City of Margate DEES
Attn: Wendell Wheeler

RE: Air Fresh Linen (Item#: 5741)

Superco Specialty Products is the sole provider of Superco Air Fresh Linen, a remarkable malodor counteractant with a pleasant linen scent. It is most often used as a space or contact spray to counteract malodors that either airborne or embedded in carpets, upholstery or other textiles. It has a non-staining formula so Air Fresh Linen can be applied without worry of damage.

Please contact your Superco Specialty Products representative, Rebecca Levy with any questions you may have.

Re: Rockwell Automation Authorized Allen-Bradley Distributors

Rockwell Automation extends and enhances its own significant automation capabilities by partnering with a network of authorized distributors. Some of the many benefits that customers enjoy working with their local authorized Allen-Bradley distributor include:

- Access to local distributor inventory (including spares and replacement parts)
- Technical assistance from local distributor product specialists
- A knowledgeable staff that has access to factory training
- Rockwell Automation support of local distributor activities

Rexel – Ft. Lauderdale, FL is the only distributor authorized by Rockwell Automation to sell Allen-Bradley and Rockwell Software products, along with related services, in the geographic area in which your facility is located. As a matter of Company policy, Rockwell Automation only provides product and sales support to the local authorized distributor, and it is our practice and policy to always promote and recommend that customers buy from their local authorized Allen-Bradley distributor. Rockwell Automation discourages purchasing from non-authorized sources, including distributors who may hold an Allen-Bradley appointment in another area.

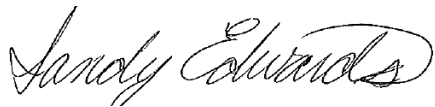

If you purchase Allen-Bradley products from an unauthorized source, you may not receive the latest version. The latest version of Allen-Bradley products, along with related factory product services, only is available through your local authorized Allen-Bradley distributor.

Also, products that are not purchased directly from Rockwell Automation or its local authorized distributor may not be covered by a manufacturer's warranty. Rockwell Automation's standard manufacturer's warranty covers new Allen-Bradley products for a period of one year from the date of Rockwell Automation's or its authorized Allen-Bradley distributor's invoice to the customer. As a result, there is no assurance that products sourced from unauthorized parties will carry a valid and unexpired manufacturer's warranty. Customers purchasing products from unauthorized sources should not assume that they will receive any rights under any Rockwell Automation factory warranty. Only an authorized Allen-Bradley distributor may offer access to factory warranty coverage on Allen-Bradley products.

We recognize that price can be an important consideration in any purchasing decision; however, it also is important that customers understand what they are getting for that price (or in the case of purchases from an unauthorized source, what they're not getting). Rockwell Automation firmly believes that the best customer value in the long-run is achieved by dealing with the local authorized Allen-Bradley distributor.

Should you have any further questions, please do not hesitate to contact **REXEL** at 954.389.2253 or our local Rockwell Automation sales office at 813.466.6400.

Respectfully,

A handwritten signature in cursive script that reads "Sandy Edwards".

All parts are provided and many exclusively manufactured by Alfa Laval, Inc. the Original Equipment Manufacturer of your equipment. Whereby Alfa Laval purchased Ashbrook Simon-Hartley Operations L.P. and Ashbrook Simon-Hartley is now doing business as Alfa Laval, Alfa Laval from henceforth is the Original Equipment Manufacturer of the Klampress®, Winklepress®, and Aquabelt®. Thus, we are the sole source provider for O.E.M. replacement parts.

Alfa Laval, Inc. continues to develop and bring technology to our industry. Due to the sensitive nature of Alfa Laval, Inc. technology our equipment and most replacement parts are either proprietary or patented, as each is designed specifically for your equipment, the application, and expected use; therefore, others cannot legally manufacture our equipment or offer Alfa Laval, Inc. replacement parts.

Constant investment in research and development, a commitment to quality, and improving our new equipment and our equipment currently in operation around the world, allows Alfa Laval, Inc. to bring the latest developments in technology to our industry and clients. This includes patented or proprietary items such as chicanes, wedge adjustments, cylinders, hydraulic systems, bearing housings, rollers, steering and tension systems, and so on. An illustration of this commitment is our quality assurance program; Alfa Laval, Inc. is the only manufacturer within our specific industry which is certified to ISO 9001 quality standards.

Thank you for requesting this information and the opportunity to fully explain our commitment. If you have any questions I can be reached 1-800-547-7273 or direct line 281-985-4451.

RE: TASER INTERNATIONAL, INC. NAME CHANGE

To whom it may concern:

On April 5th, 2017 TASER International, Inc. changed its corporate name to Axon Enterprise, Inc. Based on our evolution as a business over the last 23 years, as well as the continuously evolving needs of law enforcement, we see the future of policing as demanding a connected approach to technology. The Axon network of devices, apps and people *is* that connected approach, and is the natural umbrella for our expanded offerings today and in the future. We're very proud of the TASER weapons that remain an important part of the network, and that brand will live on as a product name.

Please be advised that all contracts will be honored in their existing form, and all invoices will be issued as usual, just reflecting the new legal name of Axon Enterprise, Inc. In addition, our FEIN will remain the same. Please find our new W9 attached to this letter.

