ABOUT THE FUNDING REQUEST

Funding Request: \$1,000	Total Budget/Cost for Special Event: \$3,000
% of funding request used to provide services:	% of funding request for administration:
Please describe the intended use of requested funds and indicate the time period you are requesting these funds for (please attach letters of community support if applicable): The funds provided by Margate will be used towards a ten week educational programs for 15 students at Margate Elementary School, during the academic school year 2018-2019, using the National recognized program developed by Dr. Morris Rosenberg, and Bi-Wi's ten week curriculum. These programs encompass the measurement of self esteem and the role it plays with personal growth. This program is a spring board in which we provide a holistic approach to participants that helps with the development of a positive sense of self worth, resulting in better lifestyle choices and diminished negative behavior.	

SPECIAL EVENTS FUNDING/DONATION REQUEST APPLICATION FOR ORGANIZATIONS

Please provide a needs statement (Why do you need the requested funds?):

Low self esteem is a thinking disorder in which an individual views themselves as inadequate, unlovable, and/or incompetent. Among high school students, 44 percent of girls attempt to lose weight, and 75 percent of girls with low self-esteem reported engaging in negative activities like cutting, bullying, smoking, drinking, or disordered eating. This comes to 25 percent of girls with healthy self-esteem. The requested funds are needed to assist Bi-Wi International, Inc. in accomplishing the goal of educating girls at the Margate Elementary School on how to build self-esteem. Bi-Wi has administered the 10 week self-esteem building program to fifteen (15) new Margate students struggling with this issue, each year, for the past 3 years. We require community assistance to help inform and educate these girls and assist them in building their self-esteem so that they will have an equal opportunity in achieving success in life, ultimately, being a positive impact in the Margate community. Your contributions will assist Bi-Wi with these efforts.

Explain the public benefit (educational, economic, health, etc.) to the City of Margate and its citizens from the City funds received:

The main benefit of Bi-Wi is an educational benefit. Bi-Wi assists in building the foundation for healthy self-esteem. Our curriculum educates participants on the root causes of negative self-image (poor thinking) and offer tools to help reverse negative thinking to positive thinking. This positively affects the child's self-image and associated negative behaviors. The benefits of a healthy self-esteem are an asset to the child and the public. Children with healthy self-esteem (1) value themselves and think of themselves as worthy partners and capable problem solvers, (2) develop a healthy balance of liking who they are, but also recognizing that there are ways they can continue to grow and to develop, (3) feel that they have positive characteristics and skills they can offer to the public, (4) they feel they are worthy of being loved and accepted by others including family and friends, (5) feel fundamentally deserving of their fair share of resources, (6) are more likely to be happy and persevere when working through difficult situations, a benefit for the child and the public.

Please provide an outcome statement (What will be accomplished with the money?) explaining the impact as a result of obtaining funding from the City:

The accomplished goal for these funds is to assist Bi-Wi with the teaching of the specialized curriculum to needy girls in the Margate Community, (via the Margate Elementary School), who demonstrate physical signs of low self-esteem/self-image. These funds will help us teach and improve the way girls view themselves, demonstrated by behavioral improvement in these girls, and their helping of others as they share with others their experience and knowledge gained through the Bi-Wi curriculum.

Demonstrate how you will evaluate your results. These measures need to be directly related to the need and expected outcome:

Bi-Wi performs a "Mirror Test" and implements the "Rosenberg Self-Esteem Scale", a 10-item scale that measures global self-worth by measuring both positive and negative feelings about the self, at inception and conclusion of the program. A comparison of both scores measure improvement. The Rosenberg Scale is a proven effective tool for assessing global self-esteem. Psychologists and sociologists and social science researchers commonly use this tool in children, adolescents, and adults to measure self-esteem. Both the Mirror test and the Rosenberg Self-Esteem Scale will be administered at the beginning and end of the ten weeks sessions. The beginning scores of each girl is compared to each ending score, and an assessment of the child's calculated score is the measured positive or negative improvement.
