Agenda

- Introduction and Project Overview
- Project Objectives
- The Benefits of Complete Streets
- Corridor Zones
 - ⑩ Roadway
 - ⑩ Streetscape
 - ⑩ Pedestrian Connectivity/A.D.A. Improvements
- Questions & Answers

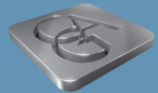

1. Introduction and Project Overview

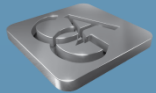

SW 6th Street Streetscape Improvements Project

- The project limits are from SR 7 (US 441) to SW 49th Terrace.
- Total project length is 0.73 miles.
- The existing road corridor consists of 3 zones serving residential neighborhood:
 1. 70' R/W, median, and 4' sidewalks.
 2. 70' R/W, no median, and 4' sidewalks.
 3. 60' R/W, no median, and no sidewalks.

2. Project Objectives

- Safe mobility for residents
- New aesthetically pleasing landscape
- Wide sidewalks
- New roadway pavement
- Traffic calming measures
- Environmentally friendly LED lighting
- Maintaining natural drainage runoff and existing discharges to canals
- Providing entryway monument sign for neighborhood from SR 7

3. The Benefits of Complete Streets

• **Economic**

• **Environmental**

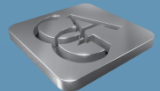

• **Health**

• **Accessibility and Equity**

• **Transportation**