If you have any questions or concerns, please do not hesitate to reach out to me directly or contracts@axon.com.

To Whom It May Concern,

Thank you for your interest in Cardiac Science Powerheart® Automated External Defibrillators (AED).

This sole source justification document provides an overview of the proprietary features of the Powerheart G3 Plus, G3 Pro and G5 AED. Each of the AEDs described in this document are manufactured by Cardiac Science at our manufacturing facility in Deerfield, Wisconsin.

Powerheart Automated External Defibrillators are the only FDA cleared, commercially available automated external defibrillators to provide the following proprietary features and functionality:

- Rescue Ready® Technology
- STAR® Biphasic Waveform Technology
- RHYTHMx® Algorithm Analysis Technology
- Rescue Coach® Prompting Technology
- Intellisense® Battery Technology
- Intellisense™ Defibrillation Electrode Technology

The Powerheart® G3 Plus introduced the industry-leading features listed above and fully automatic functionality to the global market. This was followed by the Powerheart® G3 Pro which includes the industry's first AED with backlit color ECG display, manual override defibrillation functionality and 3-lead ECG monitoring capabilities.

In May of 2015, Cardiac Science introduced the Powerheart® G5 – the first and only AED cleared by FDA (K122758) to combine fully automatic AED operation, variable escalating energy, optional dual-language functionality, fast shock times and real-time CPR feedback to give a victim of sudden cardiac arrest the best chance at a favorable outcome.

Please contact your local Certified AED Specialist or me with questions.

Dear Customer,

Please be advised that the National Institute for Truth Verification Federal Service (NFS) is the **Sole Source** for the Computer Voice Stress Analyzer II (CVSA® II) and its training programs.

NFS is the exclusive manufacturer/distributor of both the CVSA®/CVSA® II and has no US distributors. The CVSA II incorporates two US Patents: US Patent Number 7,321,855 "*Method for Quantifying Psychological Stress Levels Using Voice Pattern Samples,*" and US Patent Number 7,571,101 "*Quantifying Psychological Stress Levels Using Voice Patterns.*" NFS is the only Voice Stress Analysis (VSA) manufacturer holding patents for its VSA technologies. The FACT® Scoring System is only offered by NFS, and can precisely quantify stress in the human voice and evaluate CVSA examination charts as Deceptive or Non-Deceptive with an accuracy level greater than 98%. Additionally, the CVSA is an approved GSA item for all US Federal Agencies, has been approved by the US Federal Court System, and is used by approximately 2,000 US and International Law Enforcement Agencies as well as elements of the US Military and US Federal Agencies.

For more information please visit our company website at www.cvsal.com.

City of Margate
5790 Margate Boulevard
Margate, Florida 33063

Attn: Donna Hicks

Subject: Authorized Eaton Corporation - Direct Sales and Service Provider

Reference: Eaton Electrical Services & Systems 2017

Eaton Corporation purchased the Westinghouse Distribution and Control Business Unit (DCBU) in 1994. This acquisition included all manufacturing operations and technology used by Westinghouse to manufacture and sell electrical distribution and control products. As the current manufacturer of Westinghouse and Cutler-Hammer distribution equipment, the current design and manufacturing information, and all current revisions and modifications to products, are held by Eaton Corporation.

Eaton Corporation created a new division in late 1997, now called the Eaton Engineering Services and Systems Division, in order to directly provide field engineering and service.

Today, pursuant to the agreements regarding the acquisition of the DCBU from Westinghouse in 1994, the only companies which are permitted to manufacture and sell electrical distribution equipment with an Eaton, Cutler-Hammer or Westinghouse trademark is Eaton Corporation. Eaton Electrical Services and Systems is the only engineering group which is authorized by the manufacturer to work on Eaton, Cutler-Hammer and Westinghouse electrical distribution products.

Our EESS engineers are available 7 days a week and can be reached by calling our office or our 24-hour hot line at (800) 498-2678. Included with this letter is a copy of our EESS -Technical Support and Service Rates in effect at this time along with Selling Policy 25-000. We offer a one-year warranty on all services and parts. If you have any questions regarding this information or requests for services please contact Angel Gomez on his cell @ 305-308-8081 or feel free to contact me directly at my office, 954-571-8282 ext.16 or cell phone 954-914-3669.

SOLE SOURCE LETTER

Environmental Systems Research Institute, Inc. (Esri)
380 New York Street
Redlands, CA 92373
E-mail: jricks@esri.com

DATE: June 28, 2017

TO: City of Margate

FROM: Jackie Ricks, Esri Contract Coordinator/Contracts & Legal Department

RE: Esri Sole Source Justification for Geographic Information System Software

This letter confirms that Esri, as owner and manufacturer, is the sole-source provider of software maintenance (technical support plus Esri software updates/upgrades) for Esri products in the United States.

