is designed, manufactured and supplied by PSI. The system, which is the subject of one or more patents and patent applications filed by PSI employs a unique vertical cell design which is also covered by one or more patents and patent applications (see www.psipatents.com). PSI is the sole manufacturer and supplier of the proprietary electrolytic cells utilized in the Microclor® OSHG systems.

PSI employs factory-trained service technicians who possess extensive experience in the installation, start-up, repair and refurbishment of the Microclor® OSHG system. Additionally, Odyssey Manufacturing is PSI's only authorized representative in Florida for providing OSHG systems, parts and service. Only PSI-trained service technicians are factory authorized to install start-up, repair and refurbish Microclor® systems.

Sincerely,

Guy Chadwell

Vice President and General Manager
PSI Water Technologies, Inc.

PSTrax Sole Source Letter

Margate Fire Department

Prepared for:
Roberto Lorenzo
1835 Banks Rd.
Margate, FL 33063

PSTrax is the industry-leading Operations Readiness and Logistics Management system for Fire & EMS agencies. We offer agencies across the world a cloud-based system consisting of six modules that automate your vehicle, equipment, inventory, and controlled substance checks. Pick and choose which modules your agency would like to start with. We'll implement a custom-configured system for your agency and help maintain and update the system after implementation is complete.

Our goal is to build long-term relationships with each of our clients. We look forward to starting one with you!

June 28, 2022

Roberto Lorenzo
1835 Banks Rd.
Margate, FL 33063

Re: Sole Source Provider

Dear Chief Lorenzo:

This letter is to inform Margate Fire Department, that Station Automation, Inc. (dba PSTrax) is considered a sole source provider in its space and has been purchased as such by other organizations across the country.

Multiple unique differentiators make PSTrax a sole source provider. We have provided them below.

Specialty Solution

PSTrax is the industry-leading Operations Readiness and Logistics Management system for Fire & EMS agencies and has been for over 11 years. Agencies across the world utilize PSTrax to consolidate all their operations checks – Vehicle, SCBA, PPE, Critical Asset, Station and Controlled Substance – into a single, cloud-based solution. Your agency will be able to manage and track all its apparatus, equipment, inventories, and controlled substances in one place.

Tailored Solution

PSTrax currently provides six modules – Vehicles, SCBA, PPE, Critical Assets, Stations and Controlled Substances. Your agency can tailor the solution to its needs by selecting which modules you would like to begin with. If you don't start with all the modules, you can add additional modules later. This is very different than other companies that require you to purchase an entire solution even if you don't need all the functionality. PSTrax is the sole provider of the modules it provides.

Unique Functionality

PSTrax is the only stand-alone company specifically focused on operations checks and logistics management for Fire & EMS agencies. This is very different than other companies that have different core competencies (RMS, Training, EMS supplies, etc.) but “bolt-on” basic solutions in an attempt to be a “one-stop-shop”. PSTrax has 11 years of experience in this space and has developed deep functionality that is unique to us.

Custom Configured To You

We recognize that each agency is as unique as the community it serves. PSTrax is completely custom configured for each agency based on its processes and requirements. The system will be built to the specifications of your agency. This is very different than other solutions in our space that have a “boilerplate template” approach that agencies must conform to.

Full-Service Solution

We combine proprietary software, in-house consultants and unlimited ongoing support to custom-configure a completely turnkey system built specifically for your agency based on your requirements. PSTrax is the only full-service solution in the marketplace.

The diagram below shows all the services provided by PSTrax. No other vendor offers this full-service approach.

Built For You

No one wants to take on another project and build another software program. We take the project off your plate and will build a custom-configured system based on your requirements. This is very different than other vendors that require the client to take on the implementation project themselves. Our implementation team will meet with your agency on an initial project kickoff meeting to discuss your checklists, apparatus, equipment, inventories, and roster. Then, you simply email us your documents in any format. From there, we will manage the entire project from beginning to end. Our team will normalize your data, import it into the system, configure the system based on your processes, and deliver a turnkey solution ready for rollout.

Unlimited Support

Other vendors have hour limits or hourly fees for customer support. These services are unlimited with PSTrax. Your agency can contact our support team at any time for assistance. We are available via phone and email to assist. Alternatively, support tickets can be submitted directly to the system.

