- Too tall
- Too large

Typical Directional Signs

A decision to grant a waiver by the board of adjustment must be in conformance with the following criteria:

- (1) There is something unique about the building or site configuration that would cause the signage permitted by this article to be ineffective in identifying a use or structure that would otherwise be entitled to a sign.
- (2) The granting of a waiver is not contrary to the intent of the sign code, the aesthetics of the area, or does not create a nuisance or adversely affect any neighboring properties.
- (3) Literal enforcement of this article would result in unreasonable and undue hardship upon the petitioner.