Esri is the sole-source provider of the following Esri products in the U.S. commercial, state, and local government marketplace:

- AppStudio for ArcGIS
- ArcGIS Desktop & Extensions Subscription (Basic, Advanced, Standard)
- ArcGIS for Aviation Bundle
- ArcGIS Desktop Advanced
- ArcGIS Desktop Standard
- ArcGIS Developer Subscription
- ArcGIS Enterprise
- ArcGIS for Maritime Bundle
- ArcGIS for Server and extensions
- ArcGIS GeoAnalytics Server
- ArcGIS GeoEvent Server
- ArcGIS GIS Server and extensions
- ArcGIS Image Server
- ArcGIS Online (excluding data owned by 3rd party providers)
- ArcGIS Runtime and Extensions
- Drone2Map for ArcGIS
- Esri Business Analyst Online
- Esri Business Analyst Server
- Esri Community Analyst
- Esri Defense Mapping Bundle
- Esri MapStudio
- Esri Maps Products
- Esri Roads and Highways
- Esri Services Packages
- Insights for ArcGIS
- Navigator for ArcGIS
- Portal & Hosted Portal for ArcGIS
- Training Courses

In an effort to support diversity in federal contracting, Esri has authorized certain businesses (see GSA Advantage! for details) as resellers of perpetual licenses for the following Esri products to eligible entities purchasing under a GSA Schedule. Esri GSA resellers cannot sell Esri software to state or local entities:

- ArcGIS Desktop Advanced
- ArcGIS Desktop Standard
- ArcGIS GIS Server and extensions
- Esri Business Analyst Server

Esri also distributes certain software licenses in combination with non-Esri software or services through open-market value-added resellers and OEMs. If you have further questions, please contact me at 909-793-2853, extension 1-1990.

Subject: Sole Source Proposal

Dear Donna,

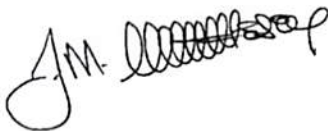

There are only two known ways to heat an emergency diesel generator, resistance block heaters, and GEO-THERMAL SYSTEMS® heat pumps.

This is to certify that GEO-THERMAL SYSTEMS®, INC. is the only company in the world that provides heat pumps for the heating of emergency diesel generators. As owners of the patent, we are the sole source for the patented GEO-THERMAL SYSTEMS® heat pumps.

Geo-Thermal Systems, Inc. is the owner of U.S. Patent No.: RE 33,051, which describes the system that utilizes recovery heat from a heat pump to provide heat to a diesel engine.

We look forward to continuing to contribute to the City of Margate's energy conservation efforts.

Sincerely,

As an authorized John Deere Construction Equipment Distributor, Nortrax Equipment Company maintains an inventory of replacement parts and a staff of factory trained technicians to provide services and support to users of John Deere and Hitachi Construction Equipment.

On occasion other parts suppliers have attempted to represent themselves as suppliers of genuine John Deere and Hitachi parts. Please be advised that John Deere and Hitachi parts are sold only through Authorized distributors. John Deere and Hitachi Construction Equipment Companies do not provide other suppliers with design specifications, nor authorize any other manufacturer to make or distribute current John Deere or Hitachi replacement parts.

If you have any questions regarding identification of an authorized John Deere or Hitachi Distributor please call me at 608-774-4102.

Sincerely,

LaMar Hereford

Harrell's, LLC
P.O Box 807
Lakeland, FL 33802

To Whom It May Concern,

Harrell's is proud to be the exclusive United States formulator and distributor of all POLYON® branded products which includes POLYON® NPK, POLYON® Kmag, POLYON® SOP, POLYON® MOP, and POLYON® MAP. The POLYON® technology (owned by Koch Agronomic Services, LLC) is a patented process which cannot be duplicated.

Any fertilizer products containing POLYON® purchased from the United States must be purchased from Harrell's, LLC or its authorized distributor. This includes all nitrogen, phosphorous, potassium and minor elements which have been coated with POLYON®.

Sincerely,

A handwritten signature in black ink, appearing to read 'Greg Nicoll', is written over a horizontal line.

Harrell's, LLC

KOCH AGRONOMIC SERVICES, LLC

August 10, 2016

Harrell's, LLC
P.O. Box 807
Lakeland, FL 33802

Re: Distribution Arrangement for POLYON Products

To Whom it May Concern:

Please be advised that Harrell's, LLC (Harrells) based in Lakeland, Florida is the sole distributor with a current supply agreement authorized to sell POLYON® controlled release fertilizer products in professional markets – professional sales channels to professional users and applicators - in areas of the United States located west of the eastern borders of Montana, Wyoming, Colorado and New Mexico. This is based on an agreement between Harrells and Koch Agronomic Services, LLC (KAS) which currently extends through December 31, 2024.

Please share this letter with your customers, as appropriate, as evidence of the distribution arrangement between KAS and Harrells.

As always, we value your business and look forward to seeing it grow.

