Dear Mr. Jones,

I have included the specifications for our Mastodon Batting Cage System.

There are four things that make our system unique.

One is the Stryk 5388 coating for the steel poles. It gives us the ability to give you a 20 year warrantee on the poles, which I have never seen anywhere else.

One is the cable tensioning system that is incorporated into the pole, the system that we use gives you over twenty four inches of pull which means that you will never run out of tensioning, unlike other systems.

One is the netting, we have a proprietary specification we call KVX 200 which gives us the ability to give you a five year warrantee on the netting.

One is the shared pole design that allows fewer poles, but still gives you 24" between the netting so people's chances of getting hurt by ball impact while they are using the cages is very small.

Our Mastodon system is truly a unique system.

Thank you very much,

H. Vann Boschma
