I have reviewed the bids. Advantage Networking is the lowest of \$123,220.80 and meets all equipment specifications. The balance on the Capital Project account 33465275136582 is \$118,879.40 which is \$4,341.40 short. The Finance Director stated to show this on the agenda item and a budget amendment will be done at year end to cover the shortage.

I would like to thank you and your team for assisting us on this.