Sincerely,

Margate, FL 33063

Donna Hicks:

Thank you for your interest in our *EAGLE II* Series RADAR unit. For your records, we would like to provide the following statement: **Kustom Signals, by signature below, certifies that it is the "sole source" manufacturer of the *EAGLE® II* Series RADAR.**

For your information, I've listed a few features and capabilities that make the *EAGLE II* Series unique:

- True DSP (Digital Signal Processing) technology allows us to program the *EAGLE II* Series to recognize various signals, resulting in the ability to minimize fan speed interference.
- TruTrak allows radar to use the patrol vehicle's speedometer as a reference. The speedometer tells the radar where to "search" for the patrol vehicle return speed. As a result, patrol speed related problems such as combined speeds, splitting speeds and shadowing are eliminated.
- Four models are available to suit your needs and budget. Features range from the basics such as RF Hold, range control and target speed lock, to the "loaded" Golden *EAGLE II* with Same Direction, Fastest Vehicle and Stopwatch Modes. You can also choose K-, and Ka-band antennas.
- The *EAGLE II* Series is one of the smallest radar series available. While all *EAGLE II* radar are compact, the Golden *EAGLE II* features a control/display that can be easily detached from the counting unit and mounted almost anywhere.
- The third display allows you to lock a target speed then continue monitoring it in the active display for unbeatable tracking history.
- It has the ability to interface to our Digital Eyewitness® In-Car Video system to help establish "probable cause."
- The buttons provide "tactile feedback". This is a small detail but one we've found is preferred by users.

I hope this information is helpful. If you need anything further, please do not hesitate to give me a call at 1-800/4KUSTOM (458-7866). You can reach me from 7:00am to 4:00pm, Central Time.

Sincerely,

A handwritten signature in blue ink that reads 'Tony Campos'.

Dear Ms. Hicks:

Thank you, City of Margate for your interest in the MSA product line.

This letter confirms that Ten 8 Fire Equipment Inc is the sole authorized distributor of MSA SCBA and Thermal Imaging Cameras for the Municipal Fire Service Market for Broward County, Florida.

By way of background, in the fire service / first responder markets, MSA imposes specific requirements upon our distributors, which can result in a small number of distributors authorized to call upon a particular region. We impose these requirements because the equipment we manufacture and sell requires the involvement of partners with special knowledge, training and experience. Accordingly MSA's distributors are obligated to acquire and maintain extensive knowledge, training, and experience necessary to properly educate, assist and service our end user customers before, during and after the sale. MSA's fire service / first responder distributor qualification requirements are likewise intended to ensure the highest possible end user customer experience.

If you desire additional information about MSA, its product lines, or channel partners, please do not hesitate to contact me. Thank you for your interest in our products.

Sincerely,

Re: Sole Source Purchase of OCP&E® Brand Chemicals

Dear Ms. Hicks:

OCP&E® Brand chemicals are sole sourced throughout the State of Florida by Publicly Owned Treatment Works (POTWs). The following is a list of justifications for sole source purchase of OCP&E® Brand chemicals:

1. OCP&E® Brand chemicals are unique and proprietary; there are no equivalents in the marketplace. For example, OCP&E® Brand Peroxibase II is the only 12% hydrogen peroxide based chemical with an industrial grade peroxide stable deodorant, special surfactants, and a silicone defoamer. There is no equivalent in the marketplace. Whereas the City can procure various levels of hydrogen peroxide (12%, 25%, 35%, 50% and so on), the City cannot procure a chemical similar in chemical composition and performance to Peroxibase II. OCP&E® can provide other examples, if necessary.
2. OCP&E® is the sole manufacturer of OCP&E® Brand chemicals.
3. OCP&E® is the sole distributor of OCP&E® Brand chemicals.
4. OCP&E® is the sole owner of OCP&E® Brand chemical formulations.
5. OCP&E® chemicals have been publicly advertised for bid on Demandstar™ by other public utilities, and there were no other bidders able to provide OCP&E® Brand chemicals.
6. OCP&E® can furnish the City with dozens of purchase orders issued by other public utilities where the chemicals were purchased on a sole source basis.

Best Regards,

Ms. Cinda Bennett

Owner and President
OCP&E® is a 100% WBE, certified drug-free workplace, and a SBE/SDB.

Subject: Purafil Sole Source Letter

Dear Donna:

F.J. Nugent group represented by Fred Nugent is Purafil ESD's sole and exclusive authorized representative for chemical filtration and environmental monitoring products and service for Purafil in all parts in Florida except the panhandle. This includes all publicly owned and operated water and waste water treatment facilities in South, Central, and Eastern Florida.

F.J. Nugent is the ONLY company in South, Central, and Eastern Florida which is authorized and technically supported by Purafil ESD of Doraville, GA, USA to market, distribute, service, and support Purafil ESD current and future installations in the municipal market.

Purafil ESD's technology comes with a number of no charge added value services, required to be performed for proper system installation and performance. F.J. Nugent is authorized and factory trained by Purafil as a Purafil authorized service provider for Purafil, Inc. technologies.

Also, as per Purafil ESD's operating principles - one of many things that the end user gets is free access to Purafil ESD scientists and technical support team. This is crucial to an end user, as gaseous contaminants are known to change over time. This in turn would require Purafil to get involved and recommend a more unique or tailored chemical media for the removal of these newly introduced contaminants. If the original product is not a Purafil, Inc. supported product, this service like many others will not be extended.

Please let us know if you require additional information.

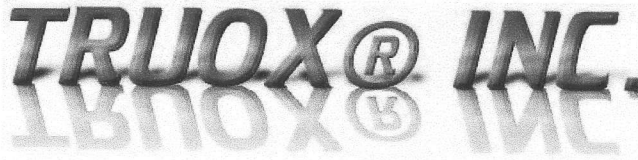

Thank you.

