

# VIRTUAL PROGRAM SUCCESS

- 121 students were served by ReadingPals virtually in 2020-2021
- We are still waiting on data for this year, but teachers and volunteers reported their students were engaged and they were able to build mentor relationships through the virtual platform
- 8,262 books were distributed to students this year

# Program Structure

We are currently waiting to hear if Broward County Public Schools will be allowing in-person volunteers for the upcoming school year.

We are hoping to have a HYBRID program where those volunteers who are comfortable can go into the schools and work with students in a socially distanced manner.

Those who would prefer can meet on the virtual platform.

# Thank You!