Unlimited Training

Other vendors have hour limits or hourly fees for customer support. These services are unlimited with PSTrax. Our team will provide a full training program during the initial implementation and create custom video training resources based on your processes. We will also provide ongoing training throughout the term of the agreement upon request.

Unlimited Ongoing Changes

Other vendors have hour limits or hourly fees for ongoing changes. These services are unlimited with PSTrax. In addition to building the system for your agency, we also help maintain it over time. We act as your “administrative assistant” to make any changes you don't wish to make yourself. As with any software program, there will be changes and adjustments needed over time. For example, you may want to make system configuration changes, you may purchase new equipment or vehicles that need to be loaded and setup in PSTrax, or you may need to adjust checklists or inventories for a particular apparatus. Your agency can make these changes itself, or we will do it for you.

No Hardware Investment

PSTrax is a cloud-based system that can be used with any device – phone, tablet, computer, tough book – and any operating system. This means your agency can continue to use the existing hardware it has already invested in. All data is stored in the cloud, not on the devices themselves. This helps ensure your data is always safe. Additionally, multiple crew members can complete checks at the same time. This means that 3 or 4 person crews can work together as a team to complete checks in real-time using their devices.

Made For Crews

Designed for crews first. PSTrax is the most intuitive and easy to use system for operations checks. This ensures a high adoption rate with the crews and the long-term success of the system. PSTrax is built with responsive design and scales to look great regardless of the screen size or device being used. This is very different than other vendors in the space that have “clunky” systems or systems built with older technology that is not easy to use and/or can’t be used on different devices.

Own Your Data

Your data is your data. We store it safely in the cloud for you. Your agency has full rights and full access to its data. Information can be exported directly from the system anytime. PSTrax can also provide full data extracts upon request. This is very different than some other vendors that keep the data if an agency cancels their service.

If you have any additional questions or would like to schedule a demo, please don’t hesitate to contact us.

Thank You,

Scott Bergeron, President

Subject: Purafil Sole Source Letter

Dear Ms. Smiley:

F.J. Nugent group represented by Fred Nugent is Purafil ESD's sole and exclusive authorized representative for chemical filtration and environmental monitoring products and service for Purafil in all parts in Florida except the panhandle. This includes all publicly owned and operated water and waste water treatment facilities in South, Central, and Eastern Florida.

F.J. Nugent is the ONLY company in South, Central, and Eastern Florida which is authorized and technically supported by Purafil ESD of Doraville, GA, USA to market, distribute, service, and support Purafil ESD current and future installations in the municipal market.

Purafil ESD's technology comes with a number of no charge added value services, required to be performed for proper system installation and performance. F.J. Nugent is authorized and factory trained by Purafil as a Purafil authorized service provider for Purafil, Inc. technologies.

Also, as per Purafil ESD's operating principles - one of many things that the end user gets is free access to Purafil ESD scientists and technical support team. This is crucial to an end user, as gaseous contaminants are known to change over time. This in turn would require Purafil to get involved and recommend a more unique or tailored chemical media for the removal of these newly introduced contaminants. If the original product is not a Purafil, Inc. supported product, this service like many others will not be extended.

Please let us know if you require additional information.

Thank you.

Sincerely,

Felipe Niada

RE: Sole Source Manufacturer

PVP Communications' **Motor-One™** and **Freedom™ Wireless Systems** are designed, patented, and manufactured exclusively by PVP Communications under United States Patents 6,311,052; 7,062,301 and 7,203,525. The Motor-One and Freedom Wireless systems are the only product of its kind that incorporates **Bluetooth®** wireless technology.

Service of PVP products must be completed by the PVP factory, there are no service centers authorized by PVP to perform such services. These helmet communication systems are uniquely designed to address the specific communications and safety needs dictated by the use of motorcycles in the field of law enforcement. All PVP Communications products are manufactured and assembled in the United States.

Distribution of PVP products is established directly from the PVP factory and through limited-select dealers nationwide. At this time we do not have a dealer authorized to sell in your area.

PVP Communications also understands the importance of product reliability and support with our customers and provide not only a one year limited warranty, but telephone technical support and modular designs that provide ease of maintenance for customers in the field.

We look forward to being of service to you in the future!