Sincerely,

Chris Moon

Margate WTP

Subject: City of Margate, FL – Margate WTP
RDP Project #25024

Ms. Hicks,

In response to your request, The TEKKEM™ Slaking system is a fully automatic low maintenance method of slaking lime . The engineered system installed at Margate, FL is proprietary in nature, specifically developed for RDP's Tekkem Slaker system. As such, it is protected by U.S. patent #5,746,983, #7,416,673, and #8,133,401 B2. While RDP is appreciative of the bonds that we have formed with the city of Margate, in particular the Margate WTP, we would be unable to support or troubleshoot "third party" components that were purchased to substitute that which was originally manufactured and configured for RDP's proprietary process.

Please do not hesitate to contact me if you require further clarification on the contents of this letter.

Very truly yours,

Robert Christy

Re: Safety Inspection Program for your SafeAirCo Air Filtration System
2016-2017

Attn: Steve Erched

Safe Air Corporation (SafeAirCo) would like to thank you for allowing us to help protect your Fire Department members with the SafeAir Vehicle Exhaust Removal System.

SafeAirCo have been the leaders in providing Diesel Exhaust Removal for the fire service for over two decades. Today, fire departments that have invested in the daily use of these systems are seeing the positive benefits of reduced cancer rates in their departments. Other departments who have not complied with studies, standards and recommendations advocated by IARC, NIOSH, OSHA, NFPA, IAFF on controlling diesel exhaust, have not been as fortunate.

On June 12 2012 the World Health Organization / International Agency for Research on Cancer classified Diesel Engine Exhaust to be Carcinogenic to Humans. This position has now been recognized by NIOSH, IAFF and other health and safety groups.

Please go to www.safeairco.com or visit the link below for more details:

- http://www.iarc.fr/en/media-centre/pr/2012/pdfs/pr213_E.pdf

Now that diesel engine exhaust has been elevated to a Group1/A1 carcinogen to humans, this makes your diesel exhaust removal system now part of Life Safety Equipment for your Department's fire stations. It is very important to keep it operating at peak performance.

We know that in these difficult budget times, many cuts are made in the name of savings. Your SafeAir Air Filtration System should not be one of those cuts. I am sure you know fire fighters and members of other departments who have suffered from cancer or died from their battle with cancer.

The "Safety Inspection Program (SIP)" that SafeAirCo offers will help prevent your system from leaving your fire fighters exposed to vehicle exhaust emissions due to neglected or out of service equipment.

Take a minute to look at how many emergency calls you have made over the life of your system and add 25% for non-emergency calls and you will clearly see that our systems have performed with honor. Many of the original vehicles that the system was installed on are long gone or are in reserve status.

"Protecting the Health of Heroes"

We know that many of our customers have had our diesel exhaust removal systems for many years and may take them for granted. We ask that you recommit and allow us to provide the necessary safety inspection program to keep your systems working at peak performance and allow us to retrain your fire fighters and staff as to the importance of this system to their health, safety and welfare.

Many of you have made substantial investments or have received Federal Grants (AFG) to install your exhaust removal systems to provide the protection needed. The continued SIP/FRP investment you make will reduce your cities risk and provide a healthier work environment and ultimately protect your # 1 asset – the Firefighters of your Department.

The following is our proposal for your Department's Safety Inspection Program and Filter Replacement Program (SIP/FRP) which would be provided by SafeAirCo, the sole source for OEM Parts and Service.

Benefits of Safety Inspection Program (SIP/FRP)

- Advanced scheduling and follow-up
- Fixed Annual Budgeting Cost
- Proactive Relationship with Fire Fighters
- Reduced labor cost
- Reduced parts cost
- Limited emergency calls
- Single point responsibility
- Increased equipment life span
- Service@safearco.com

Service@safearco.com – SafeAirCo has established an email link to allow firefighters and logistic personnel to ask questions, send photos or report service problems that may come up. This email reporting system reduces the time for repairs to be identified and repaired. This gives clear communication when reporting a service call and allows SafeAirCo to keep a clear record of all calls, warranty or non-warranty, on your system and report back to your logistics or facility maintenance, the cause of the problem and the action taken.

Benefit: Rapid reply and repairs with verifiable reporting.

Trained service technicians – The use of local trained service technicians will guarantee that the level of service performed on the system will be of the highest quality possible. Our service technicians are required to undergo yearly certification courses that keep them up to date with new product and service solutions which benefit you as the customer. Our service technician will perform both warranty and non warranty service on the system.

Benefit: Single point of service responsibility provides greater consistency of service and communication.

“Protecting the Health of Heroes”

Spare parts inventory – SafeAirCo maintains a spare parts inventory on our service vehicles which allow us to provide corrective action on most worn and defective parts during our SIP/FRP visit.

Benefit: This prevents the City's cost of inventorying spare parts or unnecessary overnight freight charges to receive spare parts rapidly.

42 Point Inspection program - our inspection process is computer based for reporting purposes and encompasses 42 points of inspection to insure 100% customer satisfaction and no points are overlooked.

