

BOARD OF ADJUSTMENT
CITY OF MARGATE, FLORIDA

BA # 17-2015
HEARING DATE 10/6/2015

VARIANCE REQUEST

PART I. TO BE COMPLETED BY PETITIONER

Applicant: Celebration Pointe South, LLC Date: 9/3/15

Relationship to Subject Property: Property Owner

Address of Property: 2990 Rancho Blvd, Margate, FL 33063

Legal Description: A portion of Parcel A of the Celebration Pointe Plat, PB 178, page 67 of the BCR.

Describe Variance Requested: Allow for 16' deep parking stall with 2' overhang abutting 7' wide sidewalk. No wheel stop required per section 33.2(B)(2)&(4).

List Details of Hardship: Allow for approximately 175 parking stalls to use 16' deep pavement with 2' overhang of 7' sidewalk allows for larger sidewalks. This design promotes pedestrian connectivity and reduction of asphalt while still providing adequate parking space.

Re: **CELEBRATION POINTE SOUTH – VARIANCE NARRATIVE**
HSQ Project Number: **1305-26**

Dear Andrew:

The developer of the Celebration Pointe South multifamily residential unit project has designed and proposes to develop an upscale product with larger units and attached one car garages directly associated with individual units. This product is meant to be higher end than phase one (North) to avoid direct competition with itself, but compete with other similar high end communities in the neighboring cities. The Celebration Pointe overall development has been designed to be on concert with the TOC design standards on State Road 7 with higher density product with pedestrian connectivity and local community activities. Both phases have their own multifaceted club house amenities, pools and play grounds. The developer requires two variances from the current code to make this customized residential development succeed with only positive results as follows:

Allow garages to count towards overall parking count per Section 33/3(2)(c).

Celebration pointe North (phase 1) was granted a variance to allow parking in the garages to count towards the overall code requirements by reducing the amount of parking required for the site. The required parking count per code is 2 spaces per unit plus one space per every 5 units for guest parking. The TOC requirements for parking is 1/5 spaces per unit plus one space per every 10 units for guest parking for the properties to the West of this site. Per code requirements we are required 555 parking spaces and are providing 559 parking spaces or 2.2 spaces per unit. The TOC zoning district would require 403 parking spaces. We are requesting 184 garage parking spaces to be counted towards the required parking count. The positive elements provided by granting this variance are as follows:

1. The developer has already reduced the number of possible units of 298 to 252 units which reduces the total number of parking spaces required and number of traffic trips on the surrounding roads.
2. Adding 184 more surface parking stalls to the site would reduce the amount of green space by approximately 1.10 acres. This land is currently used for landscaping, lakes and site amenities.
3. The garages are required to be used for vehicular parking and cannot be enclosed for additional storage or interior rooms.
4. Allowing the garages to count towards parking promotes quality high density product while promoting usable open space by reducing pavement requirements.

Allow 16' deep parking stalls with 2' overhang abutting 7' sidewalk with no wheel stop per code section 33.2(B)(2) & (4).

The current code requires 18' deep paved parking stalls with a wheel stop. The proposed variance request provides the same overall 18' deep dimension for parking, but uses the face of the curb as the wheel stop and part of the sidewalk for the overhang. This variance provides the following positive design to the overall site.

1. Reduction of asphalt area will reduce the amount of heat island effect. Providing more white sidewalks compared to black asphalt will reduce the amount of heat generated during the day and lower the ambient temperature of the surrounding area.
2. Wider sidewalks are more enjoyable than narrow sidewalks even with cars present.
3. The look and feel to the 7' sidewalks promotes pedestrian activities while reducing the parking lot atmosphere.
4. This is only for approximately 175 parking stalls out of the 559 parking spaces provided.
5. Many cars will not need the full 18' depth and will only use the 16' deep parking stall allowing for the full 7' sidewalk to be used for pedestrian uses.

Please do not hesitate to contact our office if you have any questions or require additional information.

Sincerely,
HSQ GROUP, INC.

CITY OF MARGATE

BOARD OF ADJUSTMENT

PUBLIC HEARING NOTICE VARIANCE REQUEST BA-16-15 and BA-17-15

You are hereby notified of a Public Hearing before the Board of Adjustment of the City of Margate on Tuesday, October 6, 2015, which begins at 7:01 p.m., in the Municipal Building, 5790 Margate Boulevard, Florida 33063, to consider a request of petitioner, to wit:

PETITIONER: Jay Huebner, HSQ Group, agent for Celebration Pointe South, LLC

VARIANCE REQUEST: **BA-16-15**
PERMISSION to utilize garages for required parking in a multi-family residential development. Sections 19.8 and 33.3 of the Code do not allow garages to be considered as provided parking for multi-family residential development.

VARIANCE REQUEST: **BA-17-15**
PERMISSION to provide 90 degree parking spaces that are 9 feet wide by 16 feet deep that do not provide wheelstops, and abut a sidewalk that is 7 feet wide. Section 33.2 of the Code requires the use of wheelstops in any parking space abutting any sidewalk or walkway. Code requires that 90 degree parking stalls maintain a minimum dimension of 9 feet wide by 18 feet deep, but allows for a 2 foot reduction in stall depth for vehicle overhang when the parking stall abuts a curbed landscape area that is at least 7 feet wide.

SUBJECT PROPERTY: 2990 Rancho Boulevard, Margate, FL 33063. Planned Unit Development (PUD) District Zoning. A portion of Parcel A of the Celebration Pointe Plat, according to the plat thereof as recorded in Plat Book 178, page 67 of the public records of Broward County, Florida.

All interested persons may be present at this public hearing and be heard regarding the above-mentioned matter. All representations made in front of this Board in the granting of any permit shall be deemed a condition of said permit.

If a person decides to appeal any decision made by the Board of Adjustment with respect to any matter considered at this meeting, she/he will need a record of the proceedings and for such purpose may need to ensure that a verbatim record of the proceedings is made which record includes the testimony and evidence upon which the appeal is to be based. (Anyone desiring a verbatim transcript shall have the responsibility, at his/her own expense, to arrange for the transcript). Any person wishing to appeal a decision of the Board of Adjustment to the City Commission must do so in the City Clerk's office within seven (7) days of the written decision of the Board.

Any person with a disability requiring auxiliary aids and services for this meeting may call the City Clerk's office at (954) 972-6454 with their request at least two business days prior to the meeting date.