Sincerely,

Jay Calzada
General Manager

January 1, 2022

Please be advised that Radarsign, LLC, is the sole authorized provider of the Radarsign brand speed signs. The Models include the TC-400, TC-600S, TC-600A, TC-1000S, and TC-1000A. Radarsign is also the manufacturer of these driver feedback signs.

Each Model has unique features in the industry that are not found on other manufacturer's standard offerings:

TC-400

- Nickel metal hydride battery packs offer long life, reliable service (unlike lithium batteries), and are lightweight enough to be exchanged by any individual (6 lbs)
- Hinged door opening to battery packs allows the front portion of the sign to be disconnected from the rear portion (with no tools required), making the sign very portable and easy to transport
- Thick aluminum plate that covers the entire display area, and full sheet of polycarbonate that when combined, provide the most vandal resistant design in the industry.
- Standard Wifi connection for operation of the sign requires no special software, and no special hardware, allowing any smart phone, tablet, or laptop to manage the radar sign operation up to 300 feet from the sign
- Over the air software upgrades using Wifi, so software fixes and upgrades can be done in the field.
- Possum switch feature allows the radar sign to 'play dead' for 30 minutes when attacked with force.

TC-600S & TC-600A

- Thick aluminum plate that covers the entire display area, and full sheet of polycarbonate that when combined, provide the most vandal resistant design in the industry.
- Standard Wifi connection for operation of the sign requires no special software, and no special hardware, allowing any smart phone, tablet, or laptop to manage the radar sign operation up to 300 feet from the sign
- Full matrix display with 13" high speeds includes word alerts SLOW DOWN and TOO FAST. Additional optional alerts include smiley face, red/blue strobe, simulated camera flash, sharp curve message, left or right chevrons, and Fine alert.
- Over the air software upgrades using Wifi, so software fixes and upgrades can be done in the field.
- Possum switch feature allows the radar sign to 'play dead' for 30 minutes when attacked with force.

Thank you very much for considering Radarsign brand products.

Best regards,

William Warwick

Greetings,

January 27, 2022

I am writing this email to certify that AXCELL+ is a one of a kind formulation created by our firm. This formulation cannot be supplied by others because we own the rights.

We have licensed the Lakepointe Environmental Group, of Palm City, Florida, as our exclusive distributor of this technology.

The initial discovery of this application was discovered by the Research Corporation of the University of Hawaii and subsequently patented.

AXCELL+ is a natural non-selective biostimulant for maximum biological activity for the reduction and elimination of fats, oils, greases, odors, and sludge volume reduction. AXCELL+ is not a chemical, bacterial, or enzymatic product. The liquid plant extract increases the existing micro-organisms respiration which accelerates the decomposition of organic matter ten-fold. The product will be entirely compliant and with the intended collection system and secondary treatment plant.

Respectfully submitted,

Mark Reynolds

President

Subject: City of Margate, FL – Margate WTP
RDP Project #25024

Kimberley,

In response to your request, The TEKKEM™ Slaking system is a fully automatic low maintenance method of slaking lime . The engineered system installed at Margate, FL is proprietary in nature, specifically developed for RDP's Tekkem Slaker system. As such, it is protected by U.S. patent #5,746,983, #7,416,673, and #8,133,401 B2. While RDP is appreciative of the bonds that we have formed with the city of Margate, in particular the Margate WTP, we would be unable to support or troubleshoot "third party" components that were purchased to substitute that which was originally manufactured and configured for RDP's proprietary process.

Please do not hesitate to contact me if you require further clarification on the contents of this letter.

Very truly yours,
RDP Technologies, Inc.

Re: Service and Repairs for the Ruselectric
Equipment Located at Everest Waste Water Facility
Ruselectric shop order number 32913

Dear Kimberly,

The letter is to confirm that Siemens Industry, Inc. dba Ruselectric, A Siemens Business does not authorize nor does it recognize maintenance, upgrades or repairs performed by third parties on Ruselectric Control and Switchgear equipment. The Emergency equipment manufactured by Siemens Industry, Inc. dba Ruselectric, A Siemens Business and installed at your facility is a custom built system. Siemens Industry, Inc. dba Ruselectric, A Siemens Business maintains a staff of factory employed and fully trained field service engineers that are qualified to perform annual inspections, maintenance, repairs and necessary enhancements and upgrades. There are no third party service organizations that have the expertise, experience and record documentation to enable them to fully support a complex specialty system of this type. Further, any maintenance or modification work performed on your Ruselectric equipment by third parties will not be documented at Siemens Industry, Inc. dba Ruselectric, A Siemens Business and will prevent Siemens Industry, Inc. dba Ruselectric, A Siemens Business from providing competent emergency service when required.