Benefit: Online service allows us to review in “real time” all the service requests and service fulfillments to identify trouble spots which lead to excessive service or downtime thus saving time and money for the department and city.

Training and Personnel Relations – We have found with nearly all departments that training and personnel relationships are the key element in maintaining the systems performance. SafeAirCo has been providing equipment and service to fire departments for over 25 years. Over that period of time we have seen many changes in the fire service. The turnover of personnel in many departments over the last 6 years due to retirement, downsizing and new staffing has been significant. Today's demand on fire service personnel leaves them little time for training on what they believe to be routine equipment. The PlymoVent system is so easy to use but so important to the health and wellness of the firefighters that it is essential that we train all members of the department to be familiar with the operation of the system use and benefits. This on-sight training is reinforced during our scheduled visits thus allowing new recruits to be educated without impacting any department schedules or routines. The SafeAirCo service technicians are certified and will provide on-sight training during the SIP/FRP service calls at your station.

Benefit: Training and personnel relations greatly improve the fire fighters buy-in and ownership of the system; thus, reducing operator errors, misuse and/or abuse.

Safety Inspection Program - Price Proposal

The following is our recommendation for the SIP/FIP for the **City of Margate** fire station(s) which consist of a total of **11** active SafeAir Air Cleaning Devices (ACD). This price proposal takes into account labor and Parts/Filter for the service of the stations listed in this proposal. The pricing listed below does not include the cost of labor and parts due to road / station damage, new vehicles put into service, electrical or mechanical storm damage, misuse/abuse, false alarms or upgrades of the SafeAir system that may be offered from time to time.

“Protecting the Health of Heroes”

Annual Cost for SIP Agreement

3 times per year (every 4 months) is our recommend frequency for your stations based on your call volume, service history and age of equipment. This frequency of SIP/FRP will take into account the required annual labor and parts necessary to maintain the system in optimum working order and make the necessary adjustments and repairs.

- Safety adjustments of system components
- Repair or replacement of parts, as required
- Replacement all Stage 1 Air Filters 3 times a year
- Replacement all Stage 2 & 3 Air Filters Annually
- Safety testing the system for proper operation
- Reporting to department of finding

Total annual cost for this program – \$628 x (11) ACD Units = \$6908.00

Terms: Payment once a year at time of approval of agreement.

Note: This agreement is based on your systems being in good condition and in operating order before this contract goes into effect. Prior inspection of the system may be made prior to agreement going into full effect.

Station(s): 18, 58 and 98

Accepted and approved by (print name): _____

Signature: _____

Department: _____ **Date:** _____

Safe Air Corp (print name): _____

Signature: _____ **Date:** _____

In closing, we would like to thank you for the relationship that we have experienced in the past with the **City of Margate** and the members of the fire service staff. We appreciate the opportunity to continue to serve your department with a Safety Inspection Program Agreement as outlined above.

If we can be of any further assistance to you, please feel free to contact us at your earliest convenience. If you would like to see all of what SafeAirCo can do for your Department, please go to www.safeairco.com.

Memo

To: Ms. Donna Hicks/City of Margate

From: Howard Schemer/FLIR Systems, Inc

In Re: Sole Source Memo

Dear Ms. Hamlett:

Please accept this letter as verification as Sole Source of the SkyWatch tower. SkyWatch is an exclusive product line manufactured by FLIR Detection, Inc (A fully owned subsidiary of FLIR Systems, Inc). The SkyWatch tower is a mobile, platform based surveillance tower that elevates to 25 feet and is deployed by the DOD, Law Enforcement Agencies, US Customs and Border Protection for applications that include: Emergency Response, Flight Line Protection, Perimeter and High Crime Surveillance, Crowd Control, Special Events (i.e. Air Shows, VIP Protection, etc), and more.

In order to distinguish the SkyWatch product within the market place, the following distinguishable Salient Characteristics are listed below for the Sentinel SkyWatch Models you currently own and purchased in 2010.:

SkyWatch Frontier Model Salient Characteristics

- Only maker of Arched ascent and descent lifting mechanism (**non-scissor lift**)
- 25 foot vantage point (eye level in cab)
- Ground level entry/wheel chair accessible compartment
 - No steps or guardrails necessary
- No tethering needed – stable in winds up to 40 mph
- Dual hydraulic pump system
- Steel Cab
- Shore power or Diesel Generator power operation
- 98 Gallon Fuel Tank
- Unit can run for over 5 days without refueling
- Solar panel for drip charge to start battery
- 12 month parts and labor warranty (GSA)
- References available throughout US Military, Law Enforcement Agencies, US Customs and Border Protection, etc.

Other Important Considerations

- Deployed Width - Outriggers Set 15ft 6in
- 3'+ Footed Outriggers
- 4 Tinted- Sliding Windows
- Steel Outriggers: ¼ inch Tube Steel
- Trailer: Steel: ¼ inch Tube Steel
- Weight Capacity in Cab 500 pounds
- Wind Speed Meter

- 4 Roof Mounted Flood Lights
- Climate Controlled (Heat & AC)
- Swivel Chair
- Two 110V GFI outlets
- One 12V outlet
- 5K Dual Axle 15" Single Wheel
- Other sensor options can be added i.e. Cameras, Speakers, etc.
- Fail safe hydraulic system with electric and manual ascent and descent controls inside cab and in operational compartment.

