## 7) ORDINANCE(S) - FIRST READING

A. [ID 2022-353](#) CONSIDERATION OF AN ORDINANCE TO REGULATE DRIVEWAYS AND PARKING.

**A motion was made by Vice Mayor Caggiano, seconded by Mayor Arserio, that this Ordinance, First Reading, should be discussed.**

MAYOR ARSERIO spoke in favor of the driveway expansion and indicated that he would like to see some sort of restrictions for parking on grass. He did not believe it was appropriate to put parking and driveways into the same legislation or Ordinance. He preferred if the City Commission could speak exclusively about driveways and address parking at another time.

Discussion ensued on separating driveways and parking.

CITY MANAGER CURTIS stated that they would respect the wishes of the City Commission if they want to separate these two Items. He explained that they were addressed in the same Ordinance because it was to accomplish the issue of parking on the grass. He said that the staff had done an excellent job of putting together a presentation that would walk them through and show them some illustrations of cars parked all over the grass. He advised that they were looking at widening the Driveway Regulations and said that at the same time, the Code did not address vehicles parked on grass and advised that the Item that they put before them today, started that process. He recognized that there would be challenges in enforcing that Code and educating the community. He spoke of the importance of having these conversations and to receive feedback from the City Commission.

DEVELOPMENT SERVICES (DS) PLANNER, CHRIS GRATZ, introduced himself with a history of his previous employment experience. He provided a PowerPoint presentation on the existing proposed Regulations and entered into discussion and recommendations.

Discussion ensued.

MAYOR ARSERIO asked for CONSENSUS if they wanted to separate parking from driveways.

Discussion ensued.

INTERIM CITY ATTORNEY TOLCES suggested that they defer this Item if they wanted to separate parking and driveways and that they would bring back two separate Ordinances.

Discussion ensued on whether to table this Item, the legal definition for abutting and imposing parking restrictions.

**A motion to amend the original motion was made by Commissioner Schwartz, seconded by Commissioner Simone, to retain the regulations relating to driveway design standards and to remove provisions relating to parking in this Ordinance to be discussed at another time.**

Discussion ensued on the widths and the curb cuts of the driveway and parking.

INTERIM CITY ATTORNEY TOLCES said that he had conversed with City Clerk Johnson and the title for this Ordinance as drafted and that it was advertised for Second Reading in respect of the meeting scheduled for the City Commission. He advised that if the City Commission wanted to separate the driveway design standards from the parking issue, his recommendation would be to allow them to bring back separate Ordinances potentially for their next meeting or at least, just the driveway design and then they could work on the parking. He said that if they were going to pull it out, they could not move forward with the Second Reading in time for their next City Commission meeting as they have to place new advertising and reconstruct the whole title.

**A motion was made by Vice Mayor Caggiano, seconded by Commissioner Simone, to table this Item.**

CITY MANAGER CALE CURTIS sought clarification that when they looked at the future parking Ordinance change, there was the concern of the prohibition of parking on the grass or the enforcement of it or what it was going to mean to residents. He indicated that they intended to enforce a Code similar to this at some point in the future and said that a similar change would take a tremendous amount of time to really see an impact. He believed that they should get the Code passed and start to educate the public on the prohibition of it. He also believed that they should start working with the residents and educating them on the options they have to widen their driveway and also the possibility of producing property improvement grants.

Discussion ensued including conducting a future Workshop on parking regulations.

**Vice Mayor Caggiano removed his motion for a table.**

DS PLANNER GRATZ advised that there was only one part of the Ordinance that addressed the grass parking on Page 15, Section 40.8.

Discussion ensued on parking, splitting the Ordinance and the percentage of opening.

MR. ZUCCHINI thanked Development Services for making the adjustment to include duplex and villas in Single Family Homes. He agreed with Commissioner Ruzzano and explained that he had a problem with the limitation of the width and the driveways.

COMMISSIONER SCHWARTZ responded to Mr. Zucchini.

MR. ALIANIELLO provided his suggestions on how to deal with this Item.

MAYOR ARSERIO responded to Mr. Alianiello.

COMMISSIONER SCHWARTZ responded to Mr. Alianiello's comments on parking.

Discussion ensued.

JONATHAN, MARGATE RESIDENT, commented on Margate's parking problem and provided suggestions on the Ordinance.

COMMISSIONER SCHWARTZ suggested that Director of Building Nixon should be present when this Item was discussed again.

COMMISSIONER SIMONE indicated that this Item needed a lot more thought process than what they had initially anticipated. She also commented on double yellow lines and the installation of mailboxes.

Discussion ensued including organizing a Workshop on parking, the language of the Ordinance, First Reading and how to vote on the same and also the language contained in the Ordinance, Second Reading.