We hope this meets with your approval and if you have any questions, please feel free to contact us.

Very truly yours,

David Crider

To whom it may concern:

This is to certify that SEAL Analytical, Inc. is the **exclusive manufacturer and supplier** of AQ1, AQ2, AQ300 and AQ400 Automated Discrete technology in the United States. As such, we are the **sole authorized provider** of genuine parts, software, supplies, service, training and support for the SEAL AQ instruments in the United States.

SEAL Analytical, Inc. is the **global manufacturer and supplier** of what was Bran+Luebbe (formerly Technicon) continuous flow analyzers in the USA. This includes the QuAAtro, AA3, AA500 and AA100. We are also the **sole authorized provider** of genuine parts, software, supplies, service, training and support for the SEAL/Bran+Luebbe instruments (i.e. AutoAnalyzer II/3, TrAAcs and QuAAtro) in the United States.

SEAL Analytical, Inc. is also the **global manufacturer and supplier** of MiniLab Robotic Systems in the USA. This includes the MiniLab ML, MiniLab AR, MiniLab AP, MiniLab BOD, MiniLab Multi-parameter and custom MiniLab Robotic systems. We are also the **sole authorized provider** of genuine parts, software, supplies, service, training and support for these in the United States.

This letter confirms that SEAL Analytical, Inc. **does not** supply **any** competing companies with genuine parts, software and consumables for resale **nor** do we authorize any other service provider to service our analyzers.

SEAL commits to providing an on-going improvement process to our clients. We serve out-of-production units and, when parts or modules are no longer available, we will provide a cost effective proposal to move to the next generation, removing retraining costs and ensuring that existing inventory of consumables do not become redundant.

Thank you for your interest in SEAL Analytical, Inc. products and service. We look forward to continuing our working relationship.

Sincerely,

President
SEAL Analytical, Inc.

RE: Spacesaver Representation

Dear Ms. Smiley:

Spacesaver distributes its products through a network of Area Contractors. Each Spacesaver Area Contractor under obligation and contract is required to sell, service and install Spacesaver High Density Mobile Storage Systems, compact shelving and storage products in their given Primary Area of Responsibility. Patterson Pope has sole authority of these responsibilities in the state of Florida.

Spacesaver specifies that all installations must be performed by factory trained and certified technicians. I confirm that Patterson Pope is the only Spacesaver authorized installation / service technicians certified to install, service, move or add on to any new or existing Spacesaver system in their primary area of responsibility. Any existing Spacesaver system must be moved by a factory trained and certified Spacesaver installer in order to maintain its warranty and the availability of parts.

No other party other than Patterson Pope is authorized, trained or certified (which is contingent on activating and maintaining warranty) to conduct Spacesaver work in this territory. Please also note that the warranty is void if work is done by others and no other company can purchase replacement or upgrade parts for the Spacesaver systems.

We are pleased to have this firm represent Spacesaver and to have their experienced staff available locally to address your product and service needs. Spacesaver Corporation thanks you for your interest in our products and services.

Sincerely,

SPACESAVER CORPORATION

Sole Source for STALKER Lidar RLR Speed Measurement Instrument

This is to confirm and verify that Applied Concepts, Inc., 855 E. Collins, Richardson, TX 75081 is the sole source manufacturer of the **STALKER Lidar RLR Speed Measurement Instrument**. There is no other Lidar instrument being manufactured that meets the specifications below:

- **Weight & Durability** - The Stalker RLR Lidar is a mere 2.3 lbs and is lighter than any comparable hand-held laser on the market. It is IP67 waterproof and dustproof.
- **Power Versatility** – The RLR's lithium-ion battery pack snaps instantly into the pistol grip, provides power for at least two shifts, and withstands more than 500 charging cycles. Alternately, the RLR AA uses six alkaline or Ni-MH rechargeable AA batteries.
- **Acquisition & Range** – The RLR's average target acquisition time of 1/3 of a second or less, and range in excess of 9,000 feet (on tripod), makes the RLR a very effective speed enforcement tool.
- **C-Thru Mode Technology** - Stalker Lidar RLR's C-Thru Technology enables the lidar to track targets despite the presence of trees, leaves, bushes, utility poles, and other obstructions between it and the target.
- **Windshield / Obstruction Mode** – The Inclement Weather/Obstruction Mode allows the unit to work in rain, snow, blowing dust, fog, as well as through fences and tree branches.
- **School Zone/Construction Zone Mode** – Set the RLR to track vehicles only within an operator-defined area, such as a school zone or construction zone. All other vehicles will be ignored.
- Applied Concepts, Inc was awarded an ISO 9001:2015 Certificate of Registration for design, manufacture and service of speed measurement products. This is unique in our market segment

All Stalker Radar products are made in the USA and are in full compliance with the Buy American Act.

The **STALKER Lidar RLR Speed Measurement Instrument** can only be purchased directly from Applied Concepts, Inc. or through one of our Regional Sales Managers.

Respectfully Submitted,

Jan Achilles

Sole Source for STALKER II Stationary Directional Radar

This is to confirm and verify that Applied Concepts, Inc., 855 E. Collins, Richardson, TX 75081 is the sole source manufacturer of the **STALKER II Stationary Directional Radar**.

There is no other radar being manufactured that meets the specifications below:

- Only Stalker's antennas achieve the industry's longest range by digitizing the Doppler audio signal at the antenna which helps to eliminate RF interference. Digital antennas also improve a radar's range beyond 1 mile. This patented technology makes Stalker Radar the most accurate and dependable radar system on the market.
- Applied Concepts, Inc was awarded an ISO 9001:2015 Certificate of Registration for design, manufacture and service of speed measurement products. This is unique in our market segment.

All Stalker Radar products are made in the USA and are in full compliance with the Buy American Act.

The **STALKER II Stationary Directional Radar** can only be purchased directly from Applied Concepts, Inc. or through one of our Regional Sales Managers.

StreamLine Automation Systems, LLC develops, markets and supports our proprietary systems used for Streamline Inspections. Our proprietary SaaS (Software as a Service) technology is the only one of its kind in the industry that is a 100% cloud based administrative portal with the option to license the Streamline Inspections Apple iPad or Windows Mobile Tablet application directly to the cloud database. No other solution on the market can claim to be completely cloud based and work in off-line mode with iPad devices or Windows Tablets in the field to the extent to which our software allows. Our solution combines features like a Permitting module, a module for Community Risk Reduction (CRR) to include home safety surveys and smoke detector installs as well as a smoke detector database. We also support customer portals for Self-Certification of violations and e-mail templates to send notifications. All components of our system are designed and produced by Streamline Automation Systems in Roseville, California.

Streamline Inspections is also the only software that is directly integrated with Fire Recovery USA, LLC for the billing of inspections and permits.

Joe@SustainSprinkler.com
Sustainablesprinkler.com

To Kimberly Smiley, CPPB, City of Margate,
RE: Sole Source Letter Date: March 10, 2022

Sustainable Sprinkler is an irrigation system that has been designated by authorities as a "Advanced Sprinkler Company". We have been granted a US patent for our advanced technology which includes our proprietary algorithms and programing thereby making Sustainable Sprinklers recognized as a Sole Source Vendor. Sustainable Sprinklers is the only company that can provide this unique system that has the proven track record of savings thousands of gallons of water while maintaining and even enhancing city landscaping.

The sprinkler system is designed to irrigate based on a flexible schedule which dynamically shifts and automatically adjusts to sprinkling needs on any given day based on the current and future local weather conditions and irrigation requirements. The system works in compliance with the irrigation rules of the South Florida Water Management District and Broward County while ensuring dynamic schedules for irrigating all facilities. It is important to note that all the competing technologies work based on a fixed schedule and they can only skip a sprinkling cycle. However this system is the only system which works on a flexible schedule with the shift capability to sprinkle on any given day based on the watering needs which are in compliance with the county and South Florida Water Management District rules for irrigation. Such shifting capability provides huge cost savings in the irrigation water needs.