Company Relevant Experience

- Over 800 Units Deployed Since 2002
- Heavily Used By US Military, Law Enforcement Agencies, US Customs and Border Protection
- 18 Year Product Development History

Kindest regards,

Dear Ms. Hicks:

THOR GUARD, Inc is the sole manufacturer and sole, authorized marketer of THOR GUARD Lightning Prediction and Warning Systems. THOR GUARD is the only company in the world that manufactures a true lightning prediction system based on changes and shifts of earth's electrostatic atmosphere.

THOR GUARD products are American made. All aspects of our business including our executive team, employees, research, development, and manufacturing are based in Sunrise, Florida.

THOR GUARD products are designed and operate through the use of our exclusive proprietary technology. Our Patent and Trademark numbers are 4,095,221 and 2,390,039, respectively. THOR GUARD has not authorized any company or individual to manufacture our products or utilize our unique trade secret engineering and software systems. We are not a franchisor. Only authorized sales and services representatives of THOR GUARD have access to authentic, THOR GUARD products as well as the service expertise to properly install and maintain our systems.

We hope this position statement provides you with the necessary information to distinguish THOR GUARD lightning prediction technology from existing lightning detection systems which assert to compete with THOR GUARD.

Thank you for your continued support of THOR GUARD products. Please contact us if you have any questions or require additional information.

Very truly yours,

Jason Wolk

12/30/16

Margate Police Department
Attn: Sgt. Druz bik

Sgt. Druz bik

I am pleased you are considering Vigilant Solutions as your LPR provider. In order to support a 'sole source' justification for Vigilant Solutions' LPR technology and LEARN server analytic software, I ask that you review the following details and specific points only offered by Vigilant Solutions. Additionally, please note that Vetted Security Solutions is a Certified Vigilant Reseller Partner and can deliver all of the following to your agency. Additionally, Vetted Security Solutions is currently the ONLY reseller in the State of Florida building and supplying trailers to our Florida agency customers. These Vigilant/Vetted customer agencies with trailers include: Hollywood PD, Pembroke Pines PD, Coral Springs PD, Homestead PD, Lee County Sheriff's Office, Collier County Sheriff's Office, and Naples Police Department.

With well over a thousand agencies nationwide, Vigilant Solutions is now the leading provider of LPR technology in the US. Our leading technology provides the following:

- Vigilant Solutions owns and manages the single largest license plate recognition (LPR) data sharing initiative, known as the National Vehicle Location Service (NVLS). NVLS consists of almost Five(5) billion LPR scans, and is growing at a rate of 100-120 million monthly scans. This data consists largely of "Private" commercially acquired data harvested by Vigilant Solutions and made available for law enforcement use. This extensive LPR data set, available exclusively through LEARN from Vigilant Solutions, provides intangible value from an investigative perspective inside of the LEARN suite of applications.
- LEARN offers an exclusive application known as the Mapping Alert Service (MAS). MAS enables your agency to leverage the NVLS data sharing initiative to match ALL available LPR data against any/all agency hotlists and provide "hits" on a map interface with agency-customizable icons. This can be used both to locate vehicles of interest as well as visualize "hot-spots" for predictive policing efforts.
- LEARN offers an exclusive application known as Stakeout that will allow your agency users to enter an address or location to see all "visits" by an LPR system to the selected area. Your Users may then select particular visit(s) and virtually "stakeout" a location, seeing all LPR scans collected by a driver on that given "visit". This analytic tool will allow the USER to get a license plate on an unknown vehicle as well as allow the area to be searched for a make and model of vehicle...again, providing the license plate of that vehicle. This feature is available ONLY through LEARN from Vigilant Solutions.
- LEARN offers an exclusive reporting option in its Stakeout application allowing for multiple points of interest to be defined on a map, with corresponding geo-zones and times/dates, for the location of "common plates" that are seen in more than one of the locations of interest. This feature allows for investigations into pattern crimes (robberies, burglaries, sex offenses, etc) for generating leads into the identification of serial offenders and the identification of associated members of organized criminal enterprises. This reporting capability is available only through LEARN from Vigilant Solutions.
- LEARN offers an exclusive query utility known as Associate Analysis. A query on a known plate can be sent for Associate Analysis to identify other vehicles commonly seen in close proximity to the suspect vehicle. This is very useful in identifying possible associates of a known suspect, or perhaps establishing a pattern of surveillance between a perpetrator and a victim. Associate Analysis is available only through LEARN from Vigilant Solutions.
- LEARN offers an unmatched query capability that includes the ability of a user to define a search geo- zone through simple drawing tools on a map interface. Available drawing tools include rectangles, circles, and custom

*Protecting Officers,
Families and Communities*

polygons.

