ELECTRONIC DISPENSER INTERFACE KIT AND OPTO ISOLATORS

Contact Syntech Systems (800-888-9136, ext 252) for dispenser verification.
Must know dispenser brand and model prior to contacting Syntech Systems.
(Interfaces with dispenser via serial communications. Controls up to 8 fueling points)

PLEASE NOTE: Fuel island installations that require the use of the **ELECTRONIC DISPENSER INTERFACE** equipment will warrant the need for a local fuel equipment representative familiar with your sites fuel dispensing hardware (your fuel pumps) to be onsite at the time of installation. The installation and start up will require a cooperative effort that exceeds the scope of this proposal. Fuel island hardware not provided by Syntech Systems Inc. should be configured or reconfigured by a factory trained **ASR (**Authorized Service Representative) to your specific brand of equipment. This effort will need to be scheduled prior to the start up date to insure the availability of all parties involved as to not delay your efficient transition to your new **FuelMaster Fuel Management System**. FuelMaster is not liable and can not be responsible for preexisting fuel island hardware issues, including dispensers, and recommends that you consult your ASR to evaluate the status of your fuel island hardware prior to the installation date. Only two FMU's may connected with each Electronic Dispenser Interface Kit.

PARTS RETURN / EXCHANGE POLICY

Return or exchange of FUELMASTER® parts must be approved in advance by Syntech Systems, Inc., in writing. There is a
standard **15% re-stocking charge** on all parts and equipment returned. For returnable credit, all parts **MUST** be shipped
back to Syntech Systems within 30 days of receipt of new parts.

Freight shall be prepaid to Syntech Systems, Inc., 100 Four Points Way, Tallahassee FL 32305. Returns that are not authorized
with a Syntech Systems, Inc RMA number (Return Material Authorization) will not be processed. Should the FUELMASTER®
parts be received in a blemished or damaged condition, the credit / payment shall be prorated on the basis of refurbishment cost.

Credit or payment by Syntech Systems, Inc. for returns shall be made after verification that the FUELMASTER® parts have
been received without any cosmetic blemishes and in good working order. Credits / payments will be made within (30) days
after receipt of the FUELMASTER® parts.

Syntech Systems has a minimum order quantity of $25.00. This pertains to orders for PROKEE®s, Smartcards and
Receipt paper primarily.

NOTE: Parts sent out for any repairs are warranted for a period of (90) days from the date of shipment.
Syntech Systems, Inc. parts return / exchange policy listed above.