This letter is to request the designation of Sustainable Sprinklers as a sole source vender to the City of Margate.

Sincerely
Joe Giuliano
Managing Director 561-757-0135

Re: Sole Source Symbiont™ Provider

Dear Ms. Smiley:

Symbiont Service Corp. is the exclusive distributor of the Symbiont™ GeoThermal Pool/Spa heater, which is manufactured by AquaCal in St. Petersburg, Florida. AquaCal manufactures these heaters designed and engineered specially to Symbiont™ specifications. The heater is labeled as a Symbiont™ with a special model number and AquaCal sells them exclusively to Symbiont Service Corporation.

As long as the Symbiont™ model heater is installed by Symbiont Service Corp., it comes with a five-year labor and seven year all parts warranty. Additionally, Symbiont Service Corp. is the factory-authorized provider of parts and service to support this specialized warranty. Any repairs performed by an unauthorized repair facility will void the warranty for the Symbiont™ heater.

Please feel free to call me if you have any questions or concerns at 1-800-881-4328 or you can e-mail me at sandy@symbiontservice.com.

Sincerely,
Symbiont Service Corp.

Sole Source Justification

Training Management | Operations & Asset Management | Workforce Management | EHS Management

This document serves as a sole source justification for Vector Solutions' integrated suite of systems for online training and live skill evaluations, operations and asset management (TargetSolutions Check It™), workforce management (TargetSolutions Scheduling™), and EHS management which are all developed and provided solely by TargetSolutions.

Service Description

TargetSolutions' industry-leading online training, operations, scheduling, evaluations and EHS management system is a comprehensive suite of proprietary web-based solutions for Fire and EMS departments and is the industry's only all-in-one operational hub for the management of training, assets, employee scheduling, skill assessments and safety compliance. The unique, one-of-a-kind software features exclusive fire department software tools, including best-in-class training courses and recordkeeping applications.

Here are TargetSolutions' online training management system's key differentiators that make it stand apart in the industry:

- TargetSolutions features the industry's leading learning management system for scheduling, delivering and tracking online training courses
- TargetSolutions offers more than 500 hours of training for fire departments, including more than 250 hours of accredited EMS continuing education courses
 - TargetSolutions is organizationally accredited through CAPCE, the Commission on Accreditation for Pre-Hospital Continuing Education
 - TargetSolutions features NFPA 1001, NFPA 1021, NFPA 1410, NFPA 1500, as well as Occupational Safety and Health Administration (OSHA), and more in its training catalog
- The TargetSolutions platform features unique applications for managing fire department training, recordkeeping, and compliance tasks, including:
 - Activities Builder
 - Credentials Manager
 - ISO Training Tracker
 - Community Resources
 - File Center
 - Test Builder
 - Generate Reports
 - Events Manager
- TargetSolutions' Enterprise solution enables agencies to collaborate in a shared training platform while still managing their own TargetSolutions sites

Vector Evaluations+, a live skill evaluation solution, modernizes skill assessments with electronic skill sheets and forms that are accessible via a mobile app or web-based system. Here are a few key benefits of this solution:

- Measure and track competencies with digital skill sheets that help determine proficiency and compare employee performance over time
- Mobile app to evaluate employees from the field and take in-app videos to record individual's abilities
- Recorded skill demonstrations serve as an educational tool to analyze performance and provide feedback
- Add evaluations to Credentials through the integrated TargetSolutions to ensure true mastery of a skillset to complete a taskbook
- Comprehensive, visual reports make it simple to oversee competencies and indemnify any deficiencies among personnel

The TargetSolutions platform can be extended to the TargetSolutions Check It™ operations and asset management system for conducting inspections of equipment, apparatus and inventory. Here are the key differentiators of TargetSolutions Check It™ that make it stand apart in the industry:

- Integrated mobile application and web-based platform accessible 24/7 to streamline inspections and maintenance for vehicles, equipment, controlled substances, medical supplies and other logged inventory
- Exclusive module for secure, cradle-to-grave management of controlled substances for ALS agencies.
- Secure tracking of expiration dates of all types of controlled substances and other resources assigned to a specific vehicle, person, or storage facility
- Built-in verification features, such as eSignatures, employee pin numbers, and facial recognition technology, to ensure accountability
- Push notifications, email alerts, and custom check-step comments to communicate the completion of an inspection, create check-step comments, or notify supervisors of issues
- Ability to open service tickets for apparatus or equipment in need of repair to track its status, costs, and other information with intuitive workflows
- Comprehensive reports with visually-driven data to view inspection history, usage, and other measurable steps

TargetSolutions Scheduling™ provides a workforce management and employee resourcing software built for the complex organizational tasks for mission-critical industries. Here are key differentiators of TargetSolutions Scheduling™ that make it stand out in the industry:

- A snapshot overview of shift schedules, minimum staffing levels, and employees' qualification in a dynamic workforce management dashboard
- Cloud-hosted, reliable data that is available 24/7 and accessible via the mobile application or any web-based device
- Interactive roster map with a live view of employee locations, traffic patterns, and 'hot spot' areas.
- Automatization tools to streamline overtime hiring, callbacks, and vacation requests with custom qualifiers to reduce human error or bias

- Shift trade dashboard for employees to self-manage shifts trades (based on qualifications) and hours owed/credited to coworkers
- Customizable and exportable reports with in-depth filters to analyze employee hours, payroll, overtime, and more

Vector EHS Management is a comprehensive safety tracking solution that offers a web-based system and mobile application to streamline incident reporting, corrective actions and producing OSHA forms. Here are key differentiators for Vector EHS Management that make it stand out:

- A mobile application that streamlines the incident reporting process and records incident details at the scene for accurate account of what occurred
- Easily manage the claims process and track every variable to minimize costs of worker's compensation or employee leave
- Track hazards or potential exposures with detailed reports and notify key stakeholders
- Assign corrective actions after incident investigations, such as refresher training, and communicate corrective tasks to personnel through Vector EHS Management
- Automatically translate incident reports to produce OSHA forms 300, 300A and 301 to easily export OSHA logs
- Comprehensive reports show incident history to identify trends, address problem areas and more

Dear Kimberly,

Please allow this correspondence to confirm that Ten-8 Fire and Safety, LLC with an office in Bradenton, FL is Task Force Tips' primary strategic dealer for the state of Florida.

As Task Force Tips' primary strategic dealer, Ten-8 Fire and Safety, LLC has the responsibility for providing warranty information and processing, service and technical support, and for the promotion of TFT products through training and education. In addition, as our primary strategic dealer they are also entitled to our most favorable pricing structure.

Though Task Force Tips is represented by a Primary Strategic Partner, this does not restrict the availability of our products through other dealers who receive less favorable pricing.

Please feel free to contact me if there are any questions concerning this confirmation.

Regards,

Regards,

Jim Menke

Sole Source Letter

Re: Teledyne Isco, Inc. Sales Representative and Distributor

To Whom It May Concern

Instrument Specialties, Inc., having its principal place of business located at 3885 St. Johns Parkway, Sanford, Florida 32771, is the sole source and exclusive Teledyne Isco, Inc. Sales Representative and Distributor for the state of Florida, except the Western counties of Gulf, Calhoun, Jackson, Bay, Washington, Holmes, Walton, Okaloosa, Santa Rosa and Escambia as defined in the Teledyne Isco, Inc. Sales Representative and Distribution Agreement. This letter is valid 1 year from submission date.

Respectfully,

Ricard Skradski

Regional Sales Manager
Environmental Products

RE: Teleflex LLC—Sole Source for the Arrow® EZ-IO® Intraosseous Vascular Access System

Dear Valued Customer:

Thank you for your interest in the Arrow® EZ-IO® System, which uses a proprietary patented needle and power driver technology. Teleflex is the sole manufacturer of these components. The EZ-IO® System is currently the only battery-operated intraosseous vascular access device that may be extended for up to 48-hour dwell time.*

Through our direct sales team, Teleflex LLC, a wholly owned subsidiary of Teleflex Incorporated, markets, sells and/or services all non-federal Arrow® EZ-IO® Device customers within the continental United States.

Please call our customer service to assist you with any questions or concerns: 1-866-246-6990.