- LEARN offers an exclusive application known as Locate Analysis which is designed to provide a probabilistic assessment of where to most likely locate a suspect vehicle. Locate Analysis groups LPR detections around addresses, tells you how many visits to these addresses have been conducted by an LPR-equipped vehicle, tells you how many times a suspect vehicle has been seen at each location, tells you if the suspect is more likely to be seen during the day or night at each location, tells you the most recent and most popular locations, provides you with an interactive and chronological map view, and also compiles all of this information into a simple Locator Score, giving immediate and actionable information on where and when you are most likely to find your suspect. This analytic tool is available only through LEARN from Vigilant Solutions.
- Vigilant Solutions is the only vendor to provide the ability to administer software updates to field- installed LPR systems directly from the back-office. Software updates from Vigilant are made available to Agency Managers in LEARN, and can then be pushed out to systems in the field via standard LEARN server-to-end point communications. This feature saves time for the Agency in administering field software updates.
- Finally, Vigilant Solutions offers an exclusive smartphone application known as the LEARN-Mobile Companion. It is available for both iPhone and Android devices. The LEARN-Mobile Companion allows for an agency user to capture license plate images for checking against agency hotlists, contribute plate reads to NVLS, receive alerts on matches against agency hotlist, and also perform queries against all available LPR data (agency generated and Private Data). This is ideal for special events, bike rallies, and officers on foot patrol. In addition, the LEARN-Mobile Companion application is available only from Vigilant Solutions. The Mobile Companion is now compatible with the Vigilant Solutions FaceSearch facial recognition program which is a standard feature in most of our offerings.

Please feel free to contact me direct to discuss any of the above qualifications. We look forward to serving you.

Best Regards,

Ryan Barnett

This is notification that Weir Minerals has named Mid State Machine and Fabrication as the sole source supplier of Warman, Galigher, and ASH pumps and spare parts for Florida. Mid State Machine and Fabrication is also the sole source for Weir Hazleton and Lewis pumps for the State of Florida.

Mid State Machine and Fabrication maintains an OEM certified repair facility, and can service all Weir Minerals pumps in their Bartow Florida facility located at 1400 Chamber Drive, Bartow, FL 33830

Please direct all inquiries and orders through Wanda Braund at Mid State's office (863) 665-4555 or via e-mail Wbraund@midstatefl.com.

Please note:

Floway vertical turbine pumps, a Weir Minerals Company, is handled exclusively in Florida by RC Beach and Associates in Dunedin, FL.

If you should have any questions, please feel free to call.

Yours truly,

Brian Sullivan

RE: WEMCO Pumps

WEMCO Part and Repairs

I am writing this letter to inform the necessary persons that TSC-Jacobs, Inc. of Tampa, FL is the exclusive representative in the state of Florida for WEMCO Pump. They are the sole source in the state of Florida for the following WEMCO pump products used in the municipal water and wastewater plant markets.

WEMCO Torque Flow
Hydrogritter Grit System
WEMCO-Hidrostal

WEMCO Muniflo
WEMCO Chop-Flow
WEMCO Self-priming Pumps

This exclusivity applies to all new equipment sales as well as start-up, testing, and maintenance services provided by Jacobs Air Water Systems (JAWS), a sister company to TSC-Jacobs. The companies can be reached at the following addresses:

Pump Systems
TSC-Jacobs, Inc.
11021 Countryway Blvd.
Tampa, FL 33626
813-888-5556

Parts and Service
Jacobs Air Water Systems
11023 Countryway Blvd.
Tampa, FL 33626
813-854-2354

We look forward to a continued relationship and service. Should you have questions or need additional information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink that reads "Dave Borrowman".

1.1.2018

Dear Valued Customer,

This letter confirms that Kaman Industrial Technologies is the sole and exclusive contracted sales representative for Wilo USA, LLC [previously known as EMU until purchased by Wilo AG in 2003] water & wastewater pump and mixer sales for your territory.

Wilo USA, LLC, a subsidiary of Wilo SE, is the sole provider in the United State of pump and mixers manufactured under the Wilo brand. Please note that all Wilo Warranties and Operations and Maintenance Manuals require the use of genuine Wilo components in order for the warranties to be valid and ensure proper operation.

Should you have any questions, please contact me via email Harold.Adams@wilo-usa.com or (229) 200-1145.

Regards,

Harold Adams

Margate Fire Rescue
Attn: Chief Luis Villar
1811 Banks Road
Margate, FL 33063

Dear Chief Luis Villar,

Thank you for your interest in the AutoPulse® Non-invasive Cardiac Support Pump, a revolutionary new resuscitation system that offers the promise of normal blood flow during sudden cardiac arrest.

Please be aware that ZOLL® Medical Corporation is the only company that manufactures and markets the AutoPulse. No other organization is authorized to sell the product in the United States. Further, there are no other devices on the market today that can mimic the AutoPulse's unique mechanism of action and achieve its unprecedented clinical results.

Lastly, there are multiple ancillary items that are unique to the AutoPulse and its functionality. Like the AutoPulse, no other organization is authorized to sell these products, which include but are not limited to the following:

- AutoPulse LifeBands # 8700-0706-01
- AutoPulse Lithium Ion Batteries # 8700-0752-01
- AutoPulse SurePower Charger # 8700-0753-01
- AutoPulse Soft Carry Case # 8700-000758-01
- AutoPulse Soft Stretcher # 8700-0712-01

Should you have any questions or require additional information please don't hesitate to contact me at (800) 348-9011 x 9674.

Sincerely,
