PHONE: 954-829-4096	JOB FAX:

We hereby submit specifications and estimates for:

RE ROOF- AIR CONDITIONING INSPECTION

Existing units are 15 and 20 years old and are falling apart. They need to be replaced. The existing curbs are currently less than 8". They are too small to mount units to pass code and are supported by wood at overhangs. The current hurricane code requires them to be at least 14" tall. The existing units are side by side with dog houses and need to be down flow.

Recommend removing units & curbs and having new, custom curbs built with engineering to be set over existing duct work through the roof. Installing new Rheem 3 ½ and 5 ton, 14 seer, R410A package units, 10kw of heat for both units, manual fresh air dampers, new digital programmable tstats, new safety float switches, and hurricane tie down kits with engineering. Includes all parts, labor, materials, equipment, permits, cranes and engineering. 5 year parts, 1 year labor warranty.

COMPLETE TOTAL \$14,978

½ Down and ½ upon Start up

The A/C Guy, Inc. authorized by: _____JOHN _____ NOTE: this proposal may be withdrawn by us if not accepted within _____ days.

ACCEPTANCE OF PROPOSAL: *The above prices, specifications and conditions are satisfactory and ware hereby accepted. You are authorized to do the work as specified. Payment will be made as outlined above.*