Sincerely,

Morgan Rankin
Vice President, Sales
Emergency Medicine

*The Arrow EZ-IO® System is indicated anytime in which vascular access is difficult to obtain in emergent, urgent or medically necessary cases for up to 24 hours. For patients ≥ 12 years old, the device may be extended for up to 48 hours when alternate intravenous access is not available or reliably established.

Teleflex, the Teleflex logo, Arrow and EZ-IO are trademarks or registered trademarks of Teleflex Incorporated or its affiliates. All other trademarks are trademarks of their respective owners. © 2021 Teleflex Incorporated. All rights reserved. MC-000964rev10

TERRADYNE ARMORED VEHICLES INC.

T +1 905 895-1010 | F +1 905 853 2289 | E info@terradyneinc.com

February 7, 2022

To whom it may concern,

This letter is to confirm that the MPV armored rescue vehicle is a sole source product that is manufactured, sold and distributed exclusively by Terradyne Armored Vehicles Inc. No division of Terradyne Armored Vehicles Inc. nor any other company makes a similar or competing product. Unique features of the MPV include:

1. Unaltered OEM truck chassis for proven reliability and OEM warranty support
2. Demonstrated FMVSS compliance
3. NIJ IV ballistic resistance compliance at zero degrees obliquity at the top end of the specified velocity range. The competition advertises NIJ IV ballistic protection at 30 degrees obliquity. The NIJ standard specifies ballistic resistance at zero degrees obliquity.
4. On board power deployable skip shield
5. Power door lock actuators
6. Superior interior space and head protection when situated on outboard rails compared to other products

This product must be purchased directly by government agencies from Terradyne Armored Vehicles Inc. at the address listed above. If you require additional information, don't hesitate to contact me at 905-895-1010 Extension 710 or visit our website at www.terradyneinc.com.

Thank you for your interest in our products.

Lucus Witzke, Sales Manager

Ms. Kimberly Smiley
City of Margate
5790 Margate Boulevard
Margate, FL 33063

Via Email: KSmiley@margatefl.com

Dear Ms. Smiley,

THOR GUARD, Inc is the sole manufacturer and sole, authorized marketer of THOR GUARD Lightning Prediction and Warning Systems. THOR GUARD is the only company in the world that manufactures a true lightning prediction system based on changes and shifts of earth's electrostatic atmosphere.

THOR GUARD products are American made. All aspects of our business including our executive team, employees, research, development, and manufacturing are based in Sunrise, Florida.

THOR GUARD products are designed and operate through the use of our exclusive proprietary technology. Our Patent and Trademark numbers are 4,095,221 and 2,390,039, respectively. THOR GUARD has not authorized any company or individual to manufacture our products or utilize our unique trade secret engineering and software systems. We are not a franchisor. Only authorized sales and services representatives of THOR GUARD have access to authentic, THOR GUARD products as well as the service expertise to properly install and maintain our systems.

We hope this position statement provides you with the necessary information to distinguish THOR GUARD lightning prediction technology from existing lightning detection systems which assert to compete with THOR GUARD.

Thank you for your continued support of THOR GUARD products. Please contact us if you have any questions or require additional information.

Very truly yours,

Jason Wolk
Director of Finance

This is to certify that Zenner USA is the only company who can provide replacements or new compatible products that will work with your installed Datamatic system. Zenner has sole ownership of the IP used in the products and has purchased all the Mosaic assets left by Datamatic Ltd. from the bankruptcy estate in June of 2014. The Zenner/ Mosaic MIUs & MIU Lid lock products are specific and cannot be sold to you by any other company.

Best regards,
Richard Sanders,

Margate, FL 33063

Dear Kimberly:

Thank you for your interest in the AutoPulse® Non-invasive Cardiac Support Pump, a revolutionary new resuscitation system that offers the promise of normal blood flow during sudden cardiac arrest.

Please be aware that ZOLL® Medical Corporation is the only company that manufactures and markets the AutoPulse. No other organization is authorized to sell the product in the United States. Further, there are no other devices on the market today that can mimic the AutoPulse's unique mechanism of action and achieve its unprecedented clinical results.

Lastly, no vendor or dealer is authorized to provide warranty or service.

Should you have any questions or require additional information please don't hesitate to contact me at (800) 348-9011 x 9657.

Sincerely,
